

**These are the ramblings  
of an old man  
on his walk of a  
1000 Prayer Miles  
with God.**

**By Clive Latimer.**

Dedicated to

All the many thousands of people that have lost their lives to the virus, to their friends and relatives left behind.

To all the people in the NHS and carers.

Everyone that has played their part to help others in need.

All the people who are in need.

It all started Christmas 2019, my daughter Harriet gave me a subscription for the Country Walking magazine. Inside was a challenge to walk 1000 miles in a year. I thought about doing it but it didn't feel quite right, but after praying about it that evening, the next day God gave me an answer: - Yes Clive you can do it, but I would like you to do something for Me, I want you to pray for 1000 people, one for every mile you walk with Me. That felt right, so started the challenge on 1<sup>st</sup> January 2020 and finished on 16th November 2020.

These following pages are the 1000 prayer miles I walked, one for each person. I have met or made contact with so many wonderful people along the way, on Facebook (#walk1000miles) and others.

This is the way I set out: - When I meet someone and start a conversation, I mention that I am on this challenge and would they like to be on my list, nearly every time it is a yes. I enter their contact details on my phone list and what they would like me to pray for.

When I go out prayer walking, I open the list and either write on a notepad or use Keep Notes on my phone. I start my watch to log the distance in miles, then start praying and walking. When the Lord prompts me, I dictate into the phone the words I have been given. When the mile is up, I stop and look around and photograph whatever catches my attention. Then onto the next person on the list. When the walk is finished, I stop the watch. When I get home, I transfer it to my laptop and make some sense out of the speech to text. The prayer mile is then sent on to the person who requested it.

I found it all very exciting, a big adventure, not knowing what is going to happen every mile, where will I go, who will I meet, what God will prompt me to write and what will I photograph.

When you read through the prayer miles, I do hope and pray that you find some meaning in them for yourself.

God bless you.

Clive Latimer.

If you find it helpful, go on, have a go. **I challenge you.**

**The greatest step is the first step on a 1000 miles.**

1

Be led by the spirit. Follow the paths of righteousness but don't get stuck in a rut or bogged down in the mire.

Read Psalm 1

2

Smile always, whoever you are. There is a 15min grace period to pick up someone on the way though Wendover Woods without having to pay for the parking. God has given us His grace, through Jesus Christ, to bring people into His kingdom, because the price has already been paid.

**3**

The path is long and winding so take a rest when it is provided. Sit and spend time in the presence of the Lord and be refreshed. Seek His love and find it in the people you meet also share his love

4

You are 1 in a million. Your place is in directing many people in their journey. Use the power of the Holy spirit to guide you to run His race.

**5**

Push yourself and find the path through the woods. Try and see the wood for the trees. Talk to people.

**6**

Go on up to the top of the hill and look out over the vale view. Look for the new trees in the old woods. Life has its ups and downs but keep looking up to the Lord.

7

Elevate yourself. Take guidance along the way. Pray for wisdom and discernment. Run the race truthfully. If you run out of power find out what is draining you and try to do without it. Like the GPS on your phone.

**8**

Retrace your steps. Go on another journey. Don't worry if you have to visit a hospital.

9

When you come to a roundabout in your life there's many decisions to make. Are the directions truthful, do you know where you really want to go, who is in the driving seat. When we get it wrong, we can repent and ask for forgiveness, accept it, then move on trusting the Lord.

10

Only the hands on this clock are seen to move. We don't know what is going on inside. It only shows the changing times on its face and the passing hours with the striking bell. If only it would open up we could see what makes it tick.

11

Walk in the Lord's way. Meet up and join in

**12**

The path may be dull and uninteresting. Watch. Be alert and see God's creation and love. It can be like the blue flash of a kingfisher in flight.

**13**

The walk may be uphill with unsure footing but keep going through the seasons. Increase your horizons. Always remember that it is the Lord that is providing.

**14**

Your path is set out before you. It may be a steady uphill struggle. The meadows are resting, awaiting a new spring. Look onwards and upwards to the Lord.

**15**

See Jesus is the Light of the world and a path of safety, even though you travel with a heavy load, even the moon will light your way at night. Put your trust in him.  
Read Psalm 121

16

On your journey Keep within the laws. God is watching over you. Love is like two way traffic, give and receive it.

Read 1 Corinthians 13:4–8

17

Go to the highest point and praise the Lord. Be a watchman and alert the people of the coming danger or Joy on the horizon. Find a safe place. Be still for a while and find relief and peace.

18

Rest on the Sabbath like the postman. Sing letters of love and adoration to the Lord our God. Give and receive encouraging words.

**19**

All that glitters is not gold. Don't strive for the bright lights in haste. Check out what lies behind them in the light of the Lord.

**20**

To be outstanding in your own field you need to be able to withstand the strong winds that make you stronger. Put down firm, deep roots into the word of God.

**21**

Your future is built upon the past generations. Like the tree. Learn from others. Follow the path that the Lord shows you and take his safe directions.

**22**

Your path is wide and full of opportunities. Enjoy the view and thank God for his wonderful creation. Be aware that some old well established companies crash along the way. Find fellowship along the way as you walk. Don't be alone.

23

Choose your route wisely, how, where, when and with whom. Decisions come with responsibilities. Cherish every moment however big or small. When it comes to parting, say thank you for being part of my journey. Goodbye and God bless you, until we meet again.

**24**

Life, it may feel like an uphill struggle. Look at the young saplings that are being protected along the path. Sheltered by the older trees. Someone planted them there with love and care in mind. Just like God has placed you where you are, with His Love, care and protection. Trust him and keep going.

**25**

Life is fun. Try and find something you are good at and enjoy. Excel. Seek and find the hidden treasures in your heart and share them with the Lord.

**26**

Sit and ponder for a while. The whole world is set out before you. Choose who you follow carefully. If you choose Jesus, he will take you to the better places filled with His light.

27

"If you go down in the woods today you're Sure of a big surprise..... Join in the big party, walk with God all your life. Be filled with joy. Take good advice, seek wisdom and truth.

**28**

Fear not for the Lord you God is with you. When we let go, don't just walk toward Jesus. Run like a child into His arms, be lifted up, hugged and swung round and round. Shout and squeal with joy.

**29**

When times are dark, keep to the correct side, heed the signs and warnings, they are there for the safety of all. Let the Lord light your way. If you feel lost and burdened, ask for help and assistance and accept it when offered.

**30**

Learn to laugh and be joyful. Look to your family tree for that is where you came from. "All the world's a stage" Set your life in Christ and act it out in truth and love.

31

Behold the gates of knowledge. Learn to be discerning, seek the truth and choose your friends carefully. John 14:6 - Jesus answered, "I am the way and the truth and the life. No one comes to the Father except through me.

32

It's no good sitting on the fence with your heavy load of worries or trying to bury it in the sand.  
Try praying. What a friend we have in Jesus All our sins and griefs to bear  
And what a privilege to carry Everything to God in prayer...

**33**

There is plenty of space in the kingdom so enlarge your tent and welcome people in.

**34**

Prepare ye the way to the Lord. Clean up the mess built up over the years to make a clear, deep channel for God's love to flow.

**35**

When you are confronted with the mud in your life. It may seem to be impassable, with danger on either side. Find and follow the clear footprints and step in them. Look to the path beyond, you will see that many others have been along the same path and made it through. But what is the best way? Jesus answered, "I am the way and the truth and the life. No one comes to the Father except through me.

**36.**

After the winter comes the spring, full of hope, renewed life and warmer days. The dark days of winter are gradually filled with light and bird song. John 8:12 Jesus spoke to the people once more and said, "I am the light of the world. If you follow me, you won't have to walk in darkness, because you will have the light that leads to life."

**37**

The Lord is my shepherd, I lack nothing. He makes me lie down in green pastures, he leads me beside quiet waters, he refreshes my soul. He guides me along the right paths for his name's sake. May the living waters flow and quench the dry land, like the healing of the Holy Spirit flowing through our veins.

**38**

Dig deep and lay sound foundations. Prepare for many changes, for God has great plans for you to build his kingdom. Where a hard Hat. Build with love and understanding. Pray for wisdom and the power of the Holy Spirit to keep you safe.

**39**

Channel God's living water in music and song. Like the sound of the babbling brook from the spring head.

**40**

Open wide your mouth. Sing praises to the King. Clear out the clutter, do not mutter. Let the spring waters bring healing, peace and joy.

41

Leave your troubles behind you and wait a while. Decide whether to take the opportunities as they come or wait for the next one. The Lord has paid the price for our journey to the father.

**42**

When we pray for something. The answer may be no or not yet. So wait. But keep on praying and in God's good time, when it is safe and you are ready, the answer may change to yes. Be patient.

**43**

See the seeds are sprouting, the sun is setting low. The hope of new beginnings and harvest time to mow. Life is full of blessings, thank God for them all. Spend time with your family. Enjoy and watch them grow.

**44.**

The fence is broken down, hay not gathered in. What is happening? Don't put off the jobs that need attending to before it is too late. Get someone to help. Repair and restore your boundaries. Take good care of yourself because you are precious loved by God and many others.

**45.**

Be Prepared to change location. The Lord is preparing the way. Don't give up. Be the one that encourages. Use your energy wisely. Run the race in truth and love. Praise the Lord at all times and in all situations.

**46.**

Stride out with your head held high. Be confident, for God knows what is best for you. Ask him for peace. He is preparing a place for you where He can use you.

**47.**

Be a pillar of strength not just a brick in the wall. Take responsibility to support others. Remove the weeds from your life that are undermining your foundations. Look to your fellow soldiers that are manning the ramparts.

**48.**

The road may seem long, the wind blowing and the rain falling down. No where to stop and rest. When the dark times come, there are people to give you light along the way. This is a good path to follow. Jesus is the light, follow him.

49.

God has given us so many gifts it's fun to find out which we will be best at. Be adventurous in art and paint the world in bright happy colours. Find freedom, inspiration and expression. Talk to God about it and do it for Him.

**50.**

Spend your time wisely. Don't be too hasty, look and learn from others. Find the love in the person in front of you because God loves us all.

**51.**

When you are walking on a journey, with a heavy load. With a lot of things to think about and everybody's woes. If you miss the bus or it has been cancelled. Don't sit and moan out loud. Get up, get out and walk it, as far as you can go. Stop and look behind you. I'm sure you'll be surprised, the bus will catch you up. Get on and homeward ride.

**52.**

Be bold, be strong for the Lord our God is with you. Battle through your storms, make head way in the lulls. Keep God's protection around you. Don't stop. Keep going on praying. The kites can ride the winds, to him it's just play. Sometimes let Jesus carry you, His Love, it never ends.

**53.**

God knows you're Compassionate with his people, helping them along the way. He loves the way you do it. He just wants to hug you each and every day. He has always loved you. When you say sorry God, hello Jesus the Holy Spirit stands beside you. Open your heart and let him in.

**54.**

The time has come for dancing, jumping up and running around. Listen to the trumpets sounding, the drummers drumming sound. Announcing Your a winner. It's your turn to be crowned.

**55.**

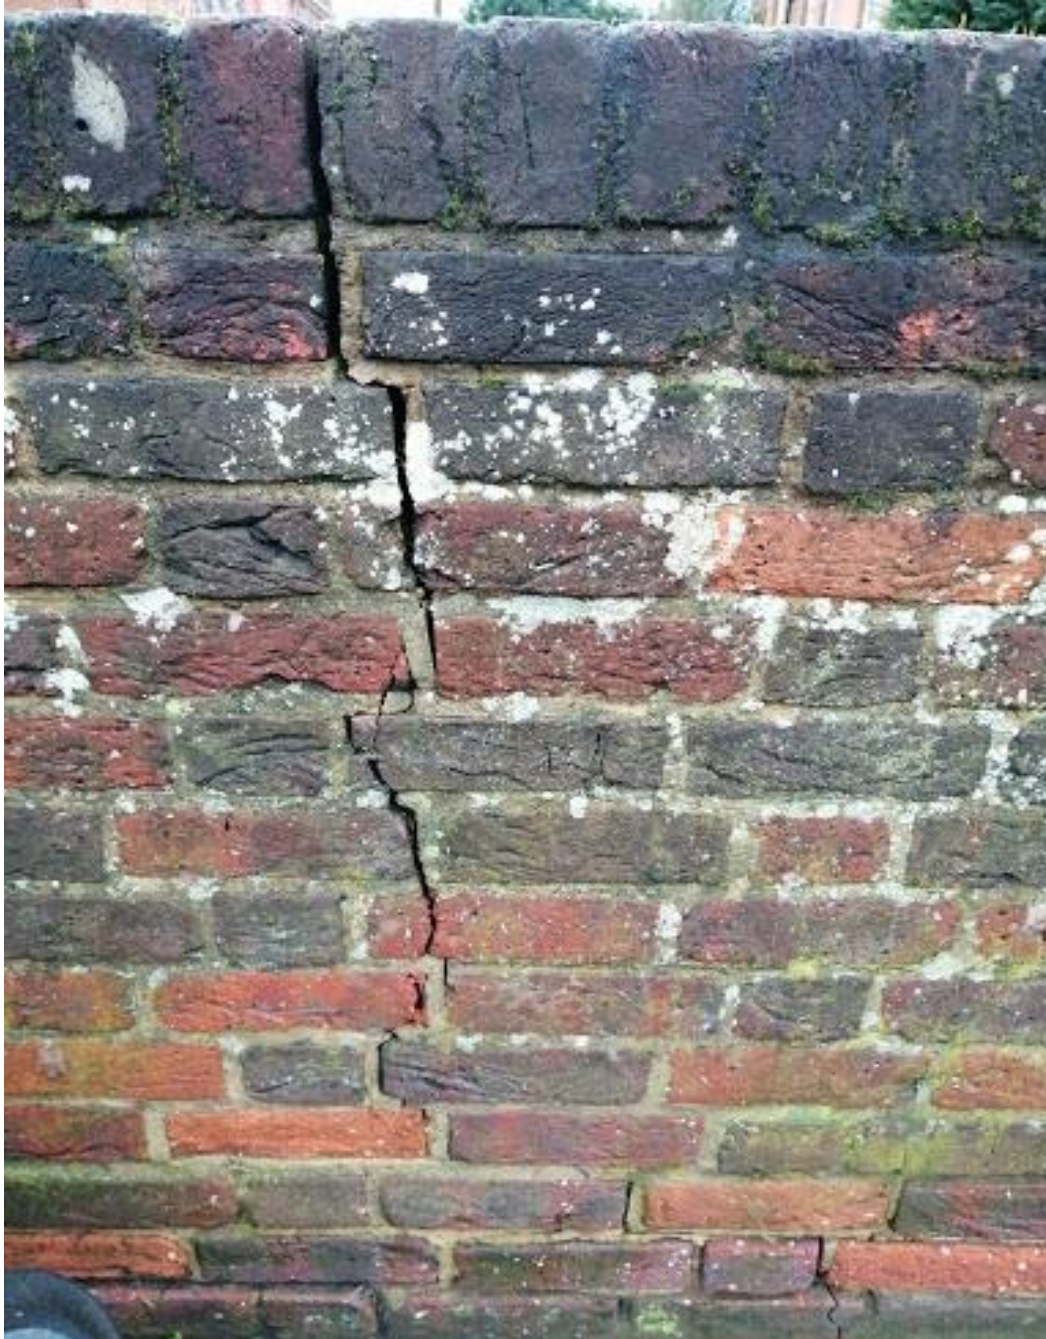

When you are out walking, talking, listen to the sounds. It might be God that is speaking, something quite profound. Take heed my son, take his good advice. A new road lies in front of you, it's newly laid and sound. Look after His Family, proceed on, for this is holy ground

56.

Remember that Children learning to walk need a gentle guiding hand. They play in their parents' home. They start with basic wording and move onto greater things. When they move onto working, uni. and leaving home. Sometimes they start hurting, unable to hold their ground. It's good to know that there's God's people helping, reviving, housing. Let the river flow.

57.

Open your eyes, what do you see? What is the 20/20 vision? Are you seeking the truth? Why is it leaking, is it the roof. Channel the living water, but where does it go. What are you seeking, what do you see. Who had the vision, have you let go. What is your mission? Jesus said "GO"  
Read Matthew 28: 18-20

**58.**

What are you searching for? What can you not find? Don't just go wandering, even though you're kind. Set yourself a mission, pursue it to its end. Then start another. This is from a friend.

**59.**

Is the way blocked for you by other people's rubbish. How do we remove the lies in our lives that we believe are true. Find someone with compassion, they will help you through. Forgive the person who dumped it. Get it cleared away. That will help the next one. Now it's time to pray. Father, forgive them for they know what they do. We are all forgiven through Jesus, yes, me and you.

**60.**

When you sow a seed, do you watch it grow? Do you carefully tend it, or do you come and go? Watch out for the weeds my friend, don't let them get a hold. If you don't tend them and forget them, they may get eaten by a crow. Keep your house in order, don't let it get this way. Look to the bible you'll find wisdom and every day do pray.

**61.**

When you have weathered the storms in your life and the ground is safer to walk on. Take time to appreciate God's creation around you. Watch as the signs of spring arrive. We all have seasons in our lives, some are short, some are long but they do change. See the sun is shining to lighten your way. Let God's light shine through you.

**62.**

Don't let people block you out or try to stop your access. Check your accesses and remove the lies, let the truth shine through. The truth will win and the lies will be seen for what they are. Ask the Lord to be your advocate. Clear the channels of communication. Find help in union. Read Lamentations 3:58 - 66

**63.**

Be high and lifted up. I say again be high and lifted up. The place for you is under construction and making shape. God is putting things in place for your calling. He will build you up and make you strong. God has great plans for you, greater than you think. Be a man under construction with good deep foundations in the Word of God. Be high and lifted up.

**64.**

Work together to build the kingdom. We all have a part to play. Support and encourage each other. Communicate precisely and don't assume. 2 working together is better than 3 apart. This just looks like mud and metal, do we have a vision of what it will look like in a few years? God the builder. Hebrews 3:4

**65.**

The grass will be greener on your side as long as you tend it all year round. This looks ok until you inspect it closely. There are worm casts and leaves that need to be swished away. There are many things in our lives that need a closer look at but we need clearer sight to see them. So make sure you have removed the speck in your eye first. With clear vision you will see what God has for you to do.

**66.**

Spring is coming, a new beginning for this year. It continues on from last year. The snowdrops are a sign, but the bulbs were planted many years before. The dew is like a precious diamond necklace. We are all so precious to God. He has showered us with his gifts and blessings to use for His glory. Everything we have, and done is for a purpose. Seek and you will find it

**67.**

Find your faith and share it, walk along the trail. See the brambles growing, don't get snagged along the way. Though the way is muddy, don't get left behind. Keep up with the others and help them, God knows that your kind. Life can be an uphill struggle but God will give you strength. God is watching over you, he will go to any length. So don't just stand there moping, stand up and take another stride.

**68.**

When we walk or run, do we know what is below our feet, or have we never thought about it.

The chalk, flints and clay make up the Chilterns. What supports us as we walk through our lives? Trees grow and put down roots which have to be able to withstand the storms that beat them. Do we have a faith that is deep rooted or shallow? On our own, can we stand?

**69.**

Share the things that you have learnt over time with others. Ask for directions if you are at all unsure of the way. Don't get lost in the woods or go round in circles. Jesus is the way. Be led to green pastures where you can thrive. Seek out good boundaries' where you can survive.

70.

Always expect to be surprised and amazed when you go down to the woods. Fairies, dinosaurs and pixies are some things I have spied. None of them are real; they are only models in the woods to hide. Do we take everything for granted. It is because it is! Do we earnestly search for the truth and test what we find. Some things are done to get your attention. It is always best to read the small print. Is it a Bear faced lie? Seek the truth and it will set you free. read John 8:31-32

**71.**

When we have to shout to be heard and have to guide someone with a helping hand. Is it because of deafness and fading sight or is it the road noise and fading sun. Are we burdened by ours or others problems or are we choosing to ignore them? There are many people trained to help us and others, to overcome and share the load. Choose to do something. Read Matthew 11:28-29

**72.**

People, places and reputations are forever changing. What was almost impassable has now been transformed on this path. Sometimes we strive for what was best, is failing, it can break your heart. When we return somewhere, we enjoyed in the past. Have you been disappointed when everything you liked has changed. Some things never last. God's love is all embracing, never changing from the start. Try letting Him into your heart.

**73.**

Follow the golden road into the sunset for a brighter future. Look on the bright side of life not the darkness. See what is to come. Life is full of new beginnings, not of what has been and gone. It's all about the past and present, tomorrow is to come. We are all waiting for Jesus, then His Kingdom come.

**74.**

Go to different places, you have never been before. Take risks, broaden your horizons'. Look for things that are hidden, see from different sides. Keep on pushing, seek and win the prize. Be the one that encourages, be the one that helps. God knows who you are, just be yourself. Can you see the water deer?

**75.**

The yews are grazing in the setting sun. Shadow's getting longer, now the day is done. Looking forward to spring lams a frolicking and the leaves upon the trees. Please shower me with many blessings, when I bless others too. As I praise and worship you God, today, I thank you.

**76.**

When the clouds are in the sky, you cannot see the stars. When the cloud goes away you can even see that they are there, that is Mars. Blue lights flashing people dashing, to help someone in need. When there seems little hope and things are getting darker, let the light of Jesus, light your path and fill you mind of His Love and life and laughter. Be filled with joy and life from now and ever after.

77.

Sing a song of happiness, sing a song of Joy. If you can't stop singing, just sing all day long. Sing, sing, sing, about other things, that seem to go on and on to Jesus. Sing through the spirit. Sing along to music, sing along to sound, sing along when you're walking, feet upon the ground, sing along with your running, everywhere you go. Be the song that God made, the day that you were born.

**78.**

You are joy to the world, be happy all the time. Continue to bring light to all you meet, bringing love and kindness too. Life is like a game of tennis. Being ready to serve, until a game is won. The footprints show where you have trod and many more have gone. God has shone his light through you, to help the game go on. Lots of going back and forth. When a healing touch is needed, to get you through the day, you have been there to pray. Not just for yourself but many others too. Game set and match may be the best result. God prefers you to LOVE ALL.

**79.**

Silence from God is quite often what we hear. Are you sorry only sometimes. We just worry, cry out and wait for you. When we work do we thank God for what we have. When we pray to do the same, do we listen too. We pray thank you God for this day and what is to come. It is God that made us, he made us from the start. Now keep on going and stop sinning. Find yourself a paddle and get out in a canoe, get out into the wide world and see the wonderful view. Wonder at God's creation, for you He has made it and He made you. Let God know that he has made a good job of everything.

**80.**

Sometimes we don't see the fog in front of those we think we know. Do we know where and when we are going to have a clear view? What is on the horizon? Have we sorted out a plan of what we want to do or are we just wandering blindly in the Fog. Try saying something to God and asking him his point of view and see what he wants for you. Is this a case of self destruction or clutching at some straws? Is this what we really want or do we want some more. The time will come for clear decisions', make them before they make you. Don't get hurt and broken as many have before.

**81.**

toucantgether better than just one. Go to God and listen and listen to His Son. He knows all about it. Remove nails from the road so you don't get a puncture, that will deflate you. Talk about the things that hurt you, they may not be true. But please don't stop talking together, me and you. Stress and strains of working is like climbing on a very high mountain top too long. You can only spend a few hours in Everest's death zone. Find beautiful places that please you both and spend some time with God.

82.

Ask God what to pray for, asking what He wants, ask Him, please God help me. Ask Him what He wants you to do, when He wants you to ask Him. Please, I need everyday with you. Find out how to serve Him. Keep on looking and try and open the doors. Look for work with Him and take Him there all day. Sometimes the answers yes but sometimes the answers no, but pray for patience and keep on going through, asking for one another that love is more than 2. Solomon asked for wisdom, so how about you.

**83.**

Hello there my son, are you looking for me. You have searched the star and beyond and you still haven't found me there, as you looked around. If you can't hear me take your hands away from your ears. Silent, still. Please sit and listen, wipe away your tears. I take away your worries, I take away your fears because I am here beside you. I always hear your prayers. No need to turn up the volume, no need to walk away. I hear you loud and clearly, now, what is it today? Read Winnie the Pooh's "Halfway down the stairs"

84.

I want to dance before you Lord, pirouette and psalter. I want to walk on water. I want to hear your voice and do what I ought. Please help me God take away this pain, take away my worries. Help me to find my purpose in this world. I want to give to you. You lead me beside still waters even when the weather's grey. I thank you Lord God for Jesus I hear The Spirit say. I need directions, is it this way?

**85.**

When you are searching for a key for a lock to undo, have you found the right door for you to go through? Ask God what He has for you, ask Him where it is. Ask Him what I should pray for because I am his. God is getting sorted, the right place where to work. Rearranging people getting rid of the clerk. There is a special place for you with such potential, that He is getting you ready with the fundamentals. Where or what or when that's not up to you. Just be ready because God knows it's new. Yes a new beginning, something you've not done before. Just keep on waiting, I know it's a bore.

**86.**

The type of glue you use depends upon the job. The strength of the glue holds things together and how long it will last. The glue of compassion, the glue of love and care, the glue that holds us together, is God and His good care. Taking care of everyone. Make sure that you do not doubt that the love you have for everyone is here. So just shout, hallelujah God is with us, God is here to stay, God is here from yesterday and going on today, tomorrow we know not what, there is a lot to do. Therefore just keep on praying as you did before. Don't worry or be anxious, because God will stick with you, with the Holy Spirit, He is here now, with you.

**87.**

Life can feel like rubbish when we're suffering and in pain, life can go on hurting and ever things in vain. It just goes on and on people dumping stuff all around, why do they do it I'm just confounded. People just complain about it and never do a thing, just leave it there, let it rest and go on making a mess. Call the cleaners round and fast. Get them out and get it cleared up, but will it make it last. Don't forget that Jesus died to save us from our sins and He can get things sorted out and take away the mess in our lives, He can have his hands on you and heal you through and through, take away that pain you've grown used to and give you a new life everlasting. All you have to do is ask.

**88.**

It's time to sit and stare at the clouds a rushing by. Look at the birds that are a singing round you. I think you need someone to be with you, to love you and to share. They need to be someone special to give you freedom to be who God made you. To look into the mirror and say that God loves me and not look back in fear. Don't let the fearful spirit grip you by the throat. Give a cough and shake him off, do it without a tear. Walk away forgiving them for they no not what they do. For God so loves us, he is forgiving you.

89.

Reset your heart my friend, set it good and true. Set it to Jesus so he can beat through you. Don't let the one that holds you, haul you down below. Don't let him stop you growing, where you're going, you may know. Let your heart beat love, true and slow. Let it beat for Jesus, he is the one you should know. Don't let the past history, make you what you do. Start a new beginning that is God's love for you. May it be everlasting, may it be forever ever true.

**90.**

Life is full of ups and downs and with its highs and lows. We have some happy times, then we have some woes. One thing is for certain, our strength soon starts waning and our hope, it seems to go. Where can we place the rubbish of the past that holds us back. If only we could neatly fold it and put it in a sack. Forgiveness is a powerful thing. Say sorry God then thank you Jesus and let the Holy Spirit in. Enjoy the ice cream before you, don't let it melt away. Find love and joy with Jesus, don't just walk on by.

**91.**

Don't make a mountain out of a molehill so don't cause problems about something that is not your concern. Don't put the blame others and try to take revenge. The spirit of unforgiveness can rip you apart and harden your heart. This mole has just been digging to find a meal of worms. Who put the path above his natural home. If it spent time complaining, it would do no good. Try and ask nicely, if you feel upset by someone's action. They may not realise they are doing it. Don't get frustrated, communicate.

92.

Hanging on to what you love can in the long run cause problems. Separation is painful. Only one will be left to grow to its full potential and the other sacrificed. A good manager would have sorted this out a long time ago. Both have very little chance together. But who are we to decide on the outcome. Is it possible to stay or move. The decision is yours. If you are unsure, seek help, expert advice and wisdom. You could always pray about it and listen for an answer.

**93.**

When you come to a junction do you wait for other people to decide which way to go or are you going to go ahead on your own? Are you sure of the destination? Are you taking people with you? Are you going away? Are you going to listen to God? Are you going to be with Him or is He going to be with you? Is it going to take people to heaven or to Hell? Which way to turn, we do not know unless we go to Jesus for His directions. See the bridge in front of you. Will it take your weight, will you be able to carry people to the heavenly feet.

**94.**

Look for the bridge across the stream, for the people that will help your dream, look for the people all around. Put your point and stand on firm ground. Look for the people who run and people that can shout out your message. Look for the people that can supply. Not people who just buy. Cast your net on all sides and don't think small. Think of thousands not just tens. For the garden city will have many young plants to tend.

**95.**

When you go out walking, do you want to be alone? When you walk, do you talk to people along the way or always on the phone. Do you offer to help plan a way together or do you walk away. When people moan on and on about the usual things, ask them what they are going to do about it, as it is their passion. Talk about it together, as if they really care. See if you can help to carry the heavy load they bear. Together we are stronger and louder in our song. Working together, we can get along. This is the way God made us, right from the start, living together, not moving apart.

**96.**

Don't spend time picking up the small crumbs from beneath the feast table. You are invited to the Heavenly feast to sit at the table and be part of the big picture. Think of all the people you need, don't be a party of one person you are already in the party. Go, hand out invitations. A drop of rain in the desert will make very little difference. Even a small shower, the same, but when they are all stored up together and properly channelled, the desert can be irrigated. Be part of the river of life and flow together.

**97.**

I hope this style will hold me as I climb over it. Hope without a vision has no hope at all. Hope is a desire of something that might come. Check out what your hope is, it might be a hopeless case. What do you base your hope on, is it truth or lie. Be careful what you hope for because it might come true. Hope for life eternal. Hope to be with God. Hope is found in Jesus and his kingdom come. Hope for the Holy Spirit to guide you on the way. Hope is where your heart is so there is hope for you.

**98.**

This has been under reconstruction and making it different dwellings, the scaffolding is ready to be taken down. We hear of lots of problems happening on the streets. Postcode gangs with knives. Drugs and all sorts of vice. Violence in relationships, the list goes on and on. We hear this from the media. They just love bad news. The devil uses all these tools to destroy the peace. Putting fear into people's lives. Now how to put a stop to this, bring about some peace. To bring love back and a smile upon the face. How can changing people's attitudes reconstruct their lives? Take away the devil's grip, make his fingers slip. Pray and pray and never stop, ask God what to do. That means me and you.

**99.**

Be the one who encourages. Help the young people along the way. Pass on the wisdom you have gained on your path with Jesus. Help them know that Jesus loves them and that you do too. Show that God's love is eternal through the Holy Spirit, ever since time began. Their hopeful future can be built upon your past. Be a good example, be ready to help and fast.

**100.**

Reflections on the water trap the things that are above. People are in prison due to a lack of love. The love of God is all around but sometimes it can't be found. How can people stuck in the mud of crime and drugs, drink full of compassion from the prison cups and mugs. Only when people are called and answer to go to help them out. With a life belt and rope, that's the only hope. Jesus came to save us, so get the Word inside the prison and set the people free.

## 101.

If only we could put all the rubbish we feel in our lives in a skip and have it taken away. Take a closer look at what's around inside. A lot of this is usable and it can be put right. Someone would be happy to have this, as they have none. Not all the things in life are bad, they make us who we are. It is the way we deal with it and repair the broken parts. Don't think you're on the scrap heap, destined for the tip. Ask God to help you. He's good at fixing it. Let him hold you with a loving heart. Choose to hug him back. Say sorry for forgetting him, get back that relationship with Him. Ask him for forgiveness for our many sins. Say to Jesus, here's my heart, come on, enter in.

**102.**

Look further than your doorstep, not just inside. Look out and take a wider stride, many footsteps before you. Take care training somebody beside you and they will be there working around the clock. Helping many men and women to find confidence and listening to the word. The Word of God, Holy Spirit is with you now, come on and get out, find some men and women to bring in the harvest of love. The experiences we have in the past will help someone in the future.

**103.**

Is the hope flat lining, not beating up and down. Can you see the support that keeps these lines above the ground? The lines are reflecting the light that is about. But there is so much darkness hiding all around. The stress and strains of living and trying to make ends meet. The almost impossible task of people, that you need to treat. This sign shows that, if all things were equal, then all things would be right. But I'm not sure. But what I do know and I'm sure it is true. That God loves us all the same, yes, me and you. Let your heart beat with Jesus, let his Spirit come. Warm up and don't be numb.

**104.**

Put on the full armour of God and be a strong warrior. Find the sin around you and don't let it get in through your armour, make it good and strong. Receive the blessings asked for, from our God above. Except the outstretched hand of Jesus that is handing out His love. Be filled by The Spirit and let Him reside within. Stand firm and protect your family and the generations to come. And don't forget to have some fun.

105.

If you count your blessings you may think you have none, but if you just think about it, there's millions that have been done. You have been blessing others, your children are your blessings and your husband too. All the blessings down the centuries and the past and present. All come from heaven from the one who sent His Son. Others obviously love you, pass this on right now, every day I thank our Lord God for the Spirit, to be with you now I pray.

**106.**

All the things we have don't come cheap. The car, the house, the bed, the food that we eat. The things we take for granted that we keep in store. Our physical health is so important that we spend a lot of time in thought. Sometimes we ignore it and eat that cake we bought. How do we know we're winning when time, it takes its toll. When we contemplate our sinning and what about the sole. How can we save our spirit for eternity and beyond? The price has been prepaid for that. If you want to see the proof, just look at Jesus, just look at his hands and feet, He died for us upon the cross. May you feel the blessings from heaven in your body and your sole.

**107.**

Look, the seasons are a changin, the birds begin to sing. They sing of new beginnings, building on the past. If only things would last and have a happy ever after ending, that would be something to strive for. Sit and have a look around you, wonder, where did they come from, as well things to go. Look at the clouds, look out and watch the kite a soaring on the wind, as it holds itself up there looking down below and seeing what it brings. Take time to listen to the wind a whispering through swaying trees and branches. Can you hear the stream a babbling along its bank so long? Come sit beside me and tell me all your stories that you've had along the way, I will sit still and listen and then it's time to pray. Let your mind be peaceful. You may ask where is God in all of this? He is here in every way.

**108.**

Are we sitting in the car park ready for to go? Have we set the sat nav for where we want, we know. Do we have a full tank enough to get us there? Have we stashed the luggage or are we going without a care. Are we all excited or are we full of dread? Is this the journey we anticipated when all is done and said. All we need to do now is to choose to turn that little key, to say farewell and move on gently.

**109.**

We all have a family tree. It may not be at the bottom of the garden. If we trace it back or do a DNA test we may see where we came from. Sometimes our problems are our relatives that's why they call it a relative problem. When we add in our friends and neighbours, there are so many we can't count them. We wish them all well, good health and lots of lovely laughter. The roots of love come from above, from our God in heaven. We thank Him then for everything and a happy ever after.

**110.**

If we stand alone without a phone and we don't know where to wander. Pray. Make some friends that Jesus sends, on them you can rely on. Look to the high points and raise yourself up on them. Take the moral high ground. Don't hide your inner beauty or the one upon your face. The bigger your true smile the greater your true face value. Let Jesus into your life and let his love shine through you.

**111.**

Do you throw a dice, cast a lot or check your star sign to decide where to go and touch wood just in case. When on the mountainside do you use a map and compass and trust in that. Check the solid things around you against the map for reassurance of your position. When emergencies arise do you call for the mountain rescue? Try Looking to the Bible for help, it really is something to trust in. Check this out. Psalm 121 - NIV: I lift up my eyes to the mountains where does my help come from? My help comes from the LORD, the Maker of heaven and earth....

**112.**

Life is a gift that is very precious don't hide it in a box. Take a walk in the woods or a day at the beach. Have a sing of a song and let life go on, perhaps make a new start. There is more than money in life, a family or wife and all of your old good friends. Let Jesus be your light instead of burning the candle at both ends. The candle has only a short life, Give your life to Jesus, He will give you hope and a life eternal.

**113.**

The singer in darkness received the light. See the reflections in the branches, we need patience to see you through the night. The moon hiding behind the tree playing peek-a-boo with thee. Are you waiting for patience to come along. It will take too long waits with fork and tines to light your way. Do you hear a ringing in your ears? Then it must be time you went to church down Church Lane. If you want to see the wood for the trees then stand here until the sun rises. If you want plenty of patients, become a doctor. Hopefully by now you have found your patience that you lost. Are you feeling better now and at peace? Always be careful what you pray for.

**114.**

At night the street lights will light your way along the road so you can walk safely. House lights do the same indoors you can walk around without a pause. When there is a lot of darkness in our lives, call on Jesus because he said, "I am the light of the world. Whoever follows me will never walk in darkness, but will have the light of life." also the fruit of the Spirit, peace and joy.

**115.**

We all want bodily good health for us and all around. We like to get the green light on everything. Full steam ahead is no good if we are spiritually on a red. 1 Corinthians 6:19-20. Do you not know that your bodies are temples of the Holy Spirit, who is in you, whom you have received from God? You are not your own; you were bought at a price. Therefore honour God with your bodies. Give Jesus a green light into your lives.

**116.**

The wind is blowing, the snow drops showing their head above the ground. The spiders don't stand a chance, there are no cobwebs hanging around. The noise in the tree, in the strong breeze, shouting their praises to God. Heralding that spring is near. Don't have a fear, be of good cheer, there's a wonderful spirit around. Stand on the ground and have a look round at God's fantastic garden creation. Breathe in the air and feel the spirit there, inside you. Then breath out and shout, God, I thank you.

**117.**

Get a guide and a map and ask for directions. This way you will get the most out of a visit when you walk around places of interest. To get more out of this life, seek good advice and directions from experts. For the best advice for this life and the next read the instructions in the Bible and take Jesus as your guide because He is the truth and the way to eternal life.

**118.**

Copper-bottomed Lake at Stowe looks peaceful and serene, swan preening, seagulls and geese paddling up and down. All is not what it seems at first glance in our lives. We all have hidden pains and troubles that need to be dealt with and not put off. On this bitterly cold windy day with the water cascading down the waterfall. I noticed that the keystone was missing at the top of the bridge arch. A potential disaster may be pending if not put right. Do you have a missing keystone in your life. Try Jesus, you can put your trust in him to hold everything together and heal your troubles and your life.

**119.**

This old tree looks like it may have been struck by a bolt of lightning. With the scars to show for the damage and branches cut off. But despite all that it is still surviving. It has its roots deep in the ground and may still be growing for another 100 years or so. Life can be similar, it is how we cope with it after a long struggle, or loss, that matters. This tree has been tended to, but the scars will remain. If it was left alone it may not survive and be a danger to passers by. We all need to seek help and comfort from others around us while our raw wounds are healing. But we must not keep picking at the wound and let infection rot us from within. Allow the healing and peace of the Holy spirit into your life through Jesus and let Him take away your sins. Life then is eternal, with roots feeding on the Word. The scars will still be there but you will be stronger and be able to help others who are going through the same.

**120.**

The curtains are drawn, doors shut, and closed down for the winter. Life can be like that, closing everything off into a prison within ourselves. Don't let the past hurts make you a prisoner and make it your identity. Your body is a temple for the Holy Spirit to dwell. Cry out to Jesus for help. He is knocking on your prison door. You only have to open it on your side and welcome Him into your life. He has already unlocked it through His love for you.

121.

After driving through the storms and winds and cold, come into the warm. Take sustenance, take time to rest. You are worth your salt. Don't neglect your spiritual needs. We have only a limited amount of energy. Call on Jesus. He has more power than you will ever need to overcome your troubles.

**122.**

When we get older. The things that seemed to be so important in our lives are left behind. Things change so quickly. Don't make stress your constant companion. Take time to watch the trees grow and change with the seasons. Enjoy the frost and the bracing air. Marvel at God's wonderful creation. Take time to stand and stare.

**123.**

Are we leading or following, guiding or guided? Find what your passion is, something that gets you excited when you talk about it. Seek a vision from God that will inspire you to walk with Him and talk with Him. Sometimes we are already doing what God wants and He is quite happy with it. Be alert and ready to hear that quiet voice of God. Keep a keen eye out for the signs along the way.

**124.**

Open wide your arms and praise the Lord always and at all times. Draw up sustenance from the deep roots of the Word. Bask in the radiant warmth of God's love for you. Stand out and don't be afraid for the Lord your God is with you. Be His representative at work. God will plant you where He has a purpose. Give Him the glory for He had you in His mind since the beginning of time.

**125.**

Look to the horizon and see the light that is to come. Make sure that all the channels are cleared, ahead of you and behind, so the Living water can flow. Make a straight path and don't get distracted. Have a very clear vision of your journey ahead. Take only just what you need and leave the rest behind. A heavy load just slows you down. Don't limit God's work, think global not your backyard.

126.

Who has the key to your heart. Who can unlock your life? Are we locking ourselves away through fear and lack of security. Is there someone coming along and robbing it? Where do you hide your treasure, where is it? Go on a treasure hunt and read Matthew 6:19-34 Don' worry, be happy.

**127.**

When we journey, what do we seek? Are we just walking for the sake of it or getting away from something or going towards something? Where are we going? Do we walk with somebody or for somebody or away from someone or are we just alone or seeking friendship, conversation and company when we're on our own. It's hard to know what to do, just sitting around letting the time and days go by. Seek God and take a new walk, talk to him as you go along and you will never be alone. He is always with you, because the Spirit resides within you. So ask Him for directions. Walk with a purpose with your head held high. Seek Physical, mental and spiritual health in full my friend.

**128.**

Try and find a path of true righteousness. Try and find the path where you won't get bogged down in the mud. Ask for help along the way, ask people to take your hand and lead you into pastures green, away from all the mud where people want to stick everything in you and on you. Find the true path and make sure that you walk on it. Look both ways and make sure where you are. Check out everything that's happened and whether it is the truth or whether you are being deceived. Jesus is the way the truth and the life, follow him and you will find a new life before it is too late. Listen to the skylark rising up high into the sky chatting away and singing its heart out, rising above everything. Be the same and praise the Lord.

**129.**

How big is your field? Are you planting wisely and rotating the crop? Do you have sufficient nutrients and water to make the crops grow well? Are you removing the weeds and the unproductive? Don't spend your energy chasing tales. Dead wood is only good for burning. Keep lean and fit. Pay close attention to the productive and treat it with care and love and you will get a constant return. Take great care of the seed corn for it has been passed down the line. Keep your options open and don't get fenced in.

**130.**

Check out what is powering you. What is pushing you forward, make sure that it is correct and it's the right thing to do. What is your driving force? Find your way around problems and don't push your way through them. If it seems to be an obstacle in the way, retrace your steps and find a different route. Look out for the signs, when you find them, take that direction. Stick closely to government directions, rules and regulations and don't deviate from them. Seek wise counselling and trade in the truth and trust. Take sabbath rests.

**131.**

Be amazed at the Lord, everything is timed correctly at the right time, the right place, be amazed by what he has in store for you. Take care and don't burn all your candles at once, so make sure that you keep well, safe, well fed and use your time wisely, plan ahead and make time to the Lord. Walk with your head held high and be bold and strong in the Lord. Be a warrior and make sure that you let your friends know that you are a child of God. Be witness at all times and in all places, stand out in the crowd, people will come to you for comfort from you. Don't be shy.

**132.**

Feed on the word. Put weight in the word not on the waist. Listen to what God has to say and where He wants to lead you. Speak to people along the way and listen to their story and see where their lives are in your story and where your life is in theirs. Young trees need planting with good support to hold it firm. As it grows this can be loosened from this and supporting itself. Seek protection from the storms of your life. Be ready like the lifeboat Station. Prepare yourself to go out in all weathers and situations whenever you're called to rescue others.

**133.**

May your blood be cleansed clean with the blood of Jesus. You will be refreshed, renewed and restored to your real potential. Thank you Lord, everything is for you. As the reeds in the water filter out the toxins off the roads. Ask God to take away your sins and refresh you to be like a fresh spring. Open up your heart and let the Holy Spirit reside within you. Radiate His love from within.

**134.**

After the storms in our life, do we look behind us and see a trail of debris? The people we have affected along the way. Do we go back to where it all began and try to work your way around it, forgiving the people who may have hurt us and asking for forgiveness if we have hurt them. It's where we find shelter is most important, where we can put down an anchor in a safe harbour and protect ourselves from the storms. Jesus can do this, go to him and you will find a true loving heart that loves you ever so much. Be with Him and ask Him to help you, ask people that are his brothers and sisters as well. You are not alone. Reach out your hand and be lifted up and healed.

135.

Why? If, but, how? when? Why me? because? only now? when? repair, restore. Come now listen to what the Lord has to say. I am in a hurry please Lord I cry come to me now. I'm on my knees praying to you, come repair, restore, renew takeaway my pain Lord. I'm here for you Lord. I give you the glory now and forever. Listen to the birds sing, listen to their heavenly sounds, they have found nesting places, they find places to live in the trees, the bushes, the hedges and what a wonderful thing to behold. Thank you Lord for hearing all our prayers, you restore our soles, you give us hope. O for a thousand tongues to sing. My great redeemer praise.

**136.**

What is faith? Do we have a faith? Who or what do we put our faith in? These are some of the big questions in life. What is the Lost Generation? Is it like in the pied piper. Where many people have been distracted and led away from a faith in Jesus, by consumerism and selfishness. All this is emptiness. Open yourself to the filling love of Jesus and let Him into your heart. Feel His warm embrace as the Holy Spirit takes residence. Seek people of faith and ask them your deep questions. Be a loved Child of God.

**137.**

Praise the Lord, praise him in the highest, praise him for all the suffering He takes away from us. We thank you Lord. Thank you Lord that you have prepared a place for us. I will Praise you Lord as the sun rises in the morning and as the sunsets in the evening. We praise you all day long. We thank you Lord that we can sing a glorious song, hallelujah. You put the stars in the sky, you created everything, what a wonderful place we live in and what a wonderful place where we can go to.

**138.**

Look up look up. What do you see? Look up in the day and you'll see the clouds and sun arching across the sky. Look up look up, it's nearly night-time. Look up look up. What do you spy. I spy a star shining in the sky. Look up, look up, the clouds have all gone, it's getting darker and now sing a song, about sunshine, stars and everything, about all creation that God has made. He made the planets, all the universes, what a wonderful place to be living in. Thank you God for our journey through your creation.

**139.**

A well tended allotment is pleasure to see. Wondering and hoping it's going to be a good crop grown in there and seeing what the Lord has in store with the weather. Always look after the things which we have been given it's a gift. Look after yourself and take care of others. Life, It's a precious gift. If we just put things aside and neglect them, quite often come back to haunt us. Keep fit in mind, body and soul. Choose carefully what you plant, tend it regularly and remove anything unwanted.

**140.**

Look to your roots and tend with care, because when the power of the wind comes along, whatever has been left uncared for will be destroyed. This tree has been rotting away gently so it couldn't withstand the storm. Be on your guard at all times, for the devil will try and find your weak spots and exploit them. You need to be stronger to be able help other people. You have been through things in your life which have hurt you, but that will help, because you will be able to help others. Consider getting a helping hand with some of your chores, don't carry everything on your shoulders, take them to Jesus.

**141.**

Go find the stream of living water, the healing water of Jesus that flows from the throne to the sea. Seek Him. Go to immerse yourself in the water and be healed. Be renewed, refreshed, restored and return the glory to God in the highest, praises everlasting. Jesus has the power through the holy spirit to re-energize you. Don't be embarrassed, go seek healing where healing can be found.

**142.**

When you are walking along the road keep to the correct side facing the oncoming traffic. That way you can take avoiding action when vehicles are coming towards you. Take notice of the signs wherever you walk. Be alert to the things that are happening around you. We sometimes walk recklessly and don't think about things which are happening in our lives or around us, we just carry on without a care, then Bang we have an injury or fall ill. If we have kept ourselves fit we have a better chance of recovering. Keep in a positive attitude and don't dwell on the negative. When you walk in faith with Jesus, His love will carry through the spiritual battles because the Holy spirit is with you always.

**143.**

Learn to forgive, even yourself. Don't carry a heavy burden around with you as it may break you. This bridge is still standing because people have read the restricted weight limit. The water is flowing clean and clear because the upper stretches have been dredged out. Don't let things of the past cloud your view. Let Jesus help you with your load and yield to His calling. Don't put off something you may regret not doing later.

**144.**

Sometimes our path ahead gets a bit overgrown with brambles to snag our clothes or skin. The ivy is encroaching and the style has seen better days. All of this could soon be put right for a while. It is best to keep on top of things in our lives. It's no good moaning about things and tangling other people up as well. Get up and sort things out yourself or report to the relevant authorities. For Life things, go right to the highest authority, God He is great at restoration.

**145.**

Take a closer look at the scene, a really closer look. You can see the people but not their reflections, The clouds and the tree top are in the water. Do you see a lot of mud and a big puddle. Is this an obstacle in these walkers path, an annoyance, something to get around and walk on. How could this scene be changed, apart from waiting for summer? This is what God wants us to do, to take a closer look around us and see where we can make a difference to people's lives. God has made us for a purpose, He has placed a passion in your heart already, reflect on it.

**146.**

The gates are closed and padlocked, beyond the gate is a wonderful field of young growing wheat. During the spring and summer this will grow up tall, the ears will be swelling, swaying in the wind and sunshine. Eventually harvest time will come, these Gates will be opened wide and the Combine Harvester will go in and reap the harvest and take it home to the barn. A good farmer will regularly check for problems and give extra care so each plant achieves its full potential. Every plant is precious. We all need love and tender care to grow. God has given us a loving and compassionate spirit to tend His children so they can enjoy life to the full.

**147.**

Winter comes, the leaves fall and everything seems to shut down. There is a dull greyness, almost as though the colour has drained out. BUT look at this shrub, it is coming into flower in winter. This is bucking the trend, it is daring to be different. Wouldn't it be great to be full of colour, joy and happiness when all looks dull and depressing. All this can be found when you spend time together worshiping God with a big bunch of friendly people. Happiness starts with the first foot through the door. Welcome home friend.

**148.**

When we walk along, every step counts, all the things we choose to do, makes a difference, not just to our lives but the lives of others. Meeting people and taking the time to stop, talk, pat the dog etc. Where we go is already planned for us, as long as we step up and take the challenges and decisions. The things we do along the way are important not only to us but to all the people. We see that God is in everything we do, so God is seen as we do it. Who has put a blockage to the pastures green and still waters in our lives?

**149.**

It feels so wonderful when we move away from the main road into a field. Onto a well-trodden footpath and we see the view open up in front of us. Just capture the moment, stop, stare and listen. The sound level drops, hear the birds singing. The wind is blowing, a storm is brewing, what wonderful joyful things to see, the crops are starting to grow in the fields, the sight of the hills on the horizon, look above you to see the birds flying in the sky, the gulls and kites just reeling up and down with ease. The startled deer runs away at top speed. Just breath in and marvel at God's creation. Isn't it good.

**150.**

When you venture into a new field what to expect to see in it. Are you wondering what you might see or do just carry on regardless. Two deer spotted today in the field grazing, a wonderful site so unusual and so unexpected. The things in life when we get together with other people we never know exactly what's going to happen but always be happy and think of joyful things, be positive in all you do, look to God and look for and seek His guidance at all times. Put your head up and down and look around there's so many things to see.

**151.**

Trying out new paths along the way, talk to the people you meet. Like a friendly dog, have an exciting time and be overjoyed at meeting people. Thank you Lord for everything that we have. Be filled with joy and celebrate our good health and everything we do with our family and friends. Our family and friends are like a tree, if we tend it well, it keeps growing and bears fruit. Get rid of the rubbish in your life and make sure that your house and your family is well protected.

**152.**

May the peace of the lord be always with you. Find out about Jesus from his words in the Bible and learn from what He did and the way He walked in this world, He had such compassion. Take love from Him, let the Holy Spirit fill your heart and your mind, your soul and be with Him always. Don't leave Him or walk away from Him you can't do that, He is always with you always there beside you, the Holy Spirit is within you, God loves you and He wants you to call out to Him for help, He is at hand.

**153.**

Even in a well protected building, all seem well locked away. Look closely and find the sign of love is still showing. God will give us strength to overcome, as long as we call on Him, trust Him and accept His love. There is always hope. When we ask Jesus into our lives and receive the Holy Spirit, you will show the fruit of the Spirit, that is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control.

**154.**

What type of measurement do you use to take a measure of people? Do you use a tape measure, how much money they earn, the car, how big a property and all sorts of things. Our best way to measure is with love. Love the person in front of you. Listen to their story. Dig deep and search for the best in people and they will find the best in you. Don't use the devils measurements.

**155.**

They seek him here, they seek him there, they seem to be seeking him everywhere. Don't try being someone of many places. Put the ones you love first before taking time out to do other things. Make sure that your love is so great that it can overcome all things. Fame and fortune is like a flame easily burnt out and snuffed away. Love is enduring.

**156.**

When we go to the opticians we get our site tested to make sure we can see things clear and sharp. If you wear coloured glasses, then whatever colour is not in the lens is blocked out. Yellow glasses block out blue and red, you are filtering out all of the world with yellow. Be careful what filter you use in life and make sure it is clear and not obstructed. Always check out people and ask someone you trust if they see the same in that person. Don't be deceived.

**157.**

When the going gets tough to find someone to give you a hand along the way. Don't push through bushes and brambles and don't get scratched, snagged or anything like that. Try and find a true route even though it may be walking on a very thin line. Lean towards the shallow water rather than the deep water. Use a stick to measure the depth of the water that you are getting into. Make time for God and put your trust in Him.

**158.**

If you have kept your head when all around are losing theirs you must be part of the French Revolution. When something big happens in your life and you're struggling with it, people quite often say or make off the cuff comments like "anytime you need help just let me know" but without actually thinking about whether they could or would help. Then we often give a reply "that's alright I can manage" Say what you really mean and what you really want. If someone offers you some help just say "yes, if you could just do this small thing for me it would mean a lot" If you allow lot of people do lots of small things, it will make a great difference and when you are able to return the favour you can help a lot of people a little.

**159.**

Let me look back at all the wonderful things that we've done, the people that we helped, all the things we have seen, what a wonderful life we have had. We have made a difference as we walk along and there's still more to come. If we have made a promise to Jesus to love Him and follow Him in our lives. We know the better part is yet to come, in that and we have hope.

**160.**

Blessed are they that walk in the ways of the Lord. Join the ones that seek the Lord. Bless the Lord to all times and all places and run freely where the wind blows. Be thankful for good health wealth and your dwellings. Thank you Lord that we can look forward to a new dwelling where wealth is no longer necessary and life will be everlasting and eternal. Everything we have is a blessing poured out every morning. Thank you God that we can walk freely in your creation. Dance with joy before the Lord, even the trees are dancing.

**161.**

What are we willing to go through for the Lord, are we willing to just walk carefully along the good paths or are we willing to walk through the mire, over fences, through brambles, through trials and tribulations so we can continue to seek what the Lord wants us to do. Dig deep down inside of yourself. Mine for gold and gems in your heart, find out what and where the Lord wants you to use those precious gifts and put them to good use. He has a purpose for you in your life that was there before you were even born. Seek the Lord and seek the light, seek the life eternal, seek it with all your heart and mind.

**162.**

Good health is a gift from God, it's a blessing, with all the gifts from God take care and treasure them and make sure that you look after yourself because your body is a temple for the Holy Spirit. Also be careful what you do and who you listen to, things get contaminated with words of yourself and others. Every day is a special gift from God, use it to help others. Make sure your channels of communication with other people are clear and precise. Don't say things that you don't mean to, say the things that you mean and get answers to check out to see whether they have understood what you said is right. Seek and speak the truth at all times.

**163.**

Your good physical, mental and spiritual health today is due partly to your investment in the past. Good health today is a return for good living in the past. To keep our good health is to keep on investing. When we need to overcome an illness etc. we can draw on this investment. With a small investment there is very little hope. There is a promise of eternal life with Jesus as He invested His life so we can have faith and live in hope.

**164.**

When the Lord lays out a feast before us, it is really rude and disrespectful not to partake. Our body is a temple given to us by God. When we host the Holy Spirit within us, we should not starve him, we should feed him with our love and He will feed us and Jesus will give us eternal Life and Love. Learn to love yourself as God loves you.

**165.**

Vision of a ministry is like seeing a definite sign for direction and need. Can you see the wood for the trees? Team up with other people with similar visions to bring the vision into a more powerful reality. Plan ahead for the journey and write it down. Hold on lightly and be ready to pass it forward like in a relay race.

**166.**

Where do we find the power of the Holy Spirit, is it hidden in the forest, the top of a mountain, in the sky, in the earth? The Holy Spirit is dwelling within us, as Christians, He empowers us to be able to do the things Jesus did here on earth. We often diminish the power of the Holy Spirit by the way we live. Jesus has given us authority to do many things through the Holy Spirit, our lack of faith, weakness and fear stops us. We are a conduit for the power, the more we open up ourselves to God's will, the greater the power can flow. Go and do.

**167.**

Sometimes our paths are blocked, covered in undergrowth and fallen trees. Everything starts to go wrong on your journey. Are we going to force our way through whatever or stand still and consider another route or a different destination. There are so many decisions to be made. When our health starts to waver, what do we do. Pray for God to give you directions to a better route or destination. Ask the Holy Spirit to hold your hand and guide you.

**168.**

Learn to let go, it's not crackerjack. We all tend to collect jobs and responsibilities along the way and hold tight to them for many reasons. When another job comes along that has to be done, I suppose if you don't do it who will. We eventually make ourselves indispensable. It is like the garage effect, we fill all our time with things. We are stopping other people from finding their gifts by doing everything for them. Loosen your grip on all the jobs, they have a grip on you. Try placing your gripped hands upwards, turn them over, open them and shake them. You now have empty hands, turn them back up and ask God to place into your hands what he wants you to do. Don't pick up the jobs on the floor, allow others to do that, you will empower them.

**169.**

When God asks us to go into ministry, do we decide how much we are going to do, what are we going to give up, things like that? The disciples were told by Jesus Go sell all you have and give to the poor and come follow Me. When we take on our mission do we plan for everything, all the costs and things that might come up. Are we also planning for what we do after the mission has been completed. Every mission you take on, there are costs and sacrifices. We have to make very hard decisions. What a glorious response from God when all things are given up to him. Do we attach strings and boundaries to our calling? Are we willing to go wherever we are sent or are we tying ourselves down?

**170.**

When you feel God has given you a calling or he is calling you to do something, listen to him, listen quietly. See what happens when you talk to other people about it. Share it with others, does your heart start to quicken your pulse race as you get excited about doing or talking about whatever God has put in your heart to do. If you feel that there are stumbling blocks put in front of you or obstacles and thoughts have no it's not possible then is that from God or is it from the devil. Ask people, check it out. It's hard to have good vision with your eyes closed. Communication is your keyword, the more you talk about your vision the more God will send people to you to help you along your way.

**171.**

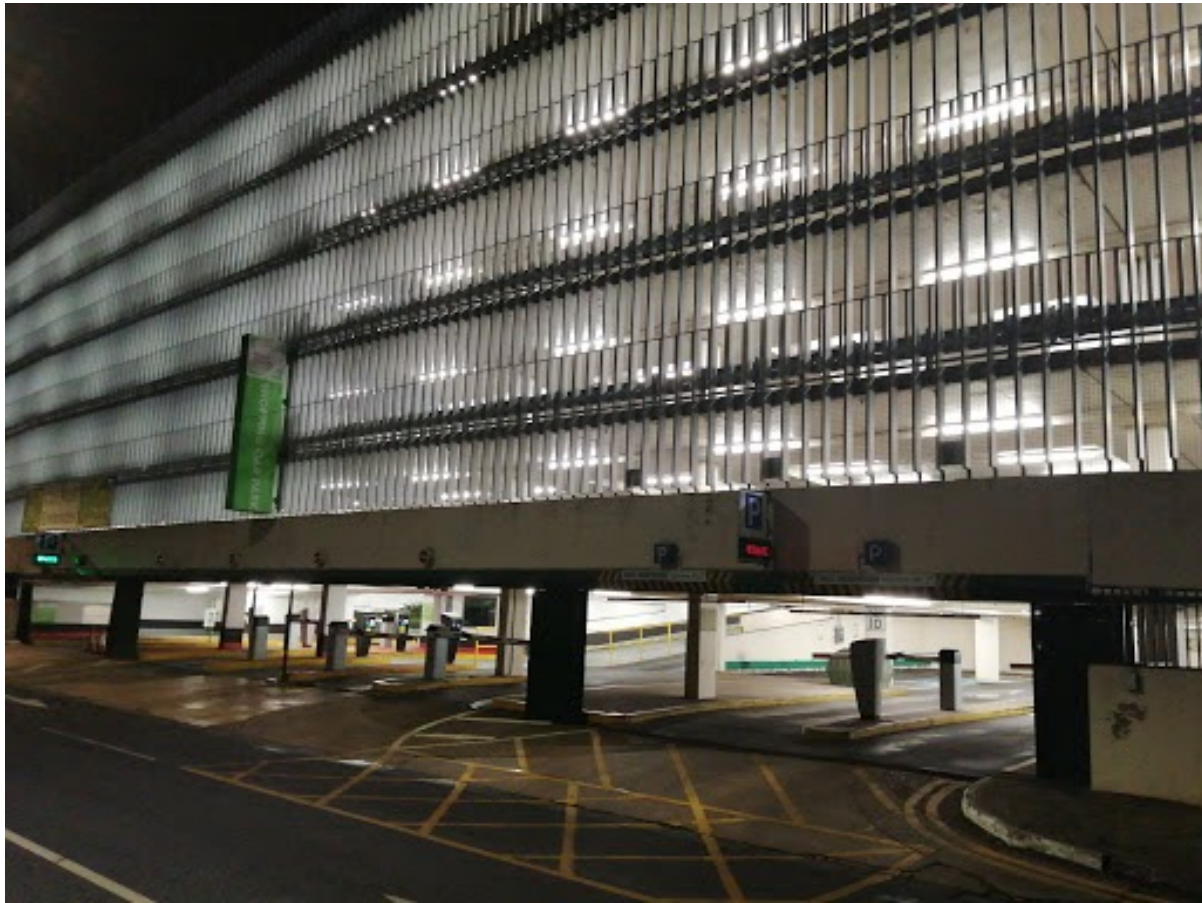

Jesus says go make disciples of the world when you bring someone to Jesus and they give their life to Him, feel the joy and happiness that resides in you the holy spirit will lift you up and bring you the fruits. Heaven will be applauding when a sinner is saved and comes into the kingdom. Be part of that joyful applause and bring more people in as you are encouraged to do the more you do the more joy and more you feel happy and healthy in the spirit. Go in peace, serve the Lord and don't be embarrassed or afraid, be bold and go forth with strength and Fortitude. The Lord is always with you.

**172.**

Let the butterflies in your stomach give you extra lift. Put your trust in God, He will not put you in a situation where He can't cope with it. Paper, scissors, rock! Don't get wrapped up all the paperwork. Blunt any cutting remarks or doubts. Be bolder in your approach, stand firm in your faith in God, be upstanding and outstanding in all you do. You are a child of God, He loves you and He made you this shape, there is no other like you. Stand your ground.

**173.**

Find confidence in the small things and become expertise in them. Be a David to the Goliath problems. Trust God at all times and praise Him in your victories. Be a person known for your love for others. You will do great things in the mighty strength of the Lord Jesus, way beyond your wildest dreams. Trust Him.

**174.**

When we post a letter in a letter box we hope it gets to the address on the envelope. We trust and have faith in the post office. The more we post successfully the stronger our faith. It is the same with our spiritual faith. The full armour of God can feel like an overpowering weight to be burdened with, heavy and cumbersome, having to put it on day in and day out. Try thinking of it as though it is made of strong, fine silk that you wear all the time day and night, a pleasure to wear. Feel light in heart and agile in battle. Train up soldiers around you to become an army of Christ led by Jesus. Pray for one another.

**175.**

As we get older, we feel like we are slowing down, everything takes a lot longer to do. Is it because we have plenty of time in which to do things or is everything going by faster. Take your time and savour the moment, contemplate the meaning of life and everything. Don't put things off until tomorrow, wait a few days, sip some wine and then think about it, there is no hurry. Live within your own speed limit and let others get done for speeding.

**176.**

No matter what the weather, keep going, don't mope indoors, be strong and you will be able to help others along the way. It is amazing how a light dusting of snow can change the scenery. The sun comes out and it soon changes. Capture the moments in your life as they happen and recall them later. Find the good in everyone and everything and you will find the best in you. God has blessed you in the past and there are many blessings to come.

177.

The storm has passed, the sky is becoming clear, the sun is shining and things are getting near. The snow has stopped, all is looking brighter. Stand upright and be who you are. Look to your horizon and you will go far. Mark off each challenge as you go along the way. Take time out to talk to God, He will hear your prayers. Seek a church that comforts, welcomes, and helps you in the day to day. Seek and you will find that you are not alone. God is with you both in your coming and your going.

**178.**

We all seek a long and healthy life, it depends on what we want from that life and what we leave behind when we go. Life is full of choices, everything we do affects someone else. Make wise decisions. Our life now has been dependent upon many people in the past over thousands of generations. Make wise choices in this life that will carry you into the next life with God for eternity.

**179.**

Revelation 3:20 New International Version (NIV) Here I am! I stand at the door and knock. If anyone hears my voice and opens the door, I will come in and eat with that person, and they with me. Open up your door in your life and let Jesus in. He will keep you company all the time. Be filled with the Holy Spirit and you will show His fruit. These are love, joy, peace, forbearance, kindness, goodness, faithfulness, gentleness and self-control. (Galatians 5:22-23) May the peace of the Lord be always with you.

**180.**

Your family is a gift from God and a great blessing. Children are a great responsibility for life. We must allow them to have more independence as they grow up and away from us so they find it easier to return. Always make yourself available but not in the way. Call on God for help and assistance as He is our Father and He Loves you unconditionally.

**181.**

Cherish every blessing. Every child is an individual, every child needs love. We love God and God loves us and that's what we all need to know. God will give us many blessings in His own time so don't stop asking. What we do and how we do it makes a difference for generations to come.

**182.**

Stop and assess your position. Look around you and see the steep learning curve you are climbing up, the obstacles you have overcome and the rubbish that has been placed in your path. Thank and praise God for all His help and encouragement along the way. Turn round, look at the journey ahead and go for it with enthusiasm and joy. Praise God at all times and in all situations.

**183.**

If you want to play in the fields, enjoy the wonderful views, lay down in the grass and see things in the clouds. You need to find the person who owns the field and ask if they would unlock the gate and let you in. When we would like someone to play with it is best to ask first. If you can't find someone, try asking God for a friend to share the good things with you.

**184.**

When we try to stand alone in our own strength, watching the world go rushing by, feeling fenced in and cut off. Where can we find help, comfort, support and an unquestioning love? Help is not far away, it is closer than you think, it has always been there even before you were born. Look to the other side of the fence, into the light where the grass is green and young trees grow. Not dark and rotting like the old trunk with little hope of life. Step into a loving, welcoming relationship with God full of love. Find an overpowering sense of peace and be filled with joy. Accept Jesus as your brother, come join the family. It is as simple as, sorry God, thank you Jesus, come Holy Spirit. Amen.

**185.**

When things are looking rough, with problems and troubles ahead. Try and clear away the clutter so you can get a clear view of where you're going. Then decide which direction you're going to take, sometimes that direction takes you back to where you started. Enjoy the journey, make the most of it, see God's creation in front of you and marvel at it. Give Him praise and glory at all times and in all situations, worship Him and thank Him for everything that you have and everything you have overcome. Ask for healing where healing is offered.

**186.**

Many years ago elephants used to drink out of this trough on the way to the circus in town. Take time to sit and stare, watch the traffic go by, look at the warm yellow daffodils growing in the trough and ask yourself, who made the trough, how long has it been there for, why has it not full of water, why has it got flowers in it and who planted the bulbs? There's so many questions in life. Always speak the truth, try and decide what is good and what is bad, what is truth, what are lies. If you find it difficult, then ask for the gift discernment from God, through the holy spirit, then you may find it easier to tell the difference. Discerning is like using a spiritual sieve.

**187.**

Thank you God for such a wonderful day, the sun is shining, passing clouds, thank you that we can admire your handiwork, all of this is your creation. Thank you Lord that you are with us through the storms in our lives and the sunny days, thank you Lord that you provide water and sunshine for growth, the green leaves waiting to come on the trees, the blossom and the fruit. Thank you Lord for everything that we have. Thank you for allowing me to be part of Your kingdom. Help me to share it with others.

**188.**

Go find people that are hiding away in their houses, bring them out into the community so they can share life together, life can be very lonely on your own. Seek people out in your community and when you meet someone in the street, stop and talk to them and be bold about sharing your faith with them. Sometimes that is the only opportunity people get to hear about God and Jesus saving life. Give your time as an offering to God and God will place people in front of you He wants to help. Be alert and ready to help.

**189.**

When we choose to take the moral high ground, we expose ourselves to all the elements that are around, the wind and the rain, storms, doubt, sorrows, everything like that. When we choose to take the low ground, the moral low ground we meet more people that are in need of help, as you walk along the way. Take the midground and you get both but you miss some, you miss the views and the wonders of God's creation seen from a height but we need to travel up and down and over the hills. Be gentle with people that don't know the Lord, be kind and bring them very gently and carefully to know Jesus as their saviour. Don't use Jargon or big words to impress, keep it simple. Use all the gifts that God has given you to make disciples of the world.

**190.**

How do we make decisions? Do we cast lots, toss a coin, throw a dice, or just throw your hats up in the air and see where it lands. Looking for an answer is something that we need to really take time over. Always ask many questions when trying to make a decision, ask lots of people but mainly ask God to reveal the true answer to the true things, as you seek the truth all the time and you will find where you need to go. Ask God for the gift of wisdom.

**191.**

Come closer and cuddle up to Jesus and his family. He is there wanting to hug you, support you, talk to him and He will give you the direction and strength. The Holy Spirit has unlimited strength to keep you going, to be able to do things that you never dreamed of doing, way beyond your comprehension and thoughts. God wants you. You are a child of God and God loves you and your love for His children. Trust God in all the things you do and praise him all the time. Thank Him for being with you and the people around you.

**192.**

When God has given you a vision, test it with other people. Plan the things that need to be done, the start, the middle, the end and when it is going to be complete. Always go with that in mind and then take it to the Lord and make sure that it is true. Our purpose is to fulfil God's desires. Don't be an island, mingle with others and share your vision. Lead from the middle and be seen. Empower and encourage other people to fulfil their purpose and desires of God. The harvest is great but the reapers are few.

**193.**

Be of good cheer, Jesus is near, times are getting better, spring is coming birds are singing and the days are getting longer. Drink from the fountain of life, be refreshed by the Holy Spirit, take hold of the teachings of Jesus in the Bible. Be strong and bold in your faith and tell others about the good news of Jesus' salvation for all. Take time to sit in the light with your family and friends and talk about your journey.

**194.**

No ghost riding on this patch. People have priority here. Only the light shines in the darkness to show us the way to safety. Try and save energy on your journey by planning the route so you don't have to keep doing U turns. Keep up regular maintenance on your body and your sole. Put God first and ask him to give you the best route to take. Then it's up to you to choose. It's like a spiritual satnav.

**195.**

Warning, weak, slow internet signal ahead. Do you sometimes feel that you're going round and round and the aches and pains keep coming and going, well, it's old age. It's no joke. When you see people walking around with their phones in the air, trying to get a better signal. Think of the ways Christians raise their hands in praise to God for better communication and blessing with Him. Praise the Lord at all times and in all situations even, when it hurts. May God anoint you with oil and heal you through the Holy spirit. Amen.

**196.**

Is your neck badgering you, does it feel like it's gnawing away at you all the time. You may have got sett in your ways. It's time to come out of hibernation and look forward to the nice warm sunshine in the garden. We have to remove the things that litter our lives and get ready for new adventures. Come closer to the Lord and ask Him to lay His hand where it hurts and let the Holy Spirit heal you.

**197.**

Take a close look at all you see. Most things have a purpose. Here the pond stops the road flooding. Metal railings protect people from the water. The bullrushes filter out the toxic chemicals from the road drainage water. There is a water management plant to cope with the spring water and much more. God has provided much, much more than this for our protection in our lives. He even let Jesus die on the cross so we can be saved and have eternal life. We need to try and find out what God has got planned for us and where we can find the strength to do it. Ask Him. Open yourself to Jesus and welcome the Holy spirit into your life and see what happens.

**198.**

Listen to the song "Be bold be strong for the Lord your God is with you." You can raise yourself above the others, if you know where your strength comes from. It comes from the Lord. Be the bell of the ball not a shrinking violet. Be outstanding. Be the one that rings true in all you say and do. Ask God for His vision and purpose in your life and go all out to fulfil it. Sing out loud to all, of the Love God has for you. Praise Him at all times and in all situations.

**199.**

To get or keep our good health is one of the main requirements that people seem to want. Whether it's a good healthy mind, healthy body, healthy soul, or even a good healthy bank balance. What are we going to do about keeping our good health? Are we going to stop polluting our mind, body, soul or getting into debt? Think healthy, eat healthy, pray healthy and exercise. It's all down to choice, we choose what we think, what we eat, what we pray for, what we say and how we spend or save our money. Do it all wisely. If you want help with this read Psalm 121

**200.**

Our health and the health of others are interdependent, we rely on each other. If we let our health go, we can't help other people that are unhealthy and vice-a-versa. When people are unhealthy, it quite often makes us ill through the stress and strains of trying to care for them. We need a lot of spiritual and physical strength to keep healthy. Pray to the Lord and ask Him to give you the strength to overcome, He has strength that's unlimited, we are very weak and we can only cope with so much, He can cope with everything. Take everything to the lord in prayer and praise him at all times. Know in your heart that God loves you and whoever you are caring for. Seek the joy that overflows.

**201.**

The things that I do not remember, did happen but they may have gone from me. Thank you Lord for all the things that we have done together, in all of the past. Now I will soon be going, Lord, help me to know that you are close by me all the time. My memory may be fading but the people that I knew will remember me. Be there to help me along my way to the journey's end. All my love for all the people, I send it to them and you., God you have blessed me through all my age's and all the things to come. Lord I want to be with you in heaven. May your kingdom come.

**202.**

How deep, how wide, how high is God's love for you? Take time to be with God, be quiet and listen to His quiet voice whispering in your ear. Let Jesus into your heart, help the Holy Spirit enter into you and reside within you. Host Him as you would a welcome guest, listen to what He says. Be at peace, chase away all the things that are distracting you, get a good connection with God, listen to Him and put aside other things which are not right. The holy spirit will prompt you. God is your provider, connect with Him. Jesus has already paid the tariff that's required. There is unlimited text and data in the Bible for you. Put off your old self and become a new creation, the eternal model.

**203.**

Praise God for the things that we have done in the past and the many wonderful things we have seen on our adventures around the world. Thanking God for his great creation, even though some parts need to be renewed and restored. We asked you for your compassion and we ask you in humility, please heal all the frail and worn out parts of our body's to become a new creation. To come to you for all things that we need in our health, help us Lord to help other people as we walk along the way. Why do we always hold onto things which we no longer need? Help us Lord, release us from the burdens that we hold on to from our past.

**204.**

When we are out walking, what goes through our minds, will we be thinking of other things and the things we left behind. Do we think of holidays, on a sunny beach, are we thinking of all the flies that fly around and some of them that swarm. Walking out with a dog, trotting by your side. Sitting on the beach, watching the waves that are lapping, kissing the sand in love. Feel the warmth of the glowing Sun, sitting in the deck chair looking at the skies. You, my God, have made a glorious creation. Are we choosing to be stressed or are we choosing to be glad, are we choosing everything that we have ever had, or for the wonderful things in the life to come.

**205.**

When speaking in public, you've always got to have something to say, something that other people need to know. You need to speak clearly so the message gets across. You need to know a subject that very few people know and become expert in it. Mostly you know more about yourself and your journey with Jesus and that is a testimony which only you can give. Find a space to fill for God.

**206.**

Seek what is right, seek the good things that please people, You need to mix with people of all different levels of societies, to find out what is the correct way to do things, then you will learn how to behave well. If you only have one measure you will always get the answer in that measurement, look for different ways of measuring things, measure things with love and compassion, you will be better able to help other people along the way. Seek God in all things, let the Holy Spirit into your heart and your life, He will help you. If you like nice things done to you then it's nice to do the same to other people. Make many friends. Find out more than you are asked for and try to do better than your best.

**207.**

How can we help the world? A good time to start is when we wake up in the morning. Be aware of all the things we use and take for granted, water, heat, food, electricity. Do we really have to use so much? Don't waste things especially food and time. Next thing is try and help the person in front of you. If you see something that needs doing don't just walk by, do it even if it is picking up a bit of litter. Start helping with the small things then move on to the bigger things. You never know, later, you may be helping the whole world. Start small, think big. A journey of a 1000 miles starts with just 1 step.

**208.**

Finding purpose in our lives, is a great challenge, a treasure hunt, we have to sometimes dig deep inside of ourselves, it's like mining for gold. You could be already doing what God has set out for you to do. It can be like a video game where you have to pick up things along the way to be used at the right time. When we stray away from God's people we can easily feel lost and without a purpose. We have been given something from God that He wants you to share with others. Cast your line on the towpath and become a fisher of men. Talk to people about your faith and be bold about it. It may be the only chance they have of Jesus's salvation through you. Their chance of eternal life may depend on you speaking. Go for it, start at home.

**209.**

Are you paddling like mad under the water and making good headway with the current. We strive to do our best for our family, working all the hours we can, to provide. Money helps a lot but it is not everything. Spending time to love is the best investment, one that money can't buy. Give your family your full attention whenever you can. Put them first, but not before God. Your family is a gift from God, unwrap and enjoy them to the full. Treasure every moment with them, and they will with you.

**210.**

When the Israelites were escaping the Egyptians, Moses parted the waves and allowed them to walk through on dry land then going on towards the Promised Land. Their enemies were destroyed, may yours be also. May your nutrients, digestion and everything be freed, where you walk free, be clear everything is with the Lord. Anoint yourself with oil, let it flow all down you, be cleansed and be blessed by the holy spirit, take hold of the promises of God. Everything is done in God's good time.

**211.**

When we have lots of stress and strains, often our bodies can't cope and it gives us lots of pains. But if we just sit back and moan, quite often everything that is bad has grown, more pain more strains more stress. How can we address the stress and drain the Strain? Find a sanctuary, sit in solitude with the Lord on a retreat and ask God for healing and peace. Then feel the pain and stress just flow away.

**212.**

Be careful of the bounders that fence in the green pastures. Don't let your church be on the distant horizon. Take time to rest and enjoy the fruits of your labour, be ready for God's next assignment. Be prepared to be surprised at what God has got in store for you.

**213.**

Let God's light shine through you. Let His love for you radiate in your smile. Let your laughter be infectious and your joy know no bounds. Tread lightly upon the water, near where Moses was surely found. You will see miracles, that will astound.

**214.**

Allow God to plant you where he needs you to be. All the good things you have done will surely set you free. Make your love of God be your reference point, the anchor in times of doubt. Sing praise and worship. Raise your palms in thanks giving to our God in heaven above.

**215.**

What can we do to save each petal, that on this tree do grow? How can we save each fleeing refugee from a war, escaping sorrow? There is no simple answer, of this I do know. We can try and show compassion along the way as they go. Each one has a story, will we be part of that today? I hope there will be peace everlasting, so that is what I'll pray.

**216.**

At last spring is springing into action. The daffs are coming out. The ground that was sodden, is slowly drying out. It feels so good to have the sun, warm, upon your back. So go out walking in the fields so green. Take in the world around you, thank God for His creation, friend, neighbours and the nation. Look at what is in front of you and forget about your back.

**217.**

Walk on the water and see the reflections of the hills above. I look to the Hills where does my Help come from? My help comes from the Lord. When you reach the top of the mountain, take off your shoes and walk on the water because you are on Holy Ground. Be healed by the water of the Holy Spirit. When you're on the top of the Mountain ask God for his appointment, where He wants you to go. Look down into the valley where the Lord needs you, make your feet walk in the steps of Jesus Christ helping people, show them the way.

**218.**

Be as Bold as an Eagle. Be as bold as an eagle soaring above everything looking down from above, use your eyes and see what's below, see God's creation from a distance. Seek out what the Lord wants you to do. Seek the Holy spirit and let Him anoint you and fill you to overflowing.

**219.**

If you feel like the going is all uphill and your strength is all running away down hill. Hang in there like this tree. It has weathered many storms and seen the seasons change. In the summer it has given shade from the sun and fruit in the autumn. We don't know how many people have seen this tree or how many years it has left to grow. It is part of God's creation. We have the opportunity to thank God for all of our seasons and the people we have met and watch grow. Everyone is a blessing, be one tomorrow.

**220.**

When you are carrying a heavy burden along a bumpy road. The way seems never ending winding on beyond the horizon into the wind that blows. If you look around you and someone comes alongside. Don't refuse their offer to lighten up your load, let them walk beside you and chat along the way. They may know the load you carry because they have already been along this way. They were helped by others, they helped and prayed.

**221.**

When we reach a high viewpoint it's best to have a good look around and see what might possibly be on the horizon coming towards us. Always try and spend time with your parents, thank them for all the things that they have done in the past and that you love them. Say sorry and ask forgiveness for anything that you might have done that hurt them. Let them do the same. We all know that God loves us. Ask God also for forgiveness for the things we have done wrong and say thank you for all the things that we have had in the past and we're looking forward to in the future. Pray to God, to make ways so this can happen.

**222.**

Don't take, until it is given. Rebuke the storm's in your life. When you feel cut adrift and without the power to move forward. Call out a life boat to tow you back to a safe haven where you can weather the storms ahead. Take stock of the situation and make repairs wherever possible. Take on good provisions and crew. When the storm has passed, ready yourself and set a safe course for your next venture. Ask for God's blessing before you untie and set sail.

**223.**

Look for the sun breaking through the clouds in your life. We can be like a lost sheep, trying to do everything in our way. Getting frustrated and blaming everyone and everything for our bad luck. Seek out the Good Shepherd, He will lead to good pastures, making sure that you are safe and that He loves you unconditionally.

**224.**

God is aware of all our woes and sorrows. Don't think that He is not there. Cry out to Him for compassion, do it all in prayer. If you feel like He is on the distant horizon, so far, far away. He has already heard you and sent people to help you, to walk beside you and support you. Ask Jesus into your life, let the Holy Spirit reside within you and feel the love and care.

**225.**

When the view is blocked by the tangle of a hedgerow, try and raise above it, if you can't, then move on until you find a gap in the hedge. Then admire the view. Although the cloud seems gloomy it has risen from there before. Perhaps tomorrow it will seem brighter. Come back another day and you may see it totally different, things do look bad when everything seems to be going wrong but pray to God that he can change your attitude and you will see things on a brighter side. We all have a brighter future with God through Jesus and the Holy Spirit, they are here to guide us and to lighten our load.

**226.**

Go find a church near where you live or somewhere where you reside. Open the door and find a welcome, you will find many things inside. Keep going again and again and you will find someone in there that needs you. Don't stand outside and hide. There is such joy with sharing, with company around, such overflowing happiness when true love, too is found. So step up, step in and be bold and you will be amazed at what unfolds. Later it will be your story told.

**227.**

Take time to rest and recover, then rally all the troops around you. Be guided and supported, take the paths of righteousness and truth. Make every step deliberate as you go along the path. Watch all the things that are happening around you and never forget to laugh. It may look like an uphill struggle but on the other side it's easier going down. Everything you do, will make a difference and sometimes quite profound.

**228.**

God has given you the strength of Samson, the wisdom of Solomon and the leadership of Moses all through the Holy spirit so that you can fulfil the great tasks ahead of you. You are a son of God and truly blessed in many ways. You have been given a key to unlock people's potentials, use it.

**229.**

Get ready for a big adventure, be part of someone's life, it may only be a small bit, but it will be very bright. Can you see the person walking, they are all alone. Maybe they need some company, love and friendship grown.

**230.**

Behold the Lamb of God standing on his rock, overseeing all who struggle upwards seeking his presence. Be part of the living waters that flow down and make the valley's grow. Be the man that God sends, be a happy worker and gather in the harvest. Now, Go

**231.**

Look closely at the picture. Can you see the question? Can you research the answers? Look closely and you will see many things in life. To reach the top takes many steps but it is achievable. Work out what is the truth because the truth rules. Take the paths of righteousness and constantly take refreshment and drink water of life. The fountain of knowledge made up of many raindrops, look for all the details, answer questions clearly and only answer the questions that are there.

**232.**

When it's time as a fledgling, to leave the nest and fly. Be wise about your destination, travel light and leave some of your baggage behind. Have a hopeful journey making many friends along the way, you never know who you might meet and how you might help them. Wear your spiritual armour, be ready all the time. Keep in touch with family and let them know that you're fine.

**233.**

When we are part of a family and they look up to you. They see what you do and follow, learning from you too. You need deep roots to support a large family. When a storm comes, offer protection to all around. Encourage the younger ones to be independent so they can stand when we are not around. Don't be afraid because the Lord your God is with you all the time.

**234.**

Can world peace be infectious? Blue sky theory, solar panels, wonderful farmland, green pastures, peace rules in this field, let's hope it spreads around the world. What are we personally going to do about world peace? Start it in our own backyards and move on outwards.

**235.**

Lord we put our trust in you, we trust that you will be in hands of the surgeons and everything we do we do. Lord we have been brought out of drought and into plenty. The sky reflects in this water as your love reflects in our hearts. Bring healing to all who are in pain and suffering and recovering from operations. Protect us all Lord from infection of the body and the spirit.

**236.**

When a fence has been put across a field so vast, the separation is so painful, so devastating. Make sure that you are on the right side of the fence supporting your loved ones. Try and build a gate between them but with some control. Showing that you care. God loves us so much that He gave His son to die for us so we can be forgiven. Be there to support and have a ready shoulder to cry on. Try and find forgiveness and don't let bitterness control.

**237.**

Make sure that you get everything into the right perspective, without a shadow of doubt. Let God's light shine through you and may people see the love that you have for them is true. From the rising of the sun to the place where it sets, the name of the LORD is to be praised. (Psalm 113:3) Be the one that shows God's glorious creation here on earth and give Him the credit.

**238.**

Lord God bring the world together, bring it all in prayer, to love one another and bring peace to fight the enemy that is here. The virus is spreading, it's getting closer, to all the ones that I love and the ones that love you too. Help us to put aside our selfishness and put others first, help to go on loving as did first. Give your strength to all the workers that are on the front line, give them your presence something that's divine, help them in everything they do and help all the people that are ill, help them to know that help is coming. It's coming with you. Help us all to play our part however small it may be. May we give you the Glory when we see Victory.

**239.**

May God protect the people that are suffering, the people who are ill, people having treatment, may people overcome cancer and overcome this virus too. God gives us hope of recovery, may the count reduce to zero soon.

**240.**

May the doors of the home we always open for the love of God to come in May people open their hearts to Him and greet Him with a grin. May life be happy and fulfilled near the time to go may they be worshipping God. May the spirit be with them and renew them. In this time of worry, with the virus getting hold, may they be able to stay more years and get really, really old. May they have hope through you, may they know you're there to care, may they know the love of Jesus and there's nothing else to fear.

**241.**

and did those feet in aching times walk upon England's country green. Free from pain and walking in the presence of the Lord, take every step and enjoy it. It is so wonderful when we see prayers in action and prayers being carried out. Thank the Lord for everything that we have in our lives. Protects us Lord and takes away any doubts from us. Help us Lord to be pleased to know that you care.

**242.**

Love conquers all, life is full of choices. Do we choose to be at peace or do choose to stress about things in life, things that we have no control over whatsoever, take a choice today and be at peace. We need to say:- today I choose to be at peace, peace in the Lord, I choose to accept Jesus in me, Holy spirit come, be with me and guide me. Feel the stress just running off you like water off a raincoat. Just shake yourself free of all your stress and praise the Lord for your Deliverance

**243.**

All things are possible in the name of God and Love. God created the world and everything in it. God makes things happen, turn things around. Ask and you will receive a blessing from God. You will be amazed at what happens when you pray. We might think it is miraculous, but with God, that is just what He does.

**244.**

Preparing for retirement is a great change in life. Put aside and store the many treasures, the things that you have seen, all the many files of memories and all the things you dream. These are wonderful blessings from God. When we ask for things that are nice make sure that they are true. The time we spend keeping fit and walking around the world, it is wonderful to hear the sounds of every word of God. Is it alive, it lives in Jesus, may it be in you. Now keep on going and do what you can to help the people around you. Be prepared for change of plans and the things you did not expect.

**245.**

Toothache is like an ill fitting or worn out shoe. We go to the dentist for our teeth to be sorted, we go to the cobblers for our shoes to be repaid, but do we go to the lord for our souls to be renewed. I pray to the Lord that the Holy Spirit gives you a pain drain and a smile upon your face, then praise God with raised hands and arms and face.

**246.**

The first signs of the tsunami on the beach is when the sea recedes and everything on the seabed is revealed, all the rubbish that is left behind (panic buying, greed) then as the wave comes back it destroys and gets rid of so many things in front of it. After it has all settled down then another tsunami comes, the tsunami of love that restores and recovers the land and the people and all the rubbish has been swept away. Come holy spirit and cleanse the land.

**247.**

He will wipe every tear from their eyes. There will be no more death or mourning or crying or pain, for the old order of things has passed away.” The LORD is close to the brokenhearted and saves those who are crushed in spirit. ... Blessed are those who mourn, for they will be comforted. (Revelation 21:4) Run into the arms of the Lord, He will hug you. Shout with glee and be with Him. He wants you to sit on His knee and talk about your worries and talk about your sorrows. Replace it now with joy, that will be carried on in all of your tomorrows.

248.

Prepare yourself for the post virus, because the Lord has a post for you. Prepare a way in your heart for the Lord to give you his holy spirit, to empower you to do great things for Him. May your travellers be many, may you help others do the same, may every mile count as a blessing in our Lord's name.

**249.**

Always thank and praise the Lord for what we have, look back to the past and what a lot we put up with but also what we have been given. Think of all the things we have done and all people we have helped, through God we have been a blessing to the world. We think of the children that are struggling with their worries that are similar to ours but different. Will the children have hope, hope of something in the future, not be sorrowful, troubled and just moping around. It is time for action, there is needed to overcome this virus time, we are all placed to do our bit. We were made for times just like this, to help the children. Give the children hope, hope for the future like the leaf buds on this branch, the leaves are coming, a new season, a new beginning with God. Amen.

**250.**

When you are on the journey and you seem to be losing your way, heed the voice of someone calling who knows the correct way to go. Even though the signs have been taken away for painting, turn, try that way. Jesus is the correct direction and He will lead you on your way. Be careful you are not distracted away from his ways, look to Him, look to His word, look to be everywhere where He wants you to be. Be still and know that He is Lord. We were made for times such as these, we are to put ourselves forward in love. Put our selfish selves away and put others first. God is watching over us, just like a nurse.

## 251.

The road may seem long and narrow and always going uphill. Looking above to see a kite flying sideways, how does he do that? He fights against the wind and makes no headway, but if he just turns a bit he can swoop down upon the crows to scatter them away. The evil that is in this world is everywhere around, but if you turn to Jesus He can give you clear sight, a clear way and then it will feel like it's going downhill. That is His way, make the most of every moment, put a smile upon your face because God is with you, He loves you with his grace.

**252.**

Some seek sanctuary, some seek solitude, some seek everything to eat, but there is no food. Some want to go away somewhere, to be all alone, but when we are in this situation, we best just stay at home. With all our loved ones around us, they can't sit beside us here. Lord, we ask and pray that you would give us a little cheer. I know you are sitting beside me, your spirit resides within me, Lord I ask that you take away everybody's sins, help us lord, forgive us, for the bad things we have done in the past and bring us into a new future, one that will really last. Some people put up CCTV cameras, some put up iron gates, some people are so frightened of everything that waits. Lord help us to know that you are our security, everything Lord we give to you, we give it happily.

**253.**

Well, here we are sitting pretty, sitting on the inside looking out of the window, looking for a Brighter Side. Now it's time to catch up with the things that we have never had time to do, read that lovely book, watch the TV and view, all the box sets that are available, everything is there, don't forget to read your Bible, about how God is with His care. Don't forget it's nearly Easter and what Jesus did for us. We can call upon our God and ask for Him to forgive us, forgive us for all the things we've done wrong and bring us closer to Him. Ask for the Holy Spirit to come. Enter into my life I'm asking, put the world aside and be a follower of Christ and say it with pride.

**254.**

When you have been out dog walking, happy dog by your side, when you get home has it been a pleasure or a chore? For the dog, this means happy nessie, she's been sniffing all around, checking out the local wee mail from other dogs and friends. When you get back home and wash her muddy paws, get the food ready and the dog is laying down beside you, thinking of her walk. Now that's all finished, it's time to go back to work. Everything we do is a pleasure, well that is what we thought. Now we have the virus somewhere near to us, we wonder if we still have a job, or can we catch a bus? Let's all hope and pray, that it all gets sorted out and it all gets back to the normal way.

**255.**

If every picture tells 1000 words, what would your picture be? To paint a picture of today, with all the virus around? What would be the colours you would use on your palette, the type of materials, the ones we have to hand? Have all the colours for an understanding, of how we can paint peace, a picture of happiness to come. The only thing we need now is Hope, an ability to put you number one, that is you God. We need you to help us, we cry out to you, for peace and your grace to overcome this virus in the world today. What is the colour of Victory, not the colour of submission of fear. We need to get on and pray.

**256.**

According to the scientists, the colour of victory is red. According to the Bible Jesus shed his blood for us, the colour of that is red and He overcame death and was victorious and arose again, so we can come to God through Him, that is Victory in itself. Wow! Keep walking while you can, to keep fit and healthy. Walk with God and keep spiritually healthy too and on into eternity.

**257.**

Reporting on what is happening outside to you in your self isolation. Things are changing in the world, things are getting quieter, the shoppers are not so busy queuing and the town is almost empty, lots of shops are closed. The roads are quiet, the skies are clear, not a plane to be seen. Walking along the towpath it's absolutely crowded, loads of people all the way along. People are getting healthy going outside in the fresh air rather than being stuck at home or in the pub. Now I wonder how many people will be turning to their Bibles and looking for a safe haven in the Lord. He will save us all if we turn to Him and look for safety in Him, it is assured.

**258.**

Look to the skies, look at the hills what a wonderful sight. No aircraft as well, no traffic on the roads. It's just wonderful, peaceful and tranquil, everything is looking good. The world is going through a great change. There's going to be wonderful things to come. The virus will be gone, God will have his victory, once His work is done. Prepare ye the way for the Lord, for he is making way for a new generation.

**259.**

This is a prayer for the one to be, the one that will come soon, they will be in front of me and smiling and that will be soon. You will say, oh how happy is me, the one to be, the one to be adored. Drawing in all the love and care, the smiles I will see on people's faces and the joy and the everlasting care. I am just waiting for 2 B and God knows I'm here.

**260.**

Take care my boy, take care now, clear your toys and be ready for noise and make space for just one more. Be ready to share, to love and care for your mother and father too. See you there and be aware that there will be a lot of things to do, help everyone you can with a smile, be happy and joyful too. Because everybody is very happy that you have got someone else with you. Don't forget that God loves you so much, He really does, it's true. You have a responsibility to tell your friends about him too.

**261.**

When we cry out to God. Why me, what have I done wrong, why can't I do this, do that, why is this all happening? Sometimes the answer is wait, be patient. What you are asking for now is not quite the right time and things would have gone wrong if that happened. The Lord has got it all in hand just keep praying to him and thanking Him, Praise Him in every situation that comes along, keep praising and thanking Him. Later on we'll know and will thank you for his blessing upon the new situation. Everything comes to him who waits. Read psalm 121. That's where your help comes from. Make a list on a large piece of paper in small writing, all the blessings that you have had from God in your lifetime. Don't stop until you have counted everyone. Then write on the back of the postage stamp the things that have not.

**262.**

Don't worry, just be concerned. Pray for others as you would like people to pray for you. May God strengthen your right arm and hand so you can pray and be happy with Him. Become a road builder in prayer and make ways for the Lord, make roads into his Kingdom. You are a prayer warrior, you are standing firm in the Lord's strength. Be lifted up and enjoy the victory, this is the Lord's and it is coming. Look around at all the angels that surround us; they're on the hills waiting to battle when the cry is called.

**263.**

Build a wall, a really strong wall of prayer around the ones you love. Build a keep tower too, a tower of Love. Pray for all the ones you know and also the ones you don't. Pray for love and protection from the one above. Pray for all the people, whose loved ones who have passed away, pray for them as they need your help and every other day. Pray for all the people that have fallen victim to this virus and pray that God will help us all get away from all this. Pray for restoration and for those who are crippled in fear. Pray for them to walk free of the crisis within them.

**264.**

Now is the time to search for what really matters in your life and the life of others as well. Check out all your values and see if they are the correct ones? Do they measure up or whether they just weak or want's or selfish means. Find out what God wants you to do in this new life. Do things which will improve you, things that will make you stronger and healthier and full of knowledge. The Lord has given us all the chance to change, make the most of it and become a better person when all this virus thing has finished. God has got something for you to do, so be prepared. Read about the fruits of the spirit and show them in your life. Galatians 5:22-23

265.

Don't get stressed out about what you have no control over. Prepare for the best. Do the things you can do, do them carefully and look after one another. What do you think this sign means normally? Try and see it differently. It could mean don't get stressed out and all tight and going round the bend, there is some distance to go yet, look after the older people in S I Expect all these problems to go on for 30 days or more.

Prepare for things to be different and make sure that LOVE comes out on top.

**266.**

Now is the time to check out your neighbours, check them out as you would like them to check you, make sure that you are passing on the love that you would like as well. Make sure you eat well and exercise. Make sure you keep yourself healthy but keep yourself isolated, away from any viruses that are going around. Be kind to one another, talk and communicate. Seek God's love in everything and pass it on. Fear not for the Lord your God is with you.

**267.**

Keep calm, be still and know that the Lord is with you. Claim Victory over illness, claim it good and strong, claim it and give God thanks and praise, He will keep you going on. Look into the Bible and look for calming words, look for encouragement to help you carry on. He is with you there in your isolation. May your count be down to 0 for this I praise God.

**268.**

Reasons to be Cheerful 1, 2, 3. Count your many blessings, on your family tree, thank God for every one of them, especially when you pray. Thank Him for your good health that you have today and may it last forever. If you know Jesus you will have life on into eternity.

**269.**

Throw Your Hands up heavenwards, throw them up to the Lord, throw them up to the Lord in praise. Don't cry. Praise Him for the quiet blue skies, praise Him for our neighbors, praise the Lord for everything. We are asked to keep our social distance, keep two arms lengths apart. but with the Lord our God, try to open up your arms and give our God a hug. Bring him closer, more into your life. Show him that you love Him because He loves you so much, He gave his only son, He died upon the cross for us, so His Kingdom can come.

270.

Thank God for His heavenly intervention, thank God for good health for your father and his illness overcome. May he keep on being healthy. May the Holy Spirit come into his life and bless him. May he become a blessing, all and every time. May he know that you love him. Thank you for everything, thank you for your life.

**271.**

Let the Lord fill the Void when you're left on your own, when we lose a loved one. Accept from others their condolences, they mean it well true. Often they do not know what you're going through. Call out to Jesus He knows all about you. Everyone's loss is different, everyone's is true. Accept the love and condolences from Jesus He died just for you just for you. Speak to your children, don't leave them out, share your worries and your problems and don't leave out the doubt but go to God and ask Him to help you through.

**272.**

Be assured that God is watching over you. He will send people to support and help you. He knows your problems and your troubles. He is there beside you, this may be a surprise to you but it is true, God knows everything. He knows you're coming and you're going. You are never alone with God because He sits beside you His Holy Spirit resides within you, just open up your heart, pray to him constantly. May you keep physically, mentally and spiritually fit. Listen to the word of God on anything you can.

**273.**

May the peace of the lord be always with you, always all the time. Feel his presence take his love so many things there to find. All things are changing, changing from above. Changing governments and powers and changing people towards love. Be the part of the Eco revolution. Seek love and reconciliation, be part of the love eruption that covers your country in love. Break Free of the bonds that hold you and replace sin with love.

**274.**

From infinite love and beyond, that is what God has for us, He loves us so much He sent His son to die for us so we can go through Jesus into heaven. Make sure that your house is built on solid rock, the word of God. Make sure everything has settled in the foundations before you move. Noah had to go into self isolation in the Arch. It took time for the flooding to go down before he could go on solid earth. He could then set up his house and home. Sit upon your blessings and your healing too, thank God for His provisions and everything on queue.

**275.**

Do you feel like you've been going round and round in circles at work? So much has been going on, never had time to stop and listen to what God is saying to you. Now is a time to be at peace with Him and listen in silence to what He has to say. Now we have the time to spend with our family, listen to what they have to say too. Give them love and hugs when you can, be able to get together when you pray. Take this time as an enforced blessing, you may not have another time or opportunity like this, help your children to learn things and do it with a kiss. When you find a blessing mark it with a stone, take the opportunity to learn new things, read your Bible too, when all this is over and we get back to normal, everything will be brighter and clever and so will you.

**276.**

Lord bless all people that are indoors self isolating. Bless them and bless all the people that are around them. Help them all to do good things and know that the Lord is with them. May this be an opportunity for more people to come to the Lord. May we all be a witness. Maybe we should be the people in the ark not the ones outside. Now is the time to reflect on all things. May be the world will repent and turn to the Lord.

**277.**

Lord, bless all the people that serve selflessly. Help them Lord, continue to encourage them, you know what they are doing and they're doing it for love. The things done for the least of you may they be done in Your Name Lord. You teach us to go the extra mile and to love our neighbours. Help us Lord to sow seeds of love so you can reap the harvest.

**278.**

Jesus said do you love me? Feed my sheep. Blessed are they that follow the Lords instructions. Matthew 25:40 "The King will reply, 'Truly I tell you, whatever you did for one of the least of these brothers and sisters of mine, you did for me.

**279.**

Be a man in authority and under authority, you are under the authority of God. Be strong, fair and true in all that you do. You are a guardian. You are in Control. Stand upon the ramparts and warn people about the oncoming danger, take heed among your other fellows, stand together and stand firm. Ask for help when you need it, don't try and stand-alone, no man is an island. Find someone to pray with you, confide your worries to them and let them take it to Jesus, if you can't do that, ask for forgiveness for your sins direct to Jesus and give your life to Him.

**280.**

Find a stone or pebble and write a blessing down upon its surface, then put it in a bucket, keep on doing that until the buckets are full. Get some cement and cement them in and make them good and firm. Then your blessings will be setting concrete, concrete that won't break or breakdown. Varnish it and make sure that the writing will always be found. Whenever you are troubled, look at the stones and then count your blessings one by one. Start another bucket, a bucket full of blessings will keep you going strong. If you can remember them when you're going to bed, count a thousand blessings and then perhaps one more, then keep on, keep on going and then you might soundly snore.

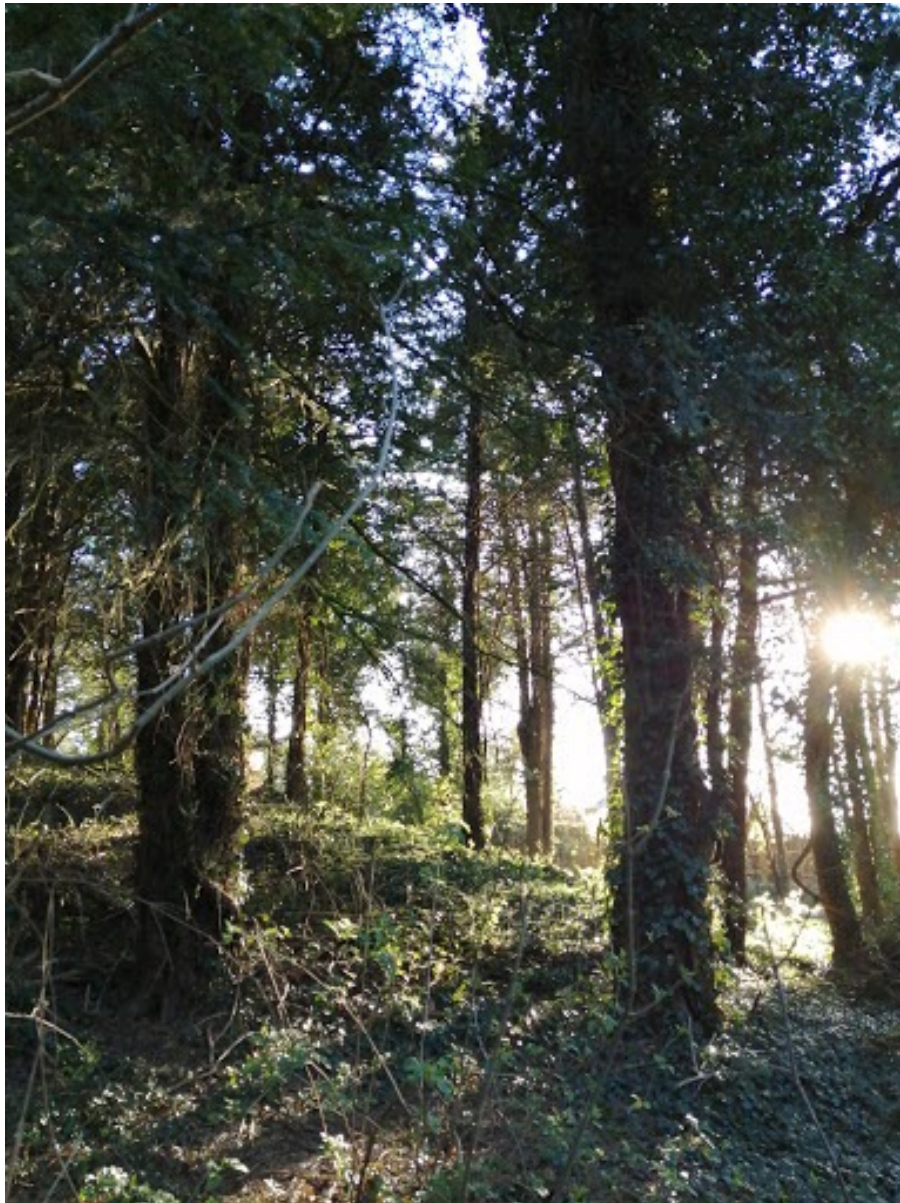

**281.**

If you have knowledge and wisdom don't store it or away. Put it somewhere where it can be found and use it wisely. Help people to learn in many different ways, help them to do the things that will keep them happy, cheerful and pray. Watch the kite a soaring, with the thermals under its wings, it is lifted up gently. Let the Lord's spirits lift you up as well. May you have tears of laughter, running down your cheeks. So live, love and laughter pass it on with a smile. We will be shutting but only for a while.

**282.**

Don't rest upon your sorrows, don't let them take hold of you, take heart and take love in your grasp, because God loves you. Don't hide away inside of yourself, just hide in your room, just keep people at arm's length, let people keep in contact with you. Speak to many people, in any way you can, apps, Facebook, Twitter, because they need your help too. Rub oil upon your wounds and let them heal and there may be just a small scar, it may not go right away, but things will always get better, have a cheering heart. A new world awaits us, when all this is over and we can put the old away.

**283.**

Put on the full armour of God, through the Holy spirit. Put it on and make sure it is well buckled, everything is done uptight and your sword is sharpened. On top of that make sure you're well covered and protected with your personal protection. May you be provided with all that you require to do a wonderful job that will really inspire. No need to do any heroics, you are a hero already, just be aware that everybody is rooting for you now. Call out and cry for all the things you need and God will come and intercede for you. Sleep peacefully and soundly don't let any worries be beside you. God is watching over you. Open your eyes in the morning and see the angels that are surrounding you, they're all on your side.

**284.**

It's time to offer up ourselves to God and put ourselves on line. Ask him where He wants to place us, like the little man on Google Maps. Let God choose you, pick you up and drop you from above. As you gently drift down into the place He has chosen, have a look around, it may be just right where you are now. Ask for the strength and purpose to do this, His will, be ready and listen to His calling but at this very moment, chill and be still.

**285.**

When people are all sitting at home worrying and panicking about the little things. Sometimes think about people on the front-line, digging in for a long term. Finding it very hard to find a grin let alone some laughter or some joy in their hearts. So help us Lord to remember them and send our prayers up to you, that would be a start. We pray for all the people supporting them, the many and the few. With life's ever changing priorities, help us to get it right with you. To help the ones twork on the front-line, the fight against this virus, help us to overcome the fear and when it is all over, we all get together and give you the victory Lord and everybody gives you three cheers.

**286.**

Lord help us, please help us all through these troubles, help us to find work, so that we are able to support one another, financially, spiritually and physically. Lord we look forward to hearing from you, we look forward to hearing all the things that are going to happen in this world. Lord, we put our trust in you. We trust you with everything, when the wind of change is blowing with such strength and force. Make sure your paths are wide and long. Don't restrict yourself. Make sure you are prepared, making good use of your time in readiness for work. Respect yourself. The Lord will provide you more things at the correct time. Do not lose your connections. Keep in touch, let people know how you feel and don't be too concerned. Help as many people as you can in the same situation and you'll be surprised at what happens next.

287.

The Lord will provide you a safe passage, so take the safe road. Let the Lord give you an umbrella of protection. Be prepared to do what God wants you to do, He has provided you with all the knowledge that's required for your next step. You need to offer up your help to others and receive help when it is offered to you. When the stormy winds blow, take shelter. Take time to rest and restore and recover. Keep your lamp oil well topped up, your wick trimmed, your light burning and be prepared.

**288.**

You are a house builder, build my house, build the church, you are a temple for the holy spirit. Be a blessing to all, each blessing equals one brick, take it one brick at a time and bonded them together with friendship and love. Build a shelter for the Lord. Run the race, aim for first place and run until it is finished.

**289.**

Angels are messengers from heaven. They bring words of healing, peace, comfort and warmth. Allow the Holy Spirit to be with you, He will heal you, take away the pains, aches, stiff neck and anything that is untoward. Praise the Lord, dance in gay abandon, raise your hands in praise and thank Him for your healing, for all the blessings from the past and the greater blessings that are to come, when we all danced before the Lord. Lean back and throw your arms in the air, throw your head back and shout at the top of your voice and praise and sing to the Lord. Call Heaven down to Earth.

**290.**

The Lord is with you, with you're going out and you're coming in, from the rising of the sun and the setting of the same, the Lord is protecting you, here by your side. Rise up rise up you army of Lord, the soldiers of Christ take victory in your grasp, shout praises and worship the Lord for His protection. Be bold, Be strong. Do not be like a tree with ivy entangling around, do not be entangled by fear, make sure that you dispose of the fear, cut it off from the source. You Will Survive this storm, trust in the Lord. Look for the signs from the doves of peace.

**291.**

Thank you God, that we can come to you and ask you in prayer, praise and worship you for all the things that you do. Lord please pour out your mercy upon us all, forgive us our sins and help us to accept Jesus as our saviour. Be with us in this time of need and help us to help others. Fill us with love and concern for others. Help us to keep in contact with the lonely people isolating. Thank you for your support to all the families and all the people that are working hard, especially the people in the NHS and all the other services. Now is the time to plant a tree in Hope for the future.

**292.**

Be assured that during the day, the sun is always shining above the clouds. Things may look gloomy from the ground below the clouds but God has got everything in hand. Call on the Lord at all times and all situations, praise Him for what you have had and what is to come. When you're in a foreign land, go to your embassy for help and assistance from the ambassador. When we're in this world we call to heaven for assistance, we have got Jesus to plead on our behalf to God as the great provider. If we all pray for one another then you will know that someone is praying for you now.

**293.**

When a mother hen has chicks, she fluffs up her feathers and all the chicks come running and cuddle underneath the feathers for warmth and protection. As they grow up they leave the nest. The mother may still be concerned for them, wherever they are. Love never stops, love conquers all. God loves us, He and wants His children to know that He is there to comfort them in times of need. Everybody is carrying a prayer burden at some time or other. It can be so heavy it weighs us down and stops us functioning. Let me take some of the load from you, let the Lord carry your troubles, come to Lord and be refreshed.

**294.**

God knows you and He loves you. Be a receptacle for love from all people allow them to love you and help you in every way. Then you are fulfilling their gifts of helping other people, if you receive blessings from other people they are blessed also by you receiving it. Jesus said love one another. Thank people for their help and assistance and blessing and thank God for them as well. Find strength in prayers and praise the Lord every day. Seize the day as a blessing and don't let it slip away.

**295.**

Friends are a blessing, you know when they're true friends when you can go to them, ask them for help when you are in need and when you have troubles. Friends that you can rely on are a blessing from God. Friends who share your problems with others are even greater, spread the love, spread God's message to the world that He loves them, everything is from God. Carbon when put under great pressure becomes a diamond. When we are under great pressure, our friends around us make us into diamonds and they are sparkling too, like the stars in the night sky and God love comes through our friends and we pass it on. Pass on God's love and forward it to all, past it forward and blessings will pour down from Him to everyone.

**296.**

When the battle is nearly over and you're on the victor's side, who do we lift up in praise and put them as the number one. We thank all the people that have supported us and helped us through this time. We thank everyone that has done their bit, it was just in time. We thank all the people that supplied the drugs and everyone behind them. There's so many things and people we need to thank and praise, but first we need to thank and praise God. God has brought you through. God has got more things for you to do, He has a purpose in your life, so call upon him now. Jesus died this Easter tide, He died just for you, so you can call to Jesus directly. Ask Jesus into your life and ask Him what he has for you, you'll be amazed that's a blessing and the things that are ahead of you, He has such a wonderful plan for you, you would never thought, you'll be amazed, just wait and watch and listen, He is at your side, now pray. Trust Him He is your doctor. You will never know how many people have been praying for your recovery. I am just one, that walked a mile and prayed for you.

**297.**

When we come to prayer, do we make a shopping list beforehand and then reel it out. Is it:- help and want, want, want all the way just ask and pray but everyone wants the same prayers for health and happiness or release from worries and problems. Don't stop praying because you think God's rather busy now, who are all the people praying to Him? God wants everyone in the whole wide world to pray to Him. He is our father in heaven, He sent his son, so we will turn to Him, He died on the cross and rose again. He sent his spirit to help us, to help one another, so do the miraculous things that Jesus did. We pray to the Lord for the health of the whole world against the virus and that everything will come good in the end. The question, does the tree make a noise when it falls in the forest and nobody's there to hear it? It's the same with prayers but God is there, He does hear, He does respond. Sometimes it's yes, sometimes it's yes but not now and sometimes it's no, we just have to wait and see.

**298.**

We praise you Lord, we praise you in the morning, we praise you Lord, we praise you for our healing. We praise you Lord, we praise you in the streets, will praise you Lord and people we will meet. We praise you Lord all day long, we praise you Lord in prayer and song. We thank you Lord that you are near, thank you Lord for your love and you are here, thank you Lord for our health and wealth, thank you Lord we that we are alive, thank you Lord that you came and died, thank you Lord for your arms open wide. All I really want to say is, a big thank you. Amen

**299.**

When we plant a seed in the ground, we do it with hope and we do it because we expect things to happen, if we water, feed and tend the plant as it grows, it will grow into full maturity, and there will be fruit in good time. When we are given a second chance of life, it's what we do with that life that matters. Who do we thank for it is the main thing. God has given you a second chance, don't let it slip away, praise Him and thank Him for the time that you have, thank Him for the time that has passed, all the blessings He has poured out on you, you may not realise this, He is with you all the time. Open your heart, let him in and have total healing through the holy spirit. You will take that with you on into the future, into eternity. God is with you, He is your father and he wants you to love Him as much as He loves you. Don't self isolate yourself from God. Give Him a great big hug and a smile and enjoy your new life.

**300.**

"I am the Alpha and the Omega," says the Lord God, who is and was and is to come, the Almighty. God is always with us, God is by our side. Thank God that you have found Him, in time, that you have found the Lord, that you have found the love of Jesus, accept the holy spirit into your life and into your heart, let him fill you to overflowing with love. Take comfort in the Lord. Ask the Lord to give you the gifts of the Holy spirit. Without God, there is no hope, there is nothing, in this, people are isolated from hope, love and comfort. God knows your tears and sorrows and our joys. He has been preparing you for times like these. A new tree has been planted to replace the old. I have watered it for you from your tears so that it might thrive. Peace be always with you.

**301.**

When life seems all tangled, wires everywhere, connection, all sorts of things are on hold. It's time to sweep up and get things sorted out in our lives. God has given us time and opportunity to get right with Him, take that opportunity and don't let it slip away. Just see how things are changing for the better. Go and sit on a bench and watch things changing in front of you. Embrace the change, but keep the best bits of your old life going. God has got everything in hand, everything will work out for His purposes. God is Love. Let Love fill your life and be the main part of it. Love everyone and they will love you back.

**302.**

God, here I am. I'm listening, listening to what you say. I know sometimes you can't get a word in edgeways because of what I pray, I will put away my shopping list, put away all things, distractions, I'm listening Lord. You are my main attraction. I have time for you Lord now, I have so much time on my hands. I want you here beside me. I want you when I stand. Lord. I need you close to me, so close, so close by my side. I know that you provide your holy spirit, it is within me now, He resides. He gives me hope, He is with me now, so I can keep on going. I need you Lord in desperation, I need you here please come, I know this Easter time is all about your son, about how He died on the cross just to save us from our sins, so we can come to you God and you will listen and be within. I thank you Lord for everything, the blessings that you pour out on me, the blessings that you pour on everyone that comes to thee.

**303.**

When flood was over and the waters began to recede, God saw that Noah was still in the ark indeed. He had been self isolating with his family, all the others that didn't go with him were not there for eternity. We are now self isolating from man but not from You God, we need you now so much. We come to you Lord for help and sanctuary. Help us to do what is needed. Help us to restrict everything so there is nothing left but you Lord, you are the only one that we need, you Lord are here with us, beside us, behind us. We reach out to you for your help with the situation, help us all Lord, to pull together, bring again everyone together, to every different nation. May the world be one, then overcome this virus. Lord be with all the people that fail to survive the day and all their families. Help us in every way, you are the one that overcomes, help us Lord to flatten out the peak of infections and Lord help us to do everything for the strong and the weak to stop this affliction.

**304.**

Lord we have been so busy, doing things and rushing about, everything has been a selfish world with crowds and crowds and crowds of people going here, there and everywhere. Lots of the things are unnecessary and people just didn't care for one another. Now it has changed, it has changed quite a lot, Lord we are like a cocoon or chrysalis and we are isolating inside, isolating from the world. We are all in self protection and protecting everyone else. When we emerge from all of this, we will be like butterflies, emerging with wonderful colourful wings, flying on the summer breeze and all these wonderful things. All this Lord, we wait for you, we wait for your time of Victory. Help us all, the strong, weak and vulnerable. We pray for your intervention. We hope for miraculous healing, we hope for all things good, everything that should be gone and we have done all we could. We ask your forgiveness, for all the mess that we have caused, God help us to repair this planet, because it is Yours.

**305.**

Thank you God for new beginnings, thank you in every way, thank you that Noah came out of the ark and that's the new beginning we say, thank you Lord, we say thank you, thank you for new life, we thank you Lord for the bees buzzing, gracefully around the flowers, in sight, for nectar to take home to provide the new store of honey for everyone, nationwide. Thank you for tears of joy and laughter, for all the good things that are to come. New life is a celebration to all that are around. Cherish every moment, listen to every sound, everything from God is a blessing from heaven to this ground. Capture all of it and share the love around.

**306.**

Prepare ye the way for the Lord. Four walls do not a prison make, it is the lies that hold you within. Teach the truth, all about bad things and sin and set the prisoners free. Give them an escape plan from hate, unforgiveness and anger and all those other things, let God take over and be there and give them eternal love from heaven. Peel back their hearts and minds and prepare ye the way for the Lord, the Lord is there to come and help them and support them each and every one. For they are God's children, He knows them, each hair on their head, when they wake up in the morning and then when they go to bed. Tell them a bed side story, to help them sleep all night and wake up again in the morning with Jesus in their sight.

**307.**

Make every day a blessing like new leaves on the tree. Say words of love and thanksgiving, to God and family. Take time to say you're sorry for anything you've done wrong. Then start singing, a really joyful song. Ask God for His healing hands upon you, ask him loud and clear, don't be withholding anything, just ask him with a cheerful heart. Thanking God for you. Prepare yourself for surprises, prepare yourself for the Holy spirit, prepare the way, make good your house, make your face smile for God really loves you. He loves you through and through, His Love is never-ending, it is always true.

**308.**

If you feel sorrow, you are without jollity, you feel so sad and lonely and things are not going right. Just when you cry, collect your tears and put them in a jar. Then when you are by a river, pour the tears into the flow and then they will go far. They may go right down to the sea and there they may reside, or out into the oceans, there your tears will be washed far away. They may return as rain clouds and bring rain that waters the ground and grow a crop of outstanding love, something to astound. So cry me a river and wash away your blues. Keep on going on wards, trying and see just what grows.

**309.**

Put on God's full armour, put it on good and tied, Make sure everything is correct, shiny and bright. Put on your personal protection, everything on and make sure that you are ready for the fight and may the battle begin in earnest to fight that virus. Be ready at any moment to take on the challenge, to take on the virus and fight it all the way. Things are going to change for better or for worse, make sure that you are there ready today. The fighting is not going to be easy as many people fall, but remember God is with you and don't let that go from your heart, take strength from the Lord He is with you, He is with us all. You are back at the front line now and standing tall.

**310.**

When the things you have done have stopped and gone away. Now you're looking for a new job, one that really pays. The time is now, to learn more things, the things that you haven't done before and when the time comes shortly, you'll be ready for the job. One that's even more, more than you were expecting, so wonderful and great, it puts the other job into the shadows, now's the time to wait.

**311.**

Supplies, supplies, supplies. An army with a full stomach and a long way to go, is no good without bullets, guns and ammunition nothing can be done. Bring up the support and carry all the things to the front line, to fight the virus that is coming with its might. With all the personal protection, that is carried on the roads, to hospitals, nurses and doctors that are fighting the good fight. May all the miles you travel be a blessing in the skies, may you be welcomed with many smiles, for the supplies that you are bringing, is hope and salvation to the many, your work you're doing is worth every penny. Transportation to the nation, of pills, potions and protection they won't be forgetting you. Drive along in safety with no one on the roads, let Jesus be your cab mate and the Holy Spirit reside. When you do your delivery, see everyone with arms opened wide, but no hugs and kisses at this time. Just wait around and feel God's love inside.

**312.**

Personal protection? God gives us our personal protection in our homes. Help us to be healthy and we think of you all the time Lord, thank you that you are with us in our self isolation, above, around, below us your love never ends. Heal us of all our afflictions, take them far away and help us Lord to be protected, from the virus from now, today and forever. Lord put a dome of love around us for our protection from our sins, please forgive us, we are sorry Lord, for anything we've done which hasn't pleased you. We thank you Lord for all our yesterdays and we thank you for today. We pray for many tomorrow's and this is what we pray, that you bless us and keep us in your merciful safe hands today.

**313.**

When all are safely gathered in and batten down, ready for the storm, now is the time to think back about all the times before we were born, many things have happened all along the way. One thing we must do when we're all together, is to pray, pray to our God in heaven, for his help to come, help that we need and we need it now. It is a new journey, new ways to come, to find our whereabouts and see a new life has begun, a new life with Jesus is at the front, make sure that you believe in Him and what He is all about. When you come to a crossing make sure you have a map, to know which way to turn, is it this way or that. Listen to the skylarks rising up into the sky, trilling their hearts out when there's nobody around. If you go out into the wide open fields, listen can you hear the silent sounds of the virus storm approaching and it's getting near.

**314.**

We can all take duvet days now in the dozen and then two more if you're feeling poorly then isolate and snore, trying to get over it and time to recoup. Time to get everything sorted and recovered, then you are back on route. Trying to keep safe and secluded is not an easy thing to do, there's so many things that have to be done. Now the time to find new paths, new ways of doing things, being inventive and using up all the things we have in store. Keep a watch eye out for others, make sure they are OK, phone around and check because they are lonely too, Now it's just one word of advice, don't go gallivanting around and touching people as we used to do. We will get back to that sometime, I'm sure, then we will be able to welcome many people through our doors.

**315.**

Write down all the new words and sayings that are coming into being, be safe, self isolating and many other things. On the list mark positive against the sayings or negative ones the same, hopefully they'll be more positive than negative and the negative ones will go away. Write down all the blessings and the things that have changed, less pollution, light nights, a lot are not just happening in our backyard, they are happening all around. Listen to the silence, no aircraft flying around, look at the stars you can see them up above. God is in His heaven and pouring out His love. Look for all the deeds of kindness, all sorts of people are doing, people volunteering and transporting drugs all around, all things like that are helping one another, its God's love on the ground. It's time to spend with our family. We couldn't do this before, because we were too busy, now we can adore.

**316.**

Check out in the Bible and see how many people were dancing. See what the Israelite, David and so many more people were dancing to or for. Dance in, the young generation, the new things to begin, now you are part of this dance to the Lord in joy and celebration. When all this our great nation has overcome and has victory over the virus. Be part of the great tsunami of love pouring out to people, be part of the new generation that brings in so many wonderful things, be positive and think of what you can do. I am the Lord of the Dance, be part of it.

**317.**

Do you have so many if and buts and maybes or something in about about a week now? Don't try and predict anything because everything is uncertain and we are not in control. All the dice are being shaken, nothing is certain, nothing at all, house prices, house sales, anything, every is on stall. Sit tight with family, just be patient, enjoy the time you have together and make the most of it by using the time to learn new things. Start to read your Bible from the start to the end. Don't go climbing up the wall just use the gate beside you. If you feel like you are shadowboxing don't let your shadow win.

**318.**

Life is like a butterfly. But you have to be as strong as a stone. Build your faith upon the Rock, Jesus. Be resolved. Contact all the people you know. There are many people with the same worries as you. If you are lonely, phone or contact someone you may think is lonely too. Then the two of you are no longer lonely. communicate. Give help and receive help and both are blessed together. Be like an athlete that trains and keeps on improving to get stronger, fitter, faster. Do the same with your spiritual life, read the Bible, learn more, go out and pray for people. Communicate the gospel to them, go and make disciples of the world. Butterflies have three stages of their life, do we have the same?

**319.**

Pass your blessings forward. Pass it on to anyone and don't stop giving. Cast your bread upon the waters and see what you're getting in return, don't do it just for gain or profit. Find a new route or path to get to the same destination. Then you may be able to give it to the nation, a new way that has just begun a new way that has just appeared. A new and different way that will chase away the fears. Do it after listening and taking time to pause, that way it always comes from God. Invent a new language, one that everyone can understand, one that's easy and progressive and base it all on love.

**320.**

When you are preparing for marriage, make sure that you know, how, who, when and where you were brought together. Everything has been for a purpose to bring you two together, make sure that you know that you can go through the stormy weather, together. Make sure you are held together with a really strong glue. The glue of love from God and Jesus who died for you, the holy spirit will be within you and make you anew, when you become a married couple. Look after each other. Listen to what each other says and their point of view, sometimes they may be right and sometimes may be wrong but listen and soon the words together become a song of worship to God. Now there are so many uncertainties, statistics and points of view. But the Word of God is never changing, look to him for help, He will carry you through.

**321.**

Things are forever changing, instead of to have and to hold, it's now to have and on hold, for a while. Be patient, all good things come to those who wait. Wait on the Lord for He is gracious, He is great at giving us things we pray for. Support one another in these times of frustration. You may be disappointed but don't be downhearted, the Lord, He has got all things sorted out for you, He is preparing for even greater things for you to come. He is the God provider, He will provide services which you didn't imagine. Set a place for Him at your high table and celebrate with Him in all you do. Jesus is a great one to have at weddings. Support one another and make sure things are true. Pray together and God and love will bring you through.

**322.**

Let motion be the lotion in this troubled time. Don't let your emotions take over if you're worried and troubled, on Jesus you can rely. He is our redeeming saviour, He is the one that cares, He's sent from God and has sent his spirit here. As we are so frustrated He is in there and He cares, take every day at a time and count your blessings one by one. If your life feels that you are all of a tangle, look at the good things in front of you, look for signs of resurrection and a new beginning here. Jesus came to die for us and that is something clear. Enjoy your time together, be as one with the Lord. Close your eyes and look for the things that are unseen in your life.

**323.**

When a battle plan is set and the fighting lines are drawn. A good general hand picks his best leaders and they hand pick their best soldiers, the ones that they know are good and reliable. Only the best are at the front and all the people support behind, everything can then work like clockwork. The enemy is undermined when you do everything cheerfully because if you're always positive, then the negative can't win. Jesus defeated death when He died upon the cross, He rose again so we can come to the Father through Him. Come, holy spirit fill us all in our needy hours. Help us and protect us, all the people in our family near and far. Support and renew all the elderly and all the people that are infirm and help all the people that have the virus and heal them in turn. Be with us all Lord and help us when we cry out to you for help.

**324.**

When people are in trouble it is the last thing they shouted out is "God help me". In this time of trouble people are turning to God for their help and solace, to help with their problems and we hope and pray that they stay with the Word of God. Hope that they learn more about sacrifice and giving their time, that they have plenty of now, to help other people and show that they really do care and that the Holy Spirit comes to the surface in their hearts, that they give themselves to Lord and be full of joy peace patience kindness goodness faithfulness gentleness and self-control, may those fruits come into fruition, earliest things have blossom, may everything be fruitful, pouring out gifts of the holy spirit upon them. May they be filled with joy knowing that God is there saviour. It's amazing how many people refuse a blessing from God, even when it is offered to them. We all have a choice, we can choose what we do, what we say and how we feel. God has given that gift to us, free will and choice. I choose Jesus, I hope you do too.

**325.**

Lord at this time of uncertainty, you are our number one, you are a rock we rest on you. We rely on you, you are the one that we build our faith upon. As we come towards Easter we are unable to worship you in our churches together but we are still a family of God in our houses and wherever we find sanctuary, you are there. We asked for a cover of protection from your Holy spirit, help us Lord to work within our restrictions, may we pour out our blessings on others and Lord we want to worship you where we are. Keep our families safe Lord, help us to take on that responsibility and keep with you Lord in all we do and say, may we be an example to our children, so they can be an example to their children's children too.

**326.**

May the Lord God Almighty give you full protection from the virus. He is watching over you like the security guard on the door. He has His eyes across all the Isles and he knows where you are. Keep a safe distance from people to keep the virus away. Keep as close as you can to the Lord now, everyday pray to Him and ask Him for His protection, to keep you safe so you can go on keep on helping others. Be there to help others in their hours of need, their hunger you will be helping to get everything they need. Give words of encouragement and keep a smile upon your face, be joyful and helping that's what the Lord made you for. Feed his sheep, the big flock of people can't go to worship Him but they will come when they are in need.

**327.**

Four walls do not a prison make, it's what you do inside, take the time to rest and be at peace. Be resigned to the fact that all things are unknown at this time. Look to the Lord now and make your house a sanctuary, a place to retreat to in the storm, be safe and be kind to everyone, do it with joy in your heart. If you keep smiling, it increases your face value, look at all the niches that have been closed in markets, everyone is down. When the new beginning comes, have a look around. Look at what is needed and change where you can. Don't go back to normal as that won't work, go for something better that's green and sustainable. Think about your family, the future, will you help them out.

**328.**

Take time to stop and stare, look at what is close to you, look and see all the wonderful things around, there are so many things to be found in the just the simple things, the leaves growing upon the trees, the sun how it comes through, shines on the leaves, the brambles and all things that are not the part of our everyday, the things we take for granted and we do not see them because we are not looking for anything. We are on a special course, we are dashing here and dashing there, it's time now to rest. Take time and contemplate with the Lord sitting by our side. Listen to what He is saying because it is quite profound. Listen to Him say I love you, I've loved you from the start, come back to Me I don't wish to be apart. Be with Me all day and pray and listen too. Find peace because I Am, with you. Get right with God and your world will feel better, your family worries too, because you will have a different point to view from.

**329.**

Rejoice, rejoice, I say again rejoice, I keep on rejoicing, be renewed and uplifted God is with you and His spirit too. His presence is here now, your healing has been a miraculous answer to prayers, now praise the Lord and rejoice and don't stop. Let your motion be the lotion, that keeps you running through, keep walking and praying and pray for all the other people too. Pray for all the people that have helped you and thank them from your heart, this is such wonderful news. Keep the smile on your face and in your heart, everything that is this, is from the Lord. Not just in part. Keep the spring in your step, ask the Lord what He has next, because He has saved you for a certain reason, for you to fulfil, fulfil your purpose. He has a new design for you, it's better than the last. Look forward to number 0, nothing is impossible with the Lord.

**330.**

As Ken Dodd sang, Happiness, happiness, the greatest gift that I possess, I thank the Lord that I've been blessed, with more than my share of happiness. The greatest gift really, is love. You promised one another that you will love one another in sickness and in health, this is wonderful when we have actually gone through that and fulfilled the promise. The Lord loves us, wherever we are wherever we are going, we call out to Him and praise Him and thank Him for the fortitude that we have, the hope we have and there is something at the end of the tunnel. Look and see the light, the light is Lord God shining through His son. Let the Lord's light shine through you and that people see the radiance on your face, of joy and peace. Praise and thank the Lord for all your good health, thank you Lord that we really can support one another in all we do. Help us Lord to overcome this virus and may we be safe from it.

**331**

Always at the start of the day, remember that whatever we do today, won't change what we did yesterday, however great it was. What we do today, however small, will make a difference today and many tomorrow's. God has prepared us and put us in a position of authority to fulfil his purpose. We are all under the greater authority of God, whoever we are.

Lord Nelson's prayer

May the great God, whom I worship, grant to my country And for the benefit of Europe in general, a great and Glorious victory: and may no misconduct, in any one, Tarnish it: and may humanity after victory be the predominant Feature in the British fleet.

2 Kings 6:17 (NIV)

17 And Elisha prayed, "Open his eyes, Lord, so that he may see." Then the Lord opened the servant's eyes, and he looked and saw the hills full of horses and chariots of fire all around Elisha.

Bring all who are under your authority to pray for the day before they too start.

**332.**

When you are in a relay race and you are in the fourth leg. You are all tensed up waiting your turn. You know that you have put everything into the training. Watch your teammates taking their turn, and cheer them on. When it comes to the exchange of the baton, grasp hold, then, run as fast as you can to the finishing line. We must be alert, ready and fit for the race ahead of us. So be bold, be strong, for the Lord your God is with you. Come the time when the petals fall like confetti, there is a reason for the seasons.

**333.**

When life is an uphill struggle, a constant slog. Look around you at the smallest details, as you go and the vast things all around. They are all part of God's creation. Look out for the Lion and the Lamb. Cling tightly to what you have learnt, it will help you through the storm. Learn to walk on water. Make sure it is God in your dreams. In Blossom time it is the time to blossom.

**334.**

Choose wisely how to channel the gospel. Water flows in springs, streams, rivers, waterfalls. Drawn from wells, fills lakes, ponds, puddles and so on. The small snowflake falling on a mountain top, melts, and can be part of the irrigation of a vast plane. Water can be used to pan for gold. To wash away the dirt. Water is used for baptism. The grass can only be greener on your side, as long as you water it. Now GO feed my sheep.

**335.**

Come evening time and the sun is going down, it's time to get inside, time to assess all that you have done, has today been a success? Have you done all the things that you wrote upon your list? Have you got a lot put aside to do another day because you have just sat around in a procrastinating way. Will you have to stay up most of the night to reach that forgotten deadline. Tomorrow is gone and today has just begun. Time to sleep and wake refreshed. Today Lord, help me to fulfil my potential, everything for you. Forgive me when I falter, pour out your love, from above, on me, to you I applaud.

**336.**

Do you feel fenced in, trapped in the corner and you want to get out. Move to the centre, view from there and watch the things change. Don't be a chameleon and change your colours to fit the surrounding, change the surrounding to fit you. God has made you the individual person He wants. He will place you where He wants you and you will fit in so snugly that you won't need to change everything to suit others, be who God made you. When you're in the harbour the boat needs to be looked after and checked over, everything double-check, make sure you are ready and then when it's the right time to go out. Set your sails and go. The Lord will give you a speed and direction, He is the wind of the Holy Spirit, the wind that will drive you and give you strength and power to do God's work. He needs you to be brave on the high seas that's where He needs you and wants you to go to be a fisher of men.

**337.**

Go to the highest point near you, wherever it is. Look around you to make sure there is nobody that you can see or hear. Close your eyes, open your arms wide and shout at the top of your voice "God speak to me". Then follow the instructions that God gives you. Make sure that it is God speaking to you, ask the spirit for discernment. Ask your Christian friends and see whether they have an interpretation of what God said to you. Make a journal of all the things from then on, all the things which are happening that people predict or whatever it is just write it down. You will need to share it with others.

**338.**

Go out into the woods wherever you can find them. Look at all the trees, all the different things around, there are many different seasons, they're happening, all things are on the ground, the trees reach up high into the sky to catch the sun. The Bluebells, to cover like a carpet on the ground. The sun just dapples down with shadows all around. Look through the break in the trees to all around, the fields that are changing colour, yellow and brown. Everything is constantly changing, the weather does as well and look at God's creation, isn't it just swell, that God created everything, all the things above, below and all around. Thank you God that we are part of your creation and you love us all so much.

**339.**

Sing a song of happiness, sing it to the Lord, sing with joy and abandon and take it to the Lord. Bring people together, when the time is right and may they all be joyful at the living site of Jesus, it is the sound, that everybody knows that Jesus can be found, He can be found within our hearts He's been there all the time, the Holy Spirit singing along with you and all the others, make the choice to clash the symbols loud, make guitar string just strum out and drums beat out loud, may we be found the victors of everything from here and now and to abroad. The victory is God's, the one that is in control. Now let's get on and do the things that God wants us to do. Yes that's me and you.

**340.**

Look at what you are seeing, make sure that it is true. make sure that's what you are seeing it's not in the dark light but it is in the true bright light. Take care you're not deceived, make sure that it lines up with the Word of God. When you focus on the thing close to you, you cannot focus on the things that are in the distance. Make sure of your perspective. When a pilot flies, they always keep an eye on the true horizon against the instruments if they can, when they are flying blind they rely totally on electronics, sometimes even they can let you down but the Word of God is constant and He is always there, nothing changes with God. Make sure you check the source of your information before you pass it on.

**341.**

Share your thoughts with others, tell them what you do, you never know what they might think of you. They may do the same as well, they may be quite happy when they've got someone to talk to too. In this time of isolation, words and communications are like precious stones, a word spoken and a face seen is like finding treasure in a stream. God has placed many treasures in our path, look up, around and down, look closely at things, everything's a wonder, it's not a dream, it's reality, it's God's creation set before you anew. Have a look in the mirror at the treasure that is in you. God created you so wonderfully so individual and sublime, He loves you from the top of your head right down to your toes. Don't hide your treasure from other people, let them know you care, let them see the love you have, the smile and your hair. Be beautiful before the Lord and all that surveys, radiate God's love and spirit now every day.

**342.**

When three streams meet as one, a greater force has begun, moving forward downhill as water goes. When two or three are gathered together in the name of the Lord, He is with them, the Holy Spirit is a greater force making wonderful things happen. Be as one together when three are very close, don't forget the social distance. Keep things close together, don't worry all the time. With Noah, when the water went down after his isolation in the ark. It was a dove from above that brought the message, that it's time to get out and walk on the land. When the virus is over we look forward to the time when the Lord's dove from above will send us out into the world holding hands and blessing people and hugging them. Bring people to peace and tranquillity and may the fear go away like the waters. May we walk into a new world together in peace and harmony.

**343.**

Love of muv, comes from above, it comes down to you, it comes down to the sons and daughters. The mother's love is so great they will sacrifice great things for that. The Bible teaches us in Ephesians 6:1-4 Children can take that love as normal, take it for granted and they just keep on doing things that grieve their parents. Mother's love never ends, the anxiety and worries and troubles always there, they never stop. When a mother stops worrying she has stopped loving. Both share the worry, share the love and take it to the Lord, He is the one that will carry your load. Be forgiving for all the things you each do, talk to one another and share your worries.

**344.**

When we are put in the position of trust, it is something that we become responsible for, but not in authority over it. We have a responsibility to pass on our faith in Jesus to others. When we are put in a position of authority over others, we only have that authority. God has authority over us and we must answer to that greater authority. Thank you God for your grace to do things for you and for other people. To make sure things are done properly, safely, truly and with love. Lord, we cherish your thoughts and your protection for all people that you put in authority or trust. Help us to see the small details in the big picture. In the field of golden yellow dandelions, each dandelion has lots and lots of yellow petals. The world may be on hold but the clocks are still ticking.

**345.**

Now is the time of Jubilee to put everything back and slow everything down, wait and see what happens next, then the world will restart again. Let's hope it will be at a different speed and different and better things happening. People's attitudes are changing, more respect, even though we have to distance, people are helping one another and being different. Each time we help somebody in the past and listen to their story, that is a blessing. When we are allowed back out again and doing our duty, people have a different story to tell. People without faith have no hope, they only have fear. Speak to people and give them hope, tell them about Jesus, how He died and through Him we know that we have hope.

**346.**

When we are held back from doing something we normally do, we may call it a loss of our identity, it doesn't change us, as we are still the same person, Don't pin too much on a name but what's in your heart. The path is still there, even when you rest at the side for a while, we need to keep our directions correct, the Lord has given us a path to tread, we need to keep going on that, as and when we can, when He says hold, halt or move on, we need to hear His directions. Now we need to make the most of the time that we have, to fulfil God's promise about filling us with knowledge and truth, so we can store it up, when we need it next time we go out everything is fresh. Allow the Holy Spirit to work through us and be with us and reside in us. We can pass that peace on to other people with authority, authority that has been given to us by God.

**347.**

When we stepped outside under whose protection do we walk? Do we know the destination, do we know the path we take, do we know anything now, because all the things have changed, changed the way we walk and talk and keep away from others. We know our Lord is with us all the time, with our sisters and our brothers. Before coronavirus we could hug and kiss and share all our thoughts and worries but now we're locked away all we need is courage, courage to keep on getting with the Lord. We need to read the Word of God and that is the sword, the sword to destroy the virus and keep ourselves apart. We know God he has got a loving heart. Help us to prepare for when we go out again, we can sing the songs of Victory, as the battle has not been in vain.

**348.**

Close the door, the church has left the building. It has gone outside and far and wide, more people are listening to the Lord, they are getting the message electronically and over the garden wall, more people are doing things that Jesus did in the New Testament, people like that, it's so wonderful to see and to be virus free but God has got hold all things in His hands, He is the captain of the ship, He knows now that we can worship Him in every place, in every home and every small corner of the world, that He is overwhelming all the things that are bad. Getting people and Nations together. Captain Thom has carried on and done his 100 laps and more, he has done it and he has captured the world in his small steps. 52 countries donated, one for every week of the year. Look for the shoots of God's new crop.

**349.**

Oh to be in England now that spring is here. The Kites are flying, the skylarks are rising into the blue sky above, singing away to their hearts delight and dropping to where their nest is on the stony ground, the deer are sitting down, camouflaged in the straw, just chewing away at the cud. What a wonderful sight and the things to hear now that spring is here. We may be locked away for more than the day, more than a month away but we know that things are going on outside and we are keeping safe, keeping safe away, from all the virus and people not social distancing but we are close to the Lord He is with us wherever we are, we have no worries because He is present. The time when people go out and celebrate in victory, out on the streets, in the pubs and clubs and all of them are greeting, with a hug and a kiss and a drinking. This is what we were made for, to go out and help and scout around and put people back on their feet.

**350.**

Be filled with joy to overflowing, be filled with the holy spirit that will keep you buoyant, walk on the water as though everything is ok, even through the storm, the Lord is with you, He has risen to heaven and we look forward to seeing Him again in his glory. The Lord is setting out new cards in front of us, those new things to explore, new ways of doing things, something we must not ignore. He is giving us His wisdom, He is giving us His care, it is up to us to take hold and do everything and share, share His Love around the world, to people closed and far. Everything we do for love, because that's who we are.

**351.**

Are you aware that the people care for you, as much as you care for others, you are doing what everyone else is doing, keeping clear, social distancing and everything, but people still care for you. It is not the give and take, it's receive and share the care that is all around, we care for one another but quite often we don't allow people to care for us. I am walking this mile for you because of the care God has for you, I listen to what He's saying and put it into words. We are brothers and sisters in Christ, we have his might, to keep us together to help others. When we get back on the street and the people we greet, on our old patch and area, we can then rejoice, that we can voice, God's love and care for others. Listen to the birds sing, it's a message from our King, that a wonderful spring is here and of a new life that is to come.

**352.**

The Seasons change so rapidly, the rain has gone, the floods are down, the ground is getting hard. The sheep are having little lambs they are gambling around, the things I see, flowers that are coming out, the stinging nettles rising high, cow parsley on the wayside and the sky is blue as blue can be and we are still here carrying on, but in a strange isolation. This is not the usual place, it is a totally different nation. Seed drilled is starting to germinate and everything is coming around. Everything's coming round with the seasons, grass is growing, crops maturing and in the autumn things don't stop. We have had information, to draw a nation, to insist on safe distancing. Insistence on keeping your distance away from their nation, inside lock down and around out in your house don't forget, God is there, He is here, there and everywhere and He's the one that cares, we care for others too, keep talking to the people across the gate or over the fence next to you, now more people told Him, more people walking and let's hope they come to the Lord.

**353.**

Don't be sad, don't be sullen, just remember what you have done, the people you have spoken to in the past and the seeds you planted, they are known to be growing inside the people you talked to. They know you were there and you did care at the time you met them. You still pray for them and care for them, know you can't meet them but that is where God is, He is with them, He resides, comforts you wherever you are in isolating but Lord knows and He cares for you too. A digital smile can travel more than a mile across the electronic airways, talk to people and contact them, if you can, in every way you are able, to look over the fence and waving through the window that is where people can see you care. Use the phone and tell them God's on His throne, He is in control of the Nations.

**354.**

Everything seems to be slowing down, grinding to a halt in some places but things still need to be done. It's a matter of finding a new way of doing things and getting things sorted out, people are clearing out their houses of all the rubbish and things or buying more rubbish online, the things they don't really want or need, just because they're bored. What are they doing? The stresses and strains seem to have changed with these and many other people. With families at home and there's work to be done and no space for the people. The love of God that will help us through, He will help us on our way, we need to be there, to help the people and care because of the things they are worrying about. Plant a tree to remember, all the times that have come and gone and most of all remember that it was God's only son, who died so that we can be saved.

**355.**

This is the time of consternation for all the Nations. Prepare ye the way for the Lord, for He is great, He is preparing us to go all the way, for His glory. Being in trust to hold the group together whatever it is, it's a great responsibility. Do what you can, say to both woman and man, to bring them all together. To help them communicate and dedicate themselves to the Lord, the work we have been given is heaven sent. May we all be blessed and bless others. Make sure everybody has a good support system. Be active.

**356.**

There are many different types of fences, hedges and boundaries, they need a support to hold them up, small, heavy, strong or weak they need connection with the ground. Always make sure that the connection is stout and strong and can withhold anything that comes along, make sure that the ground is firm and the posts are protected from rot. Make sure that the position we hold in life is given by God and we are firmly rooted in the Word of God. We are there to support other people in different areas and within certain boundaries. At the moment, in lockdown, we are unable to go and survey the boundaries and support people in need. We can support them in prayer, through the holy spirit. Take care of yourself so you are ready and prepared for the next time you go out into the world to help.

**357.**

The Lord provides for those who seek his face, the Lord is wonderful. marvellous, there are so many words for God. Be the one who waits on the Lord. Stand in the front of the Lord and cry out in prayer, for healing of the people we cannot meet, the people that were on the street, the people hiding in their houses, pray for them, for their mental well-being which is going to be so great in the future. More people will have problems in their minds and their spirit, we need to pray that everybody comes to know Jesus. Pray for an outpouring of the holy spirit, to bring people together online and in the spirit. It is the time to slow down and be an example to the younger ones. Show them the Peace that you have in the Lord and the trust you have in all he does. Be at peace with one another.

**358.**

A walk is made out of a lot of steps. Do we count our steps, on whatever sort of things we have, how many steps you have to take everyday to keep fit or do we just do them anyway? Now we are only allowed to go out for a short time, not so many steps outside if self isolating. It's such a short period of time, you can't go on walking holidays, days out or travel to places to rest, sanctuary or study sessions. We are all stuck. Now what steps are we making to get back to the Lord, to make Him our first and main person to step towards, we need to be taking more steps of faith in our journey. How many steps does it take to get to heaven?

**359.**

If you don't use your car for a long time the battery runs down because the security alarm is running all the time. Don't just run it for a short period of time, use the power of solar panels to keep it topped up, the car will be ok and ready to go whenever necessary. The same with the Holy Spirit makes sure you're in touch with the Lord and filled with the Holy Spirit at all times, so whenever you are needed, you can go out in the power and glory of the Lord. Don't let fear and worry drain your spiritual strength, keep going to the Lord, He is always with you, His Spirit resides within you.

**360.**

Don't be overpowered by things that are crowding in around you, be at peace and the things will change, things are going to get better soon, hold on, hanging their trust in the Lord for He is great. Clear your path to make sure that you have easy space to walk in the Lord and on the streets. Pick up a pen and write a journal about the things that are happening and changing. That may help you in the future, when you read it again.

**361.**

Look at all the scenery around you, see if you can see the horizon, the sky touching the ground. Look behind you and remember all the things you've done. Everything is a blessing, all the things we have. Everything is on hold at the moment, it's time to do something like writing your memoirs. Put a name to all the blessings that God has given you, all the people you have blessed, prayed for healing, all the people you have met, all the friends you have. Contact some of them and re-make friendships and keep in touch, rekindle hearts again. Be soaked in the Holy Spirit. Time is getting on.

**362.**

Lords and Ladies, Kings and Queens, commoners, peasants, prime minister's, presidents, heads of state everybody is vulnerable to the virus. Everybody has to keep safe. No one is invincible. Everyone needs the Lord in their lives, whoever they are, we all need the love of God and all need to turn to Him for our salvation. Everyone needs prayer and nobody has any defences against it. If you go the extra mile when you're walking, you never know who you're going to meet next and how you can bring them back to the Lord with marvellous blessings. We are all here on earth to help one another.

**363.**

Who runs the lifeboat station when all is calm? The Lifeboat Station Master, they are ready all the time. They are waiting, checking everything, people checking over the boat ready for launch, we are now in stand down, waiting, preparing, keeping fit and whenever a call comes out, we are ready to go and assist. When the maroon goes up, whoosh, bang, everybody on standby, drops everything and dashes to the rescue, to launch the boat as fast and as efficiently as they can. Be alert at all times, keep an eye out to see what's happening. Be the person that thinks ahead. Make sure all lines of communication are clear and working both ways, check with your people to see whether they are coping alright, be ready to help them in the very near future. If you have a crew that's not fit, ready and reliable everything falls down.

**364.**

A man without a purpose is like a shepherd without a flock, a ship without a cargo has no where to dock. If we are not fulfilling God's purpose in our lives, we are fruitless. we need to keep going whatever, if the flock is scattered we need to make sure that we're in contact with each and every one of them, because they're all precious to the Lord. Find new ways to communicate with one another, for the greater good. Put on the cloak of Elijah and go and be salt to the people.

**365.**

Search out a new path, a path that you've never walked on before, look at it, study it and go out again and look at the changes which are happening in the seasons. New things sprouting, new ideas in your mind, new ways of doing things. Build new bridges, connections, communications and go further than you've been before. Look for signs of new growth and new beginnings and be part of that, don't hold back, just pull out all the things you have learnt, because God has planted those in you for the new season to begin. Be prepared to work harder when the virus is gone because that is what God has prepared us for, we are in the time of rest and recuperation, getting stronger. Replace the things which are worn out, tired and of no use. Make sure that you buy the best, for that is what the Lord wants you to do, so you can go out and claim His victory.

**366.**

Be constantly filled with joy, overflowing with the holy spirit, He will keep you strong, be protected from everything and anything that's not right, evil just bounces off, takeaway anything that is not of the Lord. Fear not because the Lord is with you His Angels protect you. Be a source of Joy to people with your smile, be like nectar to the bee. May your sweet words be of comfort and be with all the people that are in need. Be like the kite and rise above the storm.

**367.**

Don't stop, or keep getting bored, don't allow yourself to be distracted, keep going and store up a love bank, be prepared after the virus to pour out that love on people who are suffering, who have a lot of problems and needs, the Lord will be with you and His spirit will provide all you need, but don't doubt, keep on pushing through the storm and when we come through the other side we will see God's glory, everything that He's been going on with others, all coming together. Make connections with other people doing the same thing, so bind together in strength not as individuals.

**368.**

The Wind of Change is blowing across this land. When the wind blows in a storm, the trees clatter around, hitting each other and there's a lot of friction between them. After the wind has gone, you'll find lots of dead leaves, branches and all that is weak, on the ground. Sometimes the trees themselves can't withstand the storm. We are going through a similar storm at the moment, drop everything that is not of any use in your life and make sure that you come out on the other side. Keep close to the Lord at all times and in all places, make sure that you are with the Lord. Be refreshed through the Word. Repair your bridges that are down, make sure that you are walking with the Lord.

**369.**

When you go up hills always make sure that you check the view at the top, take it all in and enjoy it, then on the way down reflect on what you have seen. Prepare yourself for the next hill that you were going to go up, it can be a bit bigger than the last one because you know that you have achieved that height before. Keep on doing it, training yourself to be fit and strong and learn about everything that's around on that journey. A lot of people have an uphill struggle with this virus, being in self isolated, stressed and strained, people are breaking point, they need help just to get through the day and it's a pleasure just to go back to bed, then wait for the next day. We are here to help people however we can, wherever they are and whatever time. Make sure you contact people and when they get to the top of the hill make sure they praise the Lord and thank Him for their safe delivery to the top of the hill and enjoy the journey down with them whenever they need you. God will bless them and you

**370.**

When we walk on a journey, hopefully we know where we're going, what the destination is going to be and how long it will take. When you're out walking in the fields, meadows and footpaths, look and think about how many people have walked over it before us, whole families, hundreds, thousands even millions of people, over the centuries may have walked on the same path as us. With the Lord, we do the same, we walk with Him, we walk with faith, we walk with hope and we walk with love. God loves us so much He wants to show us the way, do the same with other people, show them the way, the wonderful journey and the glorious destination that we have with Jesus, God and the Holy Spirit.

**371.**

Always check on the directions you are going in, make sure that it is not a false trail that you're following. Make sure that everything is right, that your foot is not going in the water or mud. Get a clear idea where you are going and don't be beaten or distracted. Check the signs are correct in relation to a Map. In life we should always check against the Bible to see that our thoughts are true and we are going in the right direction. Check that you are walking in the true light not the dark light. Be careful how you are influenced.

**372.**

Make sure you have your full provisions for your journey and check everything is there. Put on the full armour of God make sure it is all correctly fitted and you don't have a chink in your armour, because the devil will always find your weakest spot and exploit it. Try and be aware of your weak spots. That is where you need to make yourself stronger and be aware that the devil will always try and sneak in some way and distract you from what your work is. He is renowned for that, it is his job. Be aware, alert and reassured that the Lord will help you on your way. Call upon Him in times of need. If the path looks unsafe don't take it you may get bogged down.

**373.**

Always keep in contact with the ones you love, make sure they know where you are and you are safe because they often worry about everybody sometimes and necessarily so. It's a good idea to make sure people know when you're going out on a journey and don't be frightened to ask for directions along your journey, people know where they are and you may not. Ask people about their faith and you may be able to help them find a way to the Lord if they have no idea of the direction and how to get there. John Bunyan's Pilgrim's Progress is a good book to read as it tells us about Christian on a pilgrimage. Also about his wife and family, who followed on after him and only because he had gone before them and made the way safe, that there was a glorious ending to the book. Do the same.

374.

Archery is a very ancient form of weapon, there's a lot of history with archery with all sorts of names and sayings and gestures that come from it. The saying about having too many strings to your bow, it's better to have a lot of strings for your bow, if one breaks then you can use another. Keeping something under your hat was derived from keeping the bowstring under your hat when it rained, the wet gut string would just stretch, be weak and of no use. So be prepared to keep everything dry and ready for when you need to use it. Make sure that you are fully equipped with everything you need. Don't walk around an empty quiver. Make sure you have a target to aim for, then you will know if you have actually got there. If you fall short of your target, this is called a sin and that's what it is in the Bible, if you fall short of God's glory and what he requires you to do. Don't sin, aim, and shoot well.

**375.**

Every step I take when walking with you Lord, I know you are there with me, I hear your voice, you speak to me, guide me every step of the way. The Peace of the Lord is always with me. I seek you Lord, I find you in everything I see, you are there in the sky and in the sea, you are the one that created all, created all and me. You are so wonderful, so magnificent. I'm part of your family tree. I walk up into the hills and I look for you above and I know Lord you are there your help and your love. Your holy spirit fills me, fills for me to overflow, I know I love you Lord and that also you love me. You have sent a flock of guardian angels that are flying all around me, guarding and protecting me from all that is not good.

**376.**

There is only one way to heaven and that is through Jesus Christ our Lord. Truth is the only thing that lives throughout and lives on. The lie dies when it is told, it is on people's tongues, it is not from the Lord it is from the devil he deceived everyone and he is in the dark. Looking to the light at all times, listening to the singing and the songs, be filled with joy. There is no restriction on the jurisdiction of God and his Kingdom. Be a reliable witness to Jesus and his love. Stand up and be bold and say that you are a Christian, you are convicted of that and there is no doubt. Good news travels fast but bad news just hangs around.

**377.**

Have you heard it, have you heard it all around, have you been standing still and just listening to it, it's amazing, it's profound. It is The Peace of the Lord that is with us, there is no sound at all, it's all gone, all the traffic noise and there's no one around at all, just lap it up and take it in, it is here only for a while. But if everything is going away, don't let it be your smile. Find a place and be sitting down. Looking at the views all around. It is wonderful, it is good news, that the grace of our Lord Jesus Christ is with us, He is here to stay.

**378.**

When the Bible is hidden, locked away in a bookcase or on an ornamental shelf, with dust just mounting up on top of it, nobody is looking at it, nobody stops and has a read. The Word is still there and all the truth and nothing is left out. The only way to find that treasure is to go and get it out. To open up and read the Word and read it again and again and listen and learn and study it, there is so much to be found. When we are locked away and locked down in our houses, we have treasures in our heart, we need to tell people about God and all the things that are in the Word. We need to pray for people who are like the book that is locked away.

**379.**

Watch and learn from history all the mighty powers that have built up and collapsed. Come gone, complete nations disappeared and have been dug up from the past. Watch the mighty nations now with all this virus that is going around, the mighty powers that they profess, are no match for this virus found, this is going round and round and many people afterwards will not be found. Jesus said that meek will inherit the earth. Listen to the sound of leaders full of pontifications about their great nations. That will fall, things will happen that we have no idea about, we couldn't even think about. Check out your life values now, make sure they are true and line up in the Bible. Be ready when the virus lock down has finished. Let's go out and pick up the pieces of broken people, people needing help, salvation and hope.

**380.**

Now's the time to look up in the sky, to look around and wonder why God has allowed all this to happen and the virus too. There is no answer that we will know, it is just to come and go and stay indoors when we can. Wake up early in the morning before the sun has risen, open up the window and just stick out your head and listen to the birds that sing and listen to them fly. Then watch as the sun rises up into the sky it's constant never-ending, the world is spinning by. Try and identify the birds by their individual songs, become expert in something like that to bring the children on. Listen before the traffic starts to come back again after all the virus lockdown has gone away, listen and look and hear what God has to say because He has created all of this. Stay up and watch the sunset, dropping down below the horizon and then the stars come out. See if you can count them and see the constellations, it is so wonderful, it is so clear, make the most of everything you have and the things that are so dear. This is all God's creation.

**381.**

Watch the butterflies flutter by, watch them as they flit, they go around from flower to flower and this and that is it. This is the way they fly so fast, they flutter here and flutter by. How many butterflies can you count in a day, rainy days are worse, sunny days are lovely, when the flowers begin to burst. They give such wonderful colours and they give nectar for butterflies, there are so many around us it's such a great surprise and look at the bumblebees there are many different types there's honeybees and bumblebees and lots of knees and mice. See if you can paint a picture of the wonderful butterflies. One day you may become a famous entomologist or a professor of Lepidopterology and film them all over the world. All things are possible with God.

**382.**

Have you tried collecting snail shells? They are all different colours and sizes, from minute, small, big and some are huge. Look at where they come out of their shell, is it on the left or the right. Some people keep snails as pets and some people think they are pests. Birds think they taste great. The best time to go snail hunting is when the ground is wet, they like to slip and slime all around on the ground, they eat all sorts of different things. Watch them as they crawl and slither along making a snail trail and have seen their little eyes. If you have a lot of time to spare try racing snails. The first one out of a circle is the winner.

**383.**

The ship's anchor goes onto the seabed and makes a secure position, holding the ship steady. It is only as good as the ground it's attached to, the strength of the chain and also the fixing on the ship itself. Every connection, every link is important, everyone has to be as strong as the others, if there's a weakness that is where the break can occur, constant checking for weaknesses is needed. In a supply chain this is the same, everything needs to be as good as the other and one supports the other as well. If one part is not working the ship is in danger. All things at the moment are under great stress and strain, we need to be found in the Lord because God is our foundation our strength, He never changes He is always there always with us at all times, take your strength from Him, even if you're feeling weak and He will, through the holy spirit carry you through.

**384.**

Moses, through his faith in God, stretched out his staff and the Red Sea parted. The Israelites went across on dry land and were saved from the Egyptians. When we open our hearts to accept Jesus as the Christ, as our Saviour, He will let the holy spirit into you, heal you and set you free from pain. Jesus died for you so you can be set free from your sins and go to the father in heaven, only through the son of God it's possible. Seek the face of Jesus, He is there close by you. Allow the Holy Spirit to enter and feel the warmth of his love and healing, He is with you all the time, allow the Holy Spirit to reside within you and chase away anything that is causing sin. May the peace of the Lord be with you now and forever.

**385.**

Find a jam jar with a screw top lid and put a hole in the top, a small one, put a ball of string inside the jar and screw the top back on. Pull the string through the hole when you need it. Keep the lid tightly screwed down and only use what you need. This is like self isolating, you can control how much you unravel, it is a slow process and you need to store things up inside and be isolated from the virus, that is where we hide. It's like looking out of a window from inside, you can look out and be in safety. Have another ball of string set apart, ready to replace string inside the jar when it's finished pop another one in, pull it out gently, don't let it all come out and unravel all at once. Allow the Holy Spirit into your life, like the ball of string, let the Holy Spirit pour out of you and allow it to hold you together. The Holy Spirit never ends just keep pouring through you.

**386.**

When we walk, do we walk with purpose and direction, do we know where we're going or just walking around in circles. We need a lot of patience at the moment, we all wanted to do a lot of things this year but we're unable to do so. Help us Lord to be kind to one another and understanding. Help us Lord to forgive one another as you forgive us. We are all under a lot of pressure at the moment, please give us forbearance and patients with one another, it is the greatest gift we can have. Help us to show love and be loved as well in return, all the things we do, we do for a reason. As a child stretches out its arms to be picked up and comforted, we stretch out our arms to you Lord for your peace and protection.

**387.**

To know peace is to have joy, to have joy you have peace, it is not silence that is the peace, it is the peace in your heart and in your mind. To have peace in the Lord you need to trust Him and rely on Him, when you are worried and stressed and strained at this time with the virus, there is no answer to all these things, God is the only answer, through His son Jesus Christ, ask for the Holy Spirit to come and fill you and give you that peace that's beyond all understanding and rest in that peace. He will fill you to overflowing, with joy, happiness and peace. Green is your colour for happiness.

**388.**

We are in authority, but there may be many others over us. There is one over all of us, the greatest authority, He is God, He is the creator of the Earth and all the things around, He knows who we are and where we're to be found, He loves us, He cherishes us, He is our very being. A task shared is a task halved or even less, take things to the Lord and share them with Him, your worries and troubles and He will help you, trust Him, He knows what He's doing. Even Lord Nelson had a prayer and he knew that God was in authority over him and he went to him in prayer for help and guidance, with the many men he had under him. You are safe hands with God.

**389.**

Open your eyes and look around, are you seeking the Lord or are you just browsing, window shopping, just not knowing what you want but there is a need. You have a hunger, that is an empty space in your being. Look for the Lord and ask for the Holy Spirit to come and fill you and you will be renewed and refilled to overflowing, you will have some much joy in your life that you won't be able to stop telling other people about how you have changed, they will notice the difference in your countenance, you'll be radiant, you will not be able to stop talking about how Jesus has change your life. Your family will see the difference and they will be renewed as well, bringing back a new life. You will be fulfilling your purpose in your life by doing that. It is a simple as sorry God, thank you Jesus, come Holy Spirit.

**390.**

Count your many blessings, count them all day long. Thank God in the evening that you had a wonderful day, as you have got through it, there in your isolation. That He has been there with you and with the nation. He is loving, He is kind, He is in front of you and behind. He will always be there with you even if you're on your own. He is there, He is sitting on His throne. God sent His son to save us from our sins, that His spirit is inside you dwelling, don't give up, not now. He loves you for a purpose, He loves you now and then, He loves you, He will keep on loving you, He is your best friend. Dream of open spaces, clouds above your head, the birds are flying, singing off their heads, spring is here, leaves are coming on the trees, everything outside is heavenly but inside if there is doubts and fears, just brush them aside, God is with you, He is your roommate, now is that a surprise.

**391.**

Allow the Lord to transform you into a new shape and a new being. Allow the Holy Spirit to be within you, reside within you, heal you, to be a renewed person, one that is overflowing with holy spirit and joy. Be like a butterfly that flies in the sunshine drinking nectar from the beautiful flowers. Be filled with God's love and thankfulness, be overflowing with love for others because other people have loved you, God loves you so much that you may never understand, but he sent his son to die for you, so your sins can be forgiven. Let the light shine through you and chase away the darkness.

**392.**

Be lifted up on wings, rise up in to the sky, like a skylark chirruping and singing your heart out for joy, be with everyone that's joyful, keep them by your side, be happy and be merry for the Lord in you resides, don't worry or care about too many things there's many good things to come, God has sent his son Jesus Christ to save you for you from your sins. Be there to help others and help them through their pain, help others that are going through the same, we all have a purpose in life, sometimes it is hard but glory will come later when we are with the Lord. I think this might feel like going uphill, enjoy the ride downhill, it is wonderful when you're feeling better after you have been ill. Praise God at all times and in all situations.

**393.**

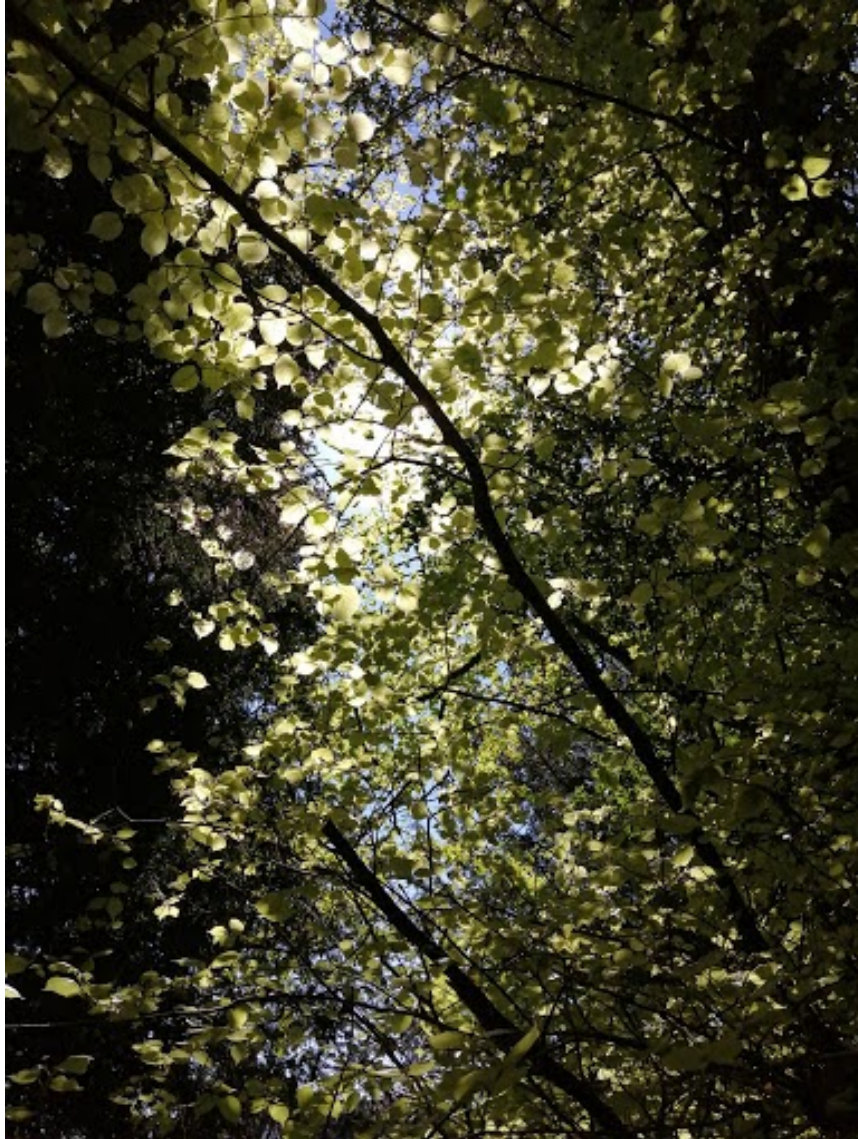

As we get older, do we get better at things or do we just find them easier to do, do we stretch ourselves in what we do now, do we try and push ourselves further and faster to do greater things ahead, or do we just sit around and forget lots of different things that we've done, our memories are a wonderful thing, draw your memories from way back in the past. When you put a plant in the ground then sit and watch it, if it is not watered regularly and tended, quite often it just fades away and dies. Take time to read the Bible and listen to the Lord speaking to you, take sustenance, help and courage from those words. Take a few words from the Bible and meditate on them, study them and look up the concordance, what did the words mean at the time it was written. There is a reason why things change in the Bible compared with now, the words mean different things, if we look back in the past we need to learn from people's mistakes, good leaders learn from the past mistakes and don't make the same again. We need to trust God for what He is doing now and we need to be kept safe in His Word. Trust the Word of God. God loves you so much. Take your countdown to zero and be blessed by God.

**394.**

Remember the good times, remember the past, remember the things, the smiles that last, remember the person, remember them well. Remember the tales that they had to tell, remember the good times that were had in the past, the jokes and the fun, laughing so much you had tears in your eyes. Take a trip down memory lane, where all the good things happen, look in the shadows, they are all dark but there's still light getting there. It's just the dark sides but make the bright side brighter, it is a contrast, if everything was the same life would be very dull. Keep a light on in your heart.

**395.**

Don't let yourself isolation be like a prison sentence, treat it as a freedom to spend time with God, He will be with you in the dark times and the light He is with you always you will never leave you. Paul spent time in prison and the angels came and let him out. Allow the same thing to happen to you, allow the Holy Spirit to come and give you freedom. Freedom to breathe, freedom to look at all sorts of things on the internet and all sorts of things to learn, it is an opportunity to spend time with God, listening to Him, just in silence hear His word and be guided by Him, don't fear, don't be afraid, He is there with you. Spend time listening to the birds singing, they are free the same as you. Life is full of choices, choose to be yourself the person that God made, not the person that people want you to be. Choose to be a man of love, a man of smiles and then full of joy.

**396.**

As we are continuing to be locked down, we're getting into a routine of doing things, is it now starting to become the new normal, the normal things we do within the restrictions, things we can do where we can go and so on. Are we making tentative plans for what we're going to do when locked down has finished.? Are we going to do new things that we have learnt in the lockdown or are we going back to the old ways of doing things. We are living the best we can at the moment, are going to be better? Who are you going to ask for hope?

**397.**

You don't have to go to a builder's merchant to build or repair bridges, all you need to do is say a small word, sorry. Always make sure that you make time to talk to your parents, before it's too late, then you won't regret waiting and putting it off. Always do it now, now is the time to act. Now is the time to communicate with family and friends. We know we can't go and see them in person yet, but we will have the time soon. Quite often the thing which has pushed you apart as a family, didn't really exist at all, it was just in your imagination. It is always best to communicate, don't frustrate and check out your assumptions before you jump to conclusions. All of the above applies to our Father God, His son Jesus and the Holy Spirit. The choice is yours.

**398.**

Ask your family what makes them happy and what fills them with joy. Listen to the answers and see if you can tell them how you feel as well. Will it be material things just what we have and keep, do we have a garage full of it and it's not very neat, just stuff packed away, stored up for another day. Clear out your shelves and ourselves as well, have we got a lot of thoughts that are not very good, we can tell. Help other people to be happy to keep their health and joy, now the best way to do that is to tell them something you have found. Ask them about their spiritual life and see if you can tell the ones that believe in Jesus. You will see things very well, that they have an eternal hope and joy, try and find that too. And when you have, they will celebrate with you.

**399.**

Self isolating doesn't mean to say you're on your own you know that God is with you, He is there by your side, you can go anywhere you know He's with you, your never alone with God, God will give you joy, God will give you peace, God is everywhere, even with your family. Talk to friends and family about the joy that Jesus brings, filling you with His holy spirit and keeps you like springs of water, flowing, refreshing all the time. The love that pours out from you it's from God above. Fruit bearing is your smile upon your face, it is so wonderful and glorious, it radiates around like Moses when he met God, it is something to astound. They say the sun shines on the righteous. Have a sunny day.

#### **400.**

When God gives you a vision, check it out with others and make sure it is true, write it down and make a list of all your different views, find out where you're going and how you are going to get there, with the steps along the way. Check it out with others and make sure that is not just for you. Find people that are doing the same thing and help them, so you will find out more by doing. Check out the vision with your elders, see what they say about it, if they put you down, don't stop, just keep going and God will lead you through He knows what He wants, make sure that it's true. In these times of lock down, find youth locally on the internet, Twitter, YouTube , Facebook, etc. to gather people to be part of the vision and that God is with you. Find out about the training and all the safeguarding you need to do, there's such a lot nowadays, you need to be prepared. Keep an eye on your vision and God bless you.

**401.**

When you start out a new adventure, one that is so exciting, make sure that you have a leader, someone that is inviting, someone that will carry you through all the difficulties, someone that will pull you through. How about allowing Jesus, He's the one for you, He is the one that is to come and He is the one for you, He is the one that will show you what you need to do. He will be there always, ask Him inside your heart, come holy spirit reside, take Him and be with Him, be the one that follows on the treasure hunt, be naturally supernatural and do what Jesus does, He will show you He works miracles and He is with us, don't be put off by the Elders that are setting their ways, Look to the future that is where the treasure lies.

**402.**

Be the team man and the recruiter bring people from to inside. Bind them strongly together no matter what denomination, find strength in unity via a welcome smile. Don't let the weather stop you, don't let it slow you down when the rain pours. It is refreshing, it is the farmers friend. Be the man that communicates and talks and listens too, he is the man that will be the anchor and stop you drifting around. Keep referring to your visions, make sure you or they haven't changed. Keep a plan of actions and make sure you're keeping to them. If you don't you won't know where you are, you will have lost your vision.

**403.**

Learn to build a harbour, build it strong and build it on The Rock the Word of God. Become somewhere that people can come to, when they're weathering the storms in their life, somewhere where they can come and talk and listen to you. Looking forward to coming and tying up alongside the harbour walls and finding Solace, find new supplies and enable them to go out again when the storms have gone away, going out with new vigour and new direction. You are the harbourmaster. Watch over all the things that are going on, like a trustee in a church, make sure and check that all things are being carried out correctly, as in the Vision set out in the beginning, from God. Don't allow distraction. Many people have gone from harbours, out on huge adventures around the world in the past. They brought back many great things on their return. Remember the 72 apostles that Jesus sent out, they came back praising and worshipping the Lord, for what happened. Expect the same. Be the harbour of light.

**404.**

Be lifted up with your soul and singing, be lifted up in spirit, you've been chosen to be the one that sings. That is the one that sings the rallying call and the youth will come, like the Pied Piper leading them into the Kingdom. Stand up and raise your arms open wide, sing with all your might, sing with the holy Spirit beside you, in you and decide, He is there for you, Jesus is our saviour He will provide all that's needed, tell the devil to stand aside. Get ready to gather people together to pray for the youth of today before they go away. Go with God, marching with a victory song and blessing every one.

**405.**

Do we want to leave a legacy? A legacy is something which is valuable to the giver, it could be money, property or a family heirloom, something that you will be remembered by. It depends on our values, what we treasure. Where we put our treasure, do we spend all our lives working to accumulate that treasure. Do you want our name to be remembered on a stone? Most of these things that we leave, just fade away and become of no value at all, no lasting value. Something that lasts is the memories of laughter, joy and the good times had with your children and parents and all the generations together all getting on. Peace and tranquillity and adventure memories that will continue on. But they will fade away too. If you have a faith and hope in an eternal life through Jesus Christ, then that is the legacy, that has huge value, it is something that you can pass on through the generations, that there is hope, hope is the greatest legacy, a new life, an eternal life, that will never be forgotten, or end. Life without hope is like a cracked bell, it doesn't sound good and is of no use.

**406.**

God, I don't know what to say because I don't really know you. I've heard lots of things about you, about your Son and the Bible, but I still don't know you as a friend. I'm sorry if it upsets you but, that's just me. Perhaps one day it'll be different but please forgive me. I know one day it might be different but at the moment I'm sorry if it offends you, but here I am anyway.

**407.**

Lord you know me, you've known me right from before I was born, I know you love me and I know that you have everything in store for me. Please Lord lighten my load. Lord, you have given me a passion for the needy. Lord you know that I am needy now and need your help to care and I need your help to carry me through all these worries and all the people that are needy and all the things that are happening are mounting up on me, I have a huge rucksack full of worries, please help me, ease my load. Protect me from the virus and all that worrying brings, help me to be a superwoman and get through all these things. I know that I can only get through this because I know you're always there. Please bring peace and reconciliation throughout this land and all our families. Lord I look forward to the new normal with restoration renewal and more people know that you are there.

**408.**

Mummy why can't I go out and play with other people, why can't I give them a hug, I miss them so much, they are missing out on my love, I want to meet more people, I am getting fed up stuck indoors, I keep on painting pictures and I keep on doing more. I'm missing all the other children, I'm missing them singing and dancing at church, I'm missing all my lovely friends, I feel empty inside, I'm missing all the love. I pray to God at night time and I asked him to sort it all out. It seems to be taking a long time now, I feel I want to shout, but I know God loves me and my mummy, you say it is true. I love you Mummy too. Please help me. I'm worried, I'm lonely, I'm missing all my friends. Mummy can you tell me about the Holy Spirit? I think I need Him now, I don't know how to get Him, please help me and tell me how.

**409.**

When we see the storm clouds are brewing, the storm is coming now, it's the time to get together and get tucked away inside. You can ride out the storm, the wind, the rain and repair the broken fence, repair the broken relationships and put away any animosity or offence, so we can get through this together. Forgive anything from the past, bring together the family, something that will last, something that will keep on going and put the Lord first, He brought us all together as a family. Let us show love for one another, forget all the differences, forget anything that's passed, think about all the good things and being with the Lord at last. Help us to forgive and forget and Lord forgive us too, because everything is useless and without hope, if we do not have you.

**410.**

In the time of mixed emotions, when a loved one has gone away, we have so many memories of the person before they went, have had so many years of time that we have spent together, we have known them, we have known from our birth, we have been there, they have seen us, they have seen us grow, now they have gone, we will mourn them, we wish they were here right now. Time has come to say goodbye and we wish them a fond farewell, then we hope and pray that people will get on with each other. It is a time of mixed emotions, may the greatest one be love. We find forgiveness for each other and bring us closer together, may we have such great love and laughter as we celebrate a life. We look forward to the time when we all will be together in heaven and Jesus by our side. It is ok to shed a tear for the one that's not with you now, do not shed a tear of anger but only a tear of love.

**411.**

In times of trouble where do we find our help? Do we find it easy or hard to share with others, about our sadness and sorrows or do we just go and drown it and hope that it will go away? Have we lost something of ourselves, is it just fading away, can we remember what we were and the things that we used to say. The things that we used to love and cherish, all the time or are we just burying it in the sands of time. How far are we going to go down before we're broken, well and true, are we going to go down so there's nothing, not even you, there was a time to stop it, to call out to God for help, He is there waiting for you and He is there, so just shout, call out to Him and say you're sorry, ask for help and be true, because He knows you and He loves you and He wants you to be close to Him too. If you put the wrong fuel in your car, you have to get it all pumped out because it won't work, you need to call out the AA they will sort things out. God will be there when you have your troubles and he will help you through.

**412.**

If you picked a flower and pulled a petal and said He loves me, He loves me not and keep on do it till all the petals are gone, God will still love you however much you think, He cares for you He looks after you He is there beside you below you, everywhere, He loves you He loves you so much He sent his son to die for you so you could be saved and then sent the Holy Spirit to be with you and give you the power to overcome all things through Jesus Christ, you can come to God through Jesus He loves you so much it's unending more than the petals on these flowers more than stones on the beach and the grains of sand around the world. He loves you more than that He loves you He will not forsake you He is there with you now. Be like a child and run into His open arms for a hug and let Him swing around, so you can shout and scream with glee, that God loves you, He loves you so much He wants you to know that now.

**413.**

It never ceases to amaze me, something that's been close by where you live and you never saw it, it may have been there for the past 5-years or more. Open new waters, new visions, new vista and it's only a 5-minute walk away. There's so many things in our life that we forget or don't even bother going and finding it, it is there all the time. Start a big adventure. It's only 5 minutes outside your door, just go and walk and wonder and just see what there is. Go and sit on a bench somewhere and watch the world go by, watch the flowers growing up and going to seed in time, watch the birds they are just flying by and sing away, it's true that God loves you, He is there, out there in nature and He is there for you. He wants you to enjoy His creation, the creation that's for you to view and He created you, that He loves you. Don't lock yourself inside you, let yourself out now and then.

**414.**

To have good health is very important, to be healthy and be able to do things without worries, pains, aches and just go out for a walk. Good health is a blessing and it's something to keep hold of, the only way to do that is to make sure that you're living a healthy life, eating good food, exercising and many other things. At the moment with the virus we're not allowed to go out for more than an hour each day, so an hour's exercise outside in the fresh air is very valuable and we need to treasure it. If we're not careful we get unhealthy minds, through not doing things and not keeping our minds exercised and fed well with good thoughts. Also we need to make sure that our spirit and mental health are good. Are we looking to the Lord for help? That is the only place where we have hope. All the media give us is fear, worries and troubles and there is no way to overcome that. Jesus, He gives us hope and there is a future through Him, to be healthy in mind, body and soul is a choice, so choose wisely.

**415.**

I thank you Lord that we can praise You at all times and in all situations. We worship You and thank You from the bottom of our hearts for all the things You provide. For Your great love for us and that You gave your son so we can have salvation, thank You for all our family members for all the generations in the past and the ones that are to come. Lord we thank you and we praise you. Help us Lord in these times of the virus, in lockdown, in the short time we have outside, to talk to people and as we walk past pastures green and still waters, we know Lord that you are with us all the way.

**416.**

If we want a deep close loving relationship with God our father. We need to be able to talk directly with him, be very close. We don't text, email Him or anything like that, because we all know that it is what we have to do in locked down with our friends. We have to keep them at a distance. It's not the same as a nice hug, kiss, handshake from a friend or anything like that, it is so wonderful so meaningful, we miss it. Praying is a two-way conversation, don't make it just one way with a shopping list. When we are praying to our Father God, stop and listen to what He is saying to you, in your quiet area or wherever you are, even put your hands over your ears so you can hear nothing else but God, He will be whispering to you through the holy spirit dwelling in you. God is everywhere He is in front of you behind you below your above you He is everywhere so speak to Him and listen. If you don't hear anything, ask Him to speak to you. He will let you know what He wants you to do.

**417.**

The Lord places us where He wants us, where you can do the most for Him and for others, it is a blessing to bless others because every blessing we send out just like a boomerang it comes back with a nice surprise, it is God's pleasure what you are doing, it is God's pleasure to have you as part of His family and all the generations before, God is so wonderful He blesses all who know Him. Be filled with the Holy Spirit, be filled to overflowing, show all the fruits of the spirit especially love and joy. Peace rests upon you and all you meet and love.

**418.**

Family is everything, everything is from God, God is part of our family we are part of His. Sometimes what we want, is what not what we need. God is the great provider, He provides everything for our needs, we only need to ask and if He thinks we need that, He will provide it, sometimes through other people. When we are ready, we can return our thanks to Him and by doing things for other people as well. He wants us to be strong in our spirit, His spirit is the Holy Spirit. When we accept Jesus into our lives and ask to be filled with the Holy Spirit He will come and dwell with you and your spirit. When we help and serve others we are serving God as well.

**419.**

Be still and know that I AM God. Reach out your hands and let God lead you into peaceful areas in your life. Settle the clouds in your head so you can see clearly, you can see for a distance and the worries will go away, Lord is blessing you, He is there with you beside you. The Good Shepherd is looking for his lost sheep when things are missing and have gone astray. Life is like a jigsaw puzzle, sometimes we search and search for the piece that will fit in and then without any effort, we pick up peace and it fits in straight away, you wonder why it took you such a lot of worrying and concerned to find that piece, it's was there all the time. The Lord will place our lives together, He knows what the picture is, we just have to trust Him, be with Him and allow Him to safely put us back together again. The more we spend time with the Lord in prayer, it's like taking yourself to the Repair Shop on television and He will restore you.

**420.**

With the virus we are stopped from doing our duty, going out, meeting, greeting people and praying for them in front of our eyes. It is very hard not to go and do our duty, we feel honour bound to fulfil what God wants us to do. The devil will do everything and anything to stop us doing such a wonderful thing as saving people's souls, don't fret, don't worry, don't be concerned about that. God has got it in hand. It feels like a one-handed clap. Do a virtual prayer walk in your area like the little man in Google Maps drop yourself down, walk around where you normally talk to people, imagine and remember the faces of the people you talk to and pray visualising them in front of you. The actual world, the virtual world and the spiritual world are very different, but through the Holy Spirit we can pray for the people and help make a difference.

**421.**

Are you ready, have you got things sorted out in your mind, have you had time to grow new feathers and preen yourself and primed, is everything prepared? Are you energetic and have you brushed away the cobwebs of your mind, are you restored, ready and waiting to be called out once more? Everything has been rested and everything has been calmed, inside we might have been frightened but that can soon go with the Lord. Are you ready for your turn, when you go out again with love, with the rucksacks full of blessings and a couple of friends with you by your side. The Lord is there, He always has been, He's waiting for the time to call us out as an army and give people all the things they need. We are an army in waiting, we are ready and willing to go, back out and home again, now when we are fulfilling the purpose of our lives, now we are getting everything ready for that time.

**422.**

Are you ready for the new beginning, have you got your troops all lined up, have you got them all train and prepared and have you been out on manoeuvres, practicing and getting all the things sorted out, do you know what you will be doing, have you made any plans, are you ready and willing and waiting for the time to be called out. Can you do it, yes you can, you can do it with pride because the Lord has set you aside to lead, to lead his people forward to lead them on and on, He is with you all the time and does it with a song. The Holy Spirit will be there in the morning, He will be there in the evening too. He will be walking around with you by your side, when you go out and view all the people standing and someone lying on the floor, some will be laughing and some won't be there at all, the drugs, alcohol and all those things are not happening at the moment, but are you ready, are you firm, are you going to be bold and go out in victory for the Lord, because you will be needed, you will be needed really true, you have the strength from the Lord, so be bold and He will go with you.

**423.**

Are you feeling a little lost without the purpose and passion in your life, now that we can't go out at the moment? Is it good that you're missing out on your passion. If you carry on with life without worrying about the people you've been praying for and the area you were covering then you are not fit for the job. Because you're a loving caring person and have the Holy Spirit within you, that is why God has chosen you for that position, it is a position of humble honour to be working for the Lord and with the Lord and the Holy Spirit within you, take time to pray for the people that you miss, take time to recover yourself, so you are strong and willing, able, with a hunger to go out again, be refreshed and renewed for what you're doing and start a new beginning in a real proper new way. Make the new normal as supernormal and make it with God in mind.

**424.**

When we have been a leader and now we're stepping down, it is good to know that all the things you have done have not been in vain, all the seeds you have sewn, all the memories you have stored up, everything that was done, was done in love. All the people you have met, all the people you've saved, everyone has been blessed by you, perhaps they will do the same. All the people you have taught and walked around with too, they will know what you are, who you are, all the blessings and they know your name, your name is written in the books in heaven, God knows where you are. It is good to pass on the baton and make a clean exchange and watch the next person go on ahead. Help them along the way, encourage them in all they do. Pray for them and ask for protection and blessings upon them, as you have had the same.

**425.**

Have you checked out with your fellow workers and find out how they are getting on. With this virus they are sitting at home and perhaps not getting on, their families may be struggling, that may be part of your ministry too, to help the people from within. There are so many things that you can do right now, to help others on the electronic internet there are so many things about, zooming around, Twitter, Facebook, this and that. When you get back to where your area is, you'll need to catch up with the people you used to know, catch up with their stories and find out whether they are happy or whether they have a wo, do they have financial difficulties or they have lost a loved one too, you are there, so be of help, that's where you should go. You should go, be there, to help them and be there to smile, when they have some joy actually put a smile upon your face, if you can and greet them with welcome arms, when the virus is gone, this is what we can do without any harm we look forward to the day the New Normal has begun.

426.

Rejoice, rejoice, rejoice, rejoice, keep on saying rejoice, I say again rejoice, rejoice, rejoice because that's what we should do. God is with us because it is true, God is bringing victory anew, changing things around, God is everywhere to be found, we are with Him, He is with us, He is everywhere. Every time we pray and praise Him we are renewed, lift up your heart, lift up your soul, because He is here, He is to be found. Go looking for treasure everywhere, in people, you will find, open up and dig down deep and let them know that the Lord is there all around. We will soon be going out, to pick up people, the bottles and glasses from the ground we are there to help people and to be there so God can be found.

**427.**

Oh to be sending out of the Angels and all the Chaplains too, just sending them out to gather people to God and Jesus too. To help people to fulfil their purpose, to make them God's children in the world. A storm of blessings be rained upon you from above, my all the angels praise you and chaplains too with love, help everyone that surrounds you and allow them to help you too. Everything is about teamwork, be the team leader, look for people that have the same gift from God and train those people for the future to take over from you. Help people to bless them and they will produce fruit too. Love conquers all.

**428.**

To be a trustee is a position of great trust, be trustworthy. It is a position of great honour and responsibility. Find out the history, check out the history and the vision. Make sure that they both line up and haven't been deviated from. God has given the vision, man is working through it in the people working and many more people to come. You are checking the history, checking the present and making sure that history is written down for the future then it will stand firm. The watchman on the ramparts makes sure that everything is above board and looks out for the devil where he tries to get in to destroy. Be alert at all times to make sure there's plenty of provision for the future and that it comes from a trustworthy source. History will tell whether you have been a good and faithful servant of the Lord.

**429.**

Are you missing the time out at night, the close friendship and support from one another, going out and being on a mission for the Lord, saving people, picking up the pieces and keeping people safe, it is such a wonderful calling, the time when we are allowed to do that is a blessing. At the moment we are in a time of rest, it is the time when we have to wait for the Lord to prepare the way. When we are allowed to go out again we go out in glory, singing and worshipping God for the time that He has given us together. With Noah there was the flood and their self isolation, now the water has gone down and the pastures are green. We wait for the time after the virus when we have a new beginning and New Normal and let's hope and pray that the New Normal has God in the number one position.

**430.**

God has set out a path for you to tread, don't be fearful, don't be afraid God is there with you, He is with you all the time. When we look back over the past years we have trod and we can see where the Lord has been with us, when we see two sets of footprints the Lord has always there, in low point where we have one set of footprints He carries us but not for too long, we need to be able to walk on our own but with Him, He is our strength and our shield at all times, trust in Him and He will lead you into pastures green, to wonderful places, He will bring before people that definitely need your help. God will place in front of you the person He wants you to speak to and listen to their story so you can help them, through the holy spirit, let the words from the Holy Spirit come from your mouth and from your heart. You will be amazed at the way the Lord works and you will see the results of his love.

**431.**

When duties are done and it's time to hang up your wings. Be ready for your next assignment with God, this time to reflect. Your memories are not lost because they are there, you have spent time with the Lord and things which have happened have affected other people and they still have the memories, hopefully, but the results are there because it is God's love in people's hearts through you. You have been counted among the many people that are servants of the Lord, He has seen you give help along the way, He has sent His holy spirit to guard over you and He will continue that until you meet with God again in heaven. Be fruitful in your new assignment that God has set you on that path.

**432.**

To celebrate VE Day is to celebrate a great victory from the past that has come and gone and has great meaning. a victory over an evil regime. A victory that's a great loss to mankind. We look forward to the victory over the world virus, world victory not just a European victory. A great loss so many people's lives and businesses and now the world is changing. We need to prepare for the new beginning, time of victory, Christ has won the victory over death already, we go to Him as our great advocate and ask for another victory when we go out as an angel on the streets, we need to be prepared for that and look forward to Joy so that we can go out and meet people again rejoicing.

**433.**

Administration is like the mortar between the bricks in a wall, the whole wall depends on the mortar to hold it together. If you have poor mortar, poor communications, the whole thing falls apart, if it is weak, it won't weather the storms, nothing will be good. During the war, if the lines of communication were cut, people weren't able to fight effectively and quite often battles were lost because of poor communication, nobody was able to reinforce or supply, communication/administration was writing it all down so people could check to make sure things were running smoothly. Always check out your assumptions. Communicate, don't frustrate / don't frustrate, communicate. Most things are done through administration, do your best not to make any errors.

**434.**

Have you counted every time you have been out on duty, do you remember all the people that you went out with? Do you remember all the people that you have met, their faces and where they were and all the times that you've helped them, met them again, all the people in the different clubs and pubs, the policeman and the ambulance drivers, paramedics, all the people at work during the night, the CCTV and all of those people, they were all supporting you. That was the night economy that was. They are all dormant like a moth in a cocoon, we are all waiting for the time that lockdown finishes, we all need to be patient, be ready and prepared for the next time we go out, be full of joy and happiness and rejoicing.

**435.**

A kite flies really well, when connected to some string, as long as there's power in the wind to take it up into the air, it flies well. When we are put under stress and strain, when we are connected to God we can fly well and be lifted up, when we are connected to Jesus through the holy spirit and God we are one. We are able to fly, be lifted up, above all our problems and struggles and strains, we need to be able to help other people to learn how to fly kites too. Do you wrap up well when the wind blows and the storm is pending. There's no such thing as bad weather, it's just incorrect clothing for the time. Do we put on the cloak of the holy spirit to give us protection? Do we dare to pick up the cloak of Elijah and ask for an extra blessing? We may not be able to see the wind but we can feel its power, like the Holy spirit, when the Holy spirit is with us, we can feel the power but we cannot see it, we know that the power of God is within us and that He is there for us to help others.

**436.**

When we are looking for information, something that people can rely on, their lives and safe return from wherever they have been, or going to, nowadays we have so much electronic gadgetry and technology, has advanced such a lot, but we still can't get rid of the virus, it is such a small thing, it can make a huge difference. When we are making decisions, we can only make them based on the information before us, calculate what might be the outcome. We always need to find a trusted source of information and truth. God is a trusted person, trust him with all your heart and all your life, everything depends on Him, pray to him through Jesus Christ and He will be your saviour, give your life to Him and he will give you new opportunities through his Holy Spirit.

**437.**

Father God we call upon you for help because you are the only one where we can find hope. Jesus came into this world so we can have our connection with God. Come holy spirit in your power and heal us, heal us from within, we accept you Lord Jesus into our hearts, to be part of our lives and please ask God on our behalf to heal us too. You are the great advocate you call upon God for help on our behalf. We ask for miracles because we know you can do miracles. You created everything, the universe, this world, stars, moon, you created us. We call upon you in times of our troubles. Set the prisoners free from the pain, suffering, worry, troubles and let the lame walk the blind see and we look forward to coming home. Father God please forgive us for all of our sins, all the thoughts which haven't been right and anything that we've done now and in the past and also our ancestors. Please forgive them all and please help us to be free of all those, so we can walk forward with you Lord in peace.

**438.**

When we cry out with regard to asking for help, it is a good idea to share with other people too, your worries and troubles. Don't be frightened to share things with their friends, they know how to help you and they can pass on that, so they can share it with others that will pray for healing and help lift your load from you. Take your worries and troubles to the Lord and let Him take them from you, then don't pick them up again, just keep on praying and the load will lighten, you will know, you will have peace with the Lord that is beyond all our understanding, the peace of the Lord is always with us, His holy spirit is within us, if we allow him to dwell within in our hearts. Your faith will grow stronger the more you pray for people and the more you pray for people the more people will have prayers answered for them, if you pray on their behalf or ask other people to do that, you will see the harvest you will see how God will help you and save people it is always the best thing to do and with that you find hope. God does, will and has performed miracles, you've seen some, some you have not recognised, always praise the Lord at all times in all situations for He is to be glorified His name raised up.

**439.**

Open your eyes and see what you see, you see reality in front of you. Close your eyes, close them tight, now what do you see? Ask God to show you what he wants you to see. Ask God for a vision of the future, for the future and ask him to keep showing it to you, even in your sleep. Ask him to help you work through that Vision, see yourself where He wants to place you in that vision for the future. Go to the highest place near you and ask God to show you where He wants you to be. Go on a treasure hunt and seek out the treasure that God has put in your heart to do, you may find this in people close to you or people nearby, look for it and share your vision with others, see whether it is true. Sometimes a vision will be picked up by many people, with excitement and you would just be the start of it, not necessarily all of it, but it will be like a pebble in the water.

**440.**

Raise your hand up to God, be like a lightning conductor, Give God a high five, make sure that you are with Him and He is with you, acknowledge one another and be the one that leads the way. When the rain touches the ground and God's Kingdom comes down it refreshes the land, it brings forth fruit, fertility and growth, be the person that sows the seeds in the fertile soil that has been prepared by God. Go outside and watch His Kingdom come, with open arms.

**441.**

Sorry God, thank you Jesus, come Holy Spirit. An actor, when he is given a part to play, he learns his lines, gets into character and then he plays the part of that character, really it is not him, it is a lie, he is just playing that part for the time he is in the play. When he plays the part really well, he is deceiving people, because that is not who he really is. When the curtains falls, he reverts back to the person he was before, his true self, dropping the character that he was playing. If an actor becomes the character and he can't shake the character off, he is no longer himself, he's become that character, he is living a lie and becomes a prisoner of that character. When we choose to play or are given the part of the devil's advocate, the persons that you are acting against, usually become stronger in their resolution because you are giving the other arguments, but you must know which is true and which is false at the start. Make sure that your choice is correct and don't stay in someone else's character, be true to who God made you. Sorry God, thank you Jesus, come Holy Spirit.

**442.**

When we go on a walk do we choose beforehand where we are going to go, what we get to see, how we are going to get there and how we are going to get back, or do we walk about randomly and walk on a path, public right of way. Do we take a map with us or a compass or do we rely on our phones, do we take our provisions with us or do we walk alone and will you be keeping a safe distance or trespass on other people's property and are we easily led, do we take God's hand and let Him with beside us. Do we walk with God and Jesus, have we walked with the Holy Spirit inside us do we help people as we walk along the way. Do we walk with purpose or do we just not care, with the wind blowing through our hair. If heaven is our destination and we want to be with God, how many people have you talked to along your walk and how many people you met will be there. How many missed opportunities or how many times you have said something that scares. Write out a 10-year plan and see if you can work out what God wants you to do and when the 10-years are completed, check to see if you have done it all and then start another list for another 10 years on.

**443.**

When you are walking in the mountains, walking on both sides of the clouds, you see many other things that are all around, when you walking up there do you go with a group to help you, do you take a guide with you and he knows how to scout, he needs to know where the good foot holds are and puts in good lines, he is there to support you, in the good and bad times, he is there to help you achieve your target, to climb that mountain high, when you have reached the top and conquered it, you can shout out and cry, I am here above it all, I'm above all the clouds, but the walking down can be difficult, I still need help to get down to the ground, be with me God and help me, help me all the time. I accept Jesus as my Saviour so please come and let the holy spirit reside in my heart, so I know you are always there to guide me and help me when I cry. Hold my hand and don't let go and be there now but don't go, I need you when I cry out to you from here, when times are difficult and I am down, I need you all around to pull me up, I know, but I want someone to come and interrupt my thoughts, doubts, sorrows and lift me up high, I want to be with you God above the clouds on the mountain Side.

**444.**

Come Holy spirit fill this land with healing water that flows from the stream of life, fresh water to clean wounds and heal the sick, spread the love around the world that you know, you have kept people well and firm on their feet as they walk their mile, around the world from Florence Nightingale Hospice in Aylesbury to Florence in Italy. You are there with every person that walks their mile. Bless them and keep them safe whatever they do afterwards. Bless also all the people in the hospice, for the nurses and staff, bless them and keep them all safe. Thank you Lord that Florence Nightingale lit the lamp to light the way and may the baton be carried round the world to all the different people doing it and may it be a blessing to all. Amen

**445.**

When you go out for a walk, what do you expect to see, the same old things over and over again. Stop, look and find another little route, one that you've never been down before. You will be amazed at what you will find, something you might have seen in the corner of your eye, go and see it up close, a hidden secret, a small lake, something that has been there all the time. A pool of tranquillity, a place of peace. As people of compassion, we have worries and troubles about other people but we tend to miss out on ourselves. Spiritually weak. We are made up from the past, all the things that we have learnt are ready, waiting to be used and whatever we have, it is needed for each and every situation that we come across. All the things we have done with our families are ready to be used now. Don't put off until tomorrow what can be done today. Reconnect with God, Jesus and the Holy Spirit, you will find so much strength and power to help other people, your family and friends along the way. You only have a limited amount of energy but with God, Jesus and the Holy Spirit with you, you have unlimited and eternal help. Use it or lose it.

**446.**

When we are given a vision from God, we work at the Vision and we see it grow, it's like planting a great big crop and then see the harvest starting to come in. Then we sow more seeds from that harvest and it gets bigger and bigger, our vision is wonderful when we see that happening and it goes all around the world, it goes everywhere, the blessings are from heaven above. As more people capture that Vision and are excited about it. It goes on and on, it is something that we leave is a good legacy to the world, something that saves so many lives, mentally, physically and spiritually. This virus has put everything on hold, everybody is on standby, everybody is having a rest and recuperating, so when we were able to go out we have new strategies, we're going out with energy and we're going out with God, praising Him to the highest for the victory over this virus and victory over anything evil that might be affecting people. God will go with you and continue to give you an encouraging spirit in your heart, be encouraged by everybody that participates in your vision, that God has given you.

**447.**

To have your finger on the pulse, to view everything that's going on, you can check the health of a company or person. Being in administration you know what's happening and you can divert resources to make sure everything is correct and running smoothly. Without organisation at the top, without communication, is like a lot of headless chickens running around pointlessly, nowhere to go and not being able to feed. As the good news of the virus, with the lockdown starting to be lifted, people are starting to be able to do more things and they are so grateful that they can go out, perhaps meet people and start the revival of life again. See that happening and be part of the great revival of faith, encourage everyone to do their part. We give everyone in the NHS the huge applause that it deserves and all the other people that are working through it and all the people that are suffering from lack of work. God knows all that's going on, we need to call to him, encourage other people to do the same and we give God a huge round of applause too, from everyone, for what He is doing.

**448.**

When we were children we had a small jigsaw puzzle to put together, it may have had four or five pieces and was very thick, with a very simple picture. As we grow up we are able to take on larger and larger jigsaw puzzles and some of them may have a thousand pieces or more. It's choosing which puzzles to start, opening the box, pouring out the pieces and then start sorting them out. We all put them together in different ways, sometimes people get the corner and the edges first or just start in the middle and work outwards. Do we tend to give up halfway through and put it all back in frustration, or do we persevere and give time, eventually put it together. We get our pleasure in doing the jigsaw puzzle in various ways, some people get frustrated, some ask other people to help them along the way, when more people come together, all working towards one goal of getting that jigsaw puzzle complete, every bit is important, every bit goes together as one. Are you willing to start again in various places where you might have got it wrong and then when it is put in the correct way it goes right. The last piece is just as important as opening the box. Where do we get the most pleasure in the whole process? It is the same with our lives.

**449.**

When do you cast your net? When you cast your net upon the water, you do it in hope of getting a catch. You know what you're trying to catch by the size of the net and where you are fishing and what you expect to catch. When we cast our prayers, it is like casting our bread upon the water. We have an idea of what we want but we really don't know how it's going to come about, we don't know whether we're going to have a net full of unwanted fish, or rubbish that will pick up off the floor in the sea or the river, there's so many things out there that are not good and are distracting. We must keep casting our nets in hope. Jesus said "cast on the right side" and you will see the difference, you'll see how things have changed just by doing something different, the harvest that comes in sometimes can be amazing, totally unexpected and from different quarters from where you were fishing before. God will lead you to where the harvest is great, where he wants you to be but sometimes it is a small harvest perhaps one fish but one fish is more than you had before. Teach others how to fish so they can be fruitful and fulfil their purpose in life. Praise God as you cast out your net and praise God when you draw it in empty or full.

**450.**

Be full of cheer, be full of smiles, keep on going, you will walk many miles, with Jesus Christ as your Saviour, He is with you all the way, take Him but don't leave Him, He will always be by your side. Share your joys with others and help them on their way, play with toys, your brothers and don't make too much noise. You may get bumps and bruises as you go along your way, but get up with grace and get on your way, just be at peace with Jesus, play with Him as you play with your toys, know Him as your brother and tell all the other boys, that you have got such a wonderful saviour that He is there to help, you can pray all day long, He will always be there even when you sleep. If you have bad dreams, ask Jesus to sort it out in your dreams, He is there, never ceasing loving you with all His heart, all your family around you are filled with joy, for you because everybody knows that you know God too.

**451.**

Do you walk along the road not take any notice of anybody or anything and just go on regardless, knowing everything that you know and just believing in yourself. That's normal, that's nothing to be ashamed of but you never know how much you've missed along that route. How many problems you got yourself into unnecessarily. When we are given advice, quite often we just rebel against it because we think we know better, but usually the person has a bit of wisdom and they can see where the right route is for you to go. It is your choice. The same goes with your relationship with God, you know about Him, hear the stories and people seem to go wild on Him but you haven't got that. If you find you have an empty space in you somewhere, you just have no idea what it is, that this there and you're wondering, which directions need to be taken and you need someone to trust When you have a relationship with God and you accepted Him as your Holy Father in heaven and His son Jesus and the Holy Spirit, when you accept them, then you can take note of the signs along the way and people guiding you through the Lord. Your passage is quite different, it is filled with that joy and understanding and a special peace, but only having that relationship with God your father, will that happen, it is so marvellous so uplifting and it is a joy to behold. How about saying sorry God, thank you Jesus, come Holy Spirit.

**452.**

When we get presents nicely wrapped up, Christmas, birthdays, Easter, anytime you get a present, as a child you just rip them open and play with them for a few minutes and discard it, then on to the next one and forget about it. When you have been given a gift, it's so wonderful that you've left it unwrapped, you just pushed aside and ignored it. The giver is disappointed that you haven't opened it and the people that are watching you are still disappointed that you haven't opened it and see what that gift is inside, there is a hidden mystery to you but others know it. you might have an idea by the shape and size of what's inside that gift but until you actually, care or dare, to open it because you may think it's going to change your life and you have no control over what happens next. It is your choice not to open that present, it is your choice not to receive the gift inside, it is your choice to do anything like that but it's a choice, it's a choice that you have to take, it is when you take that choice and you overcome your fear and you start unwrapping the present, a gift that's been given to you, you personally. The gift has been fully paid for, totally, nothing to be paid in advance or put down, all costs have been covered. You may have guessed already what's in that parcel, a present for you. It is the gift of Eternal Life in heaven, God given to you through Jesus Christ, who died just for you, so you could be saved, open your heart like the present and let the Holy Spirit in. Be saved and be renewed for a new life ahead of you.

**453.**

What's your favourite food? Is it sweet or savoury, is it a hot curry or a very mild food or is it all sorts of different flavours, do you add salt to the savoury to make it more savoury or sugar to the sweet to make it sweeter. so many different types of food, different countries, different ingredients, they're all around and we can just indulge and gorge ourselves on it and get totally distracted. But we still feel a bit hungry, a bit empty inside. Are you a sweet person or a gentle person, mild or angry. There are all sorts of different types of personalities that we can be, but we are all made up of the same things inside us down to the barest minimum. Do we have an inner peace or are we turbulent inside. Do you remember your childhood and the people that talk to you, school teachers, Sunday school teachers, family, relatives and friends, all helping you to grow. A lot of things will be put aside but they're all still there in your heart and mind, things that we can draw on, but sometimes we tend to forget how it all came about and where we were going along our path set before us, we seem to be distracted and forgotten where it is, we're walking into to brambles, ivy has to grown around this time, we're just broken down by everything, lost, what holds you back now? If you turn back to Jesus and find where your path was, re-join it and start learning again. If you want to find this again, join an Alpha class and you'll be amazed how much you remembered from the past and how much it has affected you along walk today, but then there's more to it than just that, listen to what Jesus says to you in your heart and take that path along the way and praise Him all the time.

**454.**

Here I am Lord, speak to me. Listen to the lord speaking to you, He is calling out your name, He is there, He is waiting for you to reply, to respond to His call of love, He loves you with all His might and he wants you to know that He is there for you. Don't be frightened, you are already doing what He longs to see you do for His people. Pull back the curtains and let His light shine through you.

**455.**

Protect the ones you love, protect them from all harm, be there and support them, as they go along on their adventure with the Lord. Read the word of God in His Holy book from cover to cover, it will take time but it is always worth it, I can tell you that brother, be there when she needs you, be there all the time, support her and love her and be ever so kind, there will be times when she is low and when she is a glow. Praise the Lord at all times, don't cease to praise, be there as you both walked together in the path towards the Lord. There are many people there to help you, support you as well, ask God to bring people to you and help you keep you away from hell. Walk together with the Lord, all three holding hands, the Lord will keep you together like a really strong elastic band. Talk to the Lord and listen, He will help you understand.

**456.**

No need to sit in the departure lounge waiting for the flight to depart, waiting there with an empty heart and not knowing where you were going to go. Take hold of the hand of Jesus as He stretches it out before you and let Him lead you along the path He wants you to go. There is such a wonder to behold, such a warm heart you will feel, the love of God is there for you. Walk on the beach at sunset and see your footprints in the sand, Jesus has known you before you were born and that you will now understand, open your heart and accept Him, for His love is true, He wants you to know Him and love God too. Don't hold back on your emotions, open up your heart and ask the questions loud, don't be afraid, because God loves you, He understands all your worries and troubles, just allow the tears to flow, allow them to well up from below, be filled with joy and laughter and everything will come to you. Come and join God's family, they are welcoming you there with open arms, the joy will behold you, come now and be a part.

**457.**

God is love. The devil is fear. Choose! Faith re-moves mountains, your troubles, worries and concerns. Doubts will make your fears grow larger, it will grow and overcome you like a dark blanket over you. But God will send His spirit and bring brightness shining through, the brightness is so great, darkness flees away. God has given us eternal life through Jesus. Take it, grasp it, and walk with that and be sustained, God is walking with you because His footprints are in the sand, He was always there, He never goes away, He will help you, just hold out your hand and He will guide you, He will comfort you He will be there. Shout at the devil when he bothers you and tell him to go back to hell. Because I am a child of God.

**458.**

What have you lost, where is it now, have you let fear distract you and all the things that are data. Do you trust all the things on the Internet, is everything true to be found, is everything that you want there and everything you need to take you on. There are many things, scams, allusions and promises that cannot be fulfilled. Will you get all the pills and potions that make you feel that everything is true. Join the club of Tolkien and Lewis and see if you can be with them too but there is nothing else but God that is true. What happened, for you to lose your way, who said the things to you are the things that changed you, the things that made you lose your way. Read the book from Bunyan about the Pilgrim's progress and his way and how he found what he was looking for and glory was on that day. Don't forget that God still loves you, He knows you and He is with you all the time.

**459.**

God sees you and He loves you, He loves you with all His heart, He knows what you are going through, He is there to be part, He has people around, to help you, support you on your way, to love and cherish and care for you, the Lord is there when you pray, He will help you and He is there eternal, He is there for you to call upon, He knows you and he loves you so just cry out with a song, a song of love and forgiveness, a song of love so true, a song when you're feeling happy and a song when you're feeling blue. Ask the Holy Spirit to fill you with peace and understanding, so you can continue through.

**460.**

When you walk through a churchyard and all the graves are lying there in various states of repair, remember all the people that have been here and lived throughout the years, all the things which they have done, all the things they have gone through, it's like walking through past history and there is nothing new. Things have changed from many years ago, everybody who has been marked, has been here but now, we are walking through with living people all isolated away. All people can talk with God in their prayers and every day. When we take time and put it aside, everything that's rushing around and rushing by, the time of isolation is the time to find some peace, to find it with God and find a little niche, the time we put there is so precious, it is something that we need to treasure. Don't lose your point of connection and communication with God, Jesus came down and died so we can talk directly through Him and the Holy Spirit lifts us from within.

**461.**

Come holy spirit cleans us, cleanse our blood through and through, repair, restore and recover all that is of you. Take away the pain to make everything be glorious, glorious and to you, Lord we give you praise for you have saved all the ones to you. Come sit beside me now and ponder all the things I need to do, help me Lord and bring me through all these problems and bring all the other people too, I need you more and more as I am failing fast, but I know, I hope that you my brother, all this pain will pass. Help us Lord to help one another, support us when you can. I'm sorry God, please forgive me, for all the wrong things I have done.

**462.**

When you're flagging, it is time to get a breeze, it is time to get some wind through your lungs and so you can breath and walk with ease, it is time now to recover it is time to blossom into life, things may be very prickly but the sun will soon be shining from the heavens that are above. God will get you sorted and then everything will be sublime with God's love.

**463.**

Now is the time of isolation, the time to shut things away, to keep things in the cupboard and keep things all at bay and close away those nasty thoughts, the things that keep on nagging on, but just ignore them, because God has got everything sorted, He is going to heal you and then you won't stop bragging that God is with you all the time, He is with you now, He is with you every time you walk out and everything's with a smile, He is there now, He's helping, He is healing you right now, He is there and He won't go away. Take up God on his promises, the ones He's given to you, He knows where you are and He is with you now. Every day is a blessing and thank God for that too and praise Him and everything, now He is with you, He is with all the people you meet, so put a smile upon their faces and know that God in his mercy has given you some Grace.

**464.**

When you sow seeds of kindness, you do it not knowing what you're going to get in return, you do it out of love and compassion for other people, things you do are putting a pressure on you, the return is not necessarily what you want but you do it for the long term. It is like planting tree saplings in the ground. If you plant carefully with love and tender care, then when the time comes, when you can reap a crop of fruit, you are receiving all the kind deeds that you did in the past will return, many more times. God plants the seed of love in our heart and the more we turn to Him in our hours of need the more we can help other people when the time comes. Jesus gave up his life so that we could be saved and we could become a great crop of souls. So we can get back our relationship with God that was lost through Adam and Eve.

**465.**

If you want to be known as that wise old man with a grey beard then you need to ask God for wisdom like Solomon, He gave Solomon so much Wisdom and knowledge that it was amazing.

1 Breathe on me, breath of God:  
fill me with life anew,  
that I may love as you have loved  
and do as you would do.

2 Breathe on me, breath of God,  
until my heart is pure,  
until my will is one with yours  
to do and to endure.

3 Breathe on me, breath of God;  
fulfil my heart's desire,  
until this earthly part of me  
glows with your heavenly fire.

4 Breathe on me, breath of God;  
so shall I never die,  
but live with you the perfect life  
of your eternity.

**466.**

When you ask for someone to pray for the safety of your family and you don't believe in God, how come you are asking for something that you don't believe in, do you expect it to be true, whether it's a prayer of something to somebody you don't know, will it actually make a difference. If something goes wrong with your family, do you blame God, or if something nice happens, do you praise God for that. It must be very difficult not believing in God. An atheist is someone without hope. Someone that has faith in God can pray for anybody for anything, knowing that God is listening. Praying in faith and hope, there is nothing, no protection against prayer for the person that doesn't believe in God, they may be touched but they may not know who touched them and made them well joyful. We are not the ones to judge, it is their choice, but it is up to us to help them find something to give them hope.

**467.**

Good health is a blessing, good health does not come easy, good health needs to be worked at and we need to make sure that we take all the measures we can for our own health and encourage other people to do the same, we need to help other people all around us and we need to ask God for protection against this virus that's around. Ask Him to intervene, to be there and help everyone that it is with the virus, that is not seen. We cry out Lord for your love and compassion, all around the world, not just for ourselves but everyone that is to be found. May there be a great revival, people coming back to You, getting back a relationship that was there but was lost, waiting to be found. We are all isolating for our self and others protection, we are fenced in all around.

**468.**

Whenever you are on a sailing vessel, however big or small, whether it is a single seater or a 4000 cabins all, there is only one small movement on the rudder that can make the journey fall. One small direction of error can make all the difference, whether you get there at all. If you have someone on the tiller who knows the routes very well, then like a pilot in the harbour he will take you to safe moorings, they know where all the rocks are and where the shallows are and he will take you where you need to be safely. God is the Alpha and the Omega and Jesus His son came down so we can communicate with God and be filled with the holy spirit and that is where your direction comes from. Take your hand off the tiller and let the Holy Spirit be the pilot in your life just take and trust in Him and you will have a new life and a life that doesn't stop, but continues on into eternity with joy everlasting. When you know the journey and where the pitfalls are, you can help someone else along the road and show them where you are, you are closer to God and He is closer to you helping others where others helped you.

**469.**

We may not be able to change the world but at least we can rearrange our back garden. How do we see the world and how does the world see us? If you have a pile of old family photographs, have a close look, can see if anyone has written the person's name on the back, if they haven't and you know their identity, write it on the back for the next generation, they will be wondering who they are and if they are related. So many people have missed out in past generations. Write down some of your recollections from the past, the things you've done, the places you've been, the people you have met and words of wisdom and talk about your faith, how this helped to get you where you are now and the wonderful miracles that happen along the way. Have we fulfilled the purpose of our lives, have we done the things that God wanted us to do or have you just pushed Him aside, do we know what our purpose is in life. The greatest legacy that we can leave is a legacy of love, love of God, pass that on to other people, so they may know Him and have eternal life through Jesus Christ. Read Psalm 113.

**470.**

How can we keep our family safe and have good health all round. It is the same as a lawn, if we spend time and water it regularly and give some feed and get rid of the old stuff that's in the grass, rolling and raking it and with constant work we will get green grass, as long as the seed is right from the start. If we over water the grass or give it too much feed or weed killer it can kill it too. Too much kindness and kill it, It is the same with us. If we have too much food or drink or anything like that we can be harming ourselves, plenty of good food and exercise is what we need to do. We must not neglect our spiritual health as well, reading the Bible, praying and looking after other people and helping them on their journey towards the Lord. God has provided as a family, our family to look after, life is a gift from heaven and we need to look after it and treat it with respect, the treasure that it is.

**471.**

This lockdown and the restrictions, there are so many things with this, things we used to do even have a kiss, we miss all our families, we have to keep away. We take all things for granted until they are taken away, we miss all the crowds of people, all going their different ways, there's so many things that have stopped, we are still here, we thank God for everything we do. Have we praised Him and given him a high 5. Everything is virtual or digital to view, everything needs a change now of course we love you too. We can still enjoy the sunshine and all the lovely views, we can still smell the rain on the ground and you're out for a short time if we choose. There is something that I think most people miss and I know that you do too, this is what I'm really looking forward to, to be able to hug the ones we love and hold their hands, to go around freely and loving each and everyone too. God is here to help us and we pray and ask him to hug us too.

**472.**

It is so wonderful to meet people, talk and keep safe. I say that God has created such a wonderful world, it is all around us to see and admire all the rain and the sunshine comes down onto the earth. It doesn't matter whether we have a faith or not if it's all there and it's all for us to take in. There must be a way to be thankful for it all. I thank God for He loves you.

**473.**

Have you looked up at the sky and seen how wonderful blue it is? The clouds all different shapes and sizes and the sunrise all the different colours and the sunset sometimes different all wonderful colours and ever-changing and then the darkness comes down, the stars come out at night and see the closest stars and planets, the stars further away and the galaxies, the Milky Way, wondrous things, if you looked there and even further on and there's more and more and more. When we look down upon the ground we see all the wonderful flowers, hear the birds singing just so amazing. Have you looked into somebody's eyes, really close, deep into someone and looked into their face, all is different everyone is a special person and God loves you. Have you ever wondered why?

**474.**

Praise the lord in the morning, praise Him all day long, praising with the song and play the music on, play it louder or simply it is strong, play it with all your might, because God is with you, He is now He is in His might, He has saved you for a purpose, for you to fulfil, He is letting you continue until all you need to do is done, when you have fulfilled your purpose and potential, then is a time to go, to worship God in heaven and with His son Jesus, until the end of time for eternity with God it's now and forever more. To be given the second chance to be here on earth is so wonderful, so fantastic, it is from the Lord of the dance, sing on.

**475.**

When you wake up in the morning, the sun is rising high, it is so wonderful to see the clouds a floating by, this is a sign of the day, that has begun, it is a time for blessing and to thank everyone, everyday is a blessing, it is sent for us to use, to make the most of it and don't ever abuse. It is a blessing to see with our eyes and smell the new day, it is so wonderful to see everything and all our family around. Open the windows and listen to the morning sounds, the sound is now not so loud when all the planes have gone away, but now we can listen to the morning song of the birds. God has given us our lives, we need to fulfil our purpose, find out what God wants us to do and for eternity, rehearse us. We asked for our recovery and returning strength to come, so we can get up and get out and on the paths so we can run and run and run and run, on into the green hills and far away and just admire God's creation because it is there every day.

**476.**

When you are in lockdown and you're hiding, in a darkened room and away from everyone, now is the time to look for some light, pray to God and just take your time for Him to answer you, listen to Him speak in whispers and in voice. Pray to God and call out, He knows your situation, he's waiting for you to pour out your heart and ask Him, to send out someone from His nation. In times of need, we need to call, to call to God and ask Him for His help, He loves us for whoever and wherever we are God loves you, He loves you so much that He knows and cares for you when you are feeling down and out it is time to look for the truth, the truth is in Jesus, that Jesus died for you, He is there for you to call on and He will take you to God in truth. If you say sorry God, thank you Jesus, come Holy Spirit come. I'm looking for a new beginning for all the past has gone, looking for the Holy Spirit to heal my wounds, I'm looking for, I'm looking. Draw back the blinds and clear our mind and start afresh, the smile on your face so beaming bright, so one can find out why, but I know that you are with me Holy Spirit and within me please reside.

**477.**

God you know our worries, trials and troubles and the heavy load we carry, help us Lord to find a way for all these things to carry, I take them to you Lord, I take them with my hands held high, I asked for your direction, where I should go in the sky. Whereabouts should I be flying and who it is with. There are many things I ask, that I want to be carrying things with you Lord, I want to take you with me, all the way, wherever I go, whatever I do, you are the one that I will say, that you are my hope and my salvation without you I can be no more, because your son died for me, without Him I'll be so poor, hopeless and helpless. Help me Lord I pray, I call out to you because I need my daily bread and pay to help and support my family. I asked that you will come and give me your directions and help me to bring your kingdom come.

**478.**

Always look on the bright side of life, be positive in all you think and do, chase away any negative thoughts that come into your mind, Just lay there and chill. The Lord is with you all the time, He knows what you're going through He wants you to call out for help from Him, His spirit will be with you and heal you, pick you up and make you so you are strong, so you can overcome all things. All things are possible with the Lord, just ask and you will receive what God has in mind for you, He has a purpose for your life and He will allow you time to fulfil that too, love and keep on smiling because the Holy spirit is with you, to enable you to do that. Be bold, be strong for the Lord your God is with you. Accept all the help you are given with a cheerful heart. Learn to sing a new song, and dedicate it to the ones that helped you through.

**479.**

When people are harassing you and bullying you around, this is not good, you need an advocate, a one that can be found, one that can speak up for you and plead your case in full. You may find that the people who are doing it are a real disgrace, they usually work from the dark and cover up their sins. You will find that Jesus, He's a great advocate and He can get things sorted out, He will plead your case, but ask The Lord if that is what He wants. Make sure that you can see everything, that you have got the full view, be kind. Try to be like Jesus and forgive them for they know not what they do, sometimes they don't know that they're doing it, it's just, just not you. Don't let the power of unforgiveness grip you tight and hold you down, just let Lord God give the Justice and make it all around, may He be with you and give you peace and understanding too and know that I am walking this mile for you.

480.

Lord I ask for your protection, protection from above, for all the people that are suffering in their hospital bed or cot. Thank you Lord for all the doctors, nurses and the surgeons too and all the people are mopping up, having such a lot to do, everybody working together and thank you Lord for them. I thank you Lord that you are looking after all the other people too, help them to recover from their operations and help them to get well, Lord please be beside them and let them know you're there, help them to feel the warmth and love of your arms around them tight and help them Lord, I ask it, with all your heavenly might. Help them to win the battle, against infection and the virus too, yours is the victory Lord and this I ask of you, that you heal all the people that are calling out to you and all the others that don't know you, please help them to know you. Send your people out into the battleground and may they stand firm upon their feet on Holy Ground, may they claim your victory over all their ills that are about and may all call out and worship you and let everybody shout hallelujah, amen.

**481.**

Now we are in lockdown, we away from work, away from the office can you remember where you put your keys down to get you into your office, when you re-start. So many places we haven't been for a long time. How many times have we had something, then we have lost it and search around for it again and then we find it. Have you never lost a friendship you had many years ago, a best friend can you get back in contact with them and you catch up with the things you have done. Has that been the same with your relationship with God have you got to know Him as a child and then walked away and then came back and had some bad things happening with them, minister's or someone said something nasty and they all changed and you blame it on God. It can ruin your life, losing your relationship with God it's the same with friends you lose and friends sometimes it's husbands and wives just through a misunderstanding and often the person doesn't realise what they said or done what you have misheard and carries that along with you like a heavy rucksack full of bricks and unnecessary trouble. Don't let it rip you apart or harden your heart to a wonderful relationship that you could have had, just ask God to forgive you. Forgive the person who hurt you and let that go. Let it go and be free to worship God. Get that relationship back with God this is the most important thing to do.

**482.**

When you choose to join the forces there are many things to consider, many things to do, a lot of training and preparation for the battle ahead of you. When you go into battle you need to prepare with all your protection and be aware of all the people and evil around you. When you put on your uniform and you fight for your queen and country with pride, do you do it with a fear or love inside. To the fallen Heroes that have died we mourn them and we remember them too. The ones that have been injured and come out alive, maybe you are the ones that are suffering in pain and loss of friends. God has saved you for a purpose the ones that are still alive, He didn't let you go and you may be surprised, that you are saved for Him to show people the way to show people that you have courage, will and determination and be brave you may not think this but you are there for Him, come and find your Lord Jesus and ask Him to enter in, his holy spirit will renew you, make you able to do many things. Many miraculous things He will give you and He will wash away your sins.

**483.**

When you have a virus and you're sitting in your bed, the clouds are in your head are wafting by, you've forgotten what you said, it's like writing with white text on white paper you cannot view, you can understand the things, the things that you need to do, you keep on worrying and keep on having problems trying to sleep. Counting every blessing, blessing that you can remember, take plenty of rest and it will be at your best, when you can get some things done but don't go over doing things because everything can't get done, ask for help around you, ask people to do things for you and don't be too concerned, if the small things don't get done, main thing is to praise Jesus, ask Him to help you along the way by praying for others. When you are over this virus, you will be immune, that will be able to do so many things and do them very soon, Jesus has got you in his arms, hugging you all around, He loves you from far away and on the ground that you stand.

**484.**

To follow the flight of a dragonfly you have to have all mighty wings, to dance around and catch your food. Their life is very short, just time to find a mate, make things go round and round, now with our love to Jesus and a life for eternity. He is the only one that will bring us to God and give eternity, the Holy Spirit is here and with you He resides. Jesus will, when we ask him, wash away our sins. Ask the Lord to heal you, so you can get over the virus now, so you are immune and then you can do things without the fear of others, give help and support your family, your friends, do everything without a moan, do it out of love and kindness, the things that you have had since you have grown. They are there for everyone but everyone to see how you cope with all the things and do it with dignity.

**485.**

When you're on the journey, sometimes we have a map, satnav or whatever we can have we have to hand to help us, this is because other people have gone before you, that you are able to find your way, but sometimes when you're walking, going alone you're unsure of it and you spend time trying to find the direction you need to go. If you follow someone that has done the journey before, you can rest assured that you will not be wasting time trying to find the way. You will be able to take other people on that journey as well, it is marvellous when you look wise, is it because you are walking without fear. Jesus said that He is the way and the truth and the life, anyone who follows Him will find eternal life. So take up his offer, hold out your hand and let Him lead you and see what you will find.

**486.**

God's Amazing Grace He is there to save our souls, He is there to comfort and we're troubled and we're not whole when we are our hearts are breaking for things that we have not done for people that are separating, it is a soul wrenching song, it is the things that we don't know about the things that have gone wrong but Lord we ask that people come to forgive one another and then to carry on, being forgiving and forgetting is so hard for us to do, we are there to support one another and our children too, it is so difficult when separation comes. It comes with such a jolt, the ripping apart of two promised souls. As parents we are not there to take sides but to pick up the pieces and try and get a solution.

**487.**

There are no words to say when you hear someone who wants you to pray for someone who is separating, because being pulled apart, it rips through my heart. I'm not there to hear the reason why, I'm not here to judge, I'm not the jury too, but God knows what's happening. Childbirth can be so painful but you know there is a good result at the end, when you are separating, it causes many wounds, they take time to be healed and scars will show forever, no time to lose. One flame can heat the whole house but it can also destroy a whole forest too.

**488.**

I am standing here on a hill I call Golgotha, the name of the place where Jesus died, He died for us to save us from our sins and then all we cry is, thank you lord for your great sacrifice. You came back from the dead and now we have eternal life. As I look out, I see no cross, no cross where I stand, because result of the cross is here around, it is in the land, we are here to save others, just as Jesus the has done, we are here, we are Jesus's family we are everyone, now we need to plan our course where we need to go, we ask the Lord Jesus Christ what it is we need to know, where are we to go. Tomorrow we celebrate Pentecost Sunday when your holy spirit came down, came down and filled the apostles, so they could preach the gospel all around the world. Be filled with the Holy Spirit to overflow, we will then be prepared and you will know where you need to go. God will fill you with a passion and do as Jesus said, go where He says, Go.

**489.**

Retrace your steps to where you met and gave your life to Jesus, the water washes away your sins and then you did continue your journey with the Lord. There are many ups and downs in life but remember Jesus has been there all the time, you gave your life to Him and that is something that is sublime, remember that He loves you from the bottom of His heart, His arms are always outstretched to receive you and give you a loving hug. Don't saunter back to Jesus, run at full speed and in time, because God wants to lift you up and wiz you round and scream with joy, may your heart be overflowing with love and forgiveness for Jesus is there, He's with you that is true. Don't be ensnared by the spirit of unforgiveness, takeaway that grip has on you, ask God to reclaimed you wash away your sins and all the things which are contaminated and all that everything and ask the Holy Spirit to come down and fill you, so you overflow and be the one that's new, show all the fruits of the spirit, watch and be careful to that none of them are taken away from you.

**490.**

Go to the highest point near you wherever it is. Look around you to make sure there is nobody that you can see or hear. Close your eyes, open your arms wide and shout at the top of your voice "God speak to me". Then follow the instructions that God gives you. Make sure that it is God speaking to you, ask the spirit for discernment. Ask your Christian friends and see whether they have an interpretation of what God said to you. Make a journal of all the things from then on, all the things which are happening that people predict or whatever it is just write it down. You will need to share it with others. Listen to the sounds of nature that are all around, the bird song, bees hum, water trickling down and the wind whispering in the trees, put them all together as a musical worship song to God, He will be pleased.

**491.**

Remember the time when the chains were broken and you were set free and God showed His love and He showed it to thee, He showed it through Jesus Christ that is, as he hung on the tree, God knows where you are and He knows where you're going too, He is preparing you for all the things He wants you to do, everything from the past you'll need to take with you along the way. Retirement is something that you need to grasp hold of, it is something that is quite different, it's a new life and new beginning and new opportunities will arise, you will have a bit more time to do the things you've always wanted to and sometimes you'll be surprised how little time that you have with all the things you've taken on, but don't do everything all at once, just do things when they come, God will give you a passion and passion that is so great, He will prepare everything and it will never be too late, He will take you along with Him and walk with footprints in the sand. You have been there, you have stood firm, you have stood firm on ground, you have borne witness to all the horrible things that this world has shared around, you will now be washed clean, washed clean with the blood of Christ so you will be able to fight a good fight. Bide your time and be ready when God speaks to you, it will be quite clear and then you'll have your view.

**492.**

When you are juggling for Jesus and you have 7 balls in your hand, one for every day of the week, we actually understand, that one day comes after the other, like juggling balls, they do, you only have one hand that is throwing and that is something you need to do, every other ball is in the air like today tomorrow or the day after that, just do one thing and do it well and it will carry you on till the ever after, Jesus will give you the strength you need, the holy spirit will be with you, He is there to care for all and to care for you too. Remember God is there with you all the Year through, He is not just there a little time but through eternity, savor the time together to look forward to, that with time, everything will be overcome if you put God first in your life above all else. If you all work together and not be just one, all things can be overcome and the time has now just begun, to sing your praise to Jesus and praise Him all the time, that His Holy Spirit comes down at Pentecost and that is a strength that is sublime.

**493.**

To come through the virus is an achievement in itself. It is like climbing up a very high mountain with very little oxygen, you need a lot of support to get you up to the top and it is quite often when you're tired and you're coming down the mountain when you need to be more careful. At the top you have a wonderful view, quite often it's very fleeting, then it's the journey down. You will need a lot of help and encouragement to get over this infection, keep on asking people to help you, don't be proud, they want to help you, you have been blessed with life, life is so wonderful and so precious, like a treasure. God has saved you for a purpose, find it and fulfil it.

**494.**

Our father in heaven knows us and cares for everyone, He saved us through the sacrifice of His son He sent Him down, He died and rose again, the Holy Spirit came on Pentecost as an alighting flame. Now we are all different, we have our family to support, we are like all the flowers, we are all different, we are all saved, if we turn to the Lord, Look inside these flowers, look really close and see, that every foxglove flower is different, just like you and me, we are made so differently we have all our family tree. Like the bees that search for the pollen and nectar sweet, may the words that come out of your mouth now be so good and sweet, may you turn away any bitterness, walk upon your feet. It is our pleasure and duty to help all children to know, that God is there for everyone and that you do need to confirm, their love for Jesus, be part of his family and pass on the good news, from the Gospels and everything is free, free to love and to cherish all the children, we see them grow, in their different stages like the meadows they need to be mow and need to be re-growing and keeps coming up each year and every time it feeds the world with such love divine.

**495.**

Lord I ask, pray and call out for a blessing on all the nursing homes, all the care homes that are caring for the elderly and infirm. In this time of lock down, there is such great fear, fear of that virus and is it getting near. It is so sad when is it happening and we can't get near our loved ones, more likely our parents or grandparents too, we ask Lord that you comfort and care for them and help them to pull through, Lord be with all the people that are mourning, that today can be with you comforted by you. We ask and pray, that this virus goes away and it goes away pretty soon. Those outside the family are looking in and crying lonely, asked that you can put your arm around them, will these times be times to remember or will they be times we try to forget, Lord we know that you are with us and that you'll never forget.

**496.**

Returning to the classroom, is it such a strange thing, this is something that has never happened before, it is time now to sing, to sing in celebration, now you can learn all the different things that you've missed out on, your friends and all those other things. So many things to learn and so many things to bring, all the things that you have done while you have been in lockdown and all things which you are going to be, now you can. Remember all the things that you have done while you've been away, talk to the other children and have some fun. Be safe when you play because this is the time for children, for the children to return, it is such a wonderful thing and you have got so much to learn but take your time and don't worry too much, because you need to be the ones, that know Jesus and live happily, happily with others and love them, so ever so much, this is what I pray.

**497.**

Life is like learning to ride a bike. It takes time, trust and confidence to be able to ride a bike, we have help from, parents and stabilisers, it is not easy when we first start but the more we do it, the easy it becomes, until we're at that point where we can do it without stabilisers and then as we grow we get better, once the bikes to cycle on we can go so far away, we can do mountain biking or high-speed around and around the track. There are so many things available for us to do, but we need to get over the first few bumps and falls and then we can be thankful that you have a bike provided, you haven't had to earn the money to buy one, for you everything you have someone paid for and this one you have is for you, learn carefully and look after your bike and you will be rewarded, with life we are given our body and we need to learn to look after that too. Jesus died and paid the price so you could be set free, He has given us a chance of a new life for eternity. Trust Jesus to support you and be your stabilizer in life learn to cycle with Jesus and trust Him all day through, pray and you will be wiser and He will be able to go throughout the world with God's view.

**498.**

How to be the Elder, the one that came first, the one that had all new things and all the love to start, now each and every brother or sister that comes is a sharing of that love, now the love can go so far it is so great and big don't hold it all for yourself, it is for all, because you have to start with the love now you can share it with your siblings. Younger ones will love you because you can help them, they are looking up to you, as you all get older you will need help from one another, so hold on tight to your friendship, to the love that you have stored from the time that you began. Learn all the things that are good and all the things that you have, then the children are there for you to learn how to be, carefully and then when it comes to you, will be a wonderful mother too. Jesus is your bigger brother, He is always there to help you and the spirit resides within you. God is our great heavenly Father and He is looking after you, He provides all the things that He thinks you need and He loves you too.

**499.**

You are the lucky one, the youngest of the family, all the love from everyone is poured on you, you are so wanted you are so forward as you grow, return the love, the love that has been so true. Allow people to love you and love you with all their might, look to the people that surround you and they are your family tree, you will learn all about the aunts and uncles and grandparents parent too, you have so many people in your family, a family tree that goes back many years, now be careful what you do and love and do it with ease. God loves you and He has a purpose for you, you will spend your life looking for that and what that will be and eventually you will have completed and fulfilled your purpose and be with God in heaven for eternity.

**500.**

Read psalm 121, I lift up my eyes to the mountains— where does my help come from? My help comes from the Lord, the Maker of heaven and earth.... Solomon asked God for wisdom and it was given to him. Ask God for wisdom and discernment too. The good Miller Mills the grain and sifts the flour to give quality flour. Learn to test to make sure that the word is true, test all things against the Bible, that is the source of truth, that is where love comes from, God gives you shelter with your roof. Make sure that the path you follow is well signposted and don't get lost, we use maps, but even they have to be changed, so you can still lose your way. Be a Proclaimer for the gospel on 1000 miles prayer walk too, that will please God and He will have many smiles for you.

**501.**

Oh to break free from this lockdown, lockdown this is restricting us all the way, there's so many things we can't do, but we can still pray, all the things we need to do, we have to do them at two arm's length, we are getting closer to the time when we can break free, free to run and roam wherever we may need to go, to buy the food for our loved ones and be free from the virus zone, help as Lord and keep us safe and give us good health we pray, may we run through your wonderful creation and we bless you Lord today. We thank you Lord, we worship you and we shout with joy, say that we can free run anywhere and we are here today. We look forward to the day when we can gather, we can gather close and hug, we can shout, we can run, you can time each other and then we will celebrate, we celebrate Lord that you are here, you have helped us through, you are the one that's true. We are not alone when we self isolate with you God because you are here with us and that is true, you are all around us, thank you God, that you love us and you are the best. Here is a big kiss from heaven in the sky.

**502.**

What a wonderful thing to be here in England in the summertime. We have been walking through the trees and seeing God's creation. God has given us so many wonderful things to see, treasure all these things because they all come from God. He has given us all different things in life, thank you Lord for them. You protect our family. Please help me as I am tested all along the way. I give you the glory and then I say that you have helped me, I worship you Lord today. Thank you Lord for the way you made me, help me to reflect you each and every day. I look towards the horizon, Lord let your Holy Spirit be my beacon light in me I pray.

**503.**

When you're reading a book, do you read it right to the end or do you stop halfway through and put it down? We will never know if we put it down what the rest of the story was, as the new chapters begin, it's like life, when we come to a point where we didn't like what was happening before, but we get a new chapter ahead, something changes and then a completely different story unfolds, it is because you've taken that step to continue reading and going forward but with a different point of view, this is what we can do with our life. If we change our minds, change our hearts, give our lives to the Lord, we see things, a new season, we see things with love in our hearts and not hate we can overcome so many other things with the Holy Spirit's warm heart and we can pour out the love for other people, we can forgive people from the past. It's like looking through a good clean pair of glasses that are correct for our sight, we see things clearly and what they really are, rather than through dirty glasses and you will always see His Love. Love the Lord with all your might, praise him at all times and in all situations and you will see things change before your very eyes.

**504.**

Now is the time this very minute, this very hour, this very second, this very time, is the time for you to say hello God. Say hello God please forgive me, forgive me for I have kept you more than arm's-length away, please come and hear me when I try and ask, ask for your forgiveness and forgive others too, pour out your love into my heart, so I can pour out that to other too, I need you Lord because I am lonely, I'm missing all the hugs and kisses, don't just hug me, surround me and make me feel sublime, I need everything that you can offer, Jesus Christ as well, I know this is not normally me, that these are not normal times, please come Lord, forgive me, speak clearly and heal my wounds in time. Make me a new person, change me from within, take away all the wrong things and forgive all my sins, help me then to help others, pour out your love through me and please help all the people in my family tree.

**505.**

Take time to talk to your father man to man, listen to his voice, listen to the things he has to say and then make a choice. Talk to your heavenly Father God, ask Him how you can help your father and help yourself too. All the things which are in this world are sent from heaven above. You now find out that God gives you so much love, love from your father too, the one that here on earth he has known you ever since your birth. God knew you long before you were born. Find out about your brother, the one that came down to earth, He died so that you could have eternal life with Him, He is Jesus, that died on that Cross just for you. Some people may find it difficult, but it is quite simple to find out what all this is about, to say to God, I'm sorry, Jesus thank you for all you have done, then say come Holy Spirit, fill me. Take note of what happens from then on, all the things that you have been missing out on, then you will write a song.

**506.**

You have heard all the government messages about how to keep safe, it is all to keep you away from the virus. If you do all the social distances and don't travel here or far away, all the other instructions that you can't go too far in the car, but now all the beaches and the parks are packed and people don't adhere to all the rules, for them to keep clear of this virus that is going around, so many people are going to die because they don't adhere to the instructions that are written down. Some of them are quite clear. God has sent his son down, so we can be saved, we can be saved and have eternal life and live forever. The book of full instructions for our life is quite clear, it is in the book of the Bible, in that is one thing that we need to hold dear, God is a God of love and He wants to bring you cheer, He wants to help you every time and when you draw near to Him, He wants to hug you He wants to love you through and through, He wants everything that is good for you and give you cheer and comfort you when you cry, it is that Jesus died for us, so we could have our sins forgiven and then when we are without fear.

**507.**

One of three of the family tree going out on a limb, are you the one to come to know Jesus first, are you the one that pulls everyone together in a great big hug, are you the one that is there to show love for one another, are you there, are you there or are you walking away, are you social distancing, far far away. Come close to one another and come together and pray, pray that God will help you when it is the day, the day that God has got ready for you to know Him more, the choice is yours to love or if not ignore. As I walk your mile, I have a smile and I hear my footsteps on the ground and all the things which are around, I am walking the extra mile for you, it is someone strange you may never know, someone that is thinking of you, it is that God's Love is pouring out to you, He knows that you are hard, but He still loves you, He has known you since before the beginning and the He will always love you still. So love God and be forgiven, be strong and be forgiven, that is the strongest thing to do and you will be fulfilled in life and love will pour through you, God is there to help you in your time of sorrow He will be here today and also tomorrow too.

**508.**

Choose to love or choose to hate, the choice is yours, it always has been, a choice to be angry or a choice to be happy that is yours too, it is all a choice in life, you know, it is not just you couldn't help it, you do everything because of the choices that you have taken, you have to choose to take responsibility for your choices. You can choose to forgive and to forget, you can choose to be forgiven, you can choose to go and take your time and choose to go to heaven, then choose Jesus in your life, is one big choice to take, it is one that you need to take before it is too late, because God is there waiting, He is waiting to love you through and through His choice to love you is there for you too, choose to love Him back. Everything that has been and gone and in the past has gone too, now you have a choice to make and are you going to choose to love or hate.

**509.**

Heavenly father we hear from thee, everything is going forward, some things are going gradually, some things are going backwards and that is not good at all, but we are waiting for everything to be sorted out. All the things which are good in this land we need to look after, keep safe, but all the bad things and rubbish that will needs to be sorted out and taken away, Lord we ask for your blessing, we asked for better eyesight and the operations so we can view, we can view your wonderful country and all the things that are growing, we can hear the birds are singing, thank you Lord than that is you up, from your beginning, everything we have we must not take for granted but all the things we look forward to Lord and we pray to you today what all the people that are needing help in a medical way.

**510.**

I thank you lord for your blessings, each and everyone, everything that we have has come through you, from your son, through the holy spirit too, He is with us, He resides within our hearts and thank you Lord for everything that we can see and hear today. Lord we ask for your blessing to root out all the infections in our bodies and guard us from the viruses that are all coming around, Lord to overcome all these nasty things, be with us when we work and may every word that is heard, make a wonderful picture in our mind. keep as Lord fit and healthy and keep as mobile too, make everything we do, is worshipping you, thank you Lord that everyone that we meet, we can talk about to you and that your love comes down from Heaven each and every word that is written in the Bible come into our minds and in our memory stick.

**511.**

Go out for a walk in the country and see the countryside, see the wide fields, see the swallows flying by, the kite flies above, it does it with such ease, it goes around in the storms and the light gentle breeze. There are so many things to see, we can run and get fit, or just walk. It's much better than sitting by the sea, we have such a blessing, it comes from above, keep fit and be healthy and have so much wonderful fun. Love comes from Jesus when we get to know Him and ask Him into our hearts, He will fill us with His holy spirit and that will be so sublime. Thank you Lord that we can work, so we can earn our way and Lord you do bless us when we get our monthly pay, it is you that help us Lord, sometimes we don't realise it, but you are always there, you surround us all around and we know Lord that you really do care.

**512.**

There are many steps to Heaven, so don't worry, there's plenty of time, no need to rush or hurry, everything will be fine. When you are standing at the bottom with the sunlight streaming down, looking up to heaven with your feet firmly on the ground. Take time to listen to the bird song and the sound of a butterfly as it gently flutters by. God has got all things sorted, so enjoy the bright blue sky. Praise the Lord and thank Him for all your many blessings and the many more to come. Jesus is rooting for you, and we are praying too, now come Holy Spirit and heal you.

**513.**

There are many reasons to be Cheerful for, through God, me and you, all the things that God has provided, it has been so wonderful to view, even though the clouds are grey the skies may be blue, but we know that God is saving us through Jesus, we know that is true. Oh what joy we have, when we know Him and we have the Holy Spirit too, all God's glorious gifts bestowed on me and you. Even times in the past we have had good and bad, we've had easy and rough times and sometimes very sad, but we have now such joy in our hearts it is overflowing through, so much we can pass on the love that God gives us, to all the people we meet, we can pass on that love. Help us to help the lost, the ones that are searching all round, the ones that are so worried and their fearful lives pulling them down, we are here where God has placed us for a purpose that we must fulfil. I was prayer walking today in the park when a dog ran past me, it looked lost and searching for it's owner. I managed with others to reunite them. As I was leaving the park the dog owner thanked me, saying that it was a very naughty dog. I said no it is just deaf and proved it. It made me think, how can people obey God if they are deaf to his voice?

**514.**

Enlarge your tent, make it strong, make it waterproof too, make it so it can withstand the storms, be upholding and be strong, for the time is coming to enlarge your family. Make sure your tent poles are strong and firm and that your foundations will not be undermined. When trying to get through doors remember they open 3 different ways, push, pull and slide, make sure that you cover all directions and all possibilities before you prove that it is locked. Then L O V E is the combination that will undo many locks. When competing in an obstacle race there are many things to jump over, hoops to jump through and many trials and tribulations but keep going to complete the race, don't give up because the Lord your God is with you at all times, praise and worship him only.

**515.**

Be upstanding with your great power, the power that He is put within you, the Holy Spirit is there and waiting to shine through you, that you have such power in your smile you will be able to slay your greatest giants in your life. A small stone was the last thing that went through Goliath's mind as he was killed by David. A small act of kindness can destroy an empire built on hate. Change the state of mind, be the one that is there standing up and being true, be there and watch carefully as you see things change anew.

**516.**

When you are out walking, follow the signs, when you come to a junction it's time to make your mind up which way to go, make it slow because that will make a difference where you end up along the way. Sometimes you join up along the path the way you may have gone, it may have been short or longer sometimes it will make you laugh, enjoy the things you see along the way, if next time you come along, it will have changed with the time or perhaps even gone. Look at things in a different way, there are three sides to a coin not two as they say.

**517.**

Be a man of many seasons, stand true and firm and be resolved. Look for the truth when it is told, you are a man that has been blessed, blessed with children and years you have been through so many good things and bad things with tears shining through. Now's the time to be filled with cheer and love and friendship too. Now is the time to claim that which is really yours, the time to be the person, that God made you.

**518.**

Life is a challenge, sometimes it is a struggle too, but when we choose to overcome, we can do many more things we thought we could ever do, life will take us as we are found and may you always be true, seek the Lord in everything and He will comfort you, He is there beside you, around you and above, He is filling you with his eternal love, let Him be your guide along the way and trust Him now and everyday, because He won't forsake you. Don't conform to all societies rules, take off the masks you have and be true to yourself, be the person God made you and see that's such a joy, that you can be who God made you, that's why Jesus died.

**519.**

Take a different route today, take it just a short diversion, you will find someone there that you will have some conversation with, that will change the way you walk and say things that are important. It's not by chance that you meet people in the different places, that you will see so many different faces, God will put you where He wants you and He will give you the words to say. Just go along with Him and always remember to pray, pray with and for the person that you meet in that situation, because that will make so much difference and it will bring them to realisation that God loves them and they will pray for you too. Be the one to deliver God's message.

**520.**

When the weather is cold and inclement and there's a chill in the air, with the possibility of rain, we put on a coat to keep us warm and dry and then when the sun comes out we take it off and tie it around our waist, just in case we need it later on, now with God, the Holy spirit and Jesus, do we do the same we only pray when we need Him and we forget Him until we are in pain, do we forget about Him and put Him to one side. When the sun is shining and things seem to be going ok with our lives, we need to have God at all times, He is there to comfort and to praise He is there. If you see someone in discomfort and it is cold and damp with rain, do you take off your coat of comfort and put it on them to cover their pain. Use the gospel and teach people that the code of comfort comes from God, you are there to pass on the love and everything from above.

**521.**

Watch the dragonfly and the skipper, looking around and about at all the things I have done, quickly because their life is short, now, how and why and where do you pray, do you do it all the normal ways, have you got it all set out and do you do it everyday? Do you give God a shopping list and expect Him to deliver, do you do a click and collect and do you pray and zoom in with others and pray for one another too. Have you stopped to listen to what God has to say, stop and cover your ears and hear him when he says that He loves you so, ever so much and so dearly too, give Him a chance to talk, but that is only one way. Start a two-way conversation and in the morning say, God what are we going to do today? We work together as a team and in a family situation, keep that close and pass it on to the congregation.

**522.**

Take time to stand and stare without a care and watch the bees buzzing around collecting pollen and taking it home to make honey for the season. All the things around you are a blessing from our God, He has made everything and He has made everything with love. Do you walk along, listen to the songs of the birds that are in the trees, the kite flying the sky, they do it with such ease, just look at the flowers there are all wonderful, glorious, reflecting God's creation, everything here is in our nation and love is there to be found. Revel in his glory because this is His story, His story from creation until now and this is where you sit and you are part of it for this is Holy Ground.

**523.**

Step carefully where you go along the way, be careful not to crush people under foot, look at the daisies, they all raise their heads up to the sky, to the sun, the Son above, our God is there blessing them in every way to help them to grow, be careful in the way you walk, the way you talk and don't be too complicated, keep it simple so all can understand. Be careful where you stand, always look and you will find the footprints in the sand, carry people along the way as well and teach them the truth all the time. Be the refreshing stream in these times of drought and help people to dream about God, help people to see a vision that is for them, encourage them, do everything you can to help them not to sin.

**524.**

If you feel locked in, crashed and things are crumbling around you, then don't worry because this is all part of the things that are happening all around, things that have fulfilled their purpose, are no longer required. New things are to be started with the materials from the last, reclaimed for other purposes elsewhere, all the things that you have done won't be wasted, they will still be of use, like LEGO bricks you can reconstruct a new thing with your imagination. God will give you a new set of pieces to construct with, new people with new ideas and ways of doing things. He will give you instructions on how to do it, just listen carefully, follow His instructions for you from His word and you will be amazed at what will happen from this new beginning. Know that within you the spirit resides.

**525.**

What is your worry, what is your fear, how does it get there and is it very near, is this something that you haven't thought of or something that is a lie, everything you need to know is in the Bible, is read in your time. Has the devil found your weak spot and he's using that to pry, to get inside you until you have to cry. Is it a warning or a caution, that is from God, He needs you to be happy, safe and full of love. If you have a weak spot in your armour, then strengthen it and be true, be aware of the devil if he is tempting you, he is all around in this world today. We need to spend a lot of time and it has a price. Pray for one another and pray for peace for mankind, forgiveness that is everlasting, don't worry about the cost, Jesus has already got that covered, He is there to save the lost.

526.

Do raindrops in the water make any difference to what happens next? When a leaf falls in the forest does that matter much? So many seeds are scattered but nothing is showing through. Is there an answer to every question? If people are standing in the line does that mean it is a queue? If we don't have all the answers to all the questions it doesn't mean that we are a fool? God has all the answers, we don't need to know it all, we are here for a purpose, to Love God, ourselves, others and to play the ball.

**527.**

Life can be very, very confusing, it can be very frustrating too, also very annoying at times. When we think we've got everything sorted, it doesn't seem to come together at all, it is so frustrating, what we need to do is sit down and have a review, review the situation and give it a bit of time, then decide what you going to do, do you decided to keep repairing a little bit, then take your time. Sometimes it's best to put in a complete new system, one that withstand the test of time, it can be much cheaper in the long run and everything will be fine, but it's finding right the system that will work through and through, the one that will work for eternity and it will work through you, God's Love is this, with His son Jesus Christ, also when the Holy spirit is in everything, it will all start working better and everything will be true.

**528.**

When we are wondering in the woods, that are all green, there is something that we need to do, something that is to be, we are of full sorrow and all our losses too, there seems to be an emptiness, something that's missing inside you, it needs to be filled, it needs to be filled with love. God is there, He will show up and put you on a new path, a new way, a new beginning. Don't worry God will send someone along. If you put your hands up and put them up to the sky He will shine the lights down and He will fill you with His life, the Holy Spirit is there beside you waiting for you to see, God was there in our beginning and in our leaving too.

**529.**

God is not just For Christmas, He is our best friend, He is with us always and something you will be there forever, He was there in the beginning too. He will be with you every mile, He will be there looking after you and He will look down, smile and know that you love Him too, and that you are walking towards His way. Let God see you looking at his creation, as you walk along the way, He has made all this for us and that is what He said. He will be there when you wake and He will be there when you go to sleep. He will be there in your happiness and your sadness too, He will be there and comfort all that turn to Him. So next time you're out walking with your dog, walking by your side, remember that there's three of you and with the Holy spirit inside.

**530.**

Blessings come in small amounts, everything comes down like the rain coming down in raindrops falling from the sky, every raindrop comes together it can wash the windowpane, every child that is newborn, is here because they are wanted, God has already planned their path. He will be a strong man and he will win the crown, he will be there and will stand up for other people, he will be the one to lead the way, because God has got everything sorted, now it is down to you to pray, to pray that he will know Jesus and in his heart reside the holy spirit will be within him and you will have some pride. We all need to take our part when he is young and he needs your protection.

**531.**

How many roof tiles does it take to cover a roof? How many acorns need to grow to make an oak forest? How many reeds will thatch a roof? How many grains of pollen to make a spoon of honey? All of these are unknown to us, unless we need to know if we are a roofer or a forrister we might know . Don't fill your mind with just trivial information, be wise in all you do. How many conversations does it take to bring someone to Christ? Would you do it in a simple or complicated way. Would you load them with lots of rules and regulations? Put it in an essence, say sorry God, thank you Jesus, come Holy spirit, then show them how to pray.

**532.**

Are you feeling fenced in? The Lord wants you to go into the good areas of your life, He doesn't want you to go where He has fenced it off, is this for your protection to keep you away from people that will harm you and ideas are not good for you. There are two sides to every story. Listen to them both and ask God for discernment to decide which one is correct and He will judge not to you. Look at the flowers and don't pick them, because you are destroying the possibility of seeing it on.

**533.**

When we're off on a journey and ask how many more steps to go? What can tell all the different steps we do, on our watches, phone and any other things, we can view, we can check, watch and wonder how much more we can do to keep fit, everything we're doing while we doing it, we are trying to keep healthy and competing with ourselves and others too, but what steps are we making or taking to bring people to Jesus side. Are you in step with Jesus, is he walking beside you too, is He there and talking to you and are you listening too, was it because Jesus is our saviour and we need to pass it on, that message, to all the people we meet and keep Jesus hand in view. If you're worried about what to say, let the Holy spirit that resides in you, talk, He will give you things and thoughts to say and you will be able to float like a cork. Be like a life jacket and support people when they feel they are drowning in sorrow.

**534.**

Marvel at God's creation, all the wonderful things that He provides, He is there, He is our provider. It is all a multiplicity of splendour, God's creation, far and wide, is it only the things that we can see, if we open up our eyes, open them up so wide that you can see the small things that are around us, look up to the skies down to the ground it is all there for us to see, as long as we take the time. Take time out from all the hurrying, take time to just sit and stare, because God wants you to know that, with you, He is there. He is there in the rough times and in the smooth as well, worship Him and praise Him every time you can. He loves you, He is your stream of mercy, let it flow, don't let it be damned.

**535.**

It's ever so annoying, when you got everything planned, all things sorted and all looking to be very grand and then something comes along and spoils it all for you, but then you have got more time to save up and be happy ever after too. The Lord knows your feelings and He knows where you stand but just give Him time and He will let all things be for you in His time, He has got many blessings to sort out for you. You will be together, all things will be new, now sorting things out together, choose God because He chose you. Try and get things in the right perspective, because there is a long life ahead of you two.

**536.**

Are you the man that will see things through, are you the one that will always be there when people are in trouble and help them? Are you the one that will fight it through all on your own or will you pray to God for help and His eternal love? Do you sort out the things and choose what to do, do you make your mind up and put it off for another day? Are you an active person or do you have feet of clay? Not one of us is perfect, we just need to do our best each day. Be the man that God made you to be and to God you need to pray.

**537.**

To worry is a choice. Worry is a name for something that is a concern. Why spend time worrying when you can actually be doing, doing things and put your thoughts into action, don't sit worrying, stand and do something and then you can think about things as you are doing them. Worrying is like wet washing, if you just leave it to lay around it will go mouldy, stale and no use. Put your washing out and your troubles on the washing line and let the breeze blow through it nice and fresh and clean and iron it nice and smooth, then it will last for a lot longer, if you pray to Jesus and ask Him to clean and clear your thoughts, ask God for forgiveness and ask Jesus to be with you, ask the Holy spirit to fill you and He will be there in your heart. Accept the peace and your anxieties won't have any space left and they will depart.

**538.**

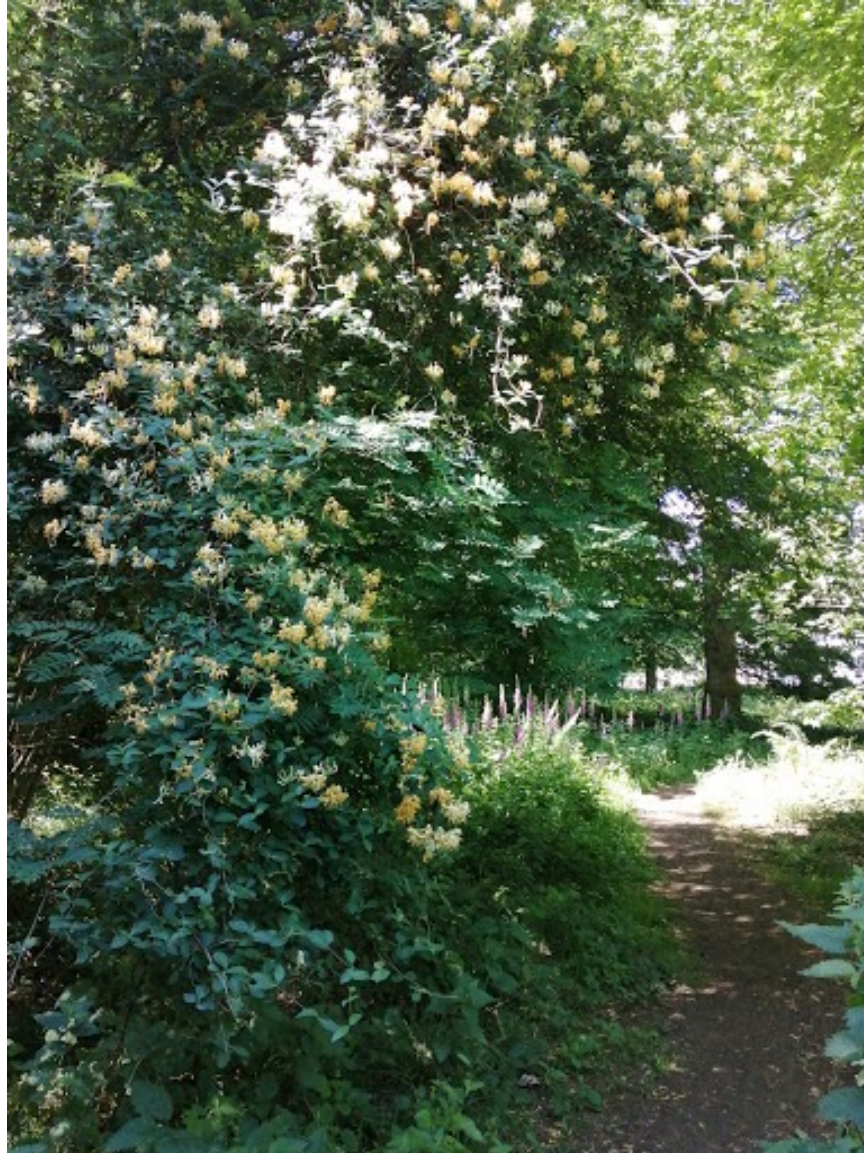

Heavenly Father we ask and pray that you remove all the things in our hearts and our minds and our bodies that are not good and take it all away, refresh us and renew us and we ask this every day. When we wake up in the morning we ask the Lord, what are we going to do today, we are here on earth for a purpose, help us Lord to find out what it is we pray. Lord you have filled us with your love, help us to pass it on, this is something that we can do with a song. A Song of praise and happiness and joy for what you have done to us and help us. Lord to rejoice and worship you and help others to do the same. Come holy spirit heal us, we ask it in Jesus' name.

**539.**

I want to thank you Lord, thank you from the bottom of my heart. My soul rejoices in your creation here, where I have a new start. All the things that you are bringing to me are such a pleasure and you desire, that I admire your handiwork and the hills are getting higher. I walk upon this wonderful chalk land and see a sea of wonderful poppies, I see you in them; it is something to believe. I believe in you my Lord God, I believe that you are here, your Son Jesus Christ our Savior will take away our fears, All the things are blessing upon us on this earth, if only all of us will listen to what you say, then your second coming would be near. Forgive us Lord for all the sins of the world and help us to put it right, each of us are put here and Jesus has paid the price. Thank you Lord for friends and fellowship too.

**540.**

It is through God's amazing grace that we are saved for another day but God will look after us and He has our best in his mind, He wants us to try and be fruitful and this is sublime. You may be going through trials and tribulation and heartache that's beyond control but don't let the Spirit of unforgiveness take hold of you and hold you down. Look at the footprints in the sand there may be only one set but that is because Jesus is carrying you through this and in a while you will understand, that time is a healer you will not have to forget. You are not alone in this, the Lord is with you all around you, supporting you, His holy spirit let Him reside withinside you and be lifted up above it. Be like an eagle that is flying up above, the kites that fly around this area are renowned; they fly, they seek, then seek the spirit within you. Don't worry if you cry.

**541.**

Lord we bless you, we thank you for our health and help to improve it as well as our wealth, help us Lord to overcome all the difficulties that come before us, help us Lord to trust you and be with us wherever we go. Please do not ignore us, help us to help each other and be a partner together help us Lord to work out how to get through all the different weather's. Help us to be like a tree, that when the wind blows puts its roots down further and stronger so it can withstand, help us to withstand the evil that comes our way and the coronavirus and help us to pay attention to all the things and help us to be safe we asked Lord for our Jesus Christ sake. Help us Lord to get to know you more and be friends with all around, help us to be sociable and help us stand our ground. Thank you God, bless us, it's so good to have you around.

**542.**

Rejoice, rejoice, I say again rejoice, rejoice because it is clear that love has come. With the new ferlow and getting paid it is wonderful to spend time together when one is working and one is not afraid that things will come together, everything in its time. It's a good time for preparation to spend life together for many, many years, make sure that God and Jesus is in your formulation, make sure that you have Him between you in your relation, let the Holy Spirit be the glue that holds you together, to get you through any stormy weather in your relationship with one another. Be kind and gentle and forgiving and understanding with each other because you're both different. Look for the fruits of the spirit and the greatest one is love, love one another because God loves you from above.

**543.**

To be or not to be worried or have a care, to be healthy, wealthy or happy why not to go for all three, ask and you will be given and forgive and you may try and forget but there are so many things that are in this world, that we can quite often forget that the God is our provider, He is there beside us too, He is there with us all the time and He will be with you now. Help the people around you as much as you can and also let people help you too, because you are helping them So we all work together, we all work as one and God sent his one and only begotten son, so we can have our sins forgiven and we can get close to Him, ask the Holy Spirit to be with you and reside within.

**544.**

All I want to do Lord is thank you. Thank you Lord for all the things you have done for me, thank you Lord for the operation, thank you for that, thank you that I will be able to walk soon and they will be able to do it easily and it's because of you Lord and you working through the doctors and nurses too, that everything will go well and I will be able to stop, put on my shoes and I will walk to you Lord, I will walk into eternity with joy, joy in my heart to know that you are part and not the only one with me. You have helped me through this, all the stage as I go along the way and when my loved one returns, we will be very jolly together, again to understand one another and help us to get through.

**545.**

When you are stressed out and doing a dissertation it's always a good idea to take some time of peace and tranquility, collect your thoughts together whenever it is possible, it is good to make sure that you are well watered and refreshed and you have sufficient food so that your brain can work in rest. Take time to enjoy God's creation because He created you. Be sure that you know that you are willing to continue to completion, make sure you have all things down and all things done that need to be. Make sure that you have time for others because they are supporting you. Your relationship with God will stand the tests of time.

**546.**

Life can be like shopping. Nowadays we have cathedral-like constructions for supermarkets, hypermarkets too and you can pick up anything, anything you choose, all the things are in the aisles and they are all stacked high. Recently with the virus there has been empty shelves, nothing much you could pick up and toilet rolls, not enough to go round. The churches have been closed and we can't sit in the pews, just like the empty shelves, no stained glass window views. Do we only buy own brand or do we just go economy size, are we willing to try other things and sometimes we will be surprised. Now's the time that we can't go out so much, we can't pick up all those things, do we do a click-and-collect like viewing church on laptop screens or zoom in and have fellowship that way or do we just fade and move away from God, this is a choice that we have today. Sometimes we are weighed down with all the wows and troubles too, it is nice to share them around and we can help each other through, through all these times of trouble we have to choose what we put down or lose.

**547.**

Are we still walking on the straight and narrow, all the government restrictions still in place, some restrictions are being lifted with a mask upon our face, some people are crowding together and that is a real disgrace, people don't seem to abide by the rules set by the people in charge, it's just like life in general, God has set us some rules to work by and firm instructions to the love one another and He is with you, He is there all the time He is protecting us through and through, our love for one another it is shining through. You have seen many people come to Christ and some of them have been through you, all things that you have done in the past you'll be able to see the crop growing in your view. You have dared to be different, you have been outstanding in your own field, you are there among the many and God is pleased with you. He is smiling down on you and saying look there is my child.

**548.**

Have you ever been for a walk and found that you've got something in your shoe, do you stop and take it out and carry on walking or do you let it fester there and annoy you all the time. You keep on walking because you are carrying it around. Then you start to limp and get all annoyed and shout at everybody and you are in a void. Then you blame everybody for it and you say it has always been there and you're keeping it with you because there's nothing else that you can do. God is there to help you take out the stone from your shoe, the thing that you've been carrying around with you, and giving you all the pain. Forgiveness is like taking the stone out of your shoe. If you forgive someone who may have done something to you in the past, if you forgive them, the power that is holding you like the stone in your shoe, that is destroying your nice pleasant walk, take it out and get it sorted out and let it heal. Let the holy spirit into your life and you will find that you have peace and the peace will give you comfort and joy. Ask people to forgive you for not taking the stone out of your shoe at the start and getting on with life because you will affect other people in your attitude and pain, it is all a choice and the choice is yours and yours alone.

**549.**

How do you know that a set of balance scales are reading the right weight, are they giving a true measure. If some scales have been tampered with so they give untrue reading they are biased to one side or the other. There are two sides to every argument, one is not forgiving and other is one's not forgetting. If you have an argument or disagreement is like putting another weight on one side and then another one, has to balance it out and it goes on and on and in the end the scales break. The best thing to do is to find the truth. Unload all problems on each side until you've got an empty scale and see whether it balances and then adjust it until it does. It's like an argument or the truth will be found and then you can work from that. Turn to God and ask Jesus to reconcile your problems together. You'll be able to balance your scales and you'll be able to measure things in love rather than hate Then it will all work out with God. Ask Jesus, if you allow Him, for the Holy Spirit to come into your heart, you will see things in a new light and your life would be changing, your heart will change and you will get restitution. Be reconciled to one another, ask for forgiveness first and the rest will follow.

**550.**

Long periods of sunshine the ground begins to dry, it then carries on and then starts cracking up, it is because of all the blue sky's, nothing to worry about but all the same is there? No more worries, no more cares but then comes along a storm, heavy dark black clouds, thunder, lightning and torrential downpouring rain. It is a sight to see and hear, it is one of nature's marvels all the ground will start closing up and all the things are drenched, sometimes drowned, but after the storm blows away and the sun starts to come out, birds begin to sing and the children are out playing in the park. Have you ever thought about it, why we're here, to see all this, to see it in reality, I wonder? God wants you to enjoy His creation; it is all there for you to see, everything you have is provided by Him, all that you are is from Him. God wants you to love Him, just as much as He loves you. Blow the social distancing, just run into his arms and then He can give you a big hug, cos He loves you so much. Go on He's waiting, start running now.

**551.**

Why are we waiting, why are we waiting, to hear that song out loud, when people are impatient for something to happen. Why are we waiting, are we waiting, here that chant and hear it loud, but of course it is being sung for you. Is it because you have lost your way? Do you have an aimless destination, just wandering around in the desert, feeling hungry and empty inside, do not know what to do but refusing all help when it comes your way. Don't do that it's sad, don't listen to lies or be deceived and be sent on to fruitless paths. Let Jesus be your sat nav, because Jesus is the way the truth and the life, remake your friendship with Jesus, your brother and all things will be fulfilled.

**552.**

When you go out in your car do you do the usual checks, to make sure everything is ok or just get in and drive away, oblivious to the state of the car. Do you have tax, insurance and MOT, is it safe on the road or are you just risking it? If you have all the latest gadgets and the car is full of them and you just drive along and enjoy the countryside listen to the music on the radio, ignoring everything that's going on around you. The car sputters and coughs and comes to a standstill. Do you get your phone out and try phoning for a breakdown service, but there's no signal and then your phone battery goes flat, there's no power, nothing and you are in the middle of nowhere. What do you do next? Why not try praying, that is your only hope. God is the only one who knows where you are in your life. He is waiting for you to make a connection so He can help you. He has someone around the corner, waiting to help you now, so make that call, say a prayer to God and then you will be found.

**553.**

After the Storm, the rain has stopped and the sun is coming out, you're walking along a narrow path and it comes to rather a lot of overgrown undergrowth, covering both sides, do you turn around and retrace your steps or do you push on through, knowing that you will get wet. Go on, push on through, keep going. You may get quite wet but it is refreshing water, one that is cool and quenches. When you get out the other side and another vister opens up very wide, it is a new ploughed field and things from the past turn up memories of the past and memories of good living. Time to thank God for all the things in the past, praise Him for the love and blessings that He poured out on you, thank Him that there is life. After a few minutes you start to dry out quickly and you enjoy the sunshine and everything is good with the world. God is there above you and the below, around to front and behind, He loves you and always will, He is that kind God. He is waiting with open arms to hug you and welcome you home.

**554.**

Take a few hours respite, take it with God beside stillwater and green meadows. Don't worry too much about all the things that are happening and all the things inside, but know that God is there with you, He is on your side, there are so many questions you want to ask him, just go ahead and ask Him true, He is listening, He is compassionate, He is there for you. Don't push Him to one side, He is there to support you and bring you through all this, He is there so ask Him, is a miracle amiss, is there a chance, is there a hope, is there something that you can hold, ask him and become naturally supernaturally bold and for healing you command it. God, His Holy Spirit that Jesus sent down, ask Him to fill every part of your life with his light and darkness will not be found.

**555.**

Whatever you do, don't go down to lost property because you will find what you're trying to lose. Tomorrow you try not to think about it, the more it will come up, even in your dreams, when you were trying to think I've not to think about something, it always is there however hard you try. If something has happened that is bad for you or someone told you a lie. If you have read this far down there is hope for you there is something that you need to know that God loves you, He loves you with all His heart He loves you. You will, He knows you will come back to Him so don't spend all your time and efforts running away. He is here today and tomorrow and He just won't go away, His Love is so great and deep, He is all around you now. I am walking this mile now for you, so you will know the Lord. I am just a stranger that is sending a message from another place, a message that is true, God loves me and He loves you too. There are blue skies on the horizon in this pouring rain, just look at them and brighten up and do not run away again.

**556.**

They do say there's no such thing as bad weather, it's just the incorrect clothing worn. Are you a person of multilayers, taking it all in a rucksack for all different situations. Do you take a map to walk safely along the way? Do you take Nordic poles on your strolls, to support you and your feet? Have you packed up all your troubles and put them in your old kit bag? With all those things you are carrying, you can hardly walk on far, while you're weighed down with too many things, you are not free to go and walk around and enjoy the countryside. Just lay down all your troubles, lay them at the feet of Jesus and let Him help you with your strain. His yoke is light, not heavy. He will pass you, your problems one by one and you will be able to go on and get it all sorted. Take time to pray to God, He is the one that cares, He loves you from the bottom of his heart, He is, He knows where you are, He will help you if you ask Him. He is there watching and you're walking on His Holy ground, He created the earth and also Jesus Christ died for you.

**557.**

When you're setting out for a journey, have got all things packed, everything is settled and you have got your destination map. You have sorted out all your debts, always spend time to say your farewells and thank yous too. Make sure that you thank God for all your blessings, all the journeys you have been on in the past, make sure that you remember that all the things you've done will last, they will carry on and be there in the memories of others too. Take time to say you're sorry and make friends with those you've lost. Be full of cheer and be uplifted for the party is soon to begin. Be at peace, be happy to have a smile upon your face, don't worry be happy because God is full of grace.

**558.**

When you are growing up, learn from any and every situation you are put in, everything is there for a purpose you need to search and find the purpose, why it is there and how you feel about it, because you'll need all these things that you are collecting as you go through life, the greatest thing that you need to search for is love, the love of God is beyond all understanding. God loved you before you were born, He knows where you're going He wants you to choose your direction and best direction is to Him, ask Jesus into your life and you will be a strong person, of good up standing you will be able to do many things beyond your imagination because you will have the strength of the holy spirit with you. Seek the truth in everything and you will find a lot is not true, it is the darkness and that is not of God. Be a person of the light.

**559.**

Be a person of the sunshine smile, don't hide behind the clouds, be the person that it is a font of knowledge and people will seek you all around. Take delight in God's great might because He made you who you are, don't pretend to be someone else. Don't hide behind a mask or be a copy of someone else. God made you for a purpose and it is for you to find that out. It may take your whole life to find out what the purpose is, keep on searching and seeking and seek God first. Take your time and do not worry, just be concerned. Be known to be the person that completes the job, the task ahead may be long but do it to completion, don't give up just persevere and you will find the prize. Remember this, when the clouds are dark and gloomy, rise above them because there is always blue sky above in the daytime and stars in the night.

**560.**

You see where you want to go, a distance destination, a challenge that seems so great it's very difficult to overcome, look down and can you see one stride ahead? Step into that stride and then another and if necessary return, just keep on and do it safely, do it safely, do it one step, one by one. God made you with a purpose and one of those is to have fun, to walk out with God you're not alone you're with Jesus His son. Let the Holy Spirit be your guide and follow His instructions. Speak to God and follow His instructions, make Him your bubble partner and also listen to the government.

**561.**

With the card game happy families, you have to lay your cards down on the table and match them up one by one. Come together as a family and play a happy game, play one that you can talk honestly and not to be ashamed, don't lie to each other, because that's not of God, be truthful and honest and do it all in love, God will give you the time and the wisdom to do all things, trust Him He knows you all through and through. He is there to comfort you in all your woes and troubles, just trust Him and sort out all the muddels, find someone that is a professional that can give help and you will all be able to shout, praise God forever, everything for bringing people together, may you all be bound in love and strength and honour each other. Read about the fruits of the spirit and ask the Holy Spirit to come and in you, reside. Lay an extra place at your family meal table and lay it for our Lord Jesus, host Him as a very welcome guest and all things will start to change for the best.

**562.**

Put on the armour of God, make sure it is new and strong, check all the straps, fittings and fastenings and that will keep you going on, sharpen the sword of the word and use it at all times, put the shield up and hold it firm against the devil's wiles and his claims will die. Use everything at your disposal that God has given you now, to overcome the spirits that are dark and they do not shine, shine the light of Jesus into the shadows that you see and they will flee away, because they have no strength because yours comes from the Lord. Be the Watchmen for your family, stand-up strong on the battlements and don't drop your guard, because the devil is there and he will fight you even more. Know your weakest points, the chinks in your armour, make sure you've got them covered even more and strengthen every corner, don't let there be a place where a sliver of a wedge can get in. So repent of all your sins, choose your battles wisely and don't fight until you're ready, don't let yourselves be distracted and let the enemy in. Be bold, be strong for the Lord your God is with you, at all times praise Him.

**563.**

If you want to send out a message, you write it down and then put it in a bottle and throw it into the sea and wait for an answer to return. What are the chances that you will get an answer and will it be true, you may wait years for that and what will have happened to you. Your body is a temple that you have on loan, it is the soul inside you that is the one alone. Jesus stands beside you and the Holy Spirit is there too, give your life to Jesus and let the Holy Spirit in you reside, then be filled with joy and happiness ever after and everything all your troubles will subside. The Lord will give you strength and comfort. He is compassionate and He knows where you are. He will take you under His wing and He will carry you far. If you think you're sinking down in the sand, Jesus will carry you in his hands, He will, He can walk on the water and He will be there all the time, take your strength from Him, His strengths is limitless more than yours, He will overcome your fears and He is there so pause, take His hand and walk with Him, walk with Him along the way and be man who God made you and do not shy away.

**564.**

How can you measure how much someone loves you, how much someone cares, protects you from all harm and discomfort, and sits you in the comfy chair. People will go to great lengths to keep you from any discomfort, they will be there and love you, because you have such a compassionate and loving heart and you look out other people too, this is the reason why you are made by God for this purpose and it comes through your family, through you and on, it is a love that has no ends, it is the love that comes from God above, God and his compassionate and loving heart. Be kind and understanding if you find out that things have been withheld from you, do not be angry or annoyed this is because they love you and it won't be null and void. Sometimes you need to find things which are hidden, so you can play your part, that is what God has given you, a loving heart.

**565.**

Our lives are absolutely packed with the choices we make, so many choices every day, we choose when we have the alarm to wake us up and when we go to bed, all the choices are manifold and everything affects the other all the things we do matter because God has given us the choice to choose. If we choose to be annoyed at something and it can take over our lives, it's something that we have chosen to do and can get more power every time we think of it as it's so hard to do away with it because it is always there, it is ingrained, Now if we ask the Lord to help us, ask yourself if this thought comes from God, or not. If not from God, you send it away, ask Jesus to grab hold of it and hold it, hold it from you, pray about it and then forget it, take the power away from it. Say that God loves me, if the thought tries to return, and keep on saying it, God loves me in the morning when I wake, God loves me all day long and He doesn't stop loving me even when I sleep. So what does God do?

**566.**

Have you ever noticed that railway tracks have 2 rails and they run together? God is blessing us both as we head towards Him. When we get damaged along the way we call towards you Lord, you are the linesman and you look after all the things. Help us and heal us as we walk with the Lord, may we walk upright without pain and may we go with you Lord always, wherever you lead us, to be kind and good to others as they are to us, thank you Lord that you love us that you love us so much and you care, you bring people alongside us, as on the railway lines, that walk towards you in the same way Lord and everything will be fine, help us Lord to carry others along, above us too, like the carriages full of people all passing them on to you, Lord may that be a journey, a pilgrimage Lord, help us to be the ones that lead and teach how to make disciples that we lead along to you, make sure that we say everything that is good and true, help us to keep our point of view, good and right and healthy and we thank you. Help us Lord when we're feeling low, to be like a glider that is winched up into the Sky, with the Holy Spirit, Lord may we be gliding and soaring like the eagles above and worship you Lord on your throne.

**567.**

Rejoice, rejoice, I say again rejoice, the journey is over, there is time to celebrate one that's coming home, the power and the glory are His and his today, but not alone, he is with our Lord and he will be there for eternity, forever no more worries or cares now is the time to celebrate, a passing of a life, all the memories, all the things they've done and everything that has been strife, but he has overcome and no more pain or sorrow that is His hope sublime. Let's hope that we have all things ready for when it is our turn to go. When the wake is over and everyone has gone home, all the things are cleared away and it's time to get on with our lives and get on, but don't forget that he has gone and you are there because both of you have met. You may give a sigh and tears may flow, it's time to say goodbye but it is the time to sing in worship to our King, we thank you Lord for everything.

**568.**

When something happens and you forget something, retrace your steps and make sure you find out where you started from and then carry on from there. And did those feet in time's gone past run upon England's country green. Over the hills and far away and sometimes often seen, often as many a shout for the winning team. Your feet are what's called plates of meat and sometimes give us pain, is it because what's on your plate is the meat that's making your feet worse. They say a little of what you fancy does you good but there is also a saying that you can have too much of a good thing, get things balanced in your food and your life and make sure that you live the dream, dream of health but not too much wealth because that is not everything, seek the Lord and he will grant you what you need. I want, quite often is not the best thing it can tend to lead to sin.

**569.**

Being a mother is like a butterfly flitting from one thing to another and hardly having time to do much at all, everything has to be done, everything all at the same time and keep on going on everything there is and people need to be cared for, everyone in the family seems to need all the time, give yourself time, watch the butterflies flying around and enjoy your children as they do the same and be there whenever you can. Take the time to sit and stare and enjoy God's creation. You are part of that and we are all part of the nation, the world is around and we are just one, one of many people we are here to help one another and all sisters and all brothers too. We need to love and be loved in the same way and we know that God loves us, Jesus, He had to pay the price so we can have salvation. We need to communicate with one another, the needs we have, because if we don't they won't be fulfilled. It is a two-way communication also with God, listening to him.

**570.**

A promise is a promise and it works both ways, promise to whoever made it and whoever made it to, this is almost like a contract to be adhered to whatever the circumstances, when we get married we make a promise to three parties, to each other and to God, God will help you through all things. Ask and pray for health and strength to cope through difficult times, in sickness and in health is what we promised and that should be adhered to. If the burden gets too much, God is always there to help you to give you the strength through the holy spirit to be upholding yours and help the other. Call on other people to help as well. Don't be subtle with your requests for help, people don't pick up on that, if it is a definite request, asked definitely straightforward to someone and they will be able to say yes or no. If you don't request in a certain definite way then you won't get a certain definite answer and you will definitely get help if you definitely ask for it.

**571.**

When you're ill, do you feel you have a battle on your hands, how do you go about getting help and trying to sort it out? One is to call on close family and then on relatives and then friends and then it's all else fails you need to call on health authorities and keep it going out for more, more helpful and more people and keep on knocking on all the doors. Sometimes it is the last thing people do is to call on God, pray for help, people are thinking of you and some are praying too, for God's help and that will be from Him, God will help you through Jesus Christ, the Holy spirit too, all things are possible with God. With God there is hope, He loves you, He loves you with all His heart, it is an eternal love.

**572.**

I want to thank you Lord for all the things that have happened, all the wonderful battles won, all the sorrows and tribulations that have been overcome, thank you Lord that you have been with me, I may not have known it at the time but you have encouraged me and you have been there beside me walking, when I've been alone, I didn't know that you were there, you were just something that I didn't care, but you have worked through every Like on the Facebook and people encourage me along, to do all the things that I have done and all the things that have to be done, I thank you Lord for all my family and the health I have just now and please I pray that you were all the world. That all people will get to know you Lord and we will have a better place, that people who are not, a better one than before.

**573.**

Lord we pray for each other, we pray for the people all around the world, we pray for them at this moment, wherever they are to be found, we pray for them as they put their feet up on your Holy ground, each foot in front of the other, all the world apart, we know God that you are with us, in the country and the towns. Thank you that we can pray for one another, wherever we are in the world, we know that God that you are home. Lord we worship you and praise you from the bottom of our heart's, to you above, the holy spirit is in us and we do not want it to depart. We walk as three as we look at the trees, the ones that you made here, they are covering all the earth, but too many are being cut down. Help us Lord to help others who are in a greater need, all our brothers and sisters, whatever their colour or creed, help us Lord to be the people that you want, the ones that are selfless and think of others.

**574.**

Oh to be locked down in Wales and all the restrictions too, not able to go far and no one to come to you, it is not the best thing, it is not pleasant at all. It doesn't matter how green is your valley, if your family is not there and grandchildren are wondering what has happened here, everything has changed some things for the good, other things we can't see, we can't worship God with His church in His house. When the time comes to gather round and hug and a kiss across the border, this is something we're all looking forward to, everything is on hold now in the village small and far, but there are always people wanting and thinking about you and here, here they are, people are doing the best they can, we hope and pray that the virus will be defeated and has at last gone away, all the people on the front line are doing a very best, everybody is being put to the test. However we can, we need to thank God for today and worship him and praise him and each and every way, whether it is in prayer or reading the Bible too we need to contact neighbours and see if they are coping too.

**575.**

Make hay and music when the sun shines, enjoy the weather when you can and no one can take that away, be merry and be happy make that every day. Be of a positive disposition and make everything a celebration of each day, when you go to bed then pray to God and rest your weary head, for tomorrow is a coming, it's coming yet again, we quite often find things that we haven't done will last for another day. Take time to pray with one another, let each other know the worries, troubles and fears, take them to the Lord for He is there, He knows how you feel and He wants you to hold together, share the tasks around the house and garden, look at all the roses, sniff them and enjoy them too, God is the provider and is providing for you, always look around you and see where you can help and you will get people calling on you to returning in good time.

**576.**

Zoom Zoom Zoom all day long zoom zoom around zoom Zoom Zoom to the children zoom Zoom Zoom as a clown, everything has to be done and has to be done as soon as now, everything for teaching it is such a lot of work, to do all the things with the restrictions and social distancing too, it's almost impossible, it's like feeding the animals at the zoo, so many things going on and so many distractions around, you can't even feel like you can touch the ground, take time to sleep and then it starts again, going round and round the mulberry bush. It is like walking around with elastic band around your feet walking through treacle, how it all gets done is all a bit of a miracle God has been with you all the time He is the single footprints in the sand, He is carrying you and you will be one of the good ones that are found, to do their job in all circumstances and not like some of lazier ones around. your reward will be found in the children who you have planted the seed of knowledge and they will go forward on.

**577.**

To walk in the evening after a hot day, the sun is dropping down and the grass is turning to hay. The meadows are looking shawn and now it is nearing sunset. It's nice and cool and refreshing, different smells this time of day. All the things have been done, we hope we haven't missed anything out, all the things that you do and assisting throughout everything has to be done ready for the morning, every time the sun comes up everything is dawning, it is another new day, tomorrow another one after that, we are lucky we can stay and keep safe from the virus and all that, we are not able to visit relatives, we can't cross over borders and when we get there that's where it ends our journey looking over another country, not too far off and we are making money as we work and for the mortgage we have to pay.

**578.**

If someone says to you, that school is the best days of your life, do you believe them, do you believe that that is right. If that is so, there's not much to look forward to when you leave your school, why not think about every day is the best day of your life, because you're living it now, live it to the full and make sure that there's room for more, there's so many things in this world that are wonderful, God has made them all, He has made them all for us to see and wonder at, His creation, take time and look at it and study it. Be careful how you make your friends, make sure that they are good and true, make sure that they are not sinful and lead you astray, the best friend you can ever have is Jesus, all the way, there is no other better than him, He is your bigger brother and he will always look after you. Make sure you have Jesus on your friends list and he has got so many friends and you.

**579.**

Take hold of the hand of Jesus and your father's too and go for a wonderful jolly walk through this country side and swing from both their hands, up and down and around to go have such a wonderful time and don't cry at all. Make Jesus your best mate and have the Holy Spirit with you too, you will have such a glorious time you will have such strength all the time you are with him, He is there by your side, if you are having nasty dreams asked Jesus to come inside, He will be there all the time he is guarding you in your bed, He is guarding you and he wants the best for you and that is all that can be said. He is your bigger bigger brother, and together with your bigger brother they will look after you, get to know Jesus as your friend and your brother too, God is your father and you have your father too.

**580.**

Lock the lock down, turn around is that's what it's all about, we do the hokey cokey, in out, in out shake the covid out. Make sure you have time to have a rest, the properties they are not so busy and they are not at their best, they are drawing money from the funds and it is all going away, but soon when the virus is all sorted out they were all open and start to pay, coming through the turnstiles flashing their cards, parking in the car parks and in the backyards, all the people like the sheep will be flocking there to see, all the wonders grandiose things that are in the houses that are around, near the sea all the wonderful coastline and wonderful walkers people have been working on, it has been such a wonderful time, all the birds and their song, you have been working hard at your job, you've been doing it, is such a wonderful thing to be working and doing and overseeing.

**581.**

Have you got a lockdown routine, one thing that you need to do, is to make sure that you have plenty of things that you have to do, you get up in the morning are you looking for more sleep, are you going around and dreaming of what you used to do, the time is coming closer when we can go back to the things we used to do. We have to choose what we do, where we do it and the things that we can drop, because they were not the things to do, did we used to be like the garage just filling up the space, I think just filling up our time with useless things and things which didn't have anything to do with production, or just filling in forms and conforming to someone else's view. When we go back, will we continue with some of the new things that we have found, zooming and all those things. We can spread the gospel around, we can speak to not just the congregation, we can speak to the world, God's wonderful message of a new life to be found, when the wave of this virus has began to recede, be ready for the tsunami of love to take its place and we need to be prepared to proceed forward and claim the ground.

**582.**

As in Psalm 16. King David was happy with his lot, thank you Lord that we have all the wonderful things that we have, thank you Lord that you have looked after us, thank you Lord that you bless us and you have given us all the things we have from you, you have been blessing us all along the way, sometimes we don't realise it, but now I want to say I thank you God, I praise you, I praise you for everything and help all the people that are around me and help me to help them too. I thank you Lord that we can see all your wonderful creations, all the birds and the bees and the butterflies and all the trees that are growing around, this is just so fantastic, makes me feel like David, satisfied with my lot. Therefore, God I am satisfied with You.

**583.**

The fruits of the spirit are Love, Joy, peace, patience, kindness, faithfulness, gentleness and self-control, the greatest of these is love. Love God, because God loves you so much that He gave His only son who died for you so you could be saved and have eternal life with Him. The love we have for one another is from God, we don't often know that our source of Love is from God. Acknowledge God and thank Him for the many blessings that He has poured out on you and get to know Him closer and allow Him into your heart too, He is there and He has given you a purpose in your life. Ask God and seek what is your purpose, try to fulfill His will. Many more things for you to do, many blessings to you will be, the one God will ask you to go, do and be there and be ready, praise him every day.

**584.**

Count your many blessings, count them one by one, count from the start and the beginning when you are with your mum, God knew you before you were born and He has something for you to do, to look after your mother as she looked after you. All the years of your life she has known you right from the start and God knows you as well and neither of you will part, God has His place in heaven for all that know Him well and we ask God to help our family and keep them all as well. Lord bless all the people that work in the hospitals and all the health service too, there is so many people worrying about the virus and all the things they have to do, thank you Lord that we can trust you and everything in your time, we know God that Jesus came for us to be saved, so we can come to you, we ask and pray Lord that you send your holy spirit to reside within our hearts, so we will be together when we come to you.

**585.**

Hang in there and be happy, that's the best thing you can do, smile and look at the wonderful view, look at all the people that are rushing around and busying themselves for you, God is with them and He is helping you to get better, that is true, put a smile upon your face, tell as many jokes as you can and keep them clean but nearly true. Keep on laughing and joking and people would be happy with you too. Try a few that will put a smile upon God's face because He's looking down on you, He wants to be pleased with you and what you are fighting through, He is there with you now He is beside and all around you, now just don't give up, just keep laughing, laughing all the way. Let your motion be your potion and take God at his word, that He loves you and He sent Jesus to save you, is that God's voice that you heard?

**586.**

In this time of peace and quiet, everything seemed to stand still, did you stop and listen to the silence and think everything is ill. The virus is attacking and stopping us earning our way and things are looking grim and people want to say, it's not down to us it's the government and they've refused to do all things, but then it is coming the numbers are going up and the virus is not going away. Take time to listen quietly to what God is saying to you, don't rush around, will you listen and hear Him, He is in the gentle whispering breeze, He is there as a trees grow the moaning and with ease, it looks like some people have a death wish when they went down the beach today. Are you willing to give yourself to God and to Jesus and give yourself away, give everything that you are and let Him have His way in your life you will be blessed in each and every way? Ask Jesus to come into your life and the Holy Spirit reside within you and you will know the peace of the Lord is always with you, praise him at all times and in all situations too.

**587.**

Always try and work out a peaceful reconciliation, it is with daughters and sons and dad's and mum's that problems all start going round, there you need to work out what has gone through from the past and then do your sums, the calculation is very hard if you just use numbers. Don't do it with roots and squares, do it to the power of love, it takes more energy and effort to hate someone, when you love someone it all just adds up and multiplies. Hate is a division that destroys and breaks things up. The equals sign is two lines going in the same direction, when one forgives another and walks together in peace and harmony things will change. If you bring God into the calculation then all things will be resolved and there will be peace and harmony, if you don't, it will be a shame.

**588.**

When you're walking and it's roasting hot and you're carrying a huge heavy load, of all the things that worry you and the troubles are on your back and it's weighing you down with the pain that it brings. Go and pray and listen to the 23rd Psalm and see what you can find. Lay your worries and troubles by the banks of a nice cool stream, bathe yourself, immerse yourself and let the Holy Spirit in, be at peace with one another and allow Jesus in, ask God for forgiveness and let the water wash away your sins. Lay down and dry yourself in meadows of green, before they become hay, be bathed in God's glory and be at peace with Him every day. The next time you walk out, leave all your troubles behind, just walk with Jesus and walk a smile with every mile, take His hand and He will be with you, He will bring you peace and joy.

**589.**

A family that prays together stays together, however hard the worries and troubles are, pray for each other to help you overcome all the stress, struggles and troubles, it is like doing all the different circus skills, the things you need to do all at once in a ring, running around and jumping about the acrobat and swing from the chandeliers, when children are crying and everything's going on around your ears, it is so hard to find some peace and quiet to get your work done, but just ask God to give you some peace and put your feet upon the ground, ask the children to pray for you, to pray for you out loud and you will find that they have troubles as well as you. Give each child a task to do something that they are responsible for, help them to grow up and know that there is a lot more to do. Show the children how to learn and do it for themselves, do more than is required of them and that will give them firmer ground to let them learn. Let them learn from experience, sometimes the hard knocks make them strong, it is the wind that blows the trees that makes the roots they stand firm are strong.

**590.**

When you're out for a walk aim for the highest point around in your area and make sure no one's around. Sit quietly for a few minutes with eyes closed. Spread your arms out wide, then shout at the top of your voice, God speak to me. Keep your eyes closed, continue to sit quietly and listen to what God says, listen and take note, take note of every word God will speak to you and follow His instructions to the word. Make sure when you open your eyes that you look and see what God shows you, it may be something next to you or something on the horizon anywhere around. Let the Holy spirit into your life and let Him speak through you to other people. Tell someone, all you have experienced. When you walk, walk without a purpose but just to listen to God, listen to his directions, you will meet people along the way that He wants you to say that God loves you, that God loves them so much, He wants you to be there in front of them, don't be shy or scared to say things that the Holy Spirit puts into your mouth, just say them and watch God's miracles unveil, He will be with you all the time, the spirit will speak through you, let God flow like the river from you. See, the harvest time approaches.

**591.**

Assess the situation and look at the nation of today, are you happy with everything, at all your little pay, are you going along your merry little way, not worrying or concerned about yesterday, today or tomorrow, because you think you are in control of everything you do. Do you feel that you have something that you don't know, like an empty hole in the wall? Does your pride stop you doing things, does the world revolve and revolve around you. Have you become like Jonah, running away from God, go on, make a decision like the prodigal son. Turn around and make your way back to God, He's waiting for you with arms open wide, to take you in and hug you, He has always been there, always wanting to care for you, that you have refused, now is the time, today this very second, this very moment, to say sorry God, thank you Jesus, come holy spirit into my life. Don't let the world choke you.

**592.**

Who wants you to become a juggler? When I was asked by the Lord to become one, I didn't know what to do. This is the way I can help you, the way to do it is quite simple, it's all a matter of throwing and catching one ball at a time, start with one and call it God the Father. Learn to do it with one hand throwing and catching with the other and keep going until it becomes easier. You are getting to know our Father God now. Then swap your hand and throw one ball with the other hand catch with the other. Next take up the second ball, Jesus, God the Son. Then do throw, throw, catch, catch throw throw catch catch. The most exciting part about juggling is learning to do the three balls at once for the first time. It's like the first time you accept the Holy spirit into your life it changes everything. You know what to do, you know how to do it, but actually doing it is like taking the first step. Put two balls in one hand and one in the other, throw one up, one of the two, in the air and as that starts to come down you throw the other one and then the third one goes up as that one comes down so it is throw catch throw catch throw catch throw catch throw catch. Try saying God the Father, God the Son, God the Spirit, three in one, God the Father, God the Son God the Spirit three in one. Keep juggling and then you'll get proficient, this is your new direction. Watch and see how you change in your life, your whole aspect, everything will change about you and when people ask you why you are learning to juggle you can tell them why. The Lord showed me how to juggle with 13 balls, but that's another story.

**593.**

When redundancy is looming on the horizon, it is not you that is being made redundant, it is a job that that will no longer exist, you still have an identity and that is not your job, your job is only part of what you do not what you are, God has got a purpose for you, seek that purpose, seek it with all your might and find out where God wants you to go, what He wants you to do and where He wants you to do it. Be excited about new prospects and new things to come, all you have learnt from the past up until the time you are given your notice. Make good contacts along the way with godly people and make sure that you keep in contact with as many as you can, because God will send a message through one of those. Encourage one another in all you do. God loves you with all His might and He wants to give you the strength to overcome all things, be with Him and ask Him to come within your heart through the holy spirit. Praise God at all times and all situations and thank Him for all that you have.

**594.**

God has given you the gift of a compassionate heart. We are all made in the image of God and reflecting Him, you show the likeness of God in your heart and in the things you do, feel and think, that is there within you. Do not be shy to be known as a child of God, because God loves you and He wants the best for you and He wants you to know this too. Get to know about the fruits of the spirit and try and show them all the time and the greatest one of those is love.  
Galatians 5:22-23

**595.**

Cancer can't stand the smile, it can't do anything against it, be positive, smile and laugh all the time, there is no way that it can overcome you feelings, be full of joy, take everyday as a blessing, take your time and make things fine with all your family and friends. Smile with every mile you walk, may your motion be your lotion, take it everyday and look at the sunny side of life that is full of joy. Enjoy be your toy, make it work, make it pay for you, make a merry tune and sing your heart away, sing to the Lord His praises everyday, take heart and everything He wants you to do, be well and happy through and through, takeaway any pain, anxiety, ask the Lord to be there for the party. We look forward to all the hugs and kisses all around and we are welcome and we are found, take joy now today and be forever true. Praise the lord in all situations all the time and praise Him.

**596.**

When you are out on the journey and following someone's directions, do you find that it is all clear and precise and you know the things along the way, that is what you call a good guide, one that can be relied on and one that can be trusted. Will it take me to places of interest and excitement and adventure, knowing what to see and where it is and it can be relied on for next time someone uses that guide, but is only as good as the time it evolved, when it was printed, it was correct, things do change sometimes quite considerably, roads are built in the way, whole new estates take place of a wonderful sight that there was before and you look over the valley and you can't see anything because the trees have grown and the view has gone. Listening to other people quite often argue about which direction to go next, interpreting the map wrongly can make a difference where you go down, where you end up, may not be the map, maybe you are looking at it from the wrong side. Don't be shy about asking people for directions. If you follow Jesus he knows the way to eternal life, follow Him.

**597.**

To get home safely, how far have you gone away from your home to start with, have you been out on an adventure, gone to distant places, have you been there before and you recognise the faces. Have you been to places unknown, how far away and have you travelled safely and not very easy today with all the viruses around and the things which can go wrong, people flocking down to the beach and people cannot sing their song all the things have gone awry and what can we say about that, have we travelled wisely, have we travelled in our car or train or bus or plane or walked upon the ground. All things are different, dangerous, staying at home is the best but when we are out we have to get back. What we call home, is where we lay our head and where we hang our hat, people say all sorts of things and all things this and that, but home is where you feel comfortable and where you are familiar with things. As a Christian home is in heaven with God our father, we asked Him to wash away our sins through Jesus Christ, that can be done and the Holy Spirit into our lives, come.

**598.**

To become immune to a virus like Covid, you hope a vaccine will be found, people are searching and looking for an answer to overcome. Because after that you don't take precautions to make sure we don't catch the virus again. If we are careless and drop our guard so things will get into our system and overcome us. The ability to overcome something is a great need and what we do to put up precautions and anything to stop it happening to us, we need something that will be there and pursue it, a mask, sanitiser, spraying down all things like that. But with sin it is very difficult to overcome, sin will get into our lives and encroach on everything in our lives and we will lose the chance of eternal life and going to God if the devil gets in. Give your life to Jesus and let the Holy Spirit in, ask God for forgiveness for all the things you have done wrong and go to Him and ask Him to wash your sins away, with the Lord is the best thing you can have some immunity from satan.

**599.**

Be head over heels in love with God, because He loves you too, He loves you so much He gives you health and that positivity in you. Your walking God's green countryside, you walk with love in your heart, you are so positive and peaceful and everything that every part, is with God, you are a man that is to be seen, to be heard and listened to, God will speak through you and He knows you through and through, you are reflecting God, His joy of life in you. May God help you to bring people to Jesus and be a disciple too, there you are standing in front of his glorious throne the day will come. When God says, welcome home my good and faithful son, well done in all you've done, I've seen you throughout your life, your purpose fulfilled and everything, you've overcome your strife. May the smile upon your face be radiant, radiating God's love for all the people down on earth and all the people in heaven above.

**600.**

I thank you God for friendship, friendship with you, I thank you God for being there and bringing people to me, bringing friends together from a long time past, it is a friendship sometimes that will tell the test of time. When we are feeling troubled and we have so many wows and cares, it is the time to pray to you Lord and bring someone to pray on my behalf. To get some work at last, with this virus around, so many people have lost their work and jobs and pay. It is going to be a long time before it goes away, Lord we ask and pray for things to change, for people to turn to you and know that you are with them and you are in their view. I pray for blessings to be poured down like fresh sunny summer rain, to quench the dry ground and bring fruit back again. I ask this lord from my heart, as I walk this 600th mile, I am playing my part in your kingdom Lord, I know Lord that nothing is by accident, it is all planned out by you, it is up to us to walk in the path and walk everyday with you.

**601.**

Lord help me to see clearly, help me to see things as they are, help me to see what is not of you Lord and what are the lies that are in the world. Your rod and your staff, they comfort me and help me through the storms, help me to see all your blessings Lord and in each and every form. Lord help me to overcome all my fears and in very deep dark thoughts, please be with me and in my dreams and when I wake and even when I work, Lord I want you, I need you all day long, I need you in the sunshine and I will shout out a song, a song of blessings and mercy asked for, please Lord be with me, I ask that you help me to soar above the problems, like the kites that fly around, help me to see things differently, the things that are happening on the ground, help me to work out where I need to be and give me the strength Lord to be me. Lord, strip me of my anxiety that is clinging around me, like a tree that is covered with ivy that will not have the strength to resist the storms, take away all the things from me which are not of you and take me. Lord and bring me to your altar and into you.

**602.**

The first steps you have already made, bringing people to the Lord, friendship indeed and asking another friend to help, is the second step, you have already started your journey, you are doing it for a friend, everything we do, think, say, and pray does make a difference. Always be ready at every time that every situation you may be an example to your friend. Be there when he needs you and let him know that you are praying for him too, he will gradually get to know the Lord and be familiar with him as with you. Take courage, sometimes it can take years, but you may not even see the fruit of your labour. The Lord will see your heart and He will be patient and graceful with your friend and you. Be excited about all the possibilities and be encouraged at the small steps as you walk with each other towards the Lord. Be a disciple of the Lord and help your friend to be a disciple too.

**603.**

Can you hear it, listen, can you hear the knocking on the door? I'm sure that you can hear the knocking. Perhaps you've heard the knocking and you've just ignored it as part of the background noise. Have you got lots of locks and bolts and all sorts of security on the inside of your door, so nobody can get in unless you answer the door and welcome them in. Have you got the chain on so you only open the door ajar? Do you have the spy hole to look and see who's there? In the Bible it says "Look! I stand at the door and knock. If you hear my voice and open the door, I will come in, and we will share a meal together as friends. By withholding your friendship with God you are missing out on such a lot. Well done if you have read this far, there is not much further to go. Take a step forward and say, sorry God, thank you Jesus, come Holy Spirit. Take another step and open that door to Jesus and bring Him into your friendship circle. Time to celebrate?"

**604.**

I thank you Lord for my friends' lives. Thank you Lord when they pass on and pass on by, we thank you Lord that we have known them. Thank you Lord for all the things that they have done, all the people that have spoken to and all the songs have sung, we thank you Lord that we remember them, remember them as our friends and all the things that happened and all the tied up ends, all the things that have been blessings, all throughout their life. We all look forward to a new beginning or beginning with you to be with you forever for eternity. We all look forward to Jesus to return here on earth and then we all will be brought to Heaven and we will all have new birth.

**605.**

When we lose a friend and friend we have known for time, the time that has gone by and we cannot start again. We remember all the things they said and some things we best forget, but they have left a legacy a legacy of love and friendship, they have gone and we stay here and wait our turn to go, but we must make sure that we do everything we can to make sure that we know the Lord, we know Him and we are getting ready to be with Him as well and bring as many people as we can to know the Lord and have a relationship with Him. Be with us Lord as we celebrate with family and friends, it may only be a few people but this is not where it ends, this is just the beginning of a new life for our friend, help us Lord to be friendly and contact our friends and family too. Forgive and forget anything that has separated us, bringing us together with love and care, care for the people around us, here and everywhere, there are so many people that need your love our Lord, help us to bring them to you and to all the nurses and carers, we applaud.

**606.**

Thank you Lord for everything, thank you for my friends, I thank you for my family and all the people before, the whole generations down right from the beginning of Adam and Eve, Lord you have brought me here for a purpose and I hope that I will succeed to fulfill that purpose you have given me. I thank you Lord that I am here and I have overcome all the different illnesses. I thank you Lord that everything has happened has happened for a purpose and I am here still to see the world, thank you Lord that you are showing me all the different birds and all the flowers and trees this is such a wonderful world we live in ,God bless us, everything that we do to bless all the friends that helped me too.

**607.**

Thank you Lord for our family, thank you for all generations before, they were all brought together with the Lord, thank you God that we have hope, we have hope for eternity. There's so many things in the Bible that we need to read so we are ready for you. Lord, we ask you and bless you for all that you have done. You've sent your one and only son Jesus to die for us so we could come to you thank you for our salvation thank you for all the Saints, we have praise and worship the Lord for your almighty grace.

**608.**

Lord we thank you for our families, we thank you for each one, we thank you for the ones that are here and the two more to come, please bless and each every one of them and each and everyone is different Lord, you know them inside out and you knew them before they were born. That is so wonderful you care, your love poured out for the family, the family tree that's there and all the generations that have gone in the past. We thank you Lord for all the time, it seems to have gone so fast, to remember our own childhood and everything we did then, our parents and our great grandparents too, all the people that we used to know, thank you Lord for your many blessings and helping us through all the troubles too. We know Lord, that you love us all each and everyone, we know Lord it's in the Bible, this is all because of your son you came down and died so we can have salvation and come to you in God's great family relation. We thank and praise God for every blessing you have poured out on us, for your love and we love you too.

**609.**

To know God our Father and know his Son too. There are so many blessings are poured out on you. Learn to forgive one another when things get rather stressful, there are too many to count the ways that you have been blessed. Learn to be calm and collected and communicate with everyone, don't assume anything, just check it out and make sure it is true. Communicating is your love for one another. Share your Love evenly and make sure no one's left out, is it down for you to choose, choose to love everyone but most of all love God because He loves you.

**610.**

May the peace of the lord be always with you, find peace where you can, you can find it through your family and find it through your man. God is always with you by your side, He will give you the strength that you asked for and the strength that you need, everyone will be coming to see you, accept help wherever you can, from each and every quarter, make sure that you look after everything and pray for happiness ever after.

**611.**

There are three sides to a coin, there are seven sides to a box, always look to the side of truth not arguments, if in fear just take everything to the Lord. Let love and forgiveness open all locks that are around, make sure that there is no fault to be found. Let God be the judge of all things, it is not down to man. Read the Bible and ask God what He wants you to do, be there ever faithful and be there ever true. Let Love be all around you for each and everyone, make sure there's love and joy and lots of jolly fun.

**612.**

Are you getting ready, ready for another brother or sister that will come very soon, are you excited, have you got a room ready for them, are you going to share your toys have you decided where everyone's going to be and have you thought about the noise. You need to be ready and learn about all the things that need to be done and how you can help everybody in your family each and everyone, you are very precious you are loved as much as all the others, you need to be ready and you will be the oldest and you can be the oldest but you need to help the others on, share the things you have learnt and they will help you too.

**613.**

You'll be number two of three, the middle one, what a wonderful place to be not having all responsibilities and you'll have all the fun you will be there and you'll be sharing all the things you'll be able to play with all the toys all the things that go, get to know about Jesus as your big brother He knows all the things that have to be done. He can show you all the love that you can pour out on everyone He is there to help you. You can pray at night and in your dreams He will be with you all the time. God loves you more than anything you'll ever know because He is Jesus and holy spirit today.

**614.**

The Lord knows you, even before you even conceived, He knows how you are going to be, everything about you, He knows you inside out, He knows your future ahead of you. He wants you to love Him as you grow up, to love Him as much as He loves you. Your radiant smile is a smile of God, as you are made in the likeness of Him. Jesus is your Big Brother, love Him as He will look after you.

**615.**

Praise the Lord for His Love, praise Him all day long, praise Him as you worship Him and do it in the song, thank you for all your blessings, each and everyone, because God is there rooting for you. Take time to worship and to praise God, Find a quiet place to find peace in worship music and listen to it if you can and may you be joyful as two heart beats as one. Heart beats together and beats stronger everyday, may they be forever lasting and each and every way. Ask God for his everlasting mercy and be still and know that I am God, is written in the Psalms and know that God is with you all the time with His open arms. He wants you to rest and be peaceful because things will be exciting very soon, new life beginning.

**616.**

Rejoice, rejoice, I say again rejoice, keep on rejoicing all the time, praise God for His good timing, praise God for His deliverance, praise God that He is with you all the time, praise God that you can come to Him and find peace, be with everyone around you get everything prepared. Show your love and serving kindness, be there like a bird on the wing. Don't take no for an answer if yes is best for you, be there, be strong be bold because the Lord is with you. Don't be proud and not ask for help, be there so people can come around. Ask and it will be given, seek and it will be found, find the Lord in everything and keep your feet firmly on the ground. Don't let your fear overwhelm you, seek faith and hope in God, let the Lord be forever with you.

**617.**

Walking and talking, asking questions today, always looking for answers, make sure you would look for the truth because the truth is what you need. So many things to learn, each and every day, one thing that you need to know, the way to God and pray, asking for things which you can't do yourself. For love and joy and peace for yourself and others. Now you are growing up, you can help around the house, show your love for your mum and dad and all the others, through your kindness and hospitality, making drinks and cups of tea. He loves the way you talk to Him, that is when you pray.

618.

Joy, joy, joy, rejoice, rejoice, rejoice. Little ray of sunshine, smile upon your face, you are full of grace, everything is looking good all things are coming together, all things are going to be fine, God's love is with you, He is in you and He is sublime and your fun will have just begun the way you smile will melt so many hearts.

**619.**

Thank you Lord for your blessings, in each and every way, may you bless all we do and everything we say, may you listen to us and hear us, please take away the fear and trepidation in the work that we do. Protect us from this virus and take it far away, help us to protect others and help us earn our pay. Lord we thank you for our families, thank you that you are with us and keep us close, we pray.

**620.**

May you be filled with joy through the Holy spirit, may you have fun throughout your life, where you know Jesus as your brother and may God bless you in all you do, praise him and sing to Jesus, sing a happy song, sing a song of happiness, sing a song of Love, Joy peace, patience, kindness, gentleness, and self-control, you're singing the fruit of the spirit and sing them all day long.

**621.**

When you are an orphan you are without your parents love and advice, but their love carries on in you and your children. Even through waves of grief and sorrow it will keep coming and going away. Your parents are never forgotten, they never go away, their likeness is in you and your children will keep reminding you about them of the love they gave you and all the other things. Remember the good times you had, all the things you've done and all the things that are coming you have won. Allow Jesus into your life and you will be God's son, He will adopt you right now from this new beginning because you are His, God loves you, God loves you all the time and He will be there at your side. Allow Jesus into your heart and let the Holy Spirit reside, the holy spirit will comfort you and help you through the day and praise and worship God every time. Pray and say thank you for everything that you have and work all the things as they are as God wants you and don't worry if you shed a tear.

**622.**

Soon will be the time for preschool and learning will begin, try hard to cram it all in, to be known as the person that laughs and loves with such glee, be the one that helps others and shares your toys with ease. May you find every day is such a joy and it's exciting too, all the things to learn, more things will be going on and as you grow up, you will learn about your brother Jesus and all that He has done for you. He loves you from the bottom of His heart and He wants to know you. Take care of your mum and dad and make them happy too. Look after your sister because you are all a happy family together.

**623.**

Being in good health is something to achieve, it doesn't come easily, it is not just a breeze, we have to work at it, sometimes everyday, but if we take care of our bodies, then in the time we have it will begin to pay back, it will pay off over the years, when we have life left to live. But our spiritual health is more important because that is where we continue after death, with our continued everlasting eternal life with the Lord, we need to get ourselves sorted out and pray to God above, ask for forgiveness, ask for God's faithful Love and when we have helped all others, families and friends and people we don't even know today but we need to be loving and caring thinking of them in every way, in doing all these things we will have such joy, the joy of the Holy Spirit is within us and we will take that and be happy.

**624.**

To walk in the heat of the day, see the sun shining through the clouds, feel the warmth of the sun rays on your back, I think this is the day the Lord has made, it is so wonderful and bright. To walk in the woods with the refreshing breeze and the shadows, cools as you go higher, this is God's creation, something to admire, to worship and glorify God for what He has to show, it is all for us to look at, as the butterflies fly by. We take all things for granted as they rush past us in the car or are we taking time to walk and look at the things near and far, God has put us here for a purpose. As we look into the mirror smile, be joyful and happiness will reign, because God has made you and He has kept you safe so far, He is there beside you in front of you. Because He made you in his image, reflect His love to others and show that you care.

**625.**

Do you have lots of worries, carers, troubles and feeling anxious all the time, are you taking the world upon your shoulders and you don't know the reason why, perhaps you have chosen this way, chosen to do all these things, if you take them to the Jesus you will find that you may not need all these things. Have a word with Jesus and ask Him if this is what He wants you to do, does He want you to be worried and look at the different points of view, has He got a plan for you, to be kind and and compassionate for others, take on great tasks and help each other as brothers. If this is not what Jesus wants, why are you doing it, who are you doing it for, is it just for yourself and wanting to be more. Seek the truth in all things, at all times and praise God and worship Him in every situation, take your instructions from Him and still steer well clear of anything that makes you sin.

**626.**

Climbing up into the treetops, sliding down zip wires, are you with the angels, the higher things do you aspire, do you take life as it comes or do you plan ahead in great detail, are you working towards a goal or have you nothing at all planned. Are you just wandering around, trying to find a purpose in your life? Find it when you seek it, then take it to the Lord and find what is unique. We are all individuals, that's the way God made us, each and everyone, everyone has something different and we are someone's daughter or son, but we are all children of God and we are to seek His will and find what He wants you to do. This sometimes helps with thrills, to find out why God made us, why we are here on earth and what He wants us to do and why did Jesus have His birth. Why did Jesus die on the cross, so far away, He died, so we could come to God and know Him that's why, so we can have a friendship with God that will go on for eternity. The choice is yours, which way you go, with a new track which path to follow, always seek the truth.

**627.**

We often hear the birdsong, hidden in the trees, wondering what type of bird it is, what colour are its knees, sometimes we know what type it is because we have seen it singing on a branch. Some sounds we hear are quite jolly and sometimes they are quite sad, some are really really bad, take care to watch and listen to see on the internet and don't get caught up too much on Facebook and all the Twitter accounts. Choose who you listen to and choose very carefully to the people that speak the truth and not lies. Choose a life of encouragement and encourage others along the way, help them when they're worried and help them when they're not strong, because when you have some problems, you can go to them and they will help you as you helped them. You won't get eggs from a strutting peacock, you will only get them from a laying hen.

**628.**

When walking through life, things quite often seem in the dark, things can look gloomy and sad. The world is getting on top of you, go for a walk and watch the sun rays come through the branches in the forest, just tiny little bits of ground are lit up, go and have a look, look into the little bright areas around the woodlands and into the bright places in your life, God is shining down on you and if you let Jesus into your life, let Jesus shine through you and you will light up the world wherever you go, you will be a bright area in people's lives, they will seek you out and the darkness will flee and you will be living. You will still have problems in your life to overcome but you know that there are bright areas and there is hope for you to look for, look to Jesus and look for salvation through Him, because He is the way, the truth and the life.

**629.**

Have a look at a thistle, it's so very large, it's like a tree, with wonderful colourful flowers and all the buzzing bees, there's all sorts of insects and spiders there's a whole microcosm of life that revolves around this thistle, it is a wonderful sight to see all these things, usually they are cut down as a weed. Allow things to grow in your life which may benefit other people, you may be amazed at how you can affect other people in their lives, just by a few kind words and thoughts and deeds. We'll have our purpose and place in life. We have things to do, things to say to people that encourage them and bring them to new life. Talk to people around you and hear what they have to say, just discussing various things you can share your life with and you'll be able to share the things which have happened to you and they may benefit from it. Be part of a network or be the network yourself supporting others.

**630.**

When we are very young, we are learning so many new things, life is a huge adventure, we get stronger as we get older and we eat plenty of good food, people look after us all the time, we are cared for, we are loved, we have so much ahead of us. We take everything for granted as it is all provided for us and we just need to live, as we get older and wiser, hopefully, we are able to take decisions for ourselves. When we start a new job and we are not quite sure what to do, we ask questions and find out answers, we do the best we can. With luck we keep our jobs, make further advancements in all the things we do, earn more money and live, have a family too. When you become a Christian and give our live to the Lord, we sometimes find it difficult to hear, other people know such a lot and we know very little, but remember your childhood and take every step at a time and then as you get closer to the Lord, you'll find out He is so divine, He is so wonderful, He is everything you need. Don't be jealous of other Christians, they have gone through the same as you and I know you will learn to walk with the Lord and fall up and down. Keep on moving forward, walking with the Lord and when the time comes you will get your reward in heaven.

**631.**

When you hear the song Amazing Grace, listening to the words, what comes into your mind and is it all about you. They are such wonderful words to listen to and understand, God in His great mercy loves you and He knows you before you were born, He knows where you are going and He wants you to love Him too. He is there Forever After so give your life to the Lord He will look after you and cherish you. He loves you with all His might. Feast your eyes on the strutting Peacock and hear its mournful cry, see the beautiful feathers and plumage, God has made them and He loves you just as much. Hear the cry of the Fallow deer crying out to it's young and listen to the Fox and the vixen and their barking out, These are all forms of communication, how is God going to capture you, He wants your attention, you wants you to talk to Him. He's waiting for you to make up your mind, to choose Him and have wonderful friendship with Him, your heavenly father is there with you all the time wherever you are. Allow yourself to be filled with the Holy Spirit, overflowing like a spring.

**632.**

Are you as timid as a lamb that bleats or bold as a lion that roars. In the Bible the Lion and the Lamb will lie together in harmony, at peace with one another. Be a man of valour, be a man of peace, choose God and honour, be the one that leads others to the Lord, make disciples of everyone. Go and make it jolly and happy so everyone wants to come. Go tell it on the mountain, go tell it on the plain, that Jesus is alive and He is with God and reigns, He reigns over all of us, He is upon high, He is our lord our saviour. Don't be weak hearted, grab the bull by the horns and don't worry about things. Make sure that you are reborn, give your life to Jesus and all things will change, be filled with the holy spirit and you will be with the Lord in the end, for eternity with God is a greatest thing that can come.

**633.**

Sitting cattle in a field are they just waiting for the rain or are they chewing over something that is quite profane. Sometimes people act like cattle and they just follow the latest trend they do not think about what life is all about and how it will end, they are just thinking of themselves all the time but sometimes people think about others but they don't think about their Christian life and their fellow Christian brothers. Have we spent time studying the Word in the Bible and chewing it over over and over again, finding that each time we read it, has something that has changed, there seems to be something different each time, it will be the same passage it is not the word that's changed, but we have changed and hopefully for the better every time, the Lord will speak, do you listen to Him and carry His word out. Sometimes we can't understand what the Bible says, find someone that can help you and make sure that you understand the Word and that you are well fed.

634.

The local church in Buckland uses smart water, they use it for security and warn thieves off. People are baptised into God the father, God the Son, God the Holy spirit, that is our security. We are made in the image of God, therefore we have the same DNA, from Adam and Eve, Make sure that we look after our family, our extended family too, when you are joined with Jesus, then the whole world is your family, to all the people that turn to Jesus and know Him as your brother, looking forward to His kingdom come.

**635.**

When you come to a junction in a road, path or a place where you have been before. There many different ways you can go, each road will take you to a slightly different destination, sometimes the same destination but on a different route. How do we make a decision which route to take, which direction to go, do we just stand there and wait until something happens and then follow that route or do we know exactly where we are going, we've done the same thing year in, year out. This past quarter of a century it just seems to be what you do, then why not have a go at a slightly different route. When you're out walking on the footpaths, some are well trodden, but some are just slightly off the beaten track, with a big adventure ahead of you, see different views and different people to meet and different things to do, it is such a big adventure just by one small choice, it's like the rudder on a boat a small movement will make a big difference over a long journey. God has given us self will, we can determine what we do, we have a choice in everything we do in our lives, we make millions and millions of choices. We choose to do things we choose to love, we choose to hate. God loves you with all His Might and all His heart, He knows you inside out, He wants the best for you, He wants to see you light up and smile and be full of joy, full of the Holy Spirit, He is there waiting for you to choose Him, choose His son Jesus Christ to come into your life and the Holy Spirit fill you with overflowing peace and joy. Choose God over everything.

**636.**

Have you got a bucket list, how big is your list and how big is your bucket? Is the bucket the size of your ego and do you have so many things you want to do that is overflowing with ideas, how many of those things will you actually put into practice and ticked off your bucket list? Have you put a time limit on your list? How many excuses have you made for not attempting some of your things on the list? Be realistic about what you put on your list and be decisive about going ahead and doing them. Finish one list then start another. Don't look back over your life and say, oh I wish I had done this or I am going to do this. Be a person that says, I have done this, I have done that and I have this to do and I'm going to do this very soon. Life goes by too quickly, make the most of the time that God has given you and make full use of it, make sure it is fruitful and help others as long the way, encourage one another. If you haven't decided about giving your life to Jesus now is the time before it is too late.

637.

When on the journey make sure that you have the right map and directions for where you're going, make sure that it is up-to-date and you follow it very carefully, for things do change. Don't let temptation take you off map, don't be distracted away from the desire where you want to be, there are so many things and people that want to take you off your true path and distract you into a life of destruction, self-pity and harm don't let that happen. Jesus said, I am the way the truth and the life. Become a follower of Jesus because He knows where He's going and He wants you to go with Him.

**638.**

Are you satisfied with the way God has made you, are you satisfied with the way He has brought you up and are you satisfied with all the things that He has done for you, are you satisfied with the way He feeds you and the people who you have met? If you are. Then say thank you and worship Him for all the things that He has provided for you. If you are dissatisfied with all the things that God has given you, then have a word with God and see where things can be sorted out. How can you sort things out with God? By talking to Him, praying to Him and worship Him, because He created you and the earth and all the things that you see and feel and touch, He has control of those things, you have a choice, ask God how you can make the most of what you have, you maybe a person that has a special gift that God has given you, that only you have and you may be able to help so many other people because of that gift, we are all individuals. Don't be jealous about what other people have and who they are, because they are not you, you are the person God made you to be. God will always love you, He is always there beside you, in front, behind, below and above you.

**639.**

Put on the cloak of protection from God, get it wrapped around you and comfort you, He is a compassionate God, He loves you, and He always will. He wants what is best for you and for those around you. Read Psalm 23 , it tells you all about Him. Lay down in a greenfield and just watch the clouds to go by, be at peace with God, listen to what He has to say to you. He knows all your worries and troubles He's just waiting for you to talk to Him Listen to His answers and be blessed.

**640.**

Do you like the great open spaces with wide vistas, to see the horizon in the distance, would you like to soar like an eagle, around in the sky looking down upon the earth? Gliders on this airfield are lifted up by a winch, a cable is connected to the motor, winding it up, pulling it up into the sky. When you let Jesus into your life and become a Christian, ask the holy spirit to fill you, be uplifted and you will be filled with joy. You will find it easier to overcome problems and see them from a different point of view. The Holy spirit will help you to do these things, Jesus is there when you are filled with the Holy Spirit, you will show the fruits of the holy spirit, like an apple tree shows an apple. The Holy Spirit shows the fruits which are love, Joy, peace, patience, kindness, gentleness, faithfulness and safe self-control and the greatest of these is love. God loves you with all his heart, all his mind or his body, God loves you through and through He is there with you always, in front of you behind you above and below you.

**641.**

Have you ever picked up a book, looked at the picture and decided that that's not the one to read, or is it just by looking at the covers few details, nothing much else. Do you select a book by looking for the author because you know how they write and they excite you. When we were a child our parents might have read the same book over and over again when we're in bed and we just never got fed up with it, we always liked it because we knew what was going to happen. We can go back to that, but it doesn't seem to have the excitement when we have grown up. Have you read the Bible and read through the same passages, you go back to them and they seem to have changed, it doesn't seem to have the same meaning, it might have something more powerful, it's not because the words have changed, they are still the same ones in black and white. Try reading the Bible, you can't tell a book by its cover, but what's inside there, will change your life forever, for eternity. You'll be very grateful for the time you spent doing it. Be blessed by the Word of God because it is true.

**642.**

Have you ever walked around somewhere and wondered what is beneath your feet? Are there archaeological remains hidden down there from centuries ago, maybe your ancestors once walked where you are now? It's so hard to tell, because you have to dig down and find the evidence and do a lot of research, even then you are not really sure about it but there are so many things to find hidden in the depths, even in ourselves, we hide things away if we don't want to face things which frighten, worry or we are ashamed of, when these come to the surface we have to think about them. We need to try and put things right. Sometimes they can't be. Ask God if He will forgive you for the things that you have done wrong. Say sorry and ask him to take those things away and accept His forgiveness. Don't carry it around with you, try and make recompense for what you have done because there are many things that will destroy your life. If someone has done something to harm you try and forgive them, because the Spirit of unforgiveness will destroy you and you will not be able to live your life peacefully. Also ask people to forgive you too.

**643.**

Cherish every new discovery that you make, everything that you find, everything you identify, like a butterfly and the one that you haven't seen before, enjoy it for the time it is, because next time you see it you will think, I've already seen that one is not so important now but it is a butterfly, it is important, that one, everything that you do and the more you do something the less significance it is to you. Every moment, every experience is precious to you, it is precious because it makes you, your future lies in what you have done, seen, smelt, and felt. As you grow older you can draw on these experiences and put them all together, that makes you as the individual you are, God is investing all this time and the things that He puts in front of you to take note of. You will be able to fulfill your purpose in life, you may not know what it is yet, but it is there for you to find.

**644.**

If you have time to wonder, meanda and just stand around, just looking at things up in the sky and things that are on the ground, just take that time because it is precious and make the most of all of it, take time to dangle your feet in the stream and let it cool them in the heat of the day. Look at the grass that has all been kept ready, to make some hay, the farmer is always working, he never has many days off. He may work on a huge great big farm or on a little croft but he is tending all the things that he is growing, to make a living off. Each seed that is sewn must die, so it can produce a crop, it's like Jesus He died for us so we can go to heaven through Him to God. We take everything for granted, when we go into a shop, we take the trolley and fill it up and pay for the lot we've got, but if there is something missing, we get very cross and annoyed, maybe because the farmer, he had caught the virus and has gone and died.

**645.**

How much effort does it take to make a slice of toast? Starting with a single grain of corn planted in the ground. Only put on your plate what you're going to eat, don't waste it ,don't take it if you don't need it. Don't let food go mouldy, put it in the freezer and save it for another day, use it when you need it and then you'll have more money to spend and less need to get so much pay.The world is falling apart with the waste with all the food gets dumped, there's so many things that we can do. Make the most of what God has provided and don't waste it at all. God has put in your heart, His Love, share it with everyone you meet and know, because God is there, this is His earth and you are walking on it, so Thank Him and be blessed.

**646.**

If you walk through a meadow of long grass, with all the different flowers, can you count all the different species and all the different birds, butterflies and insects? They are so numerous, they are amazing and each individual one. Some people take a lifetime of study and get a PHD and all the things that are around you, are so wonderful for you and me. God created them all and He said that they are good, He is very pleased with his creation, so be careful what you say and do. Look after one another and to God and Jesus pray, thank God and worship Him for everything you have, thank Him for your parents and all your relatives too, because you are one of many you are loved by God as an individual, one of His family too.

**647.**

Do you sometimes feel that you are blocked and everywhere you go is like a river that has a lot of rubbish in it, the water cannot flow properly and it just overflows the banks and stops flowing properly. Sometimes we find that there's something in our life that's blocking our path. Do we hack our way through the problem or do we find another route, perhaps we're not supposed to go along that way and it is a way of God saying, try another way, this is not the way I want you to go. Be patient, keep praying, God has got a path set it out for you, it is up to you to decide and choose which way to go, God has got an easy path for you or a hard path, on the hard path you tend to learn more things, it overcome more problems, therefore praise God, that you are in possibly a hard place at the moment and you're coming out the other side, knowing more and trusting God more, when you find that path make sure that is the path that God has set before you and it is not a deception, somewhere where God is not. Walk in the light and not the darkness, God is your light He will shine His Lantern on the path in front of you. If you are trying to get through different doors and you're pushing them one at a time, try pulling on the door, because sometimes you are doing things just a little wrong.

**648.**

When you have a worry or concern or you're going to do something and you're very anxious about it, your stomach is churning, is it butterflies in stomach and you just don't know what to do, when you're frightened let the butterflies in your stomach give you a lift, let them flutter their wings and lift you up and have joy in your heart, be like a swan that gracefully goes along on the water floating away and just gentle movements of the feet, will push it along with the ducks seem to be pushing me away that bad but just be gentle and serene and overcome things. Let the butterflies tickle your tummy and get excited and may you fulfill your dreams. Look at the ears of corn in the field, they are getting ripe for harvest, things are looking good and everything will be fine. Put your trust in the Lord, because He has your best interests at heart, He wants the best for you and He wants you to look to Him and praise Him in every situation whether it is good or bad. Try to be happy not sad, God will provide what you need not necessarily what you want.

**649.**

When you look for signs around you, look for road signs show us where to go and when you're on the airfield you have a windsock which will tell you the direction of the wind and how strong it is, if you look at a windmill that is slowly turning round, it shows sign of a little wind but there is still power there. When we look for recovery, signs of recovery and renewed health, we do tests and counts and all sorts of things and then you shout out Glory, Hallelujah, ring the bell and shout out everything is clear, everything is dear, let your motion be your potion, keeping happy and don't fear, be positive and uplifted and make every mile a smile, just keep on going and don't let up. Illness doesn't like laughter because it can't keep you down, be joyful, be merry and sing a happy sound. Let God's glory be your story, praise Him for all He has done, praise Him for your healing and praise Him for his son, who died for you so you could have salvation, to heaven and eternity come.

**650.**

Be a man of firm decisions, do things boldly when you can, don't let people bully you or run you down, just keep your head way above the water, just breathing deeply and be calm, because God has got something for you to do and He needs your strong right arm. He will be with you whatever you do, He is always there with you, in front, behind you above you, below you and to your sides, He won't forget you, He won't leave you and it is up to you to decide, decide to let Jesus into your life and the Holy spirit to reside. You will do amazing things and people will see you as God's child. Give God the glory at all times, praise Him and worship Him, because it is through Him that you do these things and you do them for Him, He has put you here for a purpose, seek it and fulfil. You will need such courage and boldness to support your family members too. God loves you on all occasions, that is what has been given to you, love one another and don't argue. Let God be your number one.

**651.**

Can you put your life in God's hands, do you trust Him all that much, do you wish that you could have such faith and that will be something for you to clutch? Do you walk with Jesus, know Him as your friend, your brother and your work mate and on Him do you depend? Our lives are such a fleeting moment throughout history. Everything has a purpose and we need to find what it is for us, God has put us here to save others and Jesus saves us too. When we are on standby, we are all ready and alert, we are as a team, we go out at the shout. We put our lives on the line and we trust others will do the same, we are here to help everyone no matter who they are, we want to bring all people safely to the Lord and do it without any harm, they will do the same for us and may we always keep calm.

**652.**

Thank you God, that when we come closer to you, you come closer to us, the more we do for you, the more happens around us that is from you. Thank you Lord for all the opportunities that you put in front of us, to help others and to be more compassionate, more like you Lord, that everything we have is from you and Lord help us to share what we have with others. Thank you Lord for all the things that you have provided for us in the past, your great provision and thank you Lord that sometimes you take something away and you replace it with something even better, more exciting adventures, the more we do with you Lord the more things happen around us, that are more than coincidences. We thank you for all the people that we are able to serve and people that look after us, help us Lord to bring more people to you in our lives and may we be an example of your love, your holy spirit pouring through us in all we do. Less of self and more of you Lord.

**653.**

I thank you Lord, bless you and I worship you and everything that you do, I thank you Lord that you prune us, so we can produce more fruit and that you transplant us into good fertile ground rather than bitter. Thank you Lord that you are the key holder of our heart, you allow all things to happen for a purpose, help us Lord to move in your ways, to where you want us to be, so we can do the work that you have planned for us, we are all willing to be servants of you Christ, help us Lord to be Children of God in the place where you want us to be to do the work. Thank you that you have instilled a passion and the skills in us Lord, we are waiting for your direction, we are putting our faith and our hope in you. We praise and worship you in all situations and at all times, we thank you Lord that we overcome the difficulties to make us stronger. God help us to make lots of little molehills out of the big mountain that we have in front of us.

**654.**

When we go for tests at the hospitals and doctors and nurses and they all try to find out what is wrong with us. They want to pigeonhole everything so they know how they can treat it. Let the pigeon be the dove of peace, may the Holy Spirit be within you and everything that is not right within you, depart, everything goes in the name of Jesus Christ. Let it be diagnosed correctly, treated efficiently, effectively and all the discomfort go away. Thank the Lord and give Him the credit for your healing and smile every time you can, because illness doesn't like a positive person. May your healing be the opportunity to witness to people around you and the medical profession that there are different things that can help people overcome all their difficulties, pains and illnesses, pray to God that you are healed and asked that you are able to do things with that healing, be positive, be uplifted by the Holy Spirit, walk in power, without pain and discomfort. Seek the peace of the Lord and may that peace be always with you.

**655.**

Always check that the sheep is a sheep after it has been shorn. Check out people's credentials and make sure that they are true. make sure that they are teaching the things that they really are for you, are they from the Lord or are they just an illusion hiding behind mirrors. Many things and people online are not who they profess to be, be careful where you step because there is no one there. Be careful they're not like a butterfly, that flits from flower to flower sipping out all the nectar and then going on and leaving the flower empty, just be careful and beware, be wise and ask for discernment of all the things that are happening, but if you checked it out with others and everything's seems good and true, then still tread carefully and wisely and ask God to bless you. Bless you in all that you do, in each and every step, make sure that you are being legal and pay all the tax that is due.

**656.**

Choose, who do you want to be like Mary or Martha, do you want to rush around and do everything to make sure everything is alright and do everything in your own strengths and make sure all things are done, or do you want to rest in the arms of Lord, slumber in His arms and find rest and peace in His presence? There are times in our life when, learning things, is to sit still and do nothing. God wants us to trust Him at all times and all situations then we can praise Him in this, when we are working, it is best to work from rest, than to rest from work. Speak to Lord and ask Him if you are worrying for your own sake because you're not doing what you think you should be doing, ask Him if it is Him who wants you to sleep and slumber in His arms or are you being distracted. Speak to Him and then listen, listen to His voice. Sometimes the Lord wants us to rest, recuperate and recharge your batteries because we are having something quite new ahead of us and we need to be strong. Rest and wait in the Lord, be patient, the Lord is preparing the way for you He is removing all the obstacles, give Him time and then when the time is ready you will be able to walk forward with your head held high in confidence, rested and refreshed, be full of joy and peace. May the Peace of the Lord be with you, may He enfold you with His arms, He is there ready waiting for you and don't force yourself to be someone you're not.

**657.**

Take away the illness, take away the pain, take away all the lethargy and pour it down the drain, be revived and restored may you find an everlasting spirit, may the Lord be with you and be cured. Be like a spring in a meadow, be gushing forth with praise, to water all the meadow and grow crops all around, may the Holy Spirit fill you to overflow and more, may you be the one that people look too because you have overcome, you have overcome all things which we're not thought possible, all things through the Lord, praise Him at all times, do it here and abroad, don't stop praising Him for He has healed you, with this healing hands. Ask God to fill you with knowledge of His healing hands and be like a reservoir and store it all up and when the time is right, release all the parts that you have learnt to ones who are within your site, take the Lord and His spirit be there and be gentle and do it at the feet of the Lord.

**658.**

Seek sobriety at all times, seek it with the Lord and make sure that every day you wake up, you wake up with the Lord, make it a wish that you can give up all the things you hate. Make sure you find other people that are going through the same thing, talk to one another and support the things you do, make sure that you don't fail, you need to be accountable to each other and accountable to the Lord, but everyday is a blessing every time you wake up, pray and thank the Lord, make sure that you ask Him to help you through the day. When you've had sobriety for many years, make sure that you help others and they will help you too. All the people that refuse God, they fail and fall away, but only the ones that ask God to help them everyday, they're the ones that keep on going strong but it is always there, it is always a struggle but never give up just keep going on, do everything in the strength of the Lord because we humans have not enough.

**659.**

When you are preparing yourself for an operation, make sure that you have got everything ready and you are at rest in the Lord. Remember the words, the words of God, Be still and know that I Am God. God is with me at all times, in all situations trust Him and put your life into his hands. Trust all the people that are going to be attending you, pray for them too, so they are ready, for looking after you and all the surgeons too. Everything needs to be prepared. Be happy with all the things which we're going to happen and make sure that you are smiling all the time, joy will overcome many things but peace in the Lord will overcome all. Be ready to be a witness to the Lord, that all the things He has done, speak to people in hospital and Jesus that they may come to Him, that you are there for a purpose not just your healing and the operation, speedy recovery afterwards that's so miraculously from the Lord.

**660.**

May the Lord always be with you, may He be always by your side, may you be filled with joy for singing, that you are God's chosen child. May the Lord continue to bless you, in every way, He can, make sure that you are listening to Him, when He speaks, be there and be ready have everything prepared for our God, is bringing a child into this world, that He has special purpose, for that child to do, like every one of His children, He loves them through and through, He loves them with all his might, loves them with all His heart, we are to listen to Him and everyone to play their part, to play the part in raising the child that will smile all day long, that will be happy and healthy and like Samson strong and Solomon, wise.

**661.**

God comforts those who mourn, who come to Him and are forlorn, they are low and feeling sad. Life that is, is not so bad. Go find people that have been through the same thing, talk about their life and other things, it is the memories of the person that has gone, is the one, where we need to celebrate joyfully in the song, about all the good times that have come they are still in your memory, a person still lives on, the effect they have had on people's lives and it is now and it is why, the ripples of somebody's life and I think so many people around the world. No there's nothing wrong to the shed a tear when you lose one so very dear, it's good to let your emotions free and don't bottle up thing but that come to be, coming to God and ask Him for his comfort, asking and pray, for all the people that are sick and may their lives have been full of benefits of love.

**662.**

To know and seek God's wisdom as Solomon did, he asked for wisdom and the great things were given to him. There are many examples in the Bible where God and Jesus gave various talents and gifts to people, what they did with them and how they perceive them. We are given, by the Holy Spirit these gifts, we don't choose them, they are given to us, we can't take them, it is for us to find out what these gifts are, quite often we need to ask people if they recognise the gifts that we have been given, sometimes it's humility, timidity, all sorts of things, but we don't often see them because they are so natural to us, they are what we are already doing. When you start talking about something that you have an interest in, with someone else and it is of God and from God, you will find that you get excited and a bubbling up with enthusiasm as you speak. Allow God to awaken the Spirit of your enthusiasm in your heart, whatever it is you need to do. God will be with you in it and you will find that you are amazed, other people will be amazed of how easily you do it and then they may feel that they wish they could do it too, but that is a gift that God is only given to you, use it wisely. Encourage others to find their gift too.

**663.**

Many are called, few are chosen, but we all are called to be disciples of Jesus and go make disciples of the world. When you grow crops in a field, do you want to be the one that clears away the stones and make sure that the ground is sound, or do you want to be the ploughman that ploughs the field? Or the one that farrows and gets ready for the seed or the person that plants the seed, scatters it all around, or the person that tends the crop and makes sure that it is well watered, and sorts out the weeds. Are you going to be the person that reaps the field and gathers in the crop or the person that takes the grain and makes it into flour and feeds the population, God has got a plan for you and you don't know which part you are playing in it. If you need anointing to prove where you're going, is that just for you or is it just for the public to see. Each of us has a place in God's Kingdom, we all need to do our job and to do it most effectively we need to seek God's will and take what whatever opportunity is placed in front of us, we need to preach the gospel gently and that our faith grows and the people in front of us grow as well, any opportunity God will put in front of you, don't let it slip by, one or two words or a few more sometimes it's more than enough, a whole sermon is forgotten, but one testimony one word of testimony can change someone's life.

664.

When we read the bible about the early Christians after Jesus had risen, they were under great persecution and not able to preach the gospel in their early homes, they were scattered around the Roman empire and they were found in many places. Because of the ease of travel through the Romans, it is fear that scattered them but it is the holy spirit that filled their heart that they were able to spread the gospel and make the church so large, it is now with the virus that we are not able to worship God in a building but we as the church, the people of God, are able, wherever we are, whichever house we lockdown in, we can still communicate through the internet and many other forms, we need to make full use of that and don't let fear stop us. We can't multiply in Holy huddle, in a building, we need to go out and multiply, the virus is getting very rampant and it's only because of people isolating themselves that the virus will diminish. If we isolate ourselves in the building of the church then the message doesn't get spread, if we go out like the 70 and then come back and report the amazing things that can be done in the name of Jesus Christ. We are living because of the 70 that went out and things moved on from there, we are in the hands of God like we are in the hands of other people, what we all do, matters.

**665.**

When you look in the mirror, who do you see? Look closely at the image that is in front of you, that is me, that is me, looking at myself. You may or may not like what you see, but you are made in the image of God and He has made you that way. Do you have lines of smiles or worry, etched upon your face, or do you see that there is a face that's full of grace. Take a video of yourself saying sorry, sorry God, thank you Jesus, come Holy Spirit. Keep recording for a minute, watching your face watching you, as you are being filled with God's glorious grace, watch the things that are happening and a smile will appear with glee, you will be filled with the holy spirit and you will feel so wonderful now God is with me, how can this not be true. When the minute is over, stop and play it back to one of your family. Don't watch it yourself but watch that person's face and then you can play it back to yourself and you will see God's amazing Grace. Now do you have a hanky, because I have tears upon my face.

**666.**

When you're over 70 and you have been locked up in your place, not able to meet people and see them face-to-face, all the people that you know and love have been away from you and it is so unhappy, but you have come through. This had to happen to you, but when you go out and you wonder, you walk in the pastures that are green and you walk by them with the Lord, He is with you, He has always been there inside your place, He has been there, He's been watching over you and He has filled you full of grace. Share your memories with the people that you meet, because it does make a difference, when you have a smile and people you greet, is the time to take and savour every moment that the Lord that He gives to you, He is the one who loves you most and He always will. Watch the season changes and the flowers that come and go. They return each year and that is what you know.

**667.**

Thank you Lord, we bless you, we worship you and we thank you, for your protection, we have been protected from the virus so far, we keep asking the Lord to be with us like a shield, to cover us in a Holy bubble that will protect us through and through, show us how to do all the things that we need to do, as the government advise and help us to help others and with their provisions and their supplies, Lord we love you, we trust you, we know that all things can be done, the things that can be averted when we listen to your son. Lord we look forward to the time when we can hug each other and greet each other with a kiss, but now we cannot do that, it's something that we really miss, the friendship and fellowship and all the things have gone but Lord we search and wait and seek you and then we look forward to the new coming of the norm.

**668.**

When sailing on the open sea, we quite often rely on the things that are around us, we rely on the captain and his crew that are taking us through stormy waters, but when things get really bad and we need to go to muster and get in the lifeboats, one by one, then that is the time is when you put on your life jacket and you pray and you ask for God's protection. Having lessons online has been one of the greatest blessings of this virus, that teachers can teach so many people all at the same time and you can go over the same thing again, if you haven't quite captured it into to your mind, that is the time like going into the lifeboat, we are there and we've been looked after, everything is safe and we can whether it through the storm, God is looking after us and He is doing it all the time, He is helping all the teachers and the good teachers will survive. The ones that didn't put the effort in will be discarded over time. The people and the children that have focused on what the Lord has to say and all the things which are online and the teaching help us to pray, help us to help one another and ones that are focused the most, are the ones that go on to say, I'm going to survive, so, let the Holy Spirit host.

**669.**

Lord we call out to you when we are feeling low, when we're feeling out of breath and feeling that we can't go, the things which we used to do we can no longer do with ease, Lord we come to you and we bend down on our knees, Lord we pray that we can stand up against whatever is ailing us. Please Lord hear us and let us pray, worship and praise you for your healing through your holy spirit to me, be there in every moment of my suffering and I know that you are with me wherever I may go. May I be like a spring lamb that jumps and gambles with glee at the new moan meadows and may I be in the storms like a well, strong, tree. Lord you are my keystone in a bridge over troubled waters, help me to be running like the hare but plodding on like the tortoise.

**670.**

Thank you Lord that we can walk among the trees with a canopy above, thank you Lord that we know that your canopy is love, you love us with all your might, you sent your son to save us, thank you Lord that we have known peace, peace and quiet in this time of turmoil, the virus that is going round, is taking many people down, Lord thank you for your blessing and thank you for your protection too, thank you Lord for everything. I thank you Lord for all the paths, with friends we can walk along, that we can talk to one another and it is what you intend, that we can love one another as we go along, those who have shown that all the different paths that we can follow, we will want to follow You, the only one to heaven, through Jesus, we will be brought safely home.

**671.**

Thank you lord for your love, thank you for your protection, thank you for all the things that we can do and thank you for your direction, thank you for the way you are and the way you look after us, we thank you for our families and all the fellowship we have with others, you are there guiding us all along the way, you protect us and Lord we try to listen to what you say. Thank you Lord, you send people to send words of cheer along the way, thank you for everything and thank you for today. Sorry Lord for anything that I have done wrong and please help me Lord and give me a song to sing, A song of love and thanks that you are always with me, even when I don't pray, I know that you are with me. God, I ask for your blessing upon me and all the people that I meet, my family, my town and all the people around the world, may they accept your blessing to help the virus to go away and us all to be renewed.

**672.**

Lord we pray for the people that don't know you, that have lost their loved ones in drastic, tragic circumstances and their families too, because without you Lord there is no hope, there is no other view, but we can still pray for people that have the great load on their shoulders and their empty heart rent in two. May people find you through the people they meet, and plant that seed of love and may it grow for ever after and may they come to heaven with you. Lord when we meet people that don't know you, may you put on our hearts the things to say, may we show your compassion, as we walk along the way, many people that are doubting, but need your love and salvation, from your son and may we keep on going and bless each and everyone. There are many blades of grass that are blowing in the fields, Lord you know each and every one. Each and every one of us is blessed and known by you, that each and every hair on our head and we want for everyone to come to you, it is our duty and an honour and a blessing too, to get people to come to you, each and every word we say to them is a light into their heart, with the Holy Spirit, wake them up before it is too late.

**673.**

Lord we pray to you for our friends and all their friends and family too, to help them get through their illnesses and the illnesses of others too. We ask for your grace, for your healing and your mercy for the ones that the illness face, help Lord that there is a quick diagnosis and the prognosis is good and true, that everything can be sorted, then we will thank you, for all your great mercy and all your love to us. Lord we come to you in our troubles like on a stormy day, when the clouds are blowing fast and the chance of rain is on it's way. Thank you for your blessings today, it's like a ray of sunshine that is breaking through the clouds. Lord shine your light of healing from the heavens today and bless all those who pray, come Holy Spirit.

**674.**

Lord be with the people that are suffering, especially with the Big C. May the Big C become a small c, so we can hardly see it at all. With David and Goliath it was only a small stone that went through his mind and destroyed him, Lord may your holy spirit come through and destroy any cancer, in everybody around, may it just disappear and it through you Lord this is possible and may the big C become a small c. Help us lord to put on the full armour of the spirit, may you be with us and protect us in all the things we do, protect us from any illnesses and the virus especially that has to be. When we walk out in your glorious world Lord, we can see you at work, we can see all the changes of the seasons. Lord we worship and bless you and thank you all the time for all the things that you provide. We praise you in every situation all the time, wherever we are because we know that you love us and you really care for us, God, give us strength to overcome please.

**675.**

Lord thank you for the promises we made, to say in sickness and in health, thank you Lord that we can support one another in our faith and in our doubts, we ask that you strengthen us, to get us through all we strive, help us Lord please, for we need this to help. Thank you Lord for the blessing of our family, each and everyone, Lord we thank you that you gave your one and only son so that we can have salvation and to heaven and for eternity come, when the time is right, help us Lord.

**676.**

When we step out in faith, we step out knowing that you are there with us every step we take, but Lord we know that we cannot do it in our own strength, we need your strength to do it, we need your protection in our everyday life and when we are sure footed and we walk with the full armour of God, which includes the shoes and you will be there protecting us, an army walks or marches on its stomach, they say, but each soldier has his shoes, if they are well shod and giving grip and he can they can go wherever they choose. In Psalm 121 you will not let our foot slip, thank you Lord for all the things that you provide for us, all our provisions, our family, the love that you pour out on us, the work we do and we know that it all comes from you. We worship you for everything that we have and when we walk out really see your wonderful creation that opens up in front of our very eyes, even down to the smallest ant and the kite flying in the skies, you are there Lord, looking over us, you protect us from all sides and we know Lord when we go to bed, you will be there when we wake up too, thank you Lord for every step we take it is one more closer to you. To be ready and make sure that we know your might. Lord, you know that we know that you are with us in our joys and sorrows too. May our footsteps in the sand, like our sins be washed away, be with us Lord and help us, to hear you and listen to you when we pray, we know that you are there Lord and we are sorry when we forget, but we know that you are all around us and you guide each and every footstep along the way we choose, help us Lord to choose correctly and that we always want to be with you.

677.

Thank you Lord for when we open our eyes we gaze upon all the things that you have created, the work of your almighty hand, thank you Lord that you are with us, we are learning things as we go along, things are always changing, the why and where and how, thank you Lord that we have an inquisitive mind, that you have given us as we try to understand, Lord we go out and we pray and we try to do it everyday, to get closer to you Lord and hear what you want and what you say. All the marvelous things like that, you have put in people's minds, that we can make things and help one another and even we can fly in the sky, we take all these things for granted but Lord you have had your hand in everything. You have put in each and every one of us, a purpose to fulfill, Lord help us to seek it and find it and all of us do it well, each and every one of us to play our part.

**678.**

What have we built our life on, is it firm, secure and true, will we be able to withstand the storms and the elements that can challenge you, is our faith in everything built upon the sand or is it firmly based on rock, where you can build upwards, where it won't sway and rot. Are we all secure in our buildings, house, family, work and wife, may we find that God is there with us and He has been there all the time. He is your friend, your father, your creator of all times. Why do we refuse to acknowledge Him, He has so much to share and find. God will send you many blessings, some things in advance, so spend some time and thank Him and give him a chance to help you, accept His love in you, open up your eyes and marvel at the view. The rising and the setting sun is there for you.

**679.**

When we strive for success, what is success in our eyes? What do we measure it by as being successful and at what cost is that success? What are we looking for, financial, material, fame, all the trappings of success etc. Sometimes success is measured by survival, the ability to overcome all the odds and survive, but then we may find that the success has cost us greatly. If we try to do everything in our own strength, our strength is only limited to a certain amount and then we tend to fail and break down. Call on God and ask Him for help and through Jesus Christ you will have strength that's limitless, the Lord will be with you as the Holy Spirit, supporting you and only through that, you'll be able to overcome and survive. Take time out and spend it with the Lord, in solitude and silence, listen to what He has to say and do what He says, just rest and be quiet and work from rest, rather than rest from work. The Lord be with you, may the Holy spirit fill you to overflowing, fill you with joy and may that joy be the success you seek. Know that God loves you with all His might and He is there with you all time, praise Him in every situation.

**680.**

Thank you Lord that we can feel pain, pain is there to let us know that our body is not working correctly or we are doing our selves harm, without pain we could not survive. We have made choices that have done damage to our bodies or accidentally, something has happened in the past, that has given us this pain. Thank you Lord that we have painkillers and things that will be overcome. But when there is damage done, help us Lord to find peace and relief from our pain, we ask Lord that you lay your healing hands on us, through your holy spirit, will hug and enfold us and surround us with your love and warmth. Thank you Lord that we can take time, for you to be with us, to give us your peace. Lord will be asked and pray that things can be done today, to shorten the list for operations, that every way that you can take away this discomfort and get things to be moving without discomfort, thank you Lord that we can ask, thank you Lord for when we get things done, thank you Lord for this and for everyone.

**681.**

Lord I want to thank you for everything that you provide, thank you for my family, my friends and the good neighbours all around, may you be found in all the people that I meet and keep my feet firmly on the ground. Thank you, that I can help others, when I see their needs and thank you Lord for their support when I'm down and on my knees. Lord you are the provider, provider of all things, thank you Lord that we can come to you and we can praise and sing, of your great mercy and your kingdom come, thank you Lord for Jesus and thank you for the spirit within, please Lord keep us joyful and help us not to sin.

682.

Lord I stand before you, looking for your face, I feel your love for me and I feel your endless grace, that you are with me all the time, you help me to overcome all things, when I call upon thee, I know Lord that everything I have is from you, to me your love is so wide, it's an endless circle around. You created everything, the earth and all the stars, all the planets and universe, everything that's there, is yours. Everything seems so amazing that especially you love me, you know each hair on my head right down to my toes and knees, thank you Lord that you are always with me thank you that I can praise you all the time. Lord you are my navigation, the place where I need to come, I look for you in everything in my joy and all my fun.

**683.**

Thank you Lord for our families each and everyone, thank you Lord that we can care for one another and we know that everyone is a child of yours and we love you and you love each and everyone of us and help us. Help us Lord to travel safely, wherever we may go, help us to get our food and help us to keep well and grow, be there all the time and never to depart. Help us and be with us and never let us go. We need your help these times when the virus is around, we need to keep our safety and a bubble that will surround us, Help us Lord to be the ones that survive and be sensible and do the things that are today's request and help us Lord to smile each day and always be our best.

**684.**

Father God you're good at jigsaw puzzles, help me Lord and bring me back together, put all pieces back where they should be and make them good as new, Lord help me to overcome any discomfort and Lord I look for things that are new. Help me to put a smile upon my face and fill me with your joy, may I be overflowing with comfort and kindness and may I help all people that come around, Lord I ask for a bubble of protection, all around my family and me and take care of all and everything that we need, help us Lord to pray and come to you with all of woes and troubles and help us Lord to start walking and steady as it goes, please be with me in every step I take and all the time it takes to heal, only, Lord that you can be there with your holy spirit and me to heal.

**685.**

Thank you Lord for all the coincidences that have protected us from the fire, thank you for all our lives and thank you for all the things that have happened so far, we praise you and we thank you for our lives that are saved, we thank you for the fireman and all the helpers that are brave thank you for neighbours rallying round to be with us and thank you Lord for all your provisions that are getting us through all this fast. Help us Lord to realise that everything is through you, you are in charge and you are doing all the things you can through other people that can help you, thank you that this is not just a coincidence or just by chance, everything is put there for you, through you, nothing is there by chance it is for your Kingdom to advance.

**686.**

Rejoice, rejoice, I say we rejoice, keep on rejoicing and praising the Lord at all times and in all situations, for your salvation has come from the Lord, your deliverance from the fire, thank Him and praise Him and worship Him and everything that God desires, He is worthy of your prayers He is worthy of your song, He is worthy, He is worthy, He is worthy all day long. Help one another to recover and get all things sorted, back at home, take your time and rejoice and do it all day long. Take away your fears and take it far away, don't let people take things for granted, you are glad that you have returned, everything is new, everything has been replaced all the things that are there, is through God holy Grace.

**687.**

Thank you Lord that we can walk out in the countryside and see many splendored things, that everything you created is there for us to see, the trees, the flowers, the butterflies, the birds on their wing, the kite soaring above us, it is such a wonderful thing, to be here and to be blessed and take everything in our stride, thank you Lord that everything is this wonderful in this countryside the hills the wide spread out vale. Thank you Lord for the Joy we have that rises up inside, as to know that someone else's joined and joined up to Jesus, thank you Lord in this time of crisis that we are able to work at home, thank you that every time we zoom in and use the phone, through the internet we are all connected with things around the world and thank you Lord that we are connected to you and send your holiness around so fast. Lord when we require to downsize, may we move to a place that's a small temple with you inside, that's the right size and easy to maintain, a place where you reside. May the people who move into my home be a loving Christian family, that will know that you are there and everything will be fine.

**688.**

It is so wonderful that you have allowed the Lord to find you and you way up high. The Lord has been waiting for you to take His hand and walk with Him and trust Him along the beach and sand, take care and watch what you do, be aware and alert at all times. Take time to stand and watch and listen to what the Lord has for you, He has a purpose in your life and it is for you to fulfill and find. Many people have been praying for you to know Jesus, how many, you may never know. Join in the heavenly joy and celebration that you have turned around.

**689.**

When we put out our rubbish bins to be collected, it is so the selection of the things which we put in their needs to be disposed of. We need to decide the things in our life which are not good for us and need to be removed, praise the Lord that He removes and takes away our Sins, you have to declutter your life and your house and the things that you do, then you will know the things in your life which are good, true, useful and need to be cherished and encouraged too. Use these things to enlarge the church, to be a witness to the Lord and go through the church and take things out into the wide world that you learn and you do at church. As we are the church, the church that goes out, may we be the ones that make the difference, we stand up and witness, put ourselves out to be there, when people are in the dust, where they need us to encourage one another to do God's will.

**690.**

As summertime recedes and autumn shows its face, look around you and see the fruit of the trees around, the bushes and all things which are good, look and test them and see if that they should give good seed for the next year, for the Seasons that will come, look for people and look for their fruit of the spirit and see if they are producing well, if the fruit is bad and has failed, find out the reason why, check the ground and the atmosphere find out what can be found. People are the same, they have things which are around them, their peers and polluted minds from the media and man's inhumanity to man kind, all the things which stress us, will take us down, the job that is needs to be done, is done around the town, to help people to overcome, through our Lord Jesus Christ, we need to be there in this crisis and stand above and shed God's love and light around.

**691.**

Oh the joy of being 3 and looking out of the window and not know that there is all the possibilities around, that we don't know until they come, there are so many things to look at, so many things to see, God has made everything, the sky, the sea, the trees, each and every one of them, whenever you can, marvel at their complexity, that means they're like a very tangled ball of string. Don't try and hurry to untangle it, just take your time, enjoy, as it unravels in God's good time, this is all part of learning, is the joy when it all unwinds. Then you can look back, see God's wisdom in you, you will find.

**692.**

Thank God for his miracles working with mankind, He teaches surgeons to get things right and with our minds, combined. Surgeons can reconstruct our body and put things right that have failed, God is there in everything, Christ, His hands and feet with nails. May all the pain subside and any swelling go down and may the operation be brought forward and everything will be wonderful and you'll be back on your feet in leaps and bounds. Make sure you keep on smiling through it all and laugh at all the things around, be full of love joy and laughter and all things will abound, God is there with you His love, His healing hands. Do not underestimate the instructions of walking around, do more exercises and keep them going on because if you've just let up a little bit, then you won't get strong, all the effort you put in will pay off later on. Walk tall, walk straight, with your head held high because you know that God is with you, He is there by your side.

**693.**

Be bold, be strong, for the Lord your God is with you, He is with you at all times, in all situations, lean on him for your support, as your husband leans on you for his, help him through all these troubles and worries and help him to overcome his anxiety too, be with him and smile with him, even laugh at his jokes and take the time as you encourage him, give him pokes to push him on and make sure that he does all his exercises, well and true, because that will help you get going and support him. Don't smother him and wrap him up in cotton wool, because that will be the worst thing you can do, keep him safe and keep him close to you. Keep on praying and hoping that the virus will stay away, keep safe, keep loving, keep going with God in every way.

**694.**

May the lord keep on blessing you, keeping you safe, keeping you away from the virus but you have not been able to see people face-to-face, the Lord has been with you all this time when you've been shielding away, keep the shield of God and the Holy Spirit with you and pray to the Lord everyday, except the Lord's blessing every day and that there are more tomorrow's to come and that will be a smile upon your face, may you keep on breathing easily without a worry or a care, may God bless you and take away your fear, He is with you, He surrounds you, he loves you all the time, His love for you is divine.

**695.**

Lord be with all our brothers and sisters who are living or abroad, all the different countries are having various troubles, civil uprising and wars, help us Lord to help them and pray that they overcome all the worries and the troubled and even more to come, the virus is another battle that must be won. Lord you are like a bridge over troubled waters, help us to make it calm, be with us in everything, in your very strong and welcome arms, guide us and keep safe forever more. Lord we pray for peace and reconciliation and all forgiveness throughout the lands, help everybody to get together and fight at chasing out the corruption that abounds, make the devil lose his foot hold, may he slip away without a sound, may God's light overcome all things and the Holy Spirit in you, be found.

**696.**

Lord, we ask for your protection in these troubled times, keep us in life and career away from corruption and illness and all the things that can be found. Place us where we can make a difference to the people that live around us, help us Lord to look to you God and transport people in a minibus, may the people be brought to you Lord and may they be kept safe and keep clear from accidents and all things that disgrace, help us to keep you and let your light shine through us. Help us Lord with every bit of money to irrigate the land, to make sure that everybody can feed and about the Lord; understand, that God is with us always, He was always by our side supporting us and being with us, with both arms open wide.

**697.**

May the Lord bless you and keep you and may you walk beside Him on your path, hold His hand and talk to Him and He will tell you things that will last, His Love is never-ending He will love you all day long, take time to learn to sing a wonderful song. A Song of worship and blessing that God has through Jesus, has done to you, may the Holy Spirit lift you and may your singing be good and true, may it be a sweet sound, a sound that all wish to hear, that may you tell people of God and His love, that is so dear, the song about the people of sorrows and all the things that makes people sad, but people need the joy in that heart and people need to be glad, the people that will listen to your song, they will hear it every day and all day long. They will know that there is hope in the world through Jesus and you will be the messenger for Him.

**698.**

Listen to what God says, do it and make sure this is true, make sure you do it there early and nothing more or less will do, God is there beside you. He wants to hear His word, He is there for you and listen and take Him at His word. Everything you do in your life has a purpose, it was laid down before you were born, God has got things for you to do and make sure that you belong. Don't get distracted away with all the things which can, pray for each and every person that you meet, one word sometimes will do, but make sure that you try and your love for God will pour out through you, will make people smile when they meet you and greet you. That is a sign for you.

“FOR A  
GREAT  
SERVICE”

**699.**

Go find a place of solitude and sanctuary and sit down and take your time, just stop and listen to God speaking and hear Him and what He has to say to you. Be still and know that God is with you, He has always been there by your side, look back over the time since this present pandemic began and find out where you've been helped by God and where you have been able to withstand, count your many blessings and write them down, if you find you've got too many blessings then you will know that God has been around.

**700.**

Lord search me, search me from inside, search around and make sure there's nothing that I can hide, help me to overcome my fears and anxiety and take away my pride. I stand humble before you Lord and take away my bitterness and unforgiveness take away all the things which are not of you and fill me with your spirit to overflowing, help me Lord to help others and support the family too and those who are deeply hurt and crying out to you, Lord we ask for your grace among us to love others too.

**701.**

Take time to walk among the flowers and see the birds and butterflies and bees, see God's wonderful creation just walking past around your knees, everything is so beautiful, God has created all things, He has put them there for us to view and He has also put me and you in the world to see what God can do, He can do all things through us, we need to stand up and be counted and be a witness for Jesus to the people in front of you, each person needs to be prayed for, God will send them to you, it is our duty and honour to spread the gospel to all in view. Walk in the shady woodlands along the well worn tracks and look at all the trees that stand way above you and give you shelter and cool you in the heat of the day, enjoy God there, sing out your heart and pray and make that a wonderful, lovely, memorable day, when you walked with the Lord on His earth and listening to what He says.

**702.**

They say that beauty is in the eye of the beholder, God you must be so beautiful so wonderful, so absolutely fantastic and God we know that we are made in your image, therefore we must be the same. When we look in the mirror, who do we see before us, is it me or is it you or is it a blend of all of us, our parents, we are part of them and had genes continue on, we are part of your great family. We are all full of love for you, help us with your holy spirit to overflow with joy and all the fruits of the spirit may they be seen in us. Forgive us Lord when we get things wrong and we do things that you don't like, we ask for your forgiveness and help us to put things right.

**703.**

Lord comfort those who mourn, loss of parents gone, thank you Lord for their lives and all that they have done and thank you Lord for the family and especially their son, thank you Lord for all the blessings that the person has fulfilled. Thank you Lord that we have hope in you through your son Jesus Christ that we may come to you and have it in everlasting lives with eternity in heaven, that is something to look forward to, they will be there and worship you in person and in spirit new. Help us Lord to take away our sorrows and remember what was best and all the good memories that will continue and in our lives have been a good investment. Help us to remember all the good things that we have been taught, our parents have brought us up and help us to think good thoughts, help us to forgive them for anything we thought was wrong, Lord we look forward to worshipping you with a song.

**704.**

Life is very precious and we need to take care, especially when the virus is hovering in the air, to be shielding away so long now it has been quiet at chore, so many people have been shielding for one reason or another, it is so hard to do it, but this is to save each other, all the things that have been done has been for reason, to save people and their lives and not to do it sounds like treason. The time of shielding has given time to do many things that we have put off and put away and loads of books to read and things to learn, all the things we used to take for granted and we may have just walked outside, now there is so many things we have to think about and we all look forward with anticipation to going out without hesitation, without masks and worries or cares about what other people are doing and we hope and pray that we will have protection and everything and the virus will go away. We look forward to the time when everything won't be virtual and with people that we see won't be digital they will be reality.

**705.**

Thank you Lord for recovery and getting over illness that has gone away, be with us as we get healthy, keep us locked inside, keep us away from the virus and do everything we can to know that you are with us. Help us to keep stable and forgive people behaving badly, help us to help others too, thank you for all the people that are helping and ones who get my food. Keep us Lord in your bubble of love, that surrounds us all, help us to keep joyful and laugh and tell jokes as we zoom around. Thank you Lord for the doctors and nurses and all the pills and potions that we have to take. Thank you Lord when we get them they never seem to be late, thank you for all your blessings, thank you all for them coming our way. Lord, we look forward to safety when we can plan and go on holiday and stay away.

**706.**

When you are in furlough and things are not so good, make sure that you find everything that God has given you to do, you do, don't sit around and mope, be filled with the Holy Spirit, build up your strength and overflow the goodness that God has given you. All that get up and go, don't let your job be your identity, you are something more, it is what you are becoming, not what you were before, make sure that you support one another and find strength in unity, look towards eternity, God and Jesus's second coming.

**707.**

Stand by your man supporting him when you can, help him through these troubled times and be together when you can, all the time you have now before things go back to work, everything needs to be strengthened so it is stronger than before, to call on the Lord for everything and do it everyday. Listen to other people's stories as you walk along the way, listen to their troubles and see if you can help them in any way and anytime, may you be there and let the Lord work through you, communicate with all you come across.

**708.**

Become a man of prayer, start with your Mum and Dad, pray with them and for them and support them and ask God to be there, to ask the Holy Spirit for strength and knowledge and wisdom and discernment and all things that you will need. Learn about all the different ways to talk to God and ask Him to intercede. If you can't find the words to say, then sometimes a sigh will do, God knows what's in your heart and He knows what to do, He is just waiting for you to talk to Him and come alongside you. Let the Holy Spirit reside inside you but be wary of your pride.

**709.**

Praise the lord for your new job, for all the new people you will get to know, thank you Lord that you have been given some work to do and you will have somewhere to go. Thank the lord for His provision and everything that comes, make the most of every opportunity and always go the extra mile, when you can be there and be willing because God has placed you for a purpose to fulfill. Be the lights in people's darkness, help them to understand that Jesus died for everyone for each and every child, woman and man.

**710.**

Could you ever imagined that somewhere in the world (the other side completely) while you're asleep, is praying for you and concerned for you and hoping you sleep well, with all the trouble which are set around you when you wake up in the morning, will be still be there, everything that's happening around the world with virus rampant, on its second wave, this is the time to think of God and thank Him for everything He is doing here, supporting us from everywhere, from each side above and below. I am praying for someone I do not know, but God knows you inside out He knows everything you need, He is there, He is waiting for you, He is there to see that you succeed in everything that you need, He will provide and even more, thank Him for everything, this time, next time and the times before.

**711.**

G'day and God bless you. Did you know every shadow in the woodlands and forests will never be the same, the trees will grow the wind will blow and the sun moves around again, but everything's forever changing it will never be the same again, make the most of every day that God gives you and never complain, because everything there is for you to see, to admire God's holy work, He is there. Every chain is only as strong as the weakest link. Take care to help others when they are feeling weak and they're that link in the chain, standby and be ready, be alert and watch out for where God wants you to be, take people's hand and guide them and lead them to Jesus, because He is there for everyone and you are there to be seen.

712.

If you have ever been to the beach when surf is up and seen people riding the waves, just taking it easy and doing amazing things in the power of the sea, everything like that doesn't come easy it is picked with time and practice and being wiped out and coming back again and again and again until you are able to say that you are proficient in your sport. The Lord has the holy spirit and that will lift you up in power and learn to do, to do great things through the holy spirit. When you miss the opportunity to say something about the Lord and do you feel bad about yourself and think what I should have said, it's like missing a wave if you just can't quite catch it right but you wait until the next set of waves comes along. Always be prepared to say a word for the Lord and the next person in front of you may give you that opportunity, always be ready and be alert, God will use you the more you allow him, watch and be amazed.

**713.**

Always run the race at your full potential never let up until you have completed it, then you can take a rest, a well-earned rest, but it's the last bit of your race that takes its toll and it is as people I have trained for it will keep going on persevering and learn, that there are more and distant limits to what you can do. The Lord and through the holy spirit and Jesus will strengthen you in the things He wants you to do. God will empower you and give you sufficient to fulfill your task don't give up, don't be distracted, keep on and be known for someone that is to be trusted and when given the chance or task will follow it through to its conclusion, always let your yes be yes and your no be no. God will continue to bless you when you seek the truth, it is by your fruit you will be known.

**714.**

God we are all your sons and daughters, all of us are in your family, we thank you Lord that we can come and ask you to help us along our way, Lord there are many obstacles that we need to portage around, help us when we are on the water and when we are on solid ground, help us to keep moving forward and filter out all that is not good, thank you Lord that your spirit is with us and I think this is understood. Help us Lord and strengthen us, that's where we are weak, help us to overcome, thank you Lord that you sent Jesus your only son, so we could be saved through his sacrifice and we can come to you and Lord we pray, we worship you and thank you for everyday. May you fill me Lord with your holy spirit and give me buoyancy and aid and help me to overcome my worries and fears.

**715.**

I thank you Lord, I want to praise you, praise you for everything, you are the living water, bursting from a spring, you with the Holy Spirit are within me, you reside, you help me overcome my illness and now you abide, everything is glorious and the battle has been won, thank you Lord for everything and I will burst into song, about what you have saved, that the day and you are saving more, through all the people that are coming for help, they are for evermore. Thank you Lord that you have saved me and helped me to find the purpose that is within me, help me to help others who have gone through but I have been and encourage them. Thank you Lord for the free flow of the river thank you that you haven't got anything stopped up, thank you Lord for your love for me and help me to pass it on.

716.

Being part of a family tree is great to be seen, all the family growing up and going their different ways, we have a responsibility to help people on their way, to be there to give advice and take advice as well and we all come together, with the Lord as our head. God created all, He sent his son down to save us, so we come to him and the Holy Spirit empowers us to do many things for the Lord, He works through us, in us, we host Him all the time and everything that happens is God's love Divine. Thank you Lord that we are still learning and you are giving us time, we reap the harvest that you sent us and we pick fruit from the trees and vine. Lord we bow down before you and we pray to you on our knees we ask you to be with us and help us with our families too and keep the virus well away from us and help us to enjoy the view.

**717.**

Lord we ask for your forgiveness and help us to forgive others too, may we build our bridges with rock, brick and stone, so that the bridges can't be burnt so we can get to both sides for you to help us Lord as we walk along the river that has a path on one side, help us Lord not to walk on the other which is rough and not paved and the hard way to go, may we cross when we get to a bridge and may we find peace on both sides. May the river keep on flowing and the water under the bridge to flow. Lord we ask you for shelter under your tree and we ask to see the horizon's and your Son shining through.

**718.**

When you walk in the woodlands, high up in the trees and see the clouds with invite on the gentle breeze, see the leaves are disturbed and gently flutter down, gentle little raindrops moisten the ground, all things are Wonderful for us to behold, God has put everything on the earth for us to to see and behold, if you want to see Him or you have to travel many miles but the best way to see God's Earth is in people smiles everything is there for pleasure, people swinging high, people catching hold of things and then wondering why. Has God put us here for a purpose, it is up to us to find out what it is, so seek the Lord and all will be revealed.

**719.**

I thank you Lord for all great things that you have provided for me, thank you that you have been there all the time, guiding, protecting and forgiving all that is amiss with me. I have, I'm afraid, forgotten you and put you to one side, as I haven't forgotten all the things I've learnt about you, about that, that's all subside, I'm sorry Lord that I have taken so many things for granted and you Lord, I haven't glorified. I have done all things and seen things and I have walked on your earth. I thank you Lord for my family and all the saving you have done, I am reminded that you are walking with me all the time and thank you Lord, I love you and I think you're just divine.

**720.**

Thank you Lord for my protection, thank you for keeping me safe all the while, thank you for being with me every step I take, every morning I go out you are with me Lord, thank you for the sun that shines on my head and lights up my path in front of me, thank you Lord that everything, that is so dear to me, it is from you Lord, thank you for your blessings and thank you for my family, thank you for all the things that are to come and all the things that will be. Thank you Lord for the bountiful harvest that is to be found, thank you Lord for everything in the trees and upon the ground, we look forward for the seasons to come and go and may we look at your glorious creation, help us to help others and take people by their hand and lead them long the righteous paths and walking on the sand, thank you Lord that you have blessed us and help us to pass it on, your love and everything and we like to celebrate it with a song.

**721.**

Thank you Lord for the miracles that you perform, thank you for everything that you have done since I was born, you are looking after me, you are there beside me, your Holy Spirit in me resides, chase away any remnants of anything that is not of you Lord, make it all go away, may I be blessed for you and do the things that you wish me to do, please show me and help me, every way you can. Lord I ring out a chime of bells in steeples far and wide, for all the wonderful things that you are doing and you with me abide, thank you Lord for your great mercy, thank you for my smile upon my face, thank you Lord that I know that you are full of grace. Thank you Lord for all the people that have asked for you to intervene, thank you Lord and help me to help others and let me be your go-between.

**722.**

Learn to be a bell ringer, pulling on ropes and strings. Sally forth and gather together, all the people that can ring. In the bell tower, listening, everyone's standing by, hear as the call goes out, "trebles going, trebles gone" and all the bells start to peel one by one, clappers, clapping, the tower is rocking, to the sound of wonderful celebration, that everything has been found, it has been found in Jesus, the son of God above. He has sent down his everlasting love and all who seek Him will find Him and will find Him everywhere and the Holy Spirit will come within you and everything will be clear forever, everybody that God loves is here upon the earth and everyone was known by God even before their birth. So praise Him for everything, every time and in every situation that comes and goes, then they will all be ready when, for the second time Jesus comes.

**723.**

Always seek the truth and tell the truth and it will set you free. Let your weakness be your strength, ask God for discernment and always check the other person out, make sure that they are telling the truth and always be aware of others that might deceive you, for this you need to prepare, ask God for discernment so you can tell the difference from light and dark, be there and tell of what you see. Always smile and go that extra mile, do more than is required and always make sure that your job is complete and people will see what you are doing and will find that they can lift you up, because you can be trusted too and everything that you will do. If you are unsure of all of this then ask Jesus into your life and ask for the Holy Spirit within you to reside, all things will be revealed and you will see many things of God's creation and all the things He's doing for you and with you and he will wash away your sins.

**724.**

In whose footsteps do you follow, do you follow any team at all, do you think and worship all the people however big or small. God has given you something to do, a job in his great Kingdom. In the Bible David beats Goliath the mighty giant fall, you can do all things as long as you do them well. Be there when God calls you and listen to his voice, answer oh yes Lord what is it you want and don't hold back because that is your choice, do things that the Lord says and do them with all your might, because God is there with you always and He has you in his sight. Always thank God and praise Him for all the great things that He has done, He has been there always, since you were born when your life began. Thank Him everyday when you wake up in the morning, ask him what are we going to do today.

**725.**

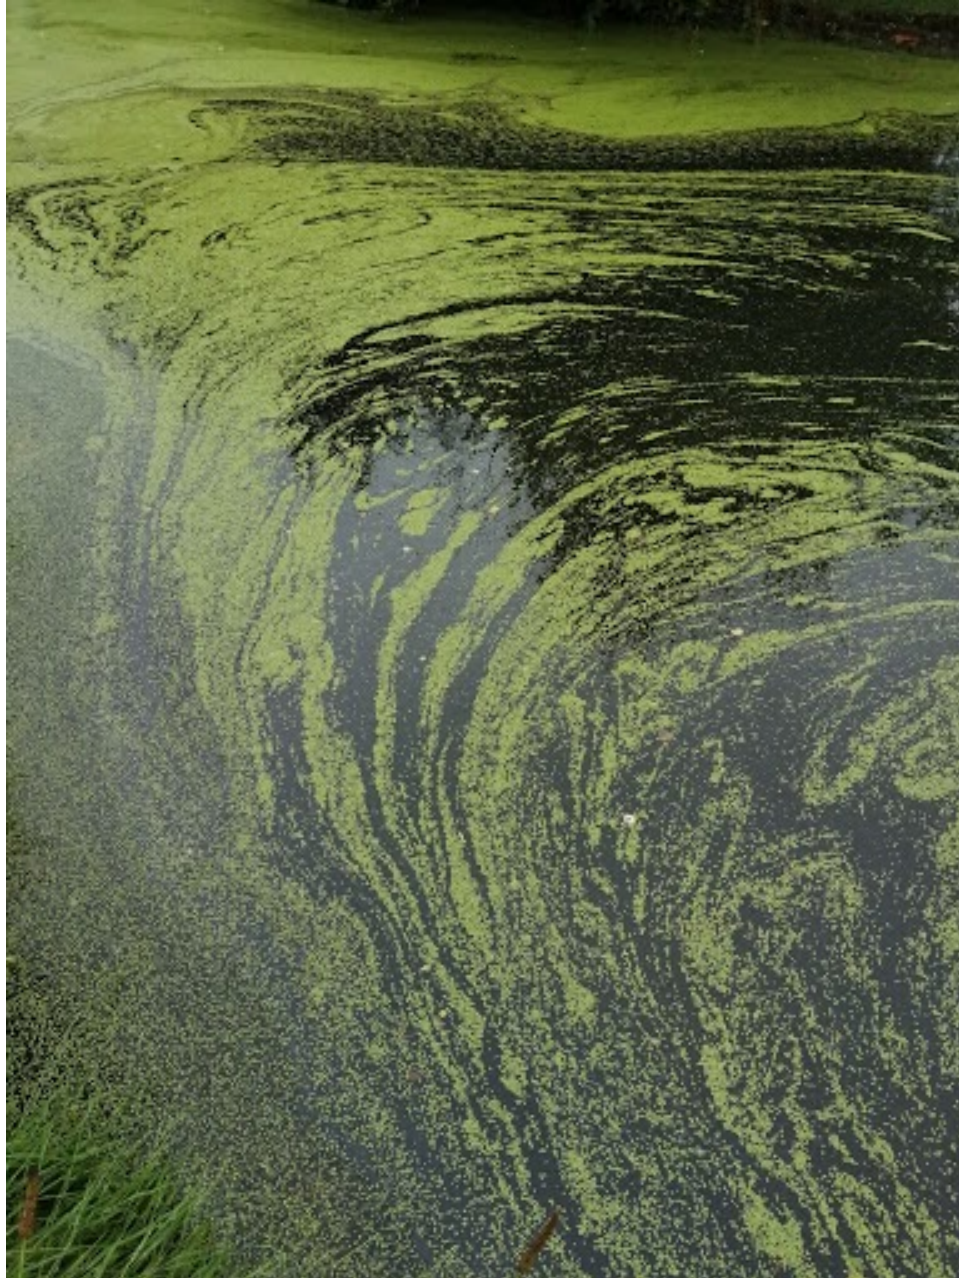

Make sure that your bridges are made of steel that won't rust or fade away, or they are made of rock and stone and brick that won't burn, but stay. Keep your lines of communication open at all times, in all directions too, don't forget to pray to God, He is looking out for you, if you open up and ask for forgiveness from the Lord and things will start to work out and everyone will understand, but not necessarily have to stand their ground. Forgiveness is the greatest gift that we can never understand, the power of unforgiveness will grip us, hold us and take us off down to the ground, but we can rise above all things and forgive one another as God forgives us, then things will start working out and we will all be one family with brothers. Don't let the legal eagles savage you and rip you apart, for you to become their prey. Call on God and ask for His help and do it today and every day.

726.

You are made from love, from God you are a gift that has been desired, you are there for God's mercy, for He is there and He is your desire. He wants you to think wisely about all the things you do, you need to choose carefully and take care, don't worry, God is with you. Do you find yourself getting washed up on the beach or taken away by the tide? Don't get tossed about in the waves and pulled around inside. Step into the boat of safety, that Jesus is there waiting for you, pray and think about all the things that you are going to do, think about the love from both sides and don't get pulled apart and think about what's in your head and how you feel in your heart, you cannot hide away inside your head because the problems are still there, but take them to Jesus and He is waiting for you to abide with Him. Ask Jesus to take away your sins and ask for forgiveness too. Then ask what you should choose, then do what you should do.

**727.**

If you want to go fishing, the first thing you need to know, what you want to catch. If you want to catch a shark you have to go out in a boat with a big big hook and bait, if you want to catch a tiddler, a small worm will do. If you want to go fishing to catch a person then what do you think you should use? Read Mark 1:7 "Come, follow me," Jesus said, "and I will send you out to fish for people. So follow Jesus and ask your brother if he will come with you too. Use your brotherly love and a smile the reel him in.

728.

Lord we thank you for our families, for our family tree, for the responsibility that you give us and the jollity. Thank you Lord that you are looking after them, the ones that are near or far, thank you for all the other people as well, looking after each other, sister, brother, mother, father, son, daughter and grandparents too, we are all together and we all look up to you for help. You are looking over us and we hope you have a good view. Lord, we pray to you and ask you, for you to look after us when we're feeling low and help us through all these virus problems and keep us working together, to help others too. Thank you Lord that we have come through 2020, OK, so far, they managed to get everything going and we still have work to do. Help us to get to know you more God and trust you all the time.

**729.**

Oh God help me, I need your help so much, I need you to help me overcome all the stress and fuss, the things about this virus, are getting to our family, we need to be free of all this trouble and I need you to be with me. I thank you Lord that I have a roof above my head, a job to go to and a bed where I can lay my head. May I ask for peace in our family, tranquility, calm and understanding of all the things about the virus and keep us away from harm. God help me to know you more, so I can help them, to help them to know all about you and help me to know what's true, I look for your love so I can pass it on, from you from above and help me to know Jesus, to know Him as my bro.

**730.**

Lord help me, I need you, I need you to care for me, so I can care for others, to support them, to help them along and to be there where there are no others, I ask you Lord to give me the strength to overcome any fears. Help me when I need to wipe away the tears, I thank you Lord that you have such mercy for the people that are in pain. Help us Lord to get the operation done and everything will turn back and so they are without pain. Help us Lord to see the wood for the trees, in the forest there is darkness, help us to find the way out to the light and strengthen all our limbs and help the joints to move carefully, clearly and without pain. Help all the operations of joint replacement and all of the other things, to get sorted and move faster and get all the people moving quickly, on their feet again.

**731.**

Lord, we look forward to the virus going away and all the restrictions being lifted and people earning their pay. We ask that all the operation lists get smaller and smaller and all the people in hospitals, are easily overcoming the virus and nothing happening there, get the numbers to go right down, so we can move around freely and all the operations for joints will go very well and start healing, so we can hop, skip and jump and bop after a hip-hop. When we are healed, we can praise the Lord that He has been there all the time, you have supported us and you are so divine. Lord exchange my pain for smiles so I can walk for miles, with freedom, happiness and joy in my heart, so I can praise you, so I can dance around and sing out my voice as loud as I can, as tough will I burst and Lord I praise you and thank you for getting me through the worst.

732.

Thank you Lord for everything that we have managed to get done, thank you Lord that we have been around and kept our noses above the waterline and we have survived so far, thank you Lord for the employment that we have managed to have with the people running around. Thank you Lord for blessing us with good weather and all the people enjoying the sun and all the people that have come, the barbecues and the long queues, queuing up for refreshments too. We are looking forward to next year and we are looking for a new view, looking out upon the sky and all that we survey, that people come and learn about you Lord and listen to what you say, that you are there protecting all the people all around and more people will come and listen to the music of the celestial sounds. More people will know that you are great and you have saved them. Help me Lord, to more than survive, help me Lord that this and all the people that are employed, thrive, thrive and worship and thank you Lord and praise you for what you have done, everything will get better and the virus will be shunned.

**733.**

Thank you Lord for the sunshine, the flowers and the bees, thank you for all the wonderful gifts you give us, gentle raindrops, sunshine and good stronger growing trees, thank you Lord that you shelter us, you keep us safe all day long, you are with us, you help us and you keep us very strong, thank you Lord that we are blessed with work with many things to do, you are keeping us away from the virus and we are doing the best we can with you, thank you Lord for helping all our family and keeping them safe away from harm, away from the virus and help us to serve others and not just think about our self, help us to serve you, we worship you all the time and we thank you for our health, thank you Lord that to you, we are all special, we're not just one in a crowd.

**734.**

Lord bring all healing together, put everything right and get all to look bright. Send down your angels to rally all around you, standing by your bedside, praying out their prayers of healing, warmth, comfort, love and God above. May you be able to walk around the room and up and down the stairs and do all the exercises to applause and many cheers. Lord takeaway all discomfort, take away the pain, take away all the anxiety, pour it down the drain, a smile upon the face be a sign of your eternal love and Lord help us and please help us from above, send your holy spirit to dwell within and heal all the things that are not right and take away the sins. May you forever be full of joy and laughter sucking on lollipops and things and may you be the greatest guy back in town when you return. Now let the singers sing, alleluia.

**735.**

Don't doubt yourself don't doubt the power of the Lord, the holy spirit is with you and you can applaud, you can listen to all the stories of how God has saved the world, through his son Jesus Christ and all things, take any opportunity that comes along, to test the waters and feel that you are strong, you are strong in your faith and your resolve and if God wants you to take a new position he will take you so hold his hand and walk with the Lord and go in faith, step out do everything in love. Go find your full potential, find where there is the need, walk with the Lord and you will succeed.

**736.**

Where does the wind come from, where does it go, we can see the damage it can do and we can see when it blows the snow, it comes and goes in the highs' and lows. Sunny days we can have a gentle breeze, then the storm clouds come over and more power in the wind, generating electricity and lightning to the ground. You can hear the wind whistling away in the tree, it can lift up or flatten the waves. If we want to keep healthy you need to eat well and exercise. To some people good health doesn't come naturally, it has to be worked at, it is not a breeze. If you go out runny you're puffing and blowing and pushing yourself over the hill, don't do too much because it can make you ill. If you want to be mentally and spiritually healthy too, you need to find someone that can talk about Jesus. Start with Alpha, seek the truth and it will set you free, like the wind. Be lifted up and fly.

**737.**

Lord God, our lives seem to be like a stream that meanders and wanders all across the countryside, Lord we need to learn to find the path that is straight and narrow that leads to you through Christ. When we have been injured along the path of life, we need to find some help, something that will last, someone that will heal us and help us to be set free, to walk and be without pain, Lord be the bridge across the river, over troubled waters too, get things sorted out with the medication, manipulation and get all the bones and joints put right pretty soon.

**738.**

Lord how can I pray to you when I don't think you exist, how can these things happen and all this pain that persists, help me Lord and take away this pain, then I will know you're there, my life is so grey, I need to find a purpose, find something that will be true. I need some hope, I need to be made anew, if that is you that I was speaking to, if not I need some proof that you're not there. When the pain goes away and I can walk and get up freely after playing a game, then Lord I think I might even have to change my mind about you, I will praise and thank you Lord because you are kind.

**739.**

When the storm blows with rain lashing down, everything is being buffeted about and tossed around, the dark clouds on the horizon beckoning more and more of the same. The trees bending in the wind threatening to break, everything is in chaos, everything is going on, without us being able to control it, all these things are happening around us, what can we do? Just when you think you've got things right and sorted out, it's all changed again. The thing to do is praise the Lord, ask Him to silence the storms in your life, just be at peace and work from rest and take your time to do your best, the Lord is with you, He is there by your side and the holy spirit is in you, that's where He resides.

**740.**

When you've done all the training, for so many things, now is the time to put them into practice, this is where it all begins, the things that you have done are all added up and put together to make you as you are, today all the things you've learnt and picked up, nothing's going to stray, everything has its reasons and sometimes it's to find out strange things to do, things where God leads you and you are being from heaven sent, to do, the things that others can't and because you know the truth, keep on going and the limit is not the roof, but to sell the house you're living in and moving somewhere else, is such a strain and strife and looking forward to having a wife, there are so many stresses and strains you've got, look to the Lord for peace, look to Him for the strength of the spirit that is endless and it is no disgrace, God knows you through and through, He knows you since before you were born. So go in peace to love and serve the Lord.

**741.**

Has your self had many injuries and hurts from the past that won't go away? They can be like cracks in a wall, if you just fill the wall the hole, it will come back again, you need to find the cause of the crack, it could be just a minor but it could be a major problem, that will haunt you forever more. Check and make sure that your foundations are good and all the materials have been used correctly, find your weaknesses and strengths and make them stronger than before, the devil will always find the chink in your armour and he knows which buttons to press. Always seek and accept forgiveness, say to God I'm sorry, to Jesus, thank you Lord and to the Holy Spirit, come, reside with me. Now is the time to think about where God is moving you and about the dress.

**742.**

To build a bridge across a pond you need to make sure the foundations on both sides are good and then the connection between the two needs to be strong, clear and precise, everything needs to communicate clearly and translations done correctly, always make sure that all things are understood. Don't frustrate just communicate. Start things with a smile, a sign of love and friendship too, make sure that both of you understand that God is in charge. Be always ready to forgive and accept forgiveness too, end all communication with a blessing and may the holy spirit flow through you.

**743.**

May God give you the gift of discernment, to seek out the truth at all times, learn to play the whistle and blow it when the time is right. Make sure God is with you and everything on both sides are aligned, be the one that stands up and says the truth without fear, because God has put you there and He wants you to be near to the people that are asking and seeking the truth, in all the things that are there. Some people will not see them, that you God will open their eyes through Him. Get out your magnifying glass and check all the small print that you can find, look for full stops and commas, colons and brackets and all things that define, the things that are different between the countries and a difference are sometimes great, but sometimes things are smaller and hard to anticipate, but God with His almighty power will show you something that is great, be ready to anticipate the next move and through the things that need to be done before it is too late.

**744.**

Thank you Lord for our Father. Thank you, without him I would not be here, thank you Lord that sadness now is gone, please bring us more cheer, will you remember all our times together, the good and the bad. I ask for forgiveness for anything that I have done in the past that may have made my father sad, Lord I asked and pray that this pain that I have will go, but I will never forget my father because he is with me, that's how I grow. Lord I asked for you to walk with me now my father's not here, to do that, walk with me, guide me and help me on my way, help me to remember all the good times from before I was born to now. Lord help me and bless me in the times when I feel low, help me to get things sorted out from my head to my toes. Lord I want to celebrate all the things that have passed and all the things that are going to come and with your holy spirit everlasting life will last.

**745.**

Lord help us to have a smile for every mile we travel, may we meet people along the way that we can bring joy from everything they say, may we all appreciate the things you do for us Lord and help us to overcome all our illnesses and injuries too. Thank you Lord for answered prayers, when we talk with you, thank you Lord that we have sight and we can appreciate the glorious views, the views of your creation, and that you have placed us on this earth, help us Lord to find our purpose and fulfil it. Teach us to bless and not to curse.

**746.**

JCB Jesus Christ is our Brother. If you want to move a mountain and make it into molehills, then you need great faith, superpowers, or use something with more power than we have. When we have many problems in our lives and lots of things to overcome, call on the Lord Jesus Christ our brother and ask Him to come into your life. Allow the holy spirit in and let Him reside. The Lord will reveal so many things, so many things for you to choose, always look on the positive bright side and ask for the wisdom to decide. God doesn't deal in accidents or coincidences that just happen, God has got all things planned and that is why you are still alive.

**747.**

Oh Lord, oh Lord I cry out, I cry out for your help, I cry out for you to help all the people that are in doubt, without You there is no hope, there is no hope at all. Know the Lord is with you, there is so much hope, that He can heal you with His healing hands and He can take away our pain. Lord we ask and pray and call out to you to heal each and every one, to make us as new. God forgives our sins and all the things we have done wrong and help us Lord to know you more and trust you as you are. We adore you, we praise you Lord in all situations, in all times in sadness or joy, come help us lord and take away all what is not good. Cleans our blood and make it as it should be, we know Jesus that you died for us so we can be saved. Thank you Lord that the number is reducing, the countdown has begun, everyone will get down to 0 He will do it through God's Son.

**748.**

Know that God is with you, He is listening to all the prayers, the prayers of people crying out for your daughter to be healed and to be cured, have a hold of things that are not good Lord, we know that you are with us all the time, we cannot get away from you because your love is so divine. We thank you Lord for your support and give us hope every day and thank you Lord when all the things and illnesses have gone away, we praise you Lord, we thank you for what you were doing right now and everything you do we just don't know how, but we will keep on praying, we will pray and walk our way through all the problems and troubles and we look forward to another day with you.

**749.**

When you pray to God for things, all things are possible with God, nothing is impossible, He is the creator of all things and the Earth. He made us and He loves us, each and everyone, even individual hairs on our head He counts them one by one, His Love is so immense don't underestimate it, it is true. So be bold and ask God for miracles that will come through and have the faith and it will be brought to you, the blessings will outnumber your worries and ask the Holy Spirit to flow through you.

**750.**

To walk freely as when we were a child, our first steps were teetering and we looked at our parents' smiles, we looked for encouragement and we gradually moved on forward and when we walked, we walked further and faster as we grew older and wiser too. We've been on many journeys and God many with you, we look for you in our lives and we see the journey that has passed, God we praise you and we worship you and you will be there even in the last. Thank you Lord for every step that we have been taking along the way, all the people we have met and all the times that have been gay, thank you Lord for your many blessings, thank you Lord that we have been walking with others that we have brought to you through your son. Everyday we wake up, we want to know where you want to take us Lord and what is our journey and our purpose, we come home with a smile, every mile we take is another mile for you. As we get older Lord, we seem to walk in ever decreasing circles but we always come back to the home that you have given us as a blessing and we look forward to the day when we are with you Lord, in the place you have prepared for us and see you on your throne.

**751.**

Take a hop and a skip and a jump and roll head over heels and shout for joy, praise the Lord He has given you such good health, everything the Lord has given you, thank Him, praise Him everyday, I say rejoice, rejoice, again I say rejoice, the Lord is with us everyday. He is around us and we are not to be swayed, just now the time is here to say again, I thank you Lord for this day. Lord, I look forward to waking up every morning and knowing you are with me there, you are in front of me, behind me and everywhere I look. I thank you Lord that I can walk and see your blessings in the trees, the fruit the berries the blossom and flowers everything that is there is from you, I thank you Lord for the fruits of your spirit and thank you Lord for our family too, thank you Lord. May all my tears be of Joy and not sorrow and may they all be knowing you, there is another tomorrow.

**752.**

May you know that The Peace of the Lord Jesus Christ is always with you, may you feel comfort and security, like a comfort blanket from your childhood, allow the Lord to wrap His arms around you and comfort you and keep you calm, may you be still and wonder at His presence. Don't be like the lost golf balls allow yourself to be found by Jesus, don't hide away from Him, He loves you, God loves you, allow the Holy Spirit to dwell within you and give you inner peace.

**753.**

When you have felt the Holy Spirit, the healing touch from the Lord, overpowering you and making you tingle. It is something that you will remember forever more. The presence of the Lord was with you healing you through and through, take the love and adoration and from you your tears of Joy will pour. Mark today on the calendar, write it on your heart, so you can tell others what happened to you, may you be able to do the same and say come holy spirit heals you to others too.

**754.**

When you go out walking, keep your chin up and walk and stride and keep your eye on all God's glory and everything that's by the sides, as we watch the leaves start changing, fruit on trees and berries and soon they will be nearly gone, the birds do not sing so much now, they're looking forward to the spring. Autumn is starting on its way, the conkers on the tree they fall, the children with them play, now our lives keep on going on. Every year has one more, this year has been not so good with the virus. Take time to spend with our families wherever and whenever we can, the time is precious and we need to rest and do the best we can. Make time to pray with family, make time to ask for forgiveness for anything you have done wrong and bring peace with and to each other and start with a song, the song of praise to God for his glory, He has brought the lives we've had together and the things that we've been taught. God is always with us and He will be there at the end, we have everlasting life, we need to get ready for it to come, as we prepare for the second coming of God's son.

**755.**

Oh for a 1000 voices of the organs played as one, the reeds and pipes are vibrating to the wind all worshipping God and His son, God in his mercy will keep us going on. Lord bless us and keep us and may we sing your song, may we bring people to you to worship and praise and keep on going all these years and many days, the blessings that will bring in all the things they do. Lord, we want to bring people and bring them all to you. Gone are the days of hand pumping the bellows, to get a few notes out, wheezing leaky leather because church mice have nibbled it out, the days are gone, but now they are new with electronic keyboards too, with the all the special little bits and pieces the worship of God is not through you, but still the old ways can be still as good and keep on going on, a deep mellow sound the wonderful melody with hymns and resounding tunes, pull out all the stops, let rip and don't don't hold back, just pull out all the stops and go, be the one that leads God's army into battle against the foe, be there with all the shouting out with joy, that all the choir sing out with everyone in tune, even so much that the angels can't but join in this wonderful sound.

**756.**

When you wake up in the morning, do you have a dread of that day, all the worries and troubles and all the people, whatever people will say, are already feeling low and not as fit as you used to be. Then try a different tactic, wake up again and say, good morning Lord, what are we going to do today? Show me Your Glory, show me your way, show me your pleasure and I will do what you say, I will listen to what you have for me, I will do the things you ask me and do it without question and pray and think of other people and all the things they need to help in any way. At the end of the day when you are retiring, to your wonderful bed that's waiting there for you, getting in and pulling up the covers and thank God, for He has blessed you, He has blessed you with all the things you've done, you have managed to get through it. Give God a smile and say thank you and sorry for anything you've got wrong. Good night and God bless you, for today has nearly gone.

**757.**

When you lose a partner, the one you've had for many years, traveled with you here, there and everywhere. Seeing your smiles and your tears, when they are departed, life is like a sat nav without a battery or a map looking at it from the wrong side. Your direction is needed and a purpose to fulfill, everything keeps on going on, even when you're ill. Let Jesus into your life, let Him, His Holy spirit reside, walk along the footpath and talk to him inside, be with Him, He is always with you He will never leave you, He doesn't go out with the tide, everything is there for you, just ask Him and let Him be with you, beside you, in front of you He would never reject you, even if you cried. The time to take the blessings that the Lord has given to you, look at life differently, look at God's wonderful view, look through His eyes at his creation, He loves you and He made you, He doesn't want you to be lonely, nor does He want to be without you.

**758.**

If you are worrying try not to be, just be concerned, checkout to make sure that you are worrying about something that is real and not just perceived or thought that it is true but it is not. Check it out and make sure that is true and there is no doubt, look to the Lord for advice and a guidance and ask someone that knows Him well, to help you and be with you as you delve down into the well, draw up fresh clean water, the holy spirit will renew you and refill, let the Lord and the Holy Spirit come to you and all things will be revealed, the truth is in the Word, the Word is from God and take your comfort and look after your health as you should. Be there and be ready for what God has got in store, He has got so much and many wonderful things to show you, His creation, there's even more.

**759.**

Thank you Lord for families and all the help they give, they share the worries and the troubles and do what they can with the time they can spare. Thank you Lord that we have a family, the family that we have been together through our lives, also for all the generations that have gone through before us, so that we can survive. Thank you Lord that you are with us, you are with everyone that cares. Thank you Lord for all the blessings from our siblings and our peers and all the people around us, thank you Lord that they are there and help me Lord to help others when they're need has come and thank you Lord for Jesus so that through Him, to you, we can come.

**760.**

With God all things are possible nothing is impossible for Him. Jesus gave us authority to heal people and He will forgive our sins. Let God be in your picture, let him photobomb, He is the one that loves you, He loves us everyone. Don't let your illness be your identity, be the person that God made you to be. Seek and fulfill your purpose and you will find that miracles can happen everyday. Don't just pray for little things, pray for big things, in big ways, pray for renewal and restoration and all things that have been harmed to be put right and go forward in the strength of the Holy spirit and God's fantastic might. He is there with you He is waiting for your call, don't hang up and be worried, just go ahead and have a ball, and when you are walking freely without pain and standing upright and no troubles are concerning and nothing is a fight, then never forget to thank the Lord for all that He has done through Jesus Christ His only son, He died for you so you could be saved, so it's now time to say come Holy spirit come.

**761.**

To be a youth leader you need to be so many things, you need to be exciting and you need to have all the things that God has and brings, you need to be there in the moment you need to understand, when children start growing up, they tend to move away. God is at hand helping you to do the work that you have proclaimed, we do it all in Jesus mighty name, to be there and to be gentle but to be a force to be the one that carries the torch, the light of God through mankind. Show them how to be naturally supernatural and go on treasure hunts, Lord God will show you where the treasure is at once He will show you there is treasure hidden in each of the children in your charge, it is like a bolder the gems are deep inside.

**762.**

Be the one that sews the seeds in the good tilled soil, look after all the seedlings and don't let them spoil, keep them well watered and nourished along the way. Be one of the ones that toils, even without pay, because God is watching over you He knows what's in your heart, He is there all the time, He was there at the start. You may not see the harvest but you know that you have done it well and the Lord will bless everything you do and say as long as it is His will and way. Walk gently and nimbly, dance among the hay, don't walk heavily and laboured as though you have got feet of clay.

**763.**

If you find it difficult to walk on water, then walk alongside it, the canals and gentle streams, walking the green meadows with sunshine on your back and smile and look for the Lord and His creation and that is looking back. Look for the fruit along the hedgerows and the fruit growing in the trees, look in the rivers and see the fish swimming and birds flying in the breeze. All things are God's creation, it is so wonderful to see and look for all these wonderful thing in the children that are in front of you and look at them with ease, each one is a gem that needs to be found, it is up to you just show them where God, the Word the truth is sound. Help them to find their purpose, that God has written on their hearts and do it so gently with your wisdom impart, be the one that guides and shows people what they're worth, they're worth so much that Jesus died for them, so that is why they are on earth.

**764.**

Doing D of E, this is the time to be, the things that you can learn, the time you take, write everything down, the gold, the silver, the bronze as well everything you do, will show people that you are doing well. To be a junior leader it is part of responsibility, to bring people along to Jesus, it is not easy, but just look and learn and listen to what all the people say, read the Bible daily and find time to go away and pray. God will be with you all the time, He will show you if you ask and speak to Him, He will be there in the presence and purpose of your destiny. I'll give you a word of treasure, hope is the word, that is yours today, take it and gather together with the other 11 disciples to see who is The Way.

**765.**

If you're feeling worried and downcast and the clouds are looking grey, look and find hope and that will be what you need to say, you need to talk things over, you need to talk things about the Lord and help with prayers of supplication, your word for the treasure hunt is fear, chase it away and don't let it come here, pray to the Lord, He will be with you and all the darkness will go away and flee from you.

**766.**

When Jesus said Go, He didn't mean stay and laze around, sitting in your bedroom and just looking at the cloud. Go and be a Man of Action, Go out into the town and don't fish for tiddlers, be a fisher of men. Be the man that stands for righteousness, be firm and stand your ground, talk quietly and carefully and make sure everyone can understand, be the one that spreads the Word the Word of God is true and be there and be happy and find the real you. Don't hide behind the mask of deception and disguise, make sure that you are a man that is true. God will always be with you and the Holy Spirit will fill you anew. People will seek your opinion and may your word today be the truth.

**767.**

Ask God for Wisdom when you pray at night, ask Him to give it fully and don't hold anything back, ask the Lord and He will bless you and all the things you do and say, so that you can bless others as God has blessed you. Walk straight and walk with your head held high, knowing that God is always with you, He is always by your side. Don't fear and take people at their word just learn to discern what is right. Checkout your route where you're going and make sure you are in the correct direction, if unsure check again and look for the signs that the Lord will give you in your life. Jesus is the way, follow Him.

**768.**

Always make sure that you are focused on the thing that you are about to do, prepare and get all the provisions and make sure that they are for you. Make sure that your shoes and footwear are well fitting so you can go along way praying without pain, put on the full armour of God and learn to carry it well, don't take it off or lower your guard, because the devil will try and find the chink in your armour where he knows where to press, your weak spot, so be ready, be alert. Your word is be prepared.

**769.**

Make sure that you are in line with all the teachings of the Word, don't deviate from them and don't try to be absurd, all the things are there to help us, each and every word is true, it is for us to wonder, what does it mean to you. All the things were written so many years ago, but it's still here it's still relevant and all the things to show, they will show you the way forward, they will show you the way to go. Make sure that you are on track and being parallel with the teachings of the Lord. Get everything ready and be prepared to get set to go abroad and go somewhere where the Lord takes you and speaks to you more, He is there with you and He will be with you, be with you for evermore.

**770.**

Be ready to declutter, make sure you have cleared out all the things in your room and life that you do not need, just travel light and be gentle and remember to be brave. All things are possible with God. Don't carry all your worries around with you just lay them at the Cross. Just take the things that you need and don't ask for the things that you just want. God will provide all, everything that you spiritually need.

**771.**

When you go on a journey, do you follow the well worn tracks, by going in one direction so you can follow them back, or do you feel adventurous and think you know which way you can go and follow your instincts and toss a coin and possibly go over a cliff or you walking in vein, don't do that, research your target in your sights and walk there and get there safely. Ask God to help you on your way. Read psalm 121, that will help you. Go out and ask 4 people the directions to somewhere that you know where to go and see how many different versions you get. There's only one way to God and that is through Jesus. Be a route finder.

**772.**

When you have a task, a purpose, something that must be done, it needs a lot of strength, worry, stress, anxiety and it keeps on going wrong. If you have exhausted all avenues and people that cannot help and you keep on going round in circles, full of a lot of doubt, you have run out all of your energy and it's something that you need to address, then you should really have started by asking the Lord for help right at the beginning, you need to go and ask Him what it's all about, ask for the Holy Spirit to dwell within you and He will be by your side, the Holy Spirit has the energy of everything and He can help you work things out. The power of the Holy Spirit is endless, it continues on into eternity, there is no cost to you to do this, because the fee has already been paid when Jesus died so we can be saved.

**773.**

Pylons carry electricity across the country wide, doves of peace fly around gently in the skies, they fly above all the things and they gently land around the place, God has in His mercy has filled us full of grace, He is the one that we need to follow and go at your own pace, do not hurry and rushed into things just take the time the Lord has given you, to do the things that He wants, He will lead you by still waters and for you to lay down in green pastures, He is by you and with you now. Take time with Him and abide with Him and watch as the Spirits wind gives you power.

**774.**

Take time to listen to people's stories, listening about their life's, hear about all the wonderful things they do and all the things about this strive, you will be able to help them just by listening and let them talk to you, you don't have to say much but just be there as their are in front of you. Be like two hands coming together the noise is a clap they call, as it is something that happens but not often as a rule. Old folk are always ready to tell you about the old times and the wars, they have gone through so much and that is how we are here today because of what they have done in the past. Be joyful and be happy. Give us a smile, when you can. When you've heard it all, write it down and pass it on. Learn about the history in the Bible and Jesus His story that is written down. Your word is history.

**775.**

When a friend has gone through tragic times and all things seem to be falling down around, be there like a good steak on a tree that supports and is there hugging it and keeping it sound. Make sure you have other people that are there to do the same, so you can keep constant watch and pray and do it everyday. Make sure that she is well fed and watered and roots are deep in the ground, make sure that there are no problems and nothing can be found that will break her, something needed to make her make her understand. Help her to find Jesus and bring Him home close to her, He will always be with her and that is because He cares He loves her ever so much, He knows what she's been through, that is why you are her friend and you are there to care.

776.

When everything is falling down and breaking around you and seems to be collapsing like an earthquake is shaking you and all the things are unsound, this is when your dreams are broken and people are departing, how can you survive? You have the strength, a mighty strength that seems to keep you going through, all the things that are trying to destroy your life and dreams for you, just keep on going, except help along the way, let people support you and hug you and be there in the Lord's name. God is watching over you even though it may not seem like that to you, the things that are happening are not good. Jesus said when He was on the cross "Forgive Them For they know not what they do". The power of forgiveness of people that are harassing you, forgive them and don't let the spirit of unforgiveness destroy you, just rise above it and bless people and God will bless you. May your new journey, you're on, be lined with golden sands, may you see the sunrise and the sunset and then you will understand, that God's love is there it is almighty, it is never going away, He is there and He is only just a prayer away. Read the prayers about with the footsteps in the sand, look at the footprints where there's only one and that is where Jesus is carrying you along.

**777.**

Thank you Lord for all your help to support one another and our family, be with us and help us to be joyful and happy and full of love, because we know that you are with us Lord, to help us along the way, everyday we need you, because we cannot do it on our own. Thank you Lord for our parents, especially our mothers who always care, the role we have now to share it, is a pleasure to help one another, to be there when people are in need, help us Lord to heal and recover and be the ones that can share your Love. Pray with your parents and ask for forgiveness, for all the things that you have done wrong, in your childhood and when you are older and forgive your parents for anything they have done and be there together as one. Let the Lord God support you. Know that God loves all of us and that is very true.

778.

When all things are going on around you that seem so frustrating and unkind, all the things make you unwind, just be there and keep on walking even though it's like going through thick treacle or walking on marshy ground. See the sun shining on the horizon, the sun is always shining above the clouds, the Son is here in the form of Jesus and He will come again and bring us round. When our battery and power is running down and things seem to grind to a halt, then time is to pray to God and don't blame anybody, it's nobody's fault, because God knows where we're coming from and He knows where we're going to and just bless people around you and let them bless you. May God in his mercy show kindness to you and give you peace.

**779.**

Lord God in your mercy, have pity on the people that have been ill, all the people that have suffered with the virus and have managed to get through, but then they keep on having all the problems that it has left them with, please Lord heal them and bless them and give them good health instead. May the many millions, that are around the world today, prayer to you and ask for you to help them in any way, you have warned us in the Bible that this would be coming along and now the second wave is coming because people have not adhered to the rules and just carried on, people just don't recognise the danger they put others in. Some people will call it lackadaisical but Lord you call it sin.

**780.**

Lord we ask and pray that you help all the people that are caring for their parents and family, as they suffer from mental illnesses, Lord we ask that you will be there and comfort them in their confusion and inability to control. God you made us so magnificently so wonderfully you did, that all the things were made together, it is there for us to see. You are the Holy Spirit, full of love, we ask and pray that we recognise you through your son Jesus Christ and ask that everything will come together, because Jesus paid the price, we ask for salvation, we ask it from you, we know Lord when we read the Bible, it is all true. We can find eternal life and then when we will be with you. May you find peaceful nights and slumbers without worries and troubles too, that everything will go smoothly and you will have many smiles, laughter and joy throughout the days. When we pray to God and he answers we always seem to be amazed.

**781.**

When you move away from your home roots and set all your dreams far away, go to places and see things and learn about all that's around. God's glorious world that He has created. For the children that are left behind they have space to find their own dreams, encourage them to do things and branch out on their own way. It is like a tree sapling when the tree is uprooted and moved, the seeds and saplings that are left, have light and space to grow, let them find their way in life and help them and encourage them, support them when you can, but following your dreams are the dreams, ones you have made together and hoping they are sound. What would the children think if the roles were reversed and they were moving away, would they go without a care or worry and think about you when you stay. Cut some apron strings and give them to them, so they can fiddle with them and play. May God bless you when you pray for one another and may you hear God and what He speaks.

**782.**

If you are feeling low, feeling really low and getting dragged down and can't move forward then try reading John Bunyan's Pilgrim's Progress, especially when he goes through the Slough of Despond. Lift both arms up like a child that wants their parents to lift them up and hold them. Just ask Jesus to be there with you and cuddle you and hold you, let Him walk along the sands with you holding His hand. Be there and let the Lord show His creation and what is His, God is there, He sent Jesus so he could die for us, He sacrificed His life for us so we can be saved, God loves you with all His might you are the one He loves He is there He is your shining light.

**783.**

Oh Lord when we hear of such tragedies that have happened, what can one say, there is nothing that I can do, except, I can pray, I pray that you find healing and peace in your heart and the love of God too. May Jesus tend your wounds and the Holy Spirit dwell with you, may all the things that happened not trouble you in any way. May you find the purpose, the reason why the Lord saved you, may you find the things that you need to do, that the Lord has blessed you and He will see you through. He will be there by your side, every hour of the day, He will be there when you are asleep and speak to you and when you pray. Allow your friends to help you and when they sit by your bedside let them be there and let them help you because that is very wise. One day they may need your help as they have helped you. Now sleep well and slumber, give time to heal your wounds, God will bless you.

**784.**

Do the HTB online Alpha. It will change your life and things will seem different and answers to your questions and about your strife. When the Holy Spirit day comes and you allow the Holy Spirit in, you will see things that you would have never believed, when you believe in Him, you will show the fruits of the spirit you will be a different person and you will grin. All because God has washed away your sin. The fruits of the spirit are love, Joy, peace, patience, kindness, goodness, faithfulness, gentleness and self-control. When you show these as fruits you will smile you will be there and enjoy things and be able to walk a mile. Just trust Jesus with your life and leave your worries at the foot of the cross.

**785.**

When you are in hospital and all people are looking after you, they are being very careful how you are and keeping any virus and infection away from you. May the Lord heal you in His miraculous way, may it just confound the surgeons and it only happens when you pray. May God bless you and keep you and give you peaceful night's, may everything keep on going and fight any fights. May all pain go away and all sensations that are not good and may all things be back to normal and better than they should. Take a while to smile and laugh. It will do you good.

**786.**

When you are returning back to work, working in care, be aware and be happy that people are there to help you, help you and understand all the things you're going through. Let them help you if you can, God will be with you every step of the way He is there He cares for you in a loving and caring way, the way you care for others and people are all round, keep well, keep healthy and keep away from virus and keep your faith good and sound, because Jesus is our saviour He came to earth so He could die, so we could go to God and speak to him. We know His love and comfort when we cry. May God make you wise and have wisdom to help you through the day, may you discern the truth and care is best ever way.

**787.**

Just to let you know that you are not alone, today this is it from an old man that is walking a mile for you, God has asked me to do that for you, to help you on your way, He asked me to pray for you, pray for you in this way, that you will find some peace and Solace and may God be with you and keep you safe and be beside you today. May your son be healed completely and all the illness of covid go away, no signs left of anything, no troubles or decay, may he be renewed, better than he was before, give him strength and everything that is needed to be strong in faith in the Lord. When you are both jumping around and full of happiness and glee, remember Jesus He is the one you need to applaud, for all the good He has given you, all the love to He has poured out. Sing Hallelujah happiness is all about, thank you Jesus and give Him a shout.

**788.**

May you love our Lord Jesus. May the Holy Spirit envelop you and be overflowing to all, may the ten Commandments be like ten promises to you and all the things that are the blessings from God are given from Him to you. May God give you wisdom and discernment to be bold and all the words that come from your mouth from God will be like gold, the gold that's in God's temple. May all your family be like an orchard, full of all the fruits of the spirit, that people can behold, because you love God and He loves you and that is all from old. May you all be kept safe and away from all the fires.

**789.**

Come Holy spirit come in your power, now is the time to heal, this is the hour. Come in your strength and heal all the ills when we're facing something, the worries and fear as it feels, God take your time and be merciful and take away our fear, help us to have the courage and we know that you are near, help us to walk with others and get through these trying times and Lord we want you to be there because you're ever so kind. Send people along to guide me along the way and help me to listen to what you say when I pray. Lord Jesus I thank you in advance of my healing with things that are going to happen, all the problems disappear. I know Lord that all things are possible with you. Help me to open my eyes and have a new view. I praise you Lord in every situation however it goes, please bless me from my head to my toes.

**790.**

Take 9 cards and write on each of them, love, joy, peace, patience, kindness, gentleness, faithfulness and self-control. Stand each one up at a time, start with love and just see how long it will stay up on it's own. Place love and joy together and stand them so they hold each other up, then do the same with all the other cards, they will stand up much better in pairs. Now do it with three pears and three cards on the top. Now pull the patience card out. When you lose your patience all the fruits tend to topple down, if you lose love the same happens all around, just keep on watching yourself and be aware of all the things that can disturb you, may the Lord Jesus Christ come into your life and may you be filled with the holy spirit and overflow. See the view, the view of all the cards standing each one on their own and altogether, they are pointing towards God's throne, you need Him in your life every day wherever you are. Put your trust in God and what He can do with you. It is like putting all the cards together in a house and gluing them together and basing them on the Word.

**791.**

Take time to sit down, face one another and pray for that time to have peace. Write down a prayer that you want the other one to pray for you, pray and ask for forgiveness, pray for forgiveness and ask to be forgiven too. Find out what winds each of you up and write it down, then see how you can work that out. Make everyday a blessing, like a blessing in the bank, you may want to part company but wait and do not shout, love one another and may God give you peace, the peace that's beyond our understanding and may it increase. Give each other little gifts and surprises and do things that you don't expect. Don't hate one another just give each other some space and respect.

**792.**

Be prepared all the time, be like a scout and be ready to give a helping hand. When times seem to get frustrating and things don't go your way, it is often because you are not communicating in a very good way, you will frustrate if you do not communicate and by not communicating it is frustrating for each of you. Just take the time and listen and then and say a few words that are kind. Being with each other for such a long time is very hard to do, but there is hope if you work out things together and the only way it can work with you, you need to let things go that are not necessarily bad. It's always better to be happy and thankful and glad. Let the Lord be your mediator, because if you go to Him and through Him it is the only hope.

**793.**

If you have demons that are nagging you and gripping you so tight, like fingers in your back and giving you a fright, then the only way to get rid of them is to ask Jesus and to pray for the demons to be expelled and all to go away. But make sure that you have the Holy Spirit to come inside you and dwell, so all the demons will find Him there and go away and keep you well. Some people have many demons they are totally overcome, you need to make sure that you expel each and everyone, you can do that with Jesus those who have true faith or ask someone else to help but it is a daily occurrence and they will try to come back and shout, they may bring more demons back because you are empty and clean house, it is like the virus if you don't look out and keep your guard up you will infect other people as well, they will have your demons and in them, they will do well, as well as you many more to come but you need to make sure that you are blessed by Jesus as He is God's son.

**794.**

Disown your demons, don't own them at all, just get rid of them because they are not you, they don't belong, make sure that you get rid of them, each and every one, because you should be full of God's love and Jesus His son, just take the time and recover make sure that you are kind understanding too. May the peace of the Lord always be with you and guard you from all sins and that may He be there comforting you with all the love God brings. Be at peace and reconcile with people that are close to you. Jesus says do to others as you would have them do to you. Love other people as you would like to be loved by them.

**795.**

For God so loved the world that he gave his one and only Son, that whoever believes in Him shall not perish but have eternal life. John 3:16. Sometimes we'll never have an answer to the loved ones we've had so near. Don't dwell too much on the sadness, I know that it is hard to do, but dwell on the blessings and all the love that God gives you, God has hope, He is hope and hope is through Him too. Keep loving and cherishing each other until the time will come for another, loving, wonderful, son. Rejoice, rejoice, I say rejoice, God's love has come, He is with you and He will bless you and may His kingdom come.

**796.**

Speaking as an angel of the street, I go out at night to help people in need. As you have prayed for many others, it is your turn to be prayed for, I asked the Lord to help you, He is sending an angel down to you. He is going to be a lodger and he is going to Lodge with you. Accept him if you choose he will be there as your motivator and get you in your shoes, he will get you out walking, walk with him and hold his hand and praise God together, I hope you understand that I can't be there with you, but the Lord is there by your side, let the Holy Spirit come and inside you dwell and may your spirits rise. Be filled with joy that is everlasting because Jesus has done this just for you, He has chosen you to be so wondrous and look at God's creation and the views. So when you go out walking they will be you, yourself and your shadow, Jesus, the Holy spirit and your Angel by your side, that is the 6 that you can go out together, it is the magic number and at this you can abide, talk about your woes and troubles and talk about yourself openly there is nothing to hide. Let your spirit rise with the angels and fly above in the skies and open up the floodgates and open them up wide.

**797.**

Me and my teddy bear, we have some worries, we have some cares, we need to pray and pray all day. If you feel like you're walking constantly up the stairs, there seems to be no rest, there seems to be a no landing to help me on my way, the time keeps on dragging, all my worries are so great, I seem to be just here and there, I always seem to be late, I need a rest I need to take the time to take and find some comfort, some solace and some spiritual uplifting in my heart. Jesus is the one, He is the one who cares, He loves you, He is there beside you, He's just waiting for your prayers, He is there and now is the time to say sorry God I think I've got messed up, come and sit with me on the stairs and talk to me as a friend. Help me to understand and not pretend that everything is OK.

**798.**

May all your troubles be like sand castles that are built on the seashore and when the tide comes in there you are washed away and are no more. When you are at college with all the things you have to learn, are in your mind there revolving, trying to take it in, don't worry it will come, it is there in your mind, it's retrieving it and then you will find it is a blessing that you have found. Make lots of wonderful friends when you are zooming in and doing all different things and doing them with God and then there's the weekend, be careful how you go about, keep your distance and keep safe, keep the Lord in your mind. Communicate the love of Jesus that you have in your heart and be the one that spreads the word. Be a disciple of the Lord, bring people to Jesus to know them and all His love, so they can know God who is dwelling above. May the Holy Spirit fill you and fill you and overflow. Keep on going and He will be with you and His way He will show.

**799.**

It must be so wonderful to have a daughter as the shepherd of her flock, looking after them and caring for them and loving them a lot, with all the worries with the virus and not being able to come together, you are not forgot. Give her all the support you can and tell her that she's clever, that Lord is with her and He is helping her all the time and He is there with you the same and that is sublime. Read the 23rd Psalm and walk by the still waters and lay down in green meadows and enjoy God's wonderful time. Remember all the times He has been with you and blessed you and He has you refined, He is preparing you for his Kingdom, the kingdom that's to come and all this is because Jesus His Son. May you be filled with the holy spirit and filled to overflowing with joy and take the time and don't worry, don't be anxious or annoyed.

**800.**

God has prepared us throughout our life to be here and be ready and prepared, for we are to be the soldiers of Christ, we are made for times like these, to stand up and say what is needed to be said and say it with ease, give your thoughts to God and listen to what He says. Do not worry, preach the gospels and all the words it says. Don't hold back and be pc (a passion crushed) just say it as it is, don't use technical jargon, say it with simplicity, that God is good and we need to ask for forgiveness, for our sins, say sorry God and thank you Jesus for all things you have done and come Holy spirit, come in your power, come today, right now and be with me and dwell with me for this is the hour, the hour that you forget self to follow God's holy word and say it on the internet and everywhere. I can be the one that shouts out how halleluiah, God is here. Jesus came down to save us and with you He is near, don't pretend don't use soft words say it as it is. Some people are surprised by what God has allowed to happen, all these things are written in the Bible and we have been warned that they would happen. Let God be the bridge over the troubled waters and use you to spread His word.

**801.**

When you lose someone that you are close to, you have shed many tears, the time you've had together has been so wonderful throughout the many years, you have been a blessing for each other, sharing your worries and your cares and then you need to take time to be on your knees and pray, pray that God will support you and take you by your hand, walk along the beach and see the footprints in the sand, God is so very understanding, you can talk to Him all day long, you can have a happy tune in your head and sing a joyful song, for your auntie is in heaven and sorting things out with God. Don't let your worries be like a heavy ball and chain, let it be an anchor so you don't drift away, let God be the rock that you are firmly planted on and keep on the prising Jesus and sing your heart out with a song, Sing Hallelujah, Hallelujah and keep on going on. When you wake up in the morning just ask, God what are We going to do today.

**802.**

How many years is it now since you were just a lass? Many years have passed by and many a hat has been worn and you were a twinkle in your father's eye and your mother when you were born. The world has changed so much now it's hardly recognisable to us. The things that we can do and all the people that make all the fuss. It is all worries and troubles with the virus. It has changed things for the better and for the worse and many people have suffered, we want to keep safe of course. Remember the good times, for the times you've had together and remember some of the bad things because they make the good time better. Keep in touch with as many people as you can because they may be lonely too. If you just contact 5 a week and then that makes 6 people happy. Don't just sit all alone by the phone, just pick it up and make 2 people happy, them and you. Have a chat with Jesus He is sitting beside you, go on, have a go.

**803.**

What are the words, I cannot say, that are in my head and I have no way, to tell you that I love you, that I love you with all my might, I'm in here and not fighting, I have no fight to fight, I am who I am and I am here to stay. Please forgive me if I upset you, I do not intend that to happen, everything is happening, I am happy because it happened and I am here and I want you to help me to know my Lord and everything that is happening and please help me to understand. Please bare with me and always understand that I may not understand you, or what you say to me, but please be by my side and hug me when I need it and communicate with me however we can together and love me with all your might and I will with you and may God help both of us and all our family too. Pray with me at night-time when I go to bed and give me comfort with all the things that are going round in my head. One day I will speak to you and say all the lovely things that God has been talking to me, with Him and all His friends. God has sent me here for a purpose, I do not know what it is, but until then, Mum and Dad please don't break your heart I am and I am going to be.

**804.**

H. E. L. P. help everybody to love people. Whoever they may be, whatever the circumstances and all the people in your family tree. You may need to ask for help from families and friends and people who know all about the things that worry you and this is the time when all people worrying can get together with similar challenges as you. Sit down calmly as a family and talk to God in prayer, a family that prays together, stays together and moves on merrily. Take time to listen to the answers that God has to say, it may be loud, it may be quiet, it may take some time to come. Try and tune into God and hear what He has to say, He is the almighty, the creator of all things, He has a purpose and a presence and His holy spirit too, take time to say come Holy Spirit in your way fill us and renew us and be in our family today. We want you to be here, we want you to be in a big way, because you have the power to help us on our way. We are not able to do things in our own strength and power, or understanding of everything that is happening in this hour. We can with your help from God above and Jesus died because He has so much love.

**805.**

How can we understand the things that have baffled many a man, the things in science and medicine and all things man can do, we don't know the small part of it, not even the tiny things but we have to put things into perspective and do what we can with what we have in our hands. Some people spend all of their lives searching for answers to the questions that come to mind, but sometimes it takes forever and there is no answer, no reason or rhyme. All we do is get more questions and no answers to find, if we trust God and accept the things before us now, we can spend all that time loving. Sometimes we have to accept that we do not understand and the time to take the pressure off you there are so many why and questions, why me, why them, why has, why you, there are so many are about, mystifyingly has 3 and that is why it's made that way. If you have so many questions you need to ask about, then try "Holy Trinity Brompton Alpha course online" you'll find the answers to your questions and you might find many friends as well. May God bless you and keep you and keep all your family well.

**806.**

5 + mum makes 6 that is the magic number that the government will approve, you have your own social gathering and this is the love that will prove, the love that you have together, will hold you good and tight, make sure that you have Jesus with you when you have to put up a fight, to save each one and everyone together, God has put you there, He wants you to call on him, when your needs are great or rare, you may have to be like a dragonfly that hovers and darts about in the wonderful sunshine and try not to shout. Because God will be there in your silence and in your prayers together, make sure that you are enjoying life and laying in the heather, all things come to those that God will give to you. Ask gently and see what happens to you. Look at things with the bright side and turn away from the dark and God will hear you and your 5 bright sparks together, may your banner be the truth and tell no-one no lies. Make sure that you hold together and put God first in your queue, be there and be welcoming to all you speak to and hear their point of view.

**807.**

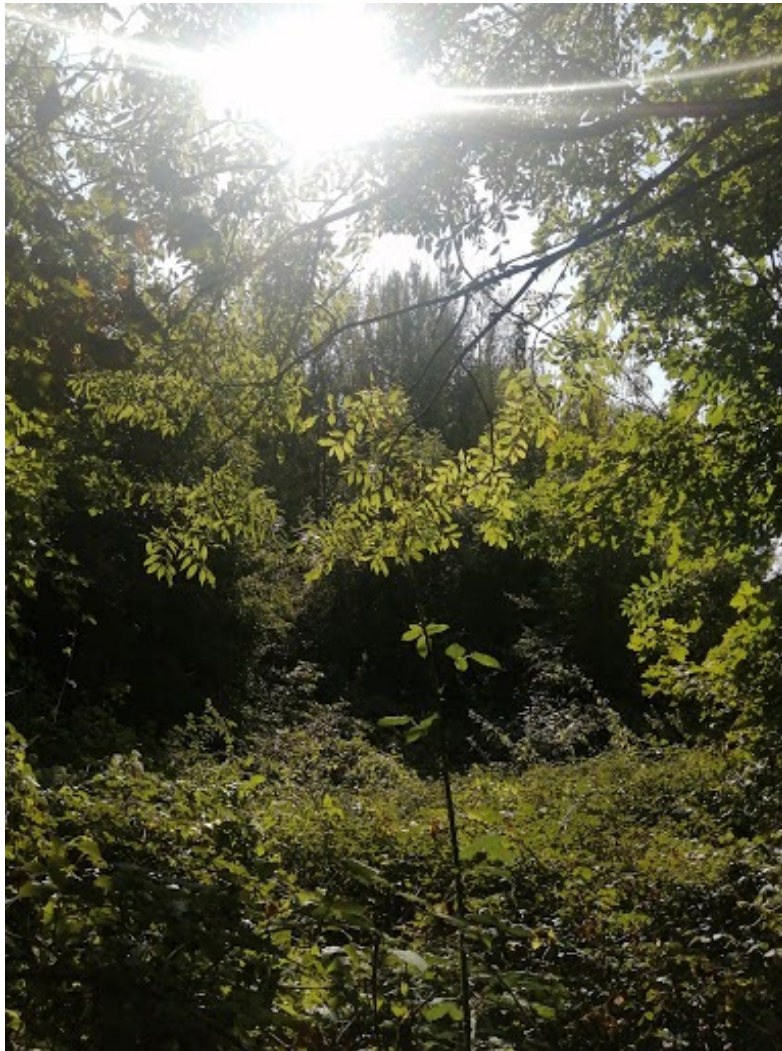

When God pours out his blessings, for the prayers you have called out to him, the things which you've had answered, you have seen. He has moved you and He has planted you in new pastures green, to worship Him with others for his great views you have seen. Everything has got its time and purpose and a place to rest your head. Be filled with the Holy Spirit, with joy and may laughter abound, may you find that everything you touch turns green, even when your feet touch the ground, may you see the things that God has made, His creation to behold and see that people around you and watch the young get old and be a blessing to others and help them along the way. Share the things that God has shown you and show them everyday, go on the internet and Facebook and contact with other people around the world. Be careful where you make your footprints whether they are in sand mud or clay just pray to God that he will lead you and lead you in his way. Follow in the footsteps of Jesus and do what you see him do.

**808.**

When you talk to God ask Him what you should do. Put out both hands palms upwards and grasp in them all the things from your past, all the things that you want to get rid of and forget and remember no more. Turn your hands over and let all of the things go and drop to the floor. May the force of the river, flash them away so you see them no more. Wash your hands in the river and wash all your sins away. Now lift your palms facing upwards and ask and pray to the Lord to fill your hands with what He wants you to have all the gifts and your rewards. Now raise both hands and arms up skywards and praise out loud to the Lord, for all the different things he's done and our eternal life assured, God in His glory be merciful and grant you to continue in good health.

**809.**

I thank you Lord for our families each and everyone, for all the generations that have gone and have come, thank you for the blessing of our parents and grandparents too and all the children that are around us. God we bless you. We thank you for the love that is poured out to many and thank you Lord for the ones that are not feeling well and help us Lord to help them through you. Lord, we thank you that our grandparents have seen their children's children grow. They have seen so many changes, seen changing points of view, even seen their grandchildren grow up and they pour out their love, over many, many years. God bring them to you for their love, so they can endure, they can overcome any depression and lift them up right now, may they feel joy and happiness and wonder at your site, Lord that you care, that everything is no effort and everything has to be here, but God in your mercy bring peace upon the earth take away all this virus trouble and give us all new birth, live our eternal life forever with God and Jesus in heaven above, come holy spirit fill us all with your eternal love.

**810.**

Now you are getting older and nearly 90 years old, it is the time to ask God and to watch Him and behold. He is sending a present, it is just to lift your depression away from you, to make you laugh and be joyful, to be happy and to be there and Jesus with you too, filled with the holy spirit and show all the His fruits to all around and be blessed from the head right down to the ground. Don't worry about the virus but be safe as well, now's the time to learn about Jesus and for you to tell all about the miraculous healing and that your depression has gone away. Don't stop telling people and so everyday I'm thank God for his mercy that He is saving you. He is giving you a new life because you have loved so many throughout your life. Your love for others has not gone unnoticed and all the things you've done and all the things that are there and all the things you have won. Just keep on laughing and be merry until at last tears fall down from your eyes and tears of merriment and happiness because the cloud has gone away and the sun is in the skies.

**811.**

Fear not for the Lord your god is with you, He is there by your side. Talk to God as you walk along and listen to the things He says and be aware and be gentle to other people when they pray. Thank the Lord for this healing you're having right now and all the problems just get washed away. May the blood of Jesus cleanse you. If you are frightened of the dark you just switch the light on, if you are fearful of this problem, then just burst into song of praise and give glory to God on high and Jesus His son and let the Holy Spirit dwell and be there. Allow everything to happen and be healed and then you can yell hallelujah to God on high, that He has healed me through Jesus Christ His son and the Holy Spirit, so happily, so be there and we cry, we praise God in all situations however good or bad and take things to God and make sure that you are not sad, make sure that you take time to rest and all the things are cured, may your number diminish and in the queue you are moved to the front, take hold of the sally and pull it and shake it with all your worth and chime out all the all your worries because God is about.

**812.**

Oh to be held up in prayer and cuddled all around, may the Lord bless all of us and His arms outstretched around, may His love pour out and His healing hands touch us all that ask in prayer. All the people that command healing and they do it and they dare, they dare, to call upon the Holy spirit to pour out on to all who are ill, the people that are there, that they do not have a name for the illness Lord we ask cry out to you and we offer prayers of supplication for our brothers and sisters and all the people in this nation, Lord we need so much help from you, we cry out and we ask and pray and command healing for our loved ones, may all the cancer go away miraculously, Lord we ask today it will go and no one will know how, but we know God that you are the Creator you are in control, you can do anything, you are Solace for our soul. Pour on the heads of the sick, the oil of anointing to heal, each one as you the Holy Spirit is appointing, please Lord maybe we know that you are there and we listen to you when we say our prayers, help us to hear what you have to say and help us to follow it out everyday.

**813.**

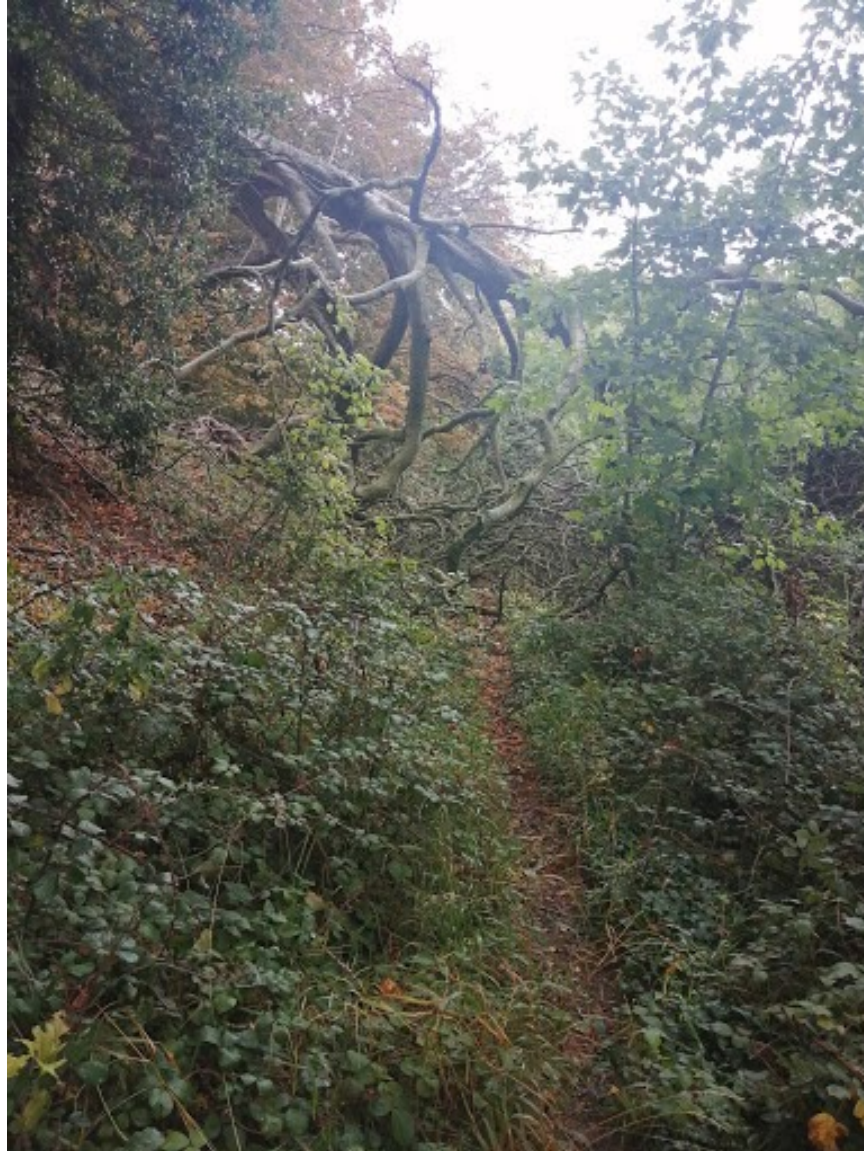

Thank you Lord for our canine companions that we have an excuse to go out and see your world, it is something that is good for our mental health and all things which keep us healthy. Thank you Lord as we walk along we can talk to other people and find out where they are from. Help us Lord to keep free of this virus that's going around and help us Lord to keep our feet firmly on the ground and you Lord that you are walking with us, we are never alone. With you helping us with all the things, worries and troubles and helping us not to have too worldly a view. Lord as we watch the dogs run around sniffing all the things on the ground and finding the scent of a squirrel and chasing it and hoping that it will be real and going happily and excitedly around it is so wonderful to be there and to be found. Help us Lord to find that excitement when we find you, all the things that you have in view, for us to do and for us to see, all the blessings for you and me, help us to have you found in us, so we can speak about your love and all the things that you have done. When we are walking in the forest, let us stop and look at the trees and say yes God that's true, that is a good tree as are you.

**814.**

How big is Big, how Small is small? It's all down to comparisons and how we measure them all, it is the things which we compare things with, in our life and all the things that God did and Jesus here on earth to stay and then died and went away but came back again in glorious victory over death and left again to go to heaven to be with our father God and then the holy spirit came and that is where all things changed, we now have the power of the holy spirit to do the things that Jesus did, all around the world, where the devil is hid, we can chase him away and bring God's glory to show, when we are giving it, it is to take the message and spread it, take it all around the world and let people know that God is here, abides with us, God is here to stay and we have the glorious time we can do what God has given us a new, a new direction and new life to come He is waiting for us to get our spades out and dig and find the buried treasures in our soul that He has hidden there.

**815.**

Thank you Lord that we set out on a path before us, we walk along and see the views and when we come across something like a tree has fallen across our path, that seems to be out of view, we can do one of two things, we can turn around and go back again and fail in our destiny or we can ask for help and follow a new path that has been made before us, it may be narrow it may be small but we can follow that path and find a new way and new life and new beginning. Follow Jesus, He will guide us around the obstacles in our life, overcome things that we thought were impossible, but all things are possible with Him and we are the ones that He loves, He loves us so much and we asked Him for good health not only us but our families too. Make us Lord a channel of Your love through the holy spirit, may you flow, may you be like the water that carries the crafts along the dried up canal.

**816.**

Oh Lord we have so much to be thankful for, we thank you for everything, we have a good life, we have good health and we can sing. We can walk in your wonderful countryside and you have given us all the money we need to provide. You have given us time to search the world, things to do and thumbs to twirl. We have time to rest awhile from work and travel and climb over the styles. We can see you God in your glory, in the world around us now, but we're sorry Lord that we have forgotten you. Now I have been changed and I do applaud you Lord, for all the things that you have done, all the love that you've poured out and I have received, I haven't thought about you, I don't think I'm done, please forgive me, forgive me for anything I've done wrong and help me Lord to come to you and come to sing your song. Help me Lord to find the purpose that you have in mind for me.

817.

Be at peace and walk with the Lord, walk along and walk tall and let your stride lead you where God needs you, just be at peace and listen to the birds and listen to the pita patter of the raindrops on the leaves, as the leaves are changing to autumn gold. The things in the Bible, they are true, listen to the words and they apply to you, when Job was set on his trials that were so great, he sustained his life because he kept true to the Lord, he would not deviate from God and his love and wouldn't doubt him, not him above. As I walk along these paths of old, there have been many, many people, child and old that have stepped on this ground of Gods and taken all their troubles to him. Teach your flock to pray for each other, sister brother and all others, most of all teach them to pray for you, as your needs are great and greater to God, as He is with you and you need to show that you are willing to go that extra mile to sow the seed, with love and a smile.

**818.**

Take courage my friend, take courage and grip it firm, take courage and stand and be firm, be ready, be ready to confirm. Grip firm the Sword of Truth and wear the spirits armour good and true, make sure that you are well buckled up and your shoes are worthy too, don't mess about and faff around and be gentle with your words, just tell the truth as it is, even if it hurts, God is there with you, the spirit will speak through you too and He is there in the many names of God and all of them are with you, He is your saviour, tell the true story and make sure that you let people know, that's their eternal lives depend on taking it to their hearts and that is going to be through you. If you hold back people will fail and they will fall by the wayside. Drink deep of the milk of kindness and drink it and be refreshed, God will be with you, He will help you to do your best, the times of trouble and sorrow will make you firm and strong and with God's help you will carry and keep on going on.

**819.**

When you are facing tests and examinations, that are checking to see if you have got things right, so you will know what to do in every situation, you need to be ready and have all the answers to hand, then you need to start from the beginning and start to understand, that you need peace in your life, so you can understand all the things you have to do, if you are worried about something you might get flustered and put down something that's not true. Just ask the Lord and pray to Him for peace, so you can persevere and know that Jesus is right there beside you, yes He is very near, doing this will change your attitude and your way of thinking too, you will know that you have help with you and you can do well. When you have finished the tests and you have passed with flying colours, then make sure that you appreciate God's help and thank Him for helping you. Ask God to be with you all the time and especially when you go out on emergencies at work, He is there, let the Holy Spirit reside. He is with you and performing miracles, making life and keeping you safe, driving around, making sure that you listen to God and listen to his sound.

**820.**

God you are so fantastic there are not enough words to describe, The Way you move people and things and you make it even wide. When we cry out in prayer, you listen to our words, you know what's in our hearts and you know what we are trying to move forward to, Lord show us a new vision, help us to understand, help us to do things differently and where all people will understand without the jargon and all the things which confuse and are a heavy burden to carry. Help us Lord to spread it across the land and across the seas and all around the world, the message of love from you God and Jesus all expands, God you are so wonderful, so fantastic to me, you help me in everything and everything I need, my wants are simple, that I want to please you Lord and do the things you have in mind, you have put in me a purpose and all the people around are kind. Fill me with your spirit, overflow and flood the land, let me be like Tigger and bounce around and bound, may I be excited and my love is infectious too, so everyone will know that, God, Jesus and the Holy Spirit, I love you.

**821.**

Be awakened by the Holy Spirit, like your child, be aware of Jesus, He is giving you a smile, He is being there and caring for you and all the things to come, may all your discomfort and pain and worry be a happy one. Get to know about Jesus, God and the Holy Spirit, because your child will bring you close to them and they will bring you too. Enjoy an eternal life together with all and everyone, all your friends and family. They can all come along, because you have an evangelist, a one that will spread the Word and everything they say, that will be heard. So be ready to answer questions, ones that are beyond their age, now everything will happen for the good, so do not be afraid. With your hands you bring movement and freedom from pain and you have the healing gift with oils and ways to relieve the strain. This is only physical, the Lord can heal the spirit too and bring you eternal life as well, this is up to you.

822.

Oh aren't you the lucky one, all tucked up nice and warm, we'll snuggled in and huddled and keeping all quiet calm. You are already learning things, how to twiddle your hands and toes and feeling things and your face and your nose. Keeping all things together, learning to kick and friction hip and pop and doing all things round and round, I'm falling head over heels and all this and your feet don't even touch to the ground. Feeling so happy and joyful and learning how to smile, it is quite a task you know, it will take a while but I'm going to smile so big and so wide that all can see, that I will bring so much happiness and so much jollity. I am one of God's miracles and you will all see, isn't it wonderful I am going to be born and to become a child.

**823.**

Being an expectant father, there are so many things to do, to get things all ready and colours and charts and things to choose, to get everything prepared, a little nest at home and all the things that are worries and all things that make you groan, but you have responsibility, one that all men have, when they have a child that's coming into the world you will be proud. You will have a small miracle, you will be able to hold in your hands, a blessing from God and everything is sound, they will be there with you, to help you and help you understand and teach the child to walk and stand and run and walk an extra mile, you will be there and you will be happy and keep your family around, that is a responsibility, now don't let anyone down. If you feel you can't do it together and you need an extra hand, some strengths and something that will keep you going round, then ask Jesus to come into your life and the Holy Spirit come, He will give you all that is needed and all that is to come, the Lord is with you and with your family too, your child will get to know Jesus and will tell people too. If you're not sure about this and have got so many questions to ask, just go onto the internet and look up "Holy Trinity Brompton Alpha Course" and find all the things you need to know and many more as well, God is there and part of the group and you will make family friends there too. Be one of many millions that have learnt about Jesus Christ and all the love He wants to pour out to you your child and wife.

824.

When asking a humanist if they would like some prayers, they say yes, I would like some prayer, for my health and that is all I care about. Now it is very confusing for me, because they're asking me to ask God for their good health, a God they don't believe in. It is their choice that they do not. The things that they think about, they make up all that they choose not to believe in, God, Jesus, His son the holy spirit and all the life eternal that can come. I will pray for their good health and that they survive the day, they don't catch the virus, infected in any way. I wish them good health, happiness and true love in their own way. I'm sorry that they don't know Jesus, but I have tried in my own way, I have offered my love from God to them, I wished them God bless and go safely on your way.

**825.**

Heavenly Father we thank you for everything, everything we have, all our friends from the past and people who have supported us in our times of trials and tribulations and our close friends and neighbours, each one has been there when we need them, I thank you Lord that we can help others in a similar situation. There has been so many people in our lives we can't count them all, the ones they have smaller or greater inferences right back before we were born God You knew us, what we were going to be and you have put a potential into our lives that is so great, it is difficult to know all the things that you have in store for us Lord and where you're taking us but we thank you for getting us this far. Lord please take care and look after all of our family, will You be there and may they know your presents with them. Help me Lord to get to know you more and all the things that I have been blessed with from you. Lord be my guardrail and stop me falling into the depths.

**826.**

Now your father has passed away, you're not left on your own but with your family beside you and the Lord is on His throne, now if you are failing in your heart and you cry out to the Lord, He will give you a new heart, one that will be bold, one that has strength from internal to eternal and Jesus has already come, the Holy Spirit is here, for healing and ask Him to come, so come Holy Spirit in your power bring all your forces down and being, you heart that is loving and this one that knows God's crown. There is no need to walk 500 miles in search of something that you don't know. Look and feel beside you, God is with you and now, He's been there all the time but you haven't called out to Him, He is always loving and forgiving and He will wash away our sins, Jesus was sent so this can happen to you, He died and He had your life in view, when He hung upon the cross, He knew that you are coming along and He wants you to stand up and sing a new song, a song of love and forgiveness and have your new heart that all the things that were bad in your life to depart, so God is with you now.

**827.**

When a man loses his father, that he has passed away, all worries and troubles are on his shoulders today, give him some slack and help him with his worries and fears, help him, support him, do whatever you can in any way. Talk with him and don't let him close himself away, it's time to come together as a family, talk to God in prayer and ask Him to give you that support and extra care for your family and all the worries, because he wants to stay with you, he wants to live a life and supporting all of you, God is there to do the same, He is a new father for you. Let God show you His creation and show you all His wonderful views, to walk along the footpath that is there for you to see and view. Be blessed and be a blessing to others and show you care, because you do.

**828.**

So you're the son in the family, the one that is loved so much, take care and don't tarry and say that you love your parents much. To thank them for all they have done for you, they have loved and tended you since you were a baby, the day that you were born and you are there for you, to love them and carry on the family form. Their likeness is in your face and how you care. Help your parents and carry some of the burdens and cares. Honour your parents and show that you care, be a blessing to them and they will bless you and continue loving you because you are their son, Jesus died on the cross so we could go to God through Him, ask the holy spirit to come and in you and dwell within. Find out about Alpha online HTB or your local church online and you will find God and you will find answers to all the things that you were asking and all the things about you. Be encouraging and get your parents to do the same course with you online, together, when you pray together, you stay together and love one another too and you will be able to pass all that love around and you will find the better you.

**829.**

Thank you Father in heaven for our father's here on earth, thank you that they all have been around and they have helped to give us birth and thank you Lord that we are here now and we are here to stay for a while longer and we thank you God. Thank you Lord for our time on earth, for the things that we have learnt, the things that our fathers taught us together, the good things and the bad things to spurn. You have left a legacy, all the things that are in our minds, the memories when we were kids and growing up, all the good times laughing and joking and you will be missed by friends and family and all the people you knew, all the people you touched and all you had to say. Now's the time to say goodbye and thank you for all you've done, may God be with you and bless you and Godspeed, from your son.

**830.**

Many of us can remember, walking away from God, taking our time to do things and be ourselves, think we're hard as a log, we can do all things that we want to do, we can do them all on our own because we are big, grown up, strong and we are being known for new ideas and way of doing things, quite often with that is our sins, but God is there with us and He's there by our side, quite often we just ignore Him and we don't want Him to reside, He is there some times as an annoyance, reminding us of our youth, but we want to keep growing up and we won't take that abuse and things that worry us we think we have the strength to overcome all our problems all on our own. Like the prodigal son, we will come to our senses and make our way back home, God is there with arms wide open and your family is there too, to welcome you back into the loving family of God. I know this, I have been there and I have gone through all those trials too and I found that coming back to God that I had super strength to overcome all the problems and troubles because God was with me, I had in length an endless strength with the holy spirit to overcome and walk the miles. I regret that I have missed out on so many things that I could have done, because I had turned away from God and Jesus His son. I have come back and I'm here and I am spreading the Word that God is love and He is there and he's waiting for you too, His son.

**831.**

Lord, I ask and pray that we find time and courage to cast our bread on the waters, so other people may be helped in times of stress of worry. There have been so many people in financial straits, worry, trials and tribulations about the virus, losing jobs and everything seems to be upside down and all the values have changed. Help all of our families Lord to stay together and pray together and keep close to you our God. Show them your way, the proper way to go, the way that trust and tells the truth and helps other people on their way and by helping others we are helped because that is your way Lord. May we find peace and patience and we praise you God at all times and in all situations, in the good and bad and everything that is sublime. Help us Lord to cherish every word that you say, we'll stop, stand still and listen to you when we pray, help us not to be distracted and help us to be full of cheer. Help us show all the fruits of the spirit and to know that you are definitely near, your love, we want it to surround us, to hug and kiss and cuddle us too and all our friends when that time comes.

**832.**

Heavenly father, we ask for your help for people that have Alzheimer's and all problems that come with it. The deteriorating mind, all the memory for storing, slowly fading away, help us to pray to you today for everyone that is suffering, suffering in this way, that they find the people that are helping, will have an encourage spirit to survive and keep well as long as possible, as the memory fades, people don't forget them because they are still the same person as they were before but their memory is not there and really be no more. Don't let people linger long, drag out or prolong. Let them come to you with dignity and be able to sing a song of worship for their life that has been so long. We thank you God for your mercy and all the things you do, we want to sing out and praise you and give you the glory too. Lord, we ask for you to forgive us and our family to forgive us too, for the things that we might say and the things that we might do, because as this illness starts to take over we do not know what we do.

**833.**

Lord there are so many things that we need to do, so many places we need to go, so many things to say and we need the breath, the energy to do all these things and we want you Lord to be with us, to be with me and help me to help our family, in all that ills they have, help me to overcome and take time to pray to you. Help me with my heart and help me to get it better and have an opp if necessary but Lord I would love to have it healed and to be fit, be ready to be able to run and not worry about my heartbeat, I want to shout, to sing with the sound at the top of my voice, that you are here oh my God, Jesus, your holy spirit is with me. Let me be a miracle in the sights of the surgeons today that I have been healed in my heart and spirit and soul in every way this is possible today. I sing praises to you Lord for the extra strength that you are giving me, the Holy Spirit is rising up and I'm feeling it when I'm feeling this, clearly the warmth of your love, God it's filling me, I thank you today.

**834.**

Oh Lord it is so hard to protect each other from the virus, all the different measures that are taken and it still invades the classes. Lord we ask and pray that we put all our differences away and we pray like brothers and sisters for the virus to go away, to help one another, pray for one another and do all things that we can. This is a big disgrace when track and trace, people are told to isolate away and ignore it. They just carry on and do whatever they want but spread the virus around. Help us to be alert and carry out all the strategies we can, Survive against the virus every woman and man and child, that is their help and protect them and help them to be as sensible as well, this is a new society and with God's help we must do it well.

**835.**

Lord you'll be a light on the hill side when we are in a dark valley below. As people walk along the way, the way may be hard and stony with problems as far as the eye can see but there is hope and it is on the hill and it is shining still. Shining for the people the youth of today as they move out and struggle and trying to find a new way, a new way to live with this virus, with all the jobs are in great demand, help people that are in their youth to overcome and be the ones in demand, that they find work through you Lord and you point them in the right direction and may everything be heaven wards with your love and affection, may people find you because you are the blue sky above the clouds the Lord is reaching out, He is saying come take my hand and let me lead you where all will be found.

**836.**

Lord our hearts go out to the people that have MND may the fined Solace and maybe know that you are there with them help them Lord and be with him and help all the people that are on their side, be a comforting saviour to everything and everyone worldwide, may all people feel your love through other people by their side, may they know joy and happiness and with you Lord abide. With the help of all the modern technology may they communicate to the world that everything is ok and all things are to be told that it is not too bad inside, but they would like to communicate their feelings and worries and troubles and live life with dignity and live it with pride.

**837.**

God must think you are so wonderful, He is so proud of you, He chose you because He loves you and he knows that you care, for all who are having problems He knows that you are looking after your man, He is there and He is working with you too. He wants you to know that He is there to call on and the spirit as well with you the holy spirit will help you in all your own troubles and strife and you are there and all because God loves you both.

**838.**

RBH in the NHS may everyone in there all be blessed, may they find that your love is there guiding them and helping them to help people to breathe with fresh air and ease. Come along making them happy and giving them a jolly song may they overcome this virus in time and may all the people clap and sing in rime may you Lord bless them, keep them afloat may you be like a lifeboat, have all the people that are struggling with their physical and mental health but they can come to you and be themselves. Don't let them beat themselves up because they feel they have failed, they haven't, they've done everything to their avail and Lord help them every way you can. With all the noise and bustle and hustle that's going on right now, they are still able to hear the applause that echoes on, in the people's heart, was touched may they be touched again and help the NHS and stop people going insane.

**839.**

Thank you Lord for all that has happened, that the virus deaths have not been as bad as they could have been and all the precautions that were taken have been in time. As the Phoenix hospital has now been stood down, all the people around are sorting things out and Lord we ask and pray, that the cancer patients have some sway, that they can get the treatment that they need and that things are speeding up and they can proceed, Lord bless them and keep them and cure the cancer and take it all away, wipe it from the face of the earth. God let there be new treatments for the cancer and cancer can be withheld from the world, the illness that is terrible, it is, for some people there is no shield. Help Lord and help us to overcome and may all the people that succumb, to know you Lord and to you they come. Thank you Lord for all the medical staff they are doing their best, the best they can and thank you Lord and help them and guard them from the virus too and thank you Lord for being you that you are there and you do care and we can call upon you and help us to do the best we can.

**840.**

To have one friend in need is great but have two friends in need you are a great friend indeed, you are a great friend to have, to ask around for help to be found and the love of God to come down to heal all the cancer and take it all away and all the National Health staff to be there and help and let them see the miracles of God when the Cancer goes away, may they both ring the bell and not go to hell because God is with them today, that they know Jesus and He is with them and they're sins are all washed away. Take time to walk a mile and pray for them in turn and do the same for other people and from God the things you will learn, that when we pray things happen and people do get healed and that is what God's love is and it will be sealed.

**841.**

Lord, your heart must be broken for all the people that are out of work, despite having all the qualifications to do things and the people that are praying to you. Lord have mercy on them today may they go out and get work and make it a permanent pay, so they work for all different people and spread your word about, that you have given them the work and the prayers go out to you. May their work go and help people, in many nations around the world that spreads the gospel and the keyword. Have all the people that are qualified to do various things, where they get together and one of the same hymn sheet sings, together they may start something that will help the world around and all the people will get back together eventually Underground. If you can't move a mountain, build a tunnel right the way through.

**842.**

In the time of this pandemic the virus finally has its way, to destroy the love and kindness and the touchy feely way we have, nothing that we can do face to face but we have to keep safe. Lord, we have to find a new way to be compassionate and kind and show people that they are on our minds and trying to help them to mourn their loss and do whatever you can, but this is not helping much but it's because we are just mankind. Lord God we ask you for a favour to give us some inspired help, how to help others to mourn their loss and love, trying doing things on Facebook and ask people to walk about and pray for the person and remember them and they don't have to go into the church to pray, they can do it outside and wherever they are on the day, it is something that is working, is working in this way, but God you can move everything and everything when we pray, all it takes is a step of faith, what we are asking Lord, which way?

**843.**

In these times of troubles with the virus rampant all around the people have had to isolate and lockdown, when all this trouble is around us, We feel that our luck is running out, all about and worries seem to crowding in and shout, we can't hear anything for all the troubles that are going round in our minds and mental health is not a choice it is something that is found, this is something which can destroy us and take our lives away. Some people take to drugs and booze to chase the demons away and pass away the hours. The prayers that people pray for the help of our Lord will help people and the time that people take to listen to others is something like a shoulder to cry on, but even that has to go. Lord all the people that are locked down, can you open it up, it in any way, it is like prison, there's nothing they can say. People can feel like they are locked away in the prison, all their rights taken away and there is no hope on the horizon and the clouds are looking grey, their tears fall down like the raindrops in the sky and it will wash away there hope, but Lord we ask and pray, send down your angels to be a light in their corner and help them to know there is Hope through you our Lord, that is the Way the Word the Light and the everlasting eternal life to come, there are things that are better and they are about to come. Lord you are the Light at the end of the tunnel and help them to move on and when they come out into the light, may they worship you as their Lord and may they shout hallelujah and shout it loud abroad.

**844.**

I thank you Lord for something to celebrate, something that is good, something that is great that is 25 years of marriage, that is something to be happy about and joyful and shout with glee. All the years have passed, all the things that have gone, it is so good that we have the words and we can sing a song of hallelujah, hallelujah for the Lord is with us today. He is and He has been with us in every way, He has guarded us, He has kept us clean and kept us together and Lord we thank you. We want to lay down in the heather, look at your wonderful creation all around us and smell the blossom on the ground, to look up to the sky and feel the sunshine in our hearts, Lord you have all those and you have given us your love and it has come all the way down from you above, the holy spirit is with us and He is in us and everything our heart is beating and renewed our hearts, we are proud to know you Lord, every day when we wake up and we say thank you God for everything and everything in every way, we thank you Lord for all your blessings. Lord, we ask for your blessings again and many more years to come.

845.

Heavenly Father we are asking and praying, that you come and help today, to fight this battle that's been going on for 5 years, kill the cancer and take away the fears, to bring remission and don't toll the bell just have a celebration peel of swing bells for cancers gone and may everyone be in full voice and full song, for the glory of God is here to stay, He is here and here today, may the cancer go and come back and no more, the battle is won the war is no more and may the blessings and glory go to you Lord, for all the things that have happened along the way. As we battle on Lord every day, we ask you Lord and we do pray, we pray for all the people that have helped, all the nurses doctors and specialists throughout, everyone has been there to help and have done their best and have no doubt that there is hope on the horizon, God is there His son has risen, so we can ask in prayer for eternal life and ask for prayers for his wife, that she may feel that the job is done, all the healing it has come and the prayers are worth it everyone and every step we take is a battle won.

**846.**

In the Bible in Noah's time, nearly all the people refuse to get into the ark to be saved. Now there are so many people that need to be saved, in problems like a great big second wave that is coming, the virus is here and everybody is living in fear, there are no jobs, loss of pay, all the work seems to have gone away, so many are willing to work. A lot of people living in sin they're not turning to God they are running away from Him, they don't want His help, no not in any way, but if you try and ask God for help and ask him if you can get in his boat, Jesus who walked on the water, is there He is looking after you and you will be saved. Ask God for a new way to work to live and don't go berserk. God in his good time, will give you the work to do. He is there, He loves you, He wants to get to you, He knows where you are. Where your work will be, you won't need a car you will work there, you will be at home and you'll see and know that God is sitting on His throne, He is worshipped and almighty, He wants you to be His friend, He wants you to talk to him and then you're problems will start to end.

**847.**

To find someone that will love you and love you to the end, that will be with you and will be more than a friend, someone that will help you, in all that you can do and all the things that are there are all in His view, the potential you have you will find and your fulfilment too, that everything will go right and things will come to you. You may or may not have guessed it but Jesus is the one, God's son, He came down for you especially and He loves you, He died so you can be saved He wants to walk with you along the sand and hold your hand when you pray. So find another son of God, a child of Christ, a follower of Jesus and look into his eyes, see that they are bright, the love of Jesus will shine through and you will recognise him, there the Holy Spirit is shining through him and you will know Him there you will find fulfilment and a loving partner full of care.. Come out of the darkness and let Jesus light shine through you too.

**848.**

Come holy spirit come in your power we asked you to come, come down and come around and be the light from the son. We command healing in the name of Jesus Christ, that the light will shine so brightly that the Cancer will shrink away, it will shrink so much for the surgeons, that will be totally amazed, they will say that this just doesn't happen, but I know it does, it's happened many times that way, when we ask God for what some think is impossible, He can do all things. He is so great and Jesus can wash away our sins, lift off any curses and expel any demons too. May God bless you and start getting you well right now.

**849.**

There are so many young people today that have no thoughts and prospects of things to come, they seem to be going round in circles and climbing up hills as they come, they just go up and down, up and down and not walking around they are not seeing the view they're just feeling blue, everything is turned upside down at the moment and there no hope for prospects to come, but there is something that they need to know that Jesus is God's Son. There are too many closet Christians that are not willing to come out and pray and let people know that they know Jesus and He is their brother and He has some sway, He will help them and nurture them and bring them to new life, We need to get people to stand up and sing a new song one that goes like James Bonds but different, the one that says, Live and Let's Smile. Now is the time of harvest, it is time for the fruit of the trees and it is time to find out about the fruits of the spirit and there is so much to hope for, to find a new life and to be set free.

**850.**

Get ready for a miracle when people start praying, it will start to fade away, the Cancer will go, it won't stand a chance because the Spirit of God is Here, He will heal and He will take it away, it was shrink from Him in fear take time to thank God and Jesus for your healing then ring the bell and take your his Word and read it and read it all out well. Read in the New Testament, how Jesus made people well all sorts of ailments bowed down to Him and in His power He came and all the people that believe in Jesus now they can do the same. Jesus has given us authority to heal the sick and the blind will see and the prisoners will be set free, it is such a wonderful promise and a gift and it is given to all who believe in Him.

**851.**

Lord when people go for investigations they are hoping to find a name for some ill, they're asking all the questions and they want to feed a pill, well if you can send it away and create such good health, so they cannot find anything because you have that stealth, you can go and heal people with your healing hands, you can make sure that everything has gone and you can understand that the glee and joy people have when it has completely gone away. We ask this in Jesus name and we continue to pray, when the illness has gone and the number is less than 1 then that is the time to thank Jesus for everything He has done He has done it, not us, not even the people that pray, it is God, Jesus and the Holy Spirit they have sent it away.

**852.**

Jesus says so many things in the Bible so much good advice, but people don't seem to take it, they think they can carry on, on their own, Jesus said do unto others as you would have done to you, Jesus says love your neighbour as yourself. Also we are asked to walk the extra mile. Well I've done the mile for you and I am praying for you so you can help your neighbour too. Do it with a smile and then things will start working out and you will find a smile too you could be a sign post and show people the way, or you could become a style and help people over and through problems too, they can get away, take time and keep praying and don't worry about anything, God will give you advice because He is there with you and listen to Him singing, He will bring some sounds and music into your ears and you will hear them. Amen.

**853.**

Father God, Jesus Christ and the Holy Spirit to ask and pray that you hold out your healing hand on friends who have four stage cancer and take and grab hold of all the illness and the cancer and wherever it has gone, to take it away and throw it in the bin and so they can sing a happy song. May they feel your warmth and love and compassion too, that you have for them and hope they have it for you too, help them to know you Lord that you are close and you are always there day and night. Take away the pain and so it's not in vain but they are living their life for you, so that you can show them and open their eyes and see what a wonderful view that you have created. All things, everything is from your hands, the stars you have flung, the planets and lots of things we can't understand. Lord, we ask to heal them and give a lot of peace. Thank you Lord for our answered prayers.

**854.**

Heavenly Father thank you for the strength that you give people that are so amazingly strong to overcome all illnesses and all problems, Lord help people that have cancer and are going through treatment now. Please be there Lord, we ask and pray that you come in your power and that you show your compassion and bring help to all of the family too. There are so many problems and so much worry too, we ask you Lord to bring the family together and bring them to you. Help them to celebrate each step of the way the little battle won along the road, that they win the war. Thank you for the families Lord, for each and everyone of us who stick together and overcome all the problems. Help the people to rally around at all times so the problems that occur, May all people get to know you Lord and may everything concur. Lord take away the pain, take away the fear, takeaway anything that is not of you, so that all the people that know you Lord will have an eternal life to come.

**855.**

Today is the race day the 2020 London Marathon everyone is running but they're not having so much fun, the people can't run together because the virus is here and everyone is wanting to have a great cheer but many people around the world are running, around and around in all sorts of places, in their gardens, houses, parks and on in the towns. The people are running and they are running for charities like Amnesty International and countless others too, they are all over the place, but are just running the virtual marathon and it is no disgrace but people that are the elite can run along the course but everybody else is running to get the best time they can of course. Now may the Lord run with them, may you keep them safe and sound and maybe keeping dry as possible and don't let them get drowned, the rain has come down, is it flooding everywhere, it is not the same as it has been and a lot of people fear that they might get injured and they might not finish the race, but to take part that is the greatest thing, just to be in the race. With the many hours of preparation running up and down getting the miles in and feeling the pain around, the things that people go through so they can do their best, people have been running around for centuries at this distance. Lord, we ask and pray that you keep them all safe, especially today. Thank you Lord for everyone's friendship as they root for them as they run round. Lord we pray and ask you that everyone today received their medals and get all the praise for all the effort they have put in and may they also praise you Lord for getting them home safely wherever they have been, applaud.

**856.**

Heavenly father, we cry out to you Lord for help, for all the people that are in mourning for their loved ones that have passed away due to the pandemic, Lord let them know that you are there, you are sympathizing with the mourners, you are there to comfort them when they cry out to you. Help us all Lord to help others in that situation and all the things which have come with it. Help us not to be desensitized by all the numbers that come up on the screen, all the people that have caught it and those that have died. It all just seems a dream, help us Lord to find out the reality, not virtual as it seems to be, all the things that are happening, we all cry out to thee, we cry out for you mercy, for everyone that's lost someone and then we hope that it is not all in vain, for all the people that are going around and spreading the virus and couldn't care, Lord you know their names you know what's in store for them. Lord have all people to come to know you and to know you as a friend and to know that you are here to help us all and let's not just pretend, that all things are created by you, all things have a purpose and Lord help us to worship you and praise you at all times and every situation and help us to find our purpose.

**857.**

Heavenly father, there are so many problems in the world and when it comes home to our family, our brothers and sisters too. We care for one another because you care for others too. Lord you have been very merciful for all the things we've done and thank you Lord for all the time we've had together as children, we have had some fun, but Lord as time goes on and we are getting older and our loved ones pass away. Especially Lord, when one of our loved ones gets dementia and is slowly fading, the memory is going, all things are hard to find a way and the love that was here strong, is drifting apart, but the person is still there and you still hold Love in your heart. Take care and be careful, get help wherever you can and pray for one another, try to understand. Thank God for every day because it is a blessing from Him to you, all the things that He has given you, it is given even if you have sinned, for all things can be forgiven through Jesus Christ who died, He died so we can be saved and have eternal lives. The ones that turn to Him, He is there for you and me, pray out and praise Him in every different view.

**858.**

May the peace of the Lord be always with you and with your spirit too, all the things that are going on are causing anxiety for all the people that are around. Seek the Lord and seek peace through him, just sit down in quietness and listen to God speak, let Him take your hand and guide you through, down to green pastures and beside still waters. Read the 23rd Psalm, study it and listen to God speak to you through it. Fear of the unknown and sometimes the perceived, thing that are not really there, we think that all things are happening and the things are happening to us, if we don't do something, we just stare like rabbits in the headlights, this panicking and not knowing what to do, with other things we have to do. The best thing is to be at peace with the Lord and He will show you the things need to do, He said be still and know that I Am God and I Am here with you, I Am going to be your protector and I have your thoughts in view, He will show you the way to go, the Way is through Jesus His son. When we pray, there is always hope and we should look forward to the hope with God, there is Hope, without Him there isn't, He is the light, He is the light at the end of the tunnel and in your life, He will chase away the darkness and anxiety in people's lives.

**859.**

When walking in the woods there are many paths to take, there are many signs upon the posts and sometimes you make a mistake, but the journey is not an accident, it gives you a chance to make mistakes, because by making mistakes we sometimes learn more than if we took the other path, with life's adventure we all are a part, but make sure Jesus walks with you, hold his hand when you walk along the sand, take time and pray with Him and listen to what God says to guide you. When you come to a junction where there are many choices, find somebody walking along, ask them where they have been and see if that is where you are looking to go, or is it just a dream, you have to trust people sometimes and ask them what they would do. When you're walking it is quite often you think by chance that you meet somebody along the way, it may be just for a short period even just an hour of a day. Pray with them and ask them to pray for you too, because you both need the help of the Holy Spirit and He will guide you both and when you part, ask for God's blessing upon that meeting and heed every word and God will speak to you more often, sometimes in the quiet times, but listen very carefully and take heart. Hold tightly to what He says because He knows your part, where your potential is, where you are destined and where your fulfilment will be. May God bless you now and forever and look forward to your eternal life.

**860.**

There are 7.8 billion people in the world, we are not alone, there are so many people around the world it is just too large a number to understand. God knows each and every one of us, even down to the hairs on our heads, He is so wonderful, He created the world and He knows that all the people can be fed, but people are so greedy they seem to take everything they want and don't think of others and that there is a price to pay. There are so many selfish people, who think they are the only ones in this world, they don't help to do anything that will help their neighbours and keep them safe and sound. Now the virus is here and there is such a great concern, that people are doing all sorts of things and spreading the virus around. They don't seem to learn. God said in the Bible that He warned us about these things, we shouldn't be surprised at what is happening around us. Listen to what God says, take heed and take care. Be aware of all the other people around you and it is the time to share. Now is this the time to stop, stand still and stare, check all the things we do and make sure that we are helping one another, yes that's me and you, we need to do things not just for ourselves, but to help other people who are our neighbours, just helping one person can make a world of difference. If we speak to one person a day on the phone, internet, Facebook or any other way, that person will not feel so lonely because you have contact with them personally and they will know that you are there, also you are not alone, if we help one another in anyway we can, people will know that we are brothers and sisters in the Lord and the Lord can help us through His holy spirit every way He can.

**861.**

Thank you Lord that we can walk, we can walk in storm Alex, with the wind and rain, we can put on proper clothing and it doesn't matter, we don't worry about any pain, we just keep on walking for a friend that has passed away, someone that we may not have known but we are walking today, we are walking in memory of someone that has been on earth, someone has done so many things, she has helped and given birth and all things that she has seen, smiles upon people's faces, now she is there now and she's full of God's Grace. Now there's not many people who can be at the service to say their last goodbyes, but there are a thousand people that Like and there are many walking beside, there's hundreds of people walking around today in memory of a fellow walker that has gone away. She is with the Lord now, she is running into His arms and shouting out with joy and happiness of an eternal life with Him and she will be able to sing out loud to all her favourite hymns. We cannot sing but we can only listen to the music. We, who are out walking, through the storm today, with gale force winds, rain and leaves blowing away, tears are collecting in the puddles that are on the ground, for the people who have passed away. There is a joyful atmosphere and excitement as we lift up our arms and pray, we say thank you Lord for everything, that we are here today to remember one that we may not know, but we are a supporting family together, saying thank you and we praise you Lord each and every day. Arise, arise, fellow Walkers and stride out and pray, walk a mile, sing and smile for today a new day has begun and it's the one that carries on way past the time here and it started when time began.

**862.**

Lord there are so many worries and troubles with this virus going around all the teachers, nurses, doctors and all helpers around. God there are so many problems for all of them to overcome, the head teachers who are in charge of the schools, wanting the children to come. They keep coming and going and toing and froing and all want to be safe and sound, Lord we asked you to be there, to see your footprints on the ground. Help the teacher to overcome all the worries and troubles from the headmaster, with another day's commands, as they keep coming and changing and people are worried too. The headmaster has the overview of all the troubles and the costs and there is so much to do. Lord give them some time and peacefulness so they may talk to you, may they come and find solace and put you in the view, put you first God and help them through the holy spirit together, then the extra power and support is needed to overcome, all the red tape and impossible things made possible and only you can do. May God be like a lifeboat and come to your rescue and keep your head well above the water level.

**863.**

Take a walk on the wild side, go and stand in the rain, walk through the trees and listen to the leaves a blowing in the wind, the howling gales are all around you and everything is swaying to its power and this is that time, this is the minute, this is the hour, when you need to stand and say God speak to me, I'm listening, here I stand before you, I pray that you can help me and I'm listening to what you say, take me by my hand and guide me and with you I will stand, I will be strong with your spirit, Jesus is with me now, I can take all the things that are surrounding me and you all show me how the Lord is with us always, is never away from our side. Take everything that He shows us, He will with you abide, be gracious and merciful, our Father God to all the people that are ill especially with the anxiety and off work feeling ill, be with us and bring us peace. Allow God to put His cloak around you, His arms and hold you tight, allow Him to comfort you and feel His mighty might, God is there to help you, He knows and loves you and in His time He has invested in you.

**864.**

Are you a wanderer or are you a Rovers Return, are you running away or are you finding it a strain, that you don't want to know the Lord and all the things He has to offer, the gift of love and the gift of life and more that even better, the gift of eternal Life, to know Jesus His son, to be filled with the holy spirit and see God's kingdom come. He is there waiting for you. It doesn't matter how fast you drive or run away, don't worry because God is with you and He will let you know in His way, all you need to do is say sorry God, I know you're there. Help me Lord and take away my fear, I know that you are waiting and will make it clear. I am worried about being a different person and giving in to you, but I have found out that there is such a wonderful view, that you are wanting to show me and to open up my eyes and you will be there and give me such a surprise. God will show you the better you, the one that He wants you to be, the one that has great potential and a life with Him in eternity. He is not a vengeful God and He won't pour out His wrath, He is the one that loves you and He is waiting for you patiently.

**865.**

When you are out walking, it is always good idea to walk with a purpose, with something in your mind and if you have nothing that you are thinking about then take the time to pray, to talk to God and ask Him what is His way, where He wants you to the go, how He going to pursue the position of today with you. There are so many things, we don't know next year what will happen this year has been bad, but we are getting through it and sometimes we think we're going mad, but the Lord is with us always, He always walks by our side, He is there and He won't forget you and with love with your partner by your side, make sure you make the most of every day, take time also to be quiet and be at peace with the Lord and find what He wants you even if it means going abroad.

**866.**

Lord we ask and pray today, we know that all things are possible with you, all things that we ask for, we ask it of you, we ask that the child to be, will go full term and a few days more, just to make sure that everything is right and Lord you will adore. Every child is a special gift, one that you bring and give, Lord, we ask and pray and that everything is good and healthy and you take all fear away. We pray that everything is ready to address, no problems, no worries, nothings that can go wrong, Lord we ask and pray for everything that you will bring, a blessing on the family, the parents and the mother especially too, that everyone is thankful with worship and prayers to you God, for all you do. We are always praising you Lord for all the miracles that you do, for life, for forgiveness and many blessings for me and you.

**867.**

In times of family troubles and all our woes come together, all at once, the virus is causing so much havoc and we have lost are ways, as such, the things that are our weak spots the devil will get in, he knows which buttons to press and he knows how we can sin. God has given us a get out, some way we can win. He sent his son down to earth. He died so we can have forgiven sins. Jesus sent down His holy spirit for us to stop the devil doing his worst, we have the holy spirit and let Him dwell within you now, chase away all the blackness in your heart, in your lives and let Jesus come in now, come holy spirit in your power release us from all the woes that are on us. Come together as a family, pray as one in Christ and may you find the answer or go and find advice. God is there waiting for you He is the hope that's there for you. Jesus is waiting and walking beside you. He is with you right now, so just ask Him and take His hand and walk along the sand together and get to know Him as a brother. Use your time wisely and make this a time of rest, a time of peaceful tranquillity and think about all the things that you have done best. God is there, He is your hope, your salvation and nothing else will dull the pain, nothing that is around is just as good or the same, make sure that you cleanse yourself and make yourself pure to be ready for God's next assignment and then you will be assured.

**868.**

Walk on the path with Jesus, do you trust Him to show you the way, do you trust Him with everything that you have, your life in every way, let Him be your guide, hold His hand and let Him lead you on the sands, so that the footprints that both of you leave and then there's one, you'll understand, that Jesus is there with you now, His Holy Spirit in you if you want, you will do well and let all the worries and troubles just fade away as well. So that all the troubles shrink down, so there are none they have gone away. May God give His healing and all things return as they should be. Thank you God, thank you Jesus, thank you holy spirit. Are we thankful for everything, we thank you Lord for every day we see and we thank you Lord for the view, when we walk with you is just serene. Be positive in all you do and think and help other people to do the same. Keep on walking with the Lord and let your motion be your potion and let everything be good again.

**869.**

Look out of the window and see the sky, watch the birds and how they fly, look at the trees they're losing their leaves but they're still growing on, look at the ground the grass is green and the leaves covered around. It's so sad to see the ash tree as it's now it has got ash dieback, next year it will maybe have no leaves at all and then it will fall. It will be no more. It is such a shame when you can't do the same we can't fight things the way we should, but with Jesus we have a chance, He has sent His holy spirit down, so we can ask for healing of people that are on the ground, for people that need help in any way, they need Jesus to come and hear people who asked in his name. God loves us, Jesus loves us, and the Holy Spirit wishes to dwell within and everything can be right you can be tight you can be the same again, God wants you to smile and see the way He sees you, even though a mile off He knows your name, He is around you, surrounding you, He wants you, He loves you He wants to caress you and He is, He has your name, He knows what you're going through but He wants you, He wants you to love Him again, He needs you to shout out to Him and let Him take over and take care and be there and feed upon His love and everything. Say thank you Jesus for my healing and for everything in your name, I thank you Lord that you have been here and I have listened to you, I've heard you and I sit up and I start a new beginning again. I seek the mission you have in me, to fulfil my potential through you.

**870.**

I thank you Lord for all the people that you have given the gift and skills to heal, all the surgeons, nurses and doctors, all the people that are in the NHS all the people associated with them too. I thank you that people can get well and get better from all sorts of illnesses especially cancer, I ask for your blessing to fall upon all the people that have had operations that they are successful and the illnesses have been defeated and I ask Lord that all the treatment from now on are a total success and that the healing has begun. That everything will come away and come back as it should be and the number should be reduced to none and that is because your son, your son Jesus Christ, came down so we can be healed and saved from our sins and everything that is done in your name. When we have a treatment, it is good to know that God is with us, He is beside us, He will bring us peace and that He said, be still and know that I am God.

**871.**

When we think about life and all its complexities, all the things that are around, we take so much for granted, we take things as they are found, we don't think about how it all came about and how it all began. God in his majesty, He created the earth, the ground, all the things that are and have been are made through God above and He is so magnificent and thank Him for His love. Nowadays it's all push and shove and get the best for oneself, but we must remember that God made us, He made us like Himself, so He must be phenomenal and the one who made us for love. There are so many things that have to go right even before we are born, all our parents and grandparents and generations before. We are here today to witness to God, that He has made us, He loves us for who we are. Lord we ask for a miracle from you, that you can change just some things and change it for a different view, that motor neuron disease will be a thing of the past, we ask Lord that you, reverse things and make all things last. Lord, we're sorry for all the things we've done wrong, please forgive our sins and we ask for your forgiveness and we say thank you, for our healing will now begin.

**872.**

Lord you call people to be watchmen and stand upon the parapets and to look out for trouble ahead, people are saying that is what God said, but this is what the Lord says, His word is the truth, when we call out to God He will answer and be by our side, let the Holy Spirit dwells within all the people that pray, that they are guided from heaven and are given the words to say, words of encouragement and ask for healing that things will get so good, that people will know and say that God has healed this person and He has healed them in every way, that miracles happen and they happen every day, but people don't recognise them, they say that it is just a coincidence, but we know that when we pray, coincidences happen all the time and this is the way we live, because God is divine. Lord we ask for protection, may your shield protect us from all harm, may all people praying as one together as a family of God, may we asked the Lord that you heal the sick and you make them well very soon.

**873.**

May the peace of the lord rest upon you, may His spirit fill you and you may you know that God is with you and Jesus is showing you where He needs you, He wants you to pray for the people around you now, He is asking you to be the one that stands up to be appointed and show the true light and showing them where to go. Put on the full armour of God and make sure that the sword is sharp and learn to spread the Word around, be the evangelist and get your household to pray together to God and ask them to ask for forgiveness each and everyone, the bond of love is stronger. God has placed you there for a purpose He has placed you like the Google Map man, just dropped down, this is a deliberate act, He needs you there, He wants you to be His representative and bring the people to the Lord, don't worry about anything, just do everything that comes natural to you, don't be false or forceful just be the natural you, because that is the person God made you to be and you will be there to be His voice, let the Holy Spirit speak, all you need to do is open your mouth and let Him through. Make sure that you have rest time, make sure that you do your best. Don't rest from work, work from rest. God bless you.

**874.**

Heavenly father thank you that we can walk, we can walk tall, we can walk without pain because you have healed us and you have made us new and able to do the things that we used to be able not to do, now we can do them quickly, with a smile on our face, there is no disgrace from you saying thank you Lord for all you've done for me. Thank you Lord for all the things, the things that happened to me, the passing of friends on the road and all because of you, because you want us to call on you and ask you for your loving arms around us and all the things that we do. Give us peace from all the things that could harm us and lift us up when we are feeling blue. All I would like to say now is God, I bless you.

**875.**

Thank you Lord for all the new work we get, all the jobs that we can hold, thank you Lord for all the experience that we're going to get and Lord you are to behold, thank you for all the things that you have done in the past to bring people to where they are and thank you God, for you are, who you are. Bring us peace Lord as we work, we know that we can come to you in times of crisis and worry, when we can seek your point of view, thank you Lord that when the clouds come over us they may bring a storm but we can cope, because we know you and have been reborn. Help us Lord to help people around, to gather together for strength, may all the people know you and know all the lengths that you will go to, to help them and use people that know them and all we need to say now Lord, is, amen.

**876.**

To be a mother and blessed by God, to have children or round the world, to spread the word of love around, it is like finding a pearl. Oh God, with all this virus around the world creating havoc and death, thank you Lord that we are protected in some way and we do our best to protect others too. We live in hope that we can celebrate the things we used to do, to get together and have such a wonderful time with you. Everything has changed now we just have to exist, we must not get too angry about all the things we've missed. We still have our family. They may be around the world, that they are loving, caring and praying for you, that is more precious than a pearl. Be at peace and know that God is with you at all times, He is their caring for you and He is sublime. When we come through this, we hope that we are stronger, as we have overcome and our faith has brought us through. We thank God for that, we need to make sure that we help others to do the same.

877.

Father God there are so many things happening in the world that we are not able to control, take part or do anything to help, we especially asked about the Amazon jungle and all the destruction that is happening there, we feel so helpless. Please Lord help us to do something that will help, however small. Can we stop using something that is growing in the burnt areas if we can take away the demand for this land it may help however small. A sand dune is made up of many millions of grains of sand, it all makes one shape and it moves. If we all make a small difference here, then it may make a bit of difference there. It is all down to man's greed and need, the difference is quite great, but it takes up so much land and sometimes I think it's too late, but every little bit counts. As well as all we do here at home, all the houses that take up so much land, it is to be frowned upon. Lord please quench all the fires and quench the desires from more trees to go down.

**878.**

Job done, the race is run and won without tears. A man of God is now a man with God and all our prayers are for him. Our thanks for all the things he's done, all the people that he has saved, all the souls and people that have known him throughout their lives are still on earth to say, that he was a man of God, sent down to do some work for Him, he has fulfilled his purpose in life and now he wears the crown with God, he is, he was and always will be, he has life into eternity, he will be with God forever. He has won the fight, the race was run, when he began his life on earth. Lord be with all the family and friends that mourn the loss of a man so great, a man of God. May his legacy be in all the people that have seen him, met him, spoken to him and may he be a guiding light in their lives, may he be an example to work to, a standard this is way beyond a normal life. A life with God through the holy spirit, bless all the people around, all the people that mourn him and all that he has saved. Well done, good and faithful servant of God welcome home again.

**879.**

When we pray, it's like talking to our friend, God is our father, He may be in heaven but He is close to us, we can ask Him and talk to Him all the time, any day, about anything, it is just so wonderful and free. We don't have to use words that are already written down, we can just talk freely with God as we walk. As we walk on his planet earth, that He made, He created it right from the beginning, before the beginning of time and He put Adam and Eve there and from then on all things changed, because of the sin with the apple. Man lost his direct relationship with God. Now we need everyone to find a fellowship with God again, so we can talk to Him and find things out and put things right. We are very sorry for all the things that have happened on this earth and it is getting bogged down with all the smog and dirt. All the people are getting greedy and not sharing things as they are. Now is the time with the virus around, things are changing about, we are starting to save the planet. Please do that and soon and help us to do everything and find space and room.

**880.**

When you are all hooked up in the hospital and you can't get some sleep with all the things going on around you, it's getting on your nerves and making you feel weak. It's time to have a rest, take a break and go and dream away, dream of sunny days, of meadows with lush green grass, paddling at the seaside with sun shining down, having a wonderful time with the family and all are gathered round, all the things that are going on, this is such a wonderful time, all the dreams you need to get well, when you wake up, everything will be swell, God is there beside you, He is there with Jesus and His holy spirit too, He is around you and He is covering you with His power, so you can heal and get better soon. When you wake up you can tell them about your dreams, look at them and smile and show them your beams, The surgeons, doctors and all the people around, will not be able to understand it, they will be confound, that God has been, there, He has been working with you and He is making you well, everything is now and it will soon be time to ring the bell. Time to say thank you God, thank you Jesus and thank you holy spirit too, that you have been with me and I am now well, thank you for my healing, thank you for everything and most of all forgive me please, I'm sorry for my sins.

**881.**

A bedroom is our domain, where we spend a lot of our life, we put things everywhere, everything, any device, electronic things, books and whatever we have, including clothes and shoes. When we go out of the door, we just close it and leave everything in there as it is, until we come back, not worrying about anything and I think that's a fact. As we grow up we changed quite a lot from young boys and girls to teenagers and onto young adults. We need to have someone to show us what to do by example, if we need to be tidy and organised but sometimes the children revolt and don't do what our parents want. God thinks the same about this planet, look at the mess we have made with all the things He has provided and isn't it a shame, but we pollute things, we throw things in the sea and lots of animals are dying, that's because of you and me. We all need to take our responsibility and clean up where we can and with children's bedrooms that is something we can only try to understand. Give them some encouragement and change the furniture, redecorated too but let them choose what they want and give them a budget to work to, teach them how to decorate and they will learn things, that they will need later on in life, it is something that you need to do together and then they will belong, and perhaps be tidier too.

**882.**

Stand up, stand up for Jesus, He is the one who fights, let him fight your battles with you and for Him to correct. We do not have the strength as humans to overcome some battles on our own, we need God holy army to all gather round and see them on the hill side, all waiting for your command to come into battle and for healing to demand, God, Jesus and the Holy Spirit are waiting for you to pray, ask and say, God I need you, I'm here, I'm on my knees and praying. Thank you that you are with us, your holy spirit guides us everyday and your holy power will heal us and we will see it on this very day. Because God has heard you through His son Jesus Christ, He died on the cross, He gave his life as a sacrifice, so we can go through Him to God. Take comfort even after the storm and the rain goes away, the sun comes out the clouds part and the things are looking great.

**883.**

Thank you Lord for all of the things that we can see, the wonderful countryside, we can walk in and all the contrasts of the seasons and the days. I thank you Lord that we have lived long enough to see all these things and we appreciate everything that you do for us. There are so many things that we take for granted, all the things have been won all over the years past we do not appreciate them all as we should, we have all the footpaths around where other countries can't wonder, it is beautiful and we can see you appreciate your handiwork, Lord I thank you for everything that is there. Lord we need your help with this virus that is wrecking the world but all things are changing, all things are in a whirl and we need your help with our families and finding out what to do for the best and not worry I'm not getting any interest, we don't know where to invest but we need to invest our time with you, to pray. Help us Lord in every way you can, to learn to talk with you and to listen too.

**884.**

This virus is getting to be the bane of our lives, all the things that are happening and there are people losing their life's, it is down to a few people that just couldn't care less, they're going round and doing everything they want, because they want the best, they won't change or adapt or put things aside. Help them learn that it is more than just nationwide. I pray Lord that you give the scientist all the information, knowledge and the skills, to find a vaccine against the virus and stop it spreading around the world, to uphold people so they can overcome this and more people will worship you and thank you for their salvation, because they have overcome, but you have done everything Lord, it is all thanks to you.

**885.**

To lose a parent that brings such sadness, one that you have adored, they are a great loss for you. There is nothing that can replace them, even more, when you think you lost your faith as well, it is a double sadness too. Because you've lost two means of supporting yourself physically and spiritual together, there is great loss and emptiness in your life. That is the place where many more have been, many more have suffered and they have felt the same thing as you have, it is not something that is serene, it is so wonderful when we can call upon God and ask Him for help. As a Christian we often call this state as walking through the desert, when you come out the other side of the desert you realise how much you've missed, all the things you love and the kisses and hugs it's like having the virus all the time nobody can be with you. Jesus went through the desert after He was baptized and that changed His life because He overcame all the things we can read about in the Bible, He had so many temptations and doubts but He came out the other side, He may have been hungry but that is when things changed for Him. Hope and pray that you'll find that there is a way for you, that one day you will know that Jesus is true, He loves you and He won't forget you and there is still hope for you. So Like Him and accept Him as a friend.

**886.**

All the heartache of missing a loved one, one that you have known for many years, it is such a terrible time, always many tears, this is something that you will never get over because they mattered to you. Thank you God for all the things you have blessed us with today, thank you Lord for my marriage and the children and children's children too it is all down to you God. He has blessed you and your family with great joy. Things that brought great happiness like a children's toy, all the things that are in the past are now history but there are wonderful memories and photographs and you know that your family tree will still keep growing on. You may still feel alone, don't let all this chain you down and keep you so you can't move. Make a change in your lifestyle and become Supergran, have a smile from ear to ear and always have a cheer, and laugh at the least funny thing and take away your fear just be the wonderful person that God has made you to be, He is there beside you and just have a chat and a cup of tea with Him. He has time to listen, you can chat with him for hours and hours but don't forget to let Him get a word in, He might like to say something too.

**887.**

Oh Lord, now is the time that we need to find you, we need to find you back again, we have walked away, with being led astray and sometimes we don't know it's happened but now Lord you have stirred the spirit within us, it is now shaking us, reawakening us, and helping us to realise we have left you behind in the scenes of our past. We are missing the times in the past with worship and song and prayers, sermons long and times in silence and solitude with you. Thank you God that you are re-making me, re-shaping me, opening up my eyes to you, the Holy Spirit is here and excitement is near and I don't know what you have for me to do. I am here, please forgive my sins, make me clear and get me ready for what you have for me. Go to the top of the hill and sit down and be still and make sure you're all alone, close your eyes then shout at the top of your voice "God speak to me" then listen and do what he says.

**888.**

Are you the one, the lucky one, the one that will, to have and to hold, the one that has been chosen to stand up and be bold, to stand up for Jesus and tag him as your friend. Will you be the one that will hold tight to the Word and listen and learn all things, even go to church. Will you allow the Holy Spirit to enter into you and become God's friend. Are you strong or are you weak, will you stand up and tell the truth. Will you wear the full armour of God and stand up and sing out loud and worship Him and be there and always know that God is proud of you, that you have asked Him to forgive your sins and you will find that you have a great big wide grin. But if that is not you, then, no, you are not the one.

**889.**

Are you the guiding star, the one that shines so bright, into the darkness to bring people to the light of the Lord and help them from their darkness, to help them find their way to the Lord. Always be ready for an encouraging word, sometimes it is just one that will make the difference between living and dying and that's right from where we began. God gave you His holy spirit and through you He is working on, He is there beside you dwelling inside you and your mission will carry on. Don't hold back because with the spirit you will not lack all the things you need, to do the work, to say the words and when to pray and when to listen too. Rake the grate, remove the ashes and rekindle the fire, but don't load it too much and don't let it roar, just let it burn gently and be warm. With the virus around, allow yourself to be found and spread the Word around, spread it wide and far all over the world and don't forget that God will give you a crown.

**890.**

Have you walked through the countryside, through the fallen leaves, listened to the swooshing rustling sound and watched the trees sway gently in the breeze, all things are changing in autumn the colours turn to reds and golds. Listen as the kites are mournfully calling as they circle around in the blue sky above. Have you felt your life changing as you hear the gentle whisper from God above. He is sending His people to you to tell you about His love, He wants you to become like a mighty oak tree from an acorn you will grow, to be part of His great family of love and His love in you will show.

**891.**

Lord I ask for your blessing and your love to pour down upon all the Walkers that walk upon the ground and all the people that are around that know you Lord and the ones not quite so well. May they get to know you better and the love that you have in store. God bless all the dog walkers and bless all their hounds and be with them as they walk out and see your wonderful countryside all around, may they get to know each other and spread your love that's found. Their love for their dogs is so great, but your love is profound. Thank you Lord we can walk around and see the seasons change, all the things that are happening and some things are out of range. and Lord help us and protect us from the virus that is going around, be with us and our families and with our work, keep us safe and sound. We watch the gliders gliding as they gently leave the ground and we feel such joy as we see a glider do the loop-the-loop. May we do that when we find you and we are found in you.

**892.**

Thank you Lord for your love. It is like a bubble around us, keeping us safe and calm. Thank you Lord for the clouds and when the sunshine breaks through and it is warm, thank you Lord for the fields which are newly ploughed, ready for the seed. There is hope in the future, there is hope indeed. Lord you are my hope, you are my comforter, you are my provider too. I love going out in the countryside. I'm never alone, I am with you. All the Seasons come and go and they change and we watch them as things grow and things that we see sprouting, it is all your creation, it's all down to you. Thank you Lord that we have peace, we have serenity from you. This virus is going around us. It is like a storm cloud on the horizon. Help us to put on the right clothing, so we can weather out the storm, Lord you are all the clothing that we need you are the love that was born. Lord be with me as I walk and till my day is done and over, then I'll walk with you in heaven when the battle has been won.

**893.**

When we look at the map can we look to the north, we need a compass to make sure we're going in the right direction and that is where we will find our destination, but with life there is no compass or map to show us where our destination is. Let Jesus be your north, let Him be the way to go, let Him lead you and to heaven He will show, let the holy spirit be your compass let Him dwell within, Ask God to forgive all your transgression, ask Jesus to forgive all your sins. Let the Holy Spirit dwell within you and set you on a new course, one that is full of love and with Jesus of course and all the things in your life may be just the same but you will have that inner strength the one that's in the name of Jesus Christ our saviour, He came down so we could come to the God. With all our family and children just pour out His love, pour it out for it is an endless source through Jesus and the Holy Spirit. Lord you are my support, you keep me upright you are my buttress and keep me strong where I am weak.

**894.**

Lord we ask and pray that you heal the people far and near and people that are far away the people that have a mind that has been split apart, all the different things, Lord we cry it from our heart, that they will know you and they will get better too, that all the problems just go away and you've been like brightness into the darkness through Jesus Christ is for you. Lord, we trust you every step of the way, we know the path may be steep and treacherous but we know you love us in every way. You put out signposts on our path. It is up to us to choose which way to go, thank you Lord that the path is written and you know which way we should go. Help us to unravel all the things or when we are in a tangle, all the things that mess us up and help us to not wrangle. The Lord is with us and sends people to guide us on our way, wherever we are, whichever country, whichever city, on the streets, we still can pray.

**895.**

If I life is like a forest, each tree is a memory of our past, all the things, all the seasons are all things of a past, all the birdsong and the jollity, the flowers along the way, it was wonderful, so pleasant and we were feeling happy and gay. But when man comes along and wants the land for his own, he comes along and sets fire to it and burns it to the ground. This is like dementia. It burns away the memories of the mind and all that's left is something and it is not very kind. But we know and we remember the person that has been left behind, will you still have your memories of them and when they were kind, when they were loving. Even though they still forget you and it is cruel, that is life. That we have to keep going on and still love them and fighting for their every right. Now we can't see them for many, many months and perhaps more to come but we can still pray for them and we can send them pictures of all of us having fun.

**896.**

As we saunter aimlessly through this pleasant land, across the green grass and through oak forests with acorns on the ground, the leaves are coming down, this autumn is creating such a wonderful sight, little squirrels jumping around and they have such delight, they can store up the acorns for their delight, throughout the winter time and they will survive, or might. When you walk along you might have 1000 questions and each question has 1000 questions added too, you cannot find the answers if you're bogged down and each question is in a queue. You will never find time to find the answers especially ones that are true. Just sit down, take 5 or even 10 + 2, sit there with your eyes closed or open, try listening to God, just listen to what He has to say to you. He will clear away the clouds, fog and what mystifies you. Seek one question at a time, the main one is to seek the truth, it will set you free, the truth is with Jesus and it's with him you will find the peace, the peace that's beyond all understanding and it will be with you, may the Holy Spirit fill you and you will see a better view of you.

**897.**

Come let me take some things out of your rucksack as we walk along, let me carry something and move, walk along with a song of joyful worship to my Lord and happy thoughts about and look at the wonderful golden leaves that scattered on the ground, they come down and they litter our paths, sometimes they are obliterated so we lose our way, but God is with us, He knows us and He has a few words to say. Just let Him be the one that will hold you from going down the precipice, He is your lifeline here. Let Him greet you with a kiss, just know that God loves you with all his heart, from the top of your head right down to your toes, He is walking with you now He's beside you and behind you too, just asked Him to help you because He is so kind. Let Jesus and the holy spirit into your life and let them be your guide, your help, your strength and open up your eyes.

**898.**

Lord, pour out your love and peace upon us and this ground, from the land we walk on, with all our troubles and worries and woes are to be found. Pour it out like a cascading waterfall with such power as it falls down that it erodes away our problems and where we find water may your love be found. May you irrigate the meadows from the hills up above. Lord may our family tree keep on going and keep on grow with love from you, from everyone, from all the people around. May the water that will quench a fire will also help us grow. We need to drink from that cup of kindness, the one from God sent down to us. Lord bring us peace and comfort and take away our fears, so we know that God is with us and in the voices that we hear.

**899.**

When you are found to be positive for covid, just what do you do? With all the thoughts and horrors that can go through your mind and how do you cope with it, with all the possibilities in view. We pray for a blessing from God to come down to you, to heal you, make you immune from this. It is a gift to you, that you overcome all the symptoms and they are few, to have no harm on your health and it is short and nothing else to do. May you find peace and comfort together, all as one family, as you are now, may you come through this and that thank God for your healing too. May you be blessed, happy and joyful when it is all over, be happy and smile, then go out and help others who are having the same problem as you. Take time while you have it, to learn about the things that God has for you, try HTB Alpha online, to find that better you.

**900.**

When walking along the towpaths, there is something that comes to mind, where do all these feathers come from, so many feathers to be found, there's so many there, you could make a pillow, so you can sleep in peace and sound. The bridge that was once gold and gleaming is now blue with peeling paint. Life keeps on changing, sometimes for the better, sometimes for the worse, but God is never changing, He has always been there and always will be, even through the worst. You may think that religion is all mumbo jumbo, a lot of words and thoughts and it goes right over your head, but the main thing is that it's all about finding a personal relationship with God. To know that He loves you. So what you do, is down to you, it is your choice, that's what He is giving you, everything that will come, will come and if you love God, you may see Him in heaven.

**901.**

If there was a diamond in every rock the value of diamonds would fall they would be so common that they'd be of no use at all, it would just be like the grains of sand or the pebbles on the beach, it is just filling up the space and they are all within easy reach. But diamonds are hidden, they are hidden far away, some people mine for years and they can't find them in anyway. In you God has planted a gem of great worth, He has given you something that is only you have, it was your birth. God has given you a purpose, you may not have found out what it is just yet, but it is something that is so special that you will never forget. If you are not happy, feeling depressed and all run down, if you don't like yourself as you are, then give yourself away to Jesus, let your old self go, be there with Him and let the Holy Spirit fill you and overpower you and your mind. Be reborn and come again now, rise as a new you and be kind to your new self, because God has got something He has in His mind, He wants you to go and do things and help people and let your gem shine. You won't know what else He has until you take that next step of faith. Now get up, go, be excited, that is my advice.

**902.**

When we go out walking do we look for the all signs, you may see a rainbow and that the weather still is looking fine, but it is showing that there's rain in the cloud and rain is coming down, the sun shining through it but if we just carry on and walk out and it catches up with us, because the rain comes down, the wind is in the wrong direction, we blame it on ourselves. But all we need to do is just put the right clothes on and then we know that we can perceive. When we are getting pains and aches that are telling us something we need to know, that something's happened and the pain is the way it shows. God has given us His signs for a reason that if you are driving too much around, your ankle or leg can get inflamed. We just treat the symptoms or do we find the cause of the pain. Pray to Jesus that all the pain is released and you will be fine again. God does miracles when we ask Him, for healing things in Jesus name. Come Holy spirit, come.

**903.**

There are many people hobbling around, all having the same pain, all coming from various joints around the left leg, it's called clutch hovering foot, it causes so much pain. It is when we do a lot of driving and we are repeating and pushing with our foot the same. If we don't get it sorted soon and see the doctor, it will continue and ruin our lives. The things that we need to get sorted we can go and get it done, do it before it is all too late, before the setting sun. We can also pray to Jesus for healing and that is done through the Holy Spirit the battle is won. God has given knowledge to all the medical staff, the doctors, nurses, surgeons, all different practices that can be done. God has given them such knowledge but they can only do so much. Through Jesus and the Holy Spirit all things are possible with Him, because God created this earth and everything within us. When you have got all things sorted, it is like the sunshine after a storm, don't keep chasing the storm and be in it, just stop and feel nice and warm.

**904.**

When your job disappears and it no longer exists, that job is redundant. It is not you that has disappeared, it is the thing you did. It can be a very great worry for you and your family too, if everything relies on your wages, it is a time to review. It can be a mixed blessing, it can be a better job, to move, to go from one to another and have a different view, for you, all things are changing, now you can do less travelling and have more time with the family too. Sometimes the job to get next will be far better and have more and better prospects than before. When you pray to God and ask Him, ask Him to be with you in this time of stress, may He give you His great blessings and the problems you have, He will address. Just have faith, keep calm and don't get too stressed out, because God is with you and He will give you rest. Be at peace with yourself, with the Lord and your family, let God be the one to go to first, don't keep everything to yourself, share your problems and worries, share them with your family and let them help you to do the things you need to do.

**905.**

Grandchildren are the greatest blessing that we can have, to know that our family tree is continuing to grow and that there is hope for the future too. To help them to learn things and how to learn and show them the things that you know, show them the crafts and the skills that you've learnt over the years and many the things from the past, so they can have a foundation that they can build on, that is true and help them to know about Jesus. Do all things in love and affection, help them to know right from wrong, be a cheerful, smiling, a good example, to show them what joy and happiness is, teach them a very good song and how to praise God at all times.

**906.**

When you are caught in a trap and you feel you can't get out, you think how you can get out of it, all of your thoughts are that you can do it and you still cannot get free. The more effort you put in the more ill you get, It's like trying to push down a tree. You need help to push that down or to get out of a trap that you're in. Then some times you keep on shouting or doing things, or do you just stay there and think you are fine and resigned. Sometimes we're trapped inside ourselves and we can't get out at all, then there is somebody or something that will help you and it is not far away, just a small call. Jesus is there right beside you, He is waiting for you to call, He is asking you and blessing you and He will pick you up when you fall. Take all the strength you need from Jesus, His holy spirit is there to help you. He will heal you and help you and bring you back to good health and all the things that you need to cry out to Him in your pain and everything will come to you and you won't feel any shame. Get to know Jesus and feel His love, feel it like a warm cuddle around you. He loves you with all His might and heart and you are on His mind, He wants you to have the best from Him, He knows your potential, that you have and you will find it in good time. Let yourself be loved by Him because He is so divine.

**907.**

The fruit of a plum tree are plums and the fruit of an apple tree are apples. What fruit do we produce as human beings as people on this earth? Well, that's children of course, when we are given birth. There is another fruit, something that you may not know, it is the fruits of the spirit and they too, in you, can show. When you get to know Jesus and allow Him into your life, the holy spirit will come and reside in you and you will produce a new life. This is the life with the spirit, you produce the fruits of Him and often they are with Him. The fruits are Love, Joy, peace, patience, kindness, goodness, faithfulness, gentleness and self-control. These are the fruits of the spirit and they will make you whole. When people see you, which of these fruits do you show? Do you just show one of them or many all at the same time? Love from God is wonderful, love from God is divine and when you show these fruits you are showing what Jesus can do for you because He loves you all of the time.

**908**

To live with an illness of the mind, it is something that is so unkind, people can't see that it is there, it's not like a broken leg in plaster, nobody seems to care and it is so hard to share. To take all the pills and potions, nobody knows it's all about my emotions, something that is in my head. It can be like steel handcuffs or a steel band around my head, you know it's so uncomfortable, especially when I go to bed. When I try to fight it, it just seems to get worse, I need some help, some help to get it changed, to be so much better, not deranged, I cry out but I don't know who to cry to. Cry out to the Lord my friend, I know He is there I don't pretend, He is wanting you to call to Him, He is there waiting, He is anticipating your cry and your need for Him. The empty space that you feel, it is for Him and He will heal, He is there and His son with the Holy Spirit too. Let the spirit uplift you, He has a gift and the gift is Love and it is for you.

**909.**

I want to thank you Lord, I lift up my arms and shout with joy, I can sing with the heavenly hosts above, everything I have, you have given me with love, there's so many things I want to be thankful for, it is now and it has been before, there's so many things that I don't need, because I have you, I have your love indeed, there are so many people that are poor in spirit and there is no law to stop them loving you. With all this virus going around the people are rushing around, on the ground, they are not doing the things they should and things are happening which are not good, but Lord you protect me, you are by my side, I know that you have things for me to do, I am uplifted and have been filled with joy, when I hear about you and Jesus when He was a boy, there's so many things that you want me to do, I am listening Lord, I am listening to you. Lord show me the way to go, show me how to pray and most of all, listen to you, give me please a mission to fulfill and fulfil my potential and with your spirit please, will you, me fill.

**910.**

When we were young and falling around, for you to bounce, get off the ground and our parents would just dust us down and we'd run off without a frown. Now as we get older things change and we are not really all the same, we can have a fall and break a hip and that can you put you in the hospital for some time and you will find that you are there for a while and then you go into a home, because you can't cope on your own and then worst of all they covid virus comes along and we are locked in, lockdown and we cannot go around, we cannot see our loved ones too and it is something that may happen to you, there are so many sad people and unhappiness in the homes, we cannot come out, we always grown, but one day, the time will come, when we can all go out as a family all as one and we can sit out and enjoy the sun and we can go to church and sing the song and all the things we used to do the, good things, yes that's me and you. We just look forward to it with hope and please God bless us all, so we can all cope.

**911.**

When you are thinking of moving home, it is time that is very stressful and you can moan, at all setbacks that can come along, but eventually you find the one, the one that grabs you and you have found your heart's desire, somewhere you want to live even somewhere to retire, it is such a wonderful feeling with all the beams around the ceiling, it is something that can come true, it is all down to others views. God bless both houses 1 and 2 and bless all the people and that come to you, help all the contracts to go smoothly now and get them all signed and sealed and moved out now. Lord bless the house and all who dwell, people and dogs as well, make all the things joyful as the family sits around the table to celebrate the time together, it's time you sit down at the table, thank God because He is able to bless you and keep you safe. When Christmas comes you will know who we all celebrate.

**912.**

When the leaves are falling like a carpet of gold on the ground. It should be confetti, being tossed all around, with the wedding cancelled and now a dreamhouse has been found. All the things are happening that everything does confound. The things that you dread the most maybe coming along, the job you have been doing may not be there so long, with redundancy looming like the Sword of Damocles above your head, everything seems to be hanging together but only just by one thread. The thing which is most powerful, is the love that you have for each other, will overcome all this and more. There are so many sorrows and troubles in the world today because of the virus is it wrecking lives in every way, but stand firm Like a man, stand and take account, pray to God almighty that all things work out, ask Him for his mercy and His love too will be there for you and help you in every way and help you stand above, when everything has settled down you will be a stronger man, you will understand everything and be able to help others when you can. May the peace of the Lord be with you and always take care, make sure that you keep covered and always keep aware.

**913.**

When you're home alone and in lockdown and everything is getting helpless and you are getting very little help with all the things that you need and want, it is difficult to get. All the people that you love, you cannot get to visit yet. It will be some time until that will happen but you just have to hang in there. Everything you need, God will try and provide for you, when you ask for it in prayer. God will try and get round things but you need to communicate your needs to others all around. We can't meet one another until the virus has gone to ground and when the virus has been defeated and vaccines are working well, then we can all get together there will be one great big party all around the world, when we can gather round together and be in crowd and hug and kiss and swing each other around and may God bless all of us as we hang in there just the same. Don't spend too much time wasting, just finding out who is to blame. God bless you, you are not alone with the Lord.

**914.**

In God we trust, is on the American dollar notes all the things that they say, do we believe they are true, is everything fake news or economic with the truth, there are so many factions and so many people get on the bandwagon to air their point of view. There is so much happening in America and all we see is what we view and do we know what happening and do we know what's true. Everything is promised, promising the earth and they think they are the greatest power, the greatest power on earth. God you created everything, the universe as well. I pray that all things will recover, all people will come to you and they will know that through Jesus and the Bible everything is true. When the dust settles and all things are done. That they truly believe who's one who won. May it all come together as one country as one and that they stop this silly fighting like little children having fun. Maybe! When they all come together that they will be known as the ones that are kind they help all the people and that all people are equal whatever their colour or creed and may this country and everyone with you God all succeed.

**915.**

Lord I call out to you, for all the people in Portsmouth Critical Care, all the team that are working hard and they are going to be working harder still, that all the people that are there are very very ill, patients they need such a great care and tenderness and love, Lord send down your power, compassion and your everlasting love, be with them and uphold them and keep them going on. Help them to be super people with super energy and super strength, because there are few in numbers they are great in your power with you. Lord help all the people that come to them, are with hope and a better view. Lord let them be known as the miracle workers as all the people they get, get well, Lord give them all protection and everything they need provided, help them Lord to cope with all the stresses and mental strains, help them Lord to know that is not all in vain. May all the Heavenly hosts and the angels that are all around, uplift them, because they care and know that they are all applauding, because they deserve it for what they do.

**916.**

Oh heavenly father, Jesus Christ and the Holy Spirit all are one, I call upon you now for all the children that have Neurodivergency, each and everyone. Lord have your mercy upon them and help them to be brave. Help them through all their problems with the virus spreading around, it has burst their bubble crowd and their family's can't see them and that is not allowed. That all the children, as I walk through the meadow and the rain is pouring down, each raindrop is like a tear that is falling from their crown, Lord have mercy and bless them and let them know that you love them too. Help everyone in their family to understand and keep well and keep you in view, may they all get to know you Lord and all the things you can do.

**917.**

If you're trying to find the way, where do you want to go? It is a question, this is one answer you may need to know. In John 14:6 in the Bible, Jesus said "I am the way and the truth and the life. No one comes to the Father except through me. Are you rushing to get somewhere, somewhere you've got to go, are you taking the fastest route or is it the slow. Do you look for signposts and notes and take advice along the way, it is something that we have to choose, you choose 1000 1000 things a day, what we do, we do go deliberately or sometimes just wander around. Do you go out hiking or do you have a saunter to take it all in. Do you do it on your own or with a crowd. One thing we do know is that this is the land that God made, He put us here for a purpose and we are not to be afraid. He sent his son Jesus Christ to save us and give us peace and every time we walk out, He is there like our shadow, He comes with us and God loves us too. He has sent His love so we can love others. Every time we take a photograph we are capturing something that we see, we take it and we view it and decide if we keep it or delete it. It is but just a fleeting memory and we can look back in the length of time, but it will not last for eternity, so find God and find Jesus and ask Him with you abide, He will show you your way you need to go and He will show you his love for you and where you can be with God above for eternity with a new life to come.

**918.**

When we show our love for our family, with our children to abide, it is when we give up and sacrifice some time and put everything aside, when we go to be with them, to help them overcome, all the worries with the virus and give them support when they want it. You can give it one to the other, but give each other space, when you are cramped up in a small flat sitting face to face. Allow yourself time to spend with Jesus and praying to God as well. It is something that you need to do to help you on your way, there are so many days in a month and each one counts when a new day has begun. Give everything that you have got and expect nothing in return but when something wonderful happens thank God for his Love, thank God for his blessing and thank God for the time you have together, make it precious and make it a lot of fun.

**919.**

When you have some bad news, something that has knocked you for six. It is good to know that you have friends that will help you all of the time. When the going gets tough, it's good to have those friends around, the ones that you can rely on not the ones that just wave at you and smile. There are so few people that will help when you are feeling low, so go to them and ask for help and talk things over as you go, get as much help as you can find and help people who have the same problem as you. Work together, be like an army, that will defeat the foe. Know that God is with you and He is your best friend, Jesus is there and let the Holy Spirit tend you, just be aware that God has you on His mind and He is so merciful and compassionate, He is so very kind, now get to know Jesus and allow him into your life, give your life to Jesus and He will give you an eternal life to come. Chase away the fears you have and let the Holy Spirit come, because there's still better things to come.

**920.**

God you are so merciful, you are full of love Lord, we ask and pray that you are with all the sick, that you helped them to overcome their illnesses and get them fit. Lord be with all the people that have caring for them pouring out their love, the love that you have given them, it is from you above. Help our friends to read the Bible and read it to the sick, so they may find some Solace and while they are getting fit, may they know that you are with them Lord you are with them all the way and that the Holy Spirit is with them and heal them if that is your way, let them know your peace Lord that they can rest with you, may their fears go away and give them a clearer view. There are so many words in the Bible that can help us to understand, but the main one is Jesus, He died so we can forever stand.

**921.**

When we are tending to your parent it is very hard to know what to do, until the time is getting closer, do we pray for the sickness to go away the best it can or do we ask that they are released and then they will know peace with God. He is there waiting for you to pray and talk to Him as your father next to you. Take some time with your parent and pray for them out loud, ask them to forgive you for anything you did even when you were a child. Also forgive them for anything that they might have done and be console and reconcile together and pray to God, together as one.

**922.**

When we walk with the lord and we walk in his footsteps too, we walk with hope and high expectations and we have a brighter view but when we walk away from Him things tend to seem dark. With dismal days and nights they seem to grow in and hold you down. Go out for a walk in the sunshine, in the evening when the shadows are long and just sit and ponder and just understand how things have gone. Praise God for everything that you have had all your life and all the splendours you have seen. God in his creation He has made you and He is your being. God is with you now, He is supporting you as you walk along, ask God to hear you and be there and keep helping you along.

**923.**

When people are living with dementia there are so many problems that come around, it is like looking down the wrong end of a telescope, everything seems to disappear all around. Your thoughts and memories seem to be fading and forgetting what it is you used to be. It's hard to get to terms with this new life, it is like living in a dream, you don't know what is reality or whatever else it seems, but that is part of life now, with the so many people that have this disease and Lord we wish that we could pray and get a cure for everyone when we get down upon our knees. When we know it is time to go, we wish that they keep their dignity and Lord we pray that someday they will be with you, so they can sing and dance and worship you and praise you all of the time and be in your glorious radiance and everything will be sublime. We pray for all the people that are supporting them, give them for giving patients Lord and give them peace in their time.

**924.**

Thank you God. Thank you God for all the people that are working in the care homes, looking after the people that can't cope, thank you Lord that they are there and they are looking after them and giving them such hope, that they can live out their years with comfort and care all the year round. Meeting and making so many friends and finding the love that's there and Lord bless each one of them and help them to care for one another too. Lord for all their family's that they know, that they are blessed wherever they are. Lord, help them to know that people are praying for them, that they are hoping with full cheer and everyone who knows them, were wishing that they were there. Wishing that people could come and hug them and tell them all their tails but everything at the moment is the priority, to keep safe and keep well.

**925.**

When you find someone in great need, it is indeed the time to stand up and be counted, to ask and call out to God for all the help without any doubt and call upon all those who will pray for them too, that God will take away any illness, destroy any cancer cells that are there. Lord you put the moon in the sky as it rises and the sun sets, all things in their places. Lord and everything is down to you. Lord in your great mercy heal the people that are sick, the people that have cancer and please get rid of it. Lord show us your miracle and show us all the things that you can do and we asked Lord God because we love you and we know that you love us too.

926.

When we are having problems, with all the things seems to be through doubt, nothing seems to be working out and there's all the things you need to shout out loud about. How can we get through this, when we feel there is no hope at all, it is keep on going on and what do we do when we fall, the things that need to be put right can't be done all at once and there are so many problems in this world but there is just one, we have hope, you may not know about it, but the Lord is with, you He is beside you He is all around you now. Just find out about Jesus, find an Alpha Course, HTB online is one that's very good of course, but you need to find out about Jesus and His love for you, He is the only one that will tell you everything that is true and be there and listen to Him and let Him into your life. He is the only one that will give you hope and give you eternal life as well. Go on, try it, I Challenge You.

**927.**

There are so many reasons why people take their lives, the people that have no hope, they keep on going and they can't do it, they can't carry on with their lives. The only way they think is to take their life away and all their future and everything that was coming their way. We pray for all the families and friends and relatives too, that have lost someone they knew, some loved ones that have gone, it's a wrench in their heart for they think they may have done something to contribute to their actions or could have stopped it, but quite often it is the person that's gone, has not thought of other people that they have left alone. God we pray, that people search for hope and the hope Lord is with you. Jesus came down so we might have an eternal life in view. Help all the people that know Him, to help others, so that the people that are having problems, that they bring them to Jesus Christ, so He helps them on through, there are so many things that people won't do. They won't stand up and help. God help us to recognise people at work, friends and relatives too, that are going through their problems, to talk to them and mention about suicide and it quite often stops it happening, that people need know that they're crying out for help. Lord give us the strength to give hope to others around and keep their feet firmly on the ground.

**928.**

Lord Jesus, you said that we have authority to heal the sick. I, in the name of Jesus Christ with the authority that I have, given by you, I pray for you for healing and that you will be glad, that the Holy Spirit is in view, He is laying on His hands, He is warming you throughout and He is clearing all your glands, He is taking away the cancers and all your illness now, He is working and He will keep on working until you are made a new and you will be able to tell people that you had one of God's miracles happen to you. God is pouring out His blessings upon all that ask Him faith.

**929.**

Thank you Lord for everything we have, for all the things that we can see and all the things that we can grab. I thank you Lord we have such a wonderful world to live in, all the things that we can touch and smell and sense in every way. You have put everything there for us to have and take care of. Lord I ask and pray that you take people's greed away, that you take it so people will want to share. There is enough to go around for everyone to feed all there is in the world, that people take from them, their portion and that's why the world's in a twirl. Help us to think about and help other people that can't be as good as we are and be there when they call out and treat them as sisters and brothers. God we need more people to stand up and show that they really care, then do things that are needed and keep everything fair.

**930.**

Are you feeling all alone, in a room by yourself, there's nothing around, not even a sound and you are feeling quite scared. You put on the news and all you hear is all the bad thing and their views and all the political things wrangling away and there doesn't seem to be anything that is happy, all the things are sad and grey and the virus is here as well, there isn't a cheer and everything everything is horrific in the soaps. Well hope is at hand, it is throughout the land and people don't report it because it is so good. There is such news, it is wonderful news, it is the best that you're ever heard, that Jesus came down and He died and went to heaven and sent His spirit down so we can be found and Jesus will help us to get to heaven. All the news about this good news is written in the Bible. So let Jesus be your friend and He will tend you and your fears, He will help them to go away because with Him there is hope now, this is not not a joke, it is true and his spirit He will send to you, let a new life begin.

**931.**

Lord, you know all the pain and suffering that people go through, with all their illnesses they have had for some time, it can be very quick, sometimes they can be suffering for a long time, all drawn out. Lord we know that when we die that we will come to you. We ask you Lord for forgiveness for all the things that people have done in the past, so they are cleared and clean and washed pure white, now that they are with you. Lord bring peace, release and happiness to all the family and people that are left behind and that they find peace and get to know you more. We thank you God for everything, you are so kind to us. You sent Jesus and He left His spirit behind. Come Holy spirit, bring you peace in our homes, please prepare us for when it is our turn to go.

**932.**

When our house seems so full, there seems to be so many things around, we can hardly do anything, it is feeling like being in a crowd, we can't move where we want to, we just sit and stare and all the problems crowd in and we don't know where can we put all our things and store them until we need them again, well God has given somewhere is like a storage place. Well we think everything is in Vain, if we take our problems and our worries and troubles to Jesus and lay them at his feet, take a bench and sit beside Him and stop and sit and wait. Don't do, or say anything, just ponder and pray to God and things will start to work out you will be able to see through your Fog. In the Bible, it says go and find a quiet place and sit there and be with the Lord and listen to what He says. If you don't hear Him just say to Him, speak to me Lord. When you go out walking think of someone's name and just walk and pray for them and encourage other people to do the same, listen to what God says to you and perhaps write it down, then read it back again, it can be something quite profound and do this and remember that the Lord is always with you, He can carry all your load because His love, His yoke is light and He will pull with you and do get things sorted and the things that you need to do. God will bless you and He will fill you with a new life, when you give your life, yourself away to Jesus Christ.

**933.**

May God pour out his peace, like the sunshine on the ground, may His light be found in people and people walking around, may His radiance be in their smiles and be wherever they walk and help them Lord to understand and about Jesus to talk. Thank you Lord, that it's you I hear and your spirit resides within. Thank you that we know we can find peace and other things besides. Lord have mercy upon us and all the people who are sick, help them to breathe easily and help them to feel fit, fit for your kingdom with our God in heaven above and may we know and feel that everlasting love, for our eternal life goes on forever, because we can come to you, through your son Jesus. We will all be together when your kingdom comes, thank you Lord that we have hope. We have hope in you right now, that we don't worry about going because we have something, to look forward to being with you. Be like a child going to the seaside in a car, gleeful shouting out so many times, are we nearly there yet, can we see the sea. Be at peace with the Lord, knowing that He is there for you, know that everything is happening and He is full of love for you. When the time comes for your last last breath to expel, may you have a wonderful smile upon your face and a radiance all around you as well.

**934.**

Lord be with all the people that have Alzheimer's, especially those who are close family, friends and relatives too, that they are suffering and they are living with this to the end. Lord we hope and pray that when things start shutting down, that it won't last too long and that they won't suffer, but look forward to a new life, one with you our Lord and everything will be gloriously radiant and full of love abound, no more tears or suffering because God is there, His presence all around. Picture the seaside on a lovely warm sandy beach, looking out across the sea, to a blue horizon that is way out of reach, take your sister's hand and walk together towards the sun, the son of God that is Jesus and the new life that has just begun.

**935.**

When autumn comes the leaves, they fall, they fall from the trees, they bring new life to the earth and the leaves fall when there is a breeze. When our families get older, like in the autumn time, they tend to fall, like the leaves from the family tree. But each branch still keeps growing on and there is new life and hope of more to come. It is a time of sadness when we lose someone we love, someone close in the family especially when it's our bruv and we find that it is hard, especially with the virus around, there are thousands of people falling just like the leaves upon the ground. Lord be with all the people that are left behind, people that have all the things to do and all the worries and troubles too. Lord help them, bring them to you, help them to find peace and solace with you Lord and help them to understand that you love them and you will be with them and lift them when they can't stand. Give them the strength that is needed and all the love and care, to help the people around them and breathe in the fresh air. Lord, help people to come closer to you and through Jesus Christ your son and may they ask Jesus for the Holy Spirit to come, to come and enter in and dwell within their hearts and know that you are there and you are the bigger part of this big affair.

**936.**

Lord, we give you a welcome in the hillsides, in the valleys and the hills above. Pour out all your love upon all the people there, pour out your blessing upon all the families that are having problems with the virus and they are not with their families to have time to share, to hug one another and kiss them and look them in the face, but Lord we asked that you give them some hope and show them your grace. Keep everybody isolated from the virus and keep them safe, keep all the people that are elderly and are having illness of their own. Lord, help all the people that are having children, so that they are safely born, that they come into a good life and a new life that has begun, with so many things that are changing and the old things have run out their time, a new world that is even better, that would be just fine.

**937.**

Heavenly Father, we cry out to you to heal the people that have cancer, especially our friends that we know. Lord make the aggressive cancer to become calm and not strong and take it from the person so it is there no more, make it to go away and make the person absolutely cleaned, take the number right down so it cannot be seen, Lord, I cry out, that this done straight away, that it is done in Jesus name. God, we give you all the credit for all the healing done, the blessings that you gave us, all the glory and your love.

**938.**

God bless all the people in Scarborough, all the people that flock there to see, to see your glorious creation, it is all there, down by the sea, it is around the surrounding countryside and in all the towns above and Lord you pour out your holy spirit and you pour out your eternal love. May all the congregations of all the churches there, gather together and celebrate communion as one great big family that are there. There are Christians and other people of different denominations like as many as the grains of sand on the beach. To listen to some wonderful preachers, as the word that they will be preaching, may spread all over the world, on the sea and on the land and all the people that are around you. May you cast out your line or a net and catch them like fishers of men, as you zoom around the town, may you make so many friends and they all know that you are a Christian and you are the one to be friends with, because you know the Lord and He is your brother and there is a good life and there is no other than Jesus Christ and He will save us all.

**939.**

Lord as we look across the poppy fields, we see that they are not there, but the vista is so wonderful and is so full of cheer, but like the cities and towns there are not so many people around and in the churches and cinema all of the place where people gathered, they're not allowed to be there, they're not allowed because the virus is still around. All the people that disregard all the rules and regulations are causing so much pain and suffering because they don't want to do what they should. For the nation, all the suffering, pain and death and sorrow that is going around, it is because of the selfish people, they are the ones to be found, to be guilty of the problems that are here. Lord, help all the people who are innocent, that have done all their best they can, that are isolating and they're anxious and they're just getting on with it all. Lord, bless all the people that are lonely because people can't visit them now and Lord we look forward to the time when we can all gather together and sing hymns, hymn of praise and thanksgiving for the battle has been won and the virus has been defeated and all the people will gather together and shout your praises all as one.

**940.**

Lord, we pray for all the people that are waiting for an operation to be done, they are so desperate and they are awaiting and they are not having fun, some of them are suffering as well and they need an operation done soon. Lord, we wish this virus could be swept away, swept clean away with a broom, but Lord we have to be patient and wait for our turn to come, to have whatever needs to be done and keep safe, when we would rather be out having some fun. Lord we pray for all the people that are in the health service, there are so many different areas, that they all need so much help to keep themselves safe. Lord we ask that all the precautions that are taken through it, are not all in vain and help everything to happen and all the silly people to refrain from going out and spreading the virus around. Lord we pray that the virus goes away and all the operations get done and Lord we worship and thank you, for everything that is happening and all the good that is to come.

**941.**

When the time comes to pray, we take every day and we pray to you God from our hearts, we pray for the people that are having problems with the circulation in their heart and their heads. Lord, we ask that the NHS as they are working so hard, that they can fit people in, so that all illnesses can be cured and surgery done quickly. Thank you Lord that you listen when we pray in the night and the day and when the sun goes down. We asked you Lord to help people to sleep with peace and know that you are there all the time. Thank you for everything that you show us, thank you for all of our friends and all the people around the world who are praying to you too, we ask you Lord to listen, to help us, to hear you when you speak. Lord you are so wonderful you are so magnificent you're the merciful God we know. Thank you Jesus for the healing that you have done and may all people be filled with your spirit and may your kingdom come, your will be done, in heaven and on the earth. Amen.

**942.**

Hooray, Hooray it's another happy day, a boy is on his way and all things are OK. Thank you God for this good news, that all the things are going well, thank you Lord that we can tell all around, that it will be a boy and will be born in March. The daffodils will show and the sun will glow and all things will be nice and warm, the time to come has started and begun and every one will look forward until then. Now skies are blue and autumn's going away and winter is coming too and then spring will come along, you have blue skies and keep well and keep safe away from the virus and don't have any baby blues, be gentle with your family and help them to understand that the new person will be arriving and a brother that will be for you, may God bless you and keep you and learn all about Jesus and his holy spirit too, for a miracle baby will be born and God it is all down to you.

**943.**

Come holy spirit, come in your power, come right now this day. We ask and pray that you feel the yearning to have children in the people that are praying for that today. Lord, we know that you are compassionate and merciful and you have people's love at heart. Help people to be fulfilled in their life and have children, that they can care for now. If this is not possible for themselves, Lord help them to help their brothers and sisters and friends to really feel that they are being fulfilled, they are filled with love and care and Lord we ask that you bless them in everything that they do and help them to walk forward with you. That you are beside them in front and behind them and they know that you are always kind, the same as them because they are part of you. Children are a gift, a miracle of life, they are a miracle that only you can give. Lord, we ask if it's possible for one more miracle and we thank you for giving us this.

**944.**

When your father and mother lose their son and you lose a brother as well, it is so terrible when things happen that you cannot control. God, we call for your help to support one another and think about all the things that we can do to help to overcome the stress and anxiety and to keep safe and don't let it happen to you. Lord, we cry out to you for your help and your love for people to overcome this, to get everything sorted in the best way, to be sensitive, loving and kind, to be there with them as they say their goodbyes and bidding a fond farewell. Lord shine your light into them, may you look like you are shining through them and through your son and everything since the time begun. Lord May you give them the peace that's beyond all understanding that can only come from you.

**945.**

Father God, thank you for all the things that we see, all the things that we have done and thank you for sending your son Jesus, so with the holy spirit with Him, we can come. Thank you that you bring us peace when our time is, at last that we can breathe with ease and in our heart that we know that we come to you. Our eternal life will begin and thank you Lord that the things that we see that shouldn't really be there, like the summer daisies in the autumn air, thank you Lord that you show us, you have shown us the way to you and thank you Lord that our faith is great and word, your word is true Lord. I look forward to the time when I am with you, for eternity and celebrating and may my friends and family be celebrating too, thank you God, thank you Jesus, thank you Holy spirit and now for my life and you.

**946.**

Lord the battle is here, the battle lines are drawn, cancer is moving out, send in your spirit, the spirit that can win, the one that Jesus sent here to cast out our illnesses away like a torrential jewelled rain, that live with your spirit and everything that comes, we ask your blessing and forgive us our sins. Now the deed is done, may the cancer cells be like the soldiers lay dead on the battlefield. May your blood count go right down until it becomes close to zero. Clean out everything even down to the bone marrow. Lord, we ask that you bless and keep the strength and courage up for all the people that are battling against cancer and bring them so much love, only you Lord can give them peace and comfort to take away all the pain. God we thank you, we thank you, over and over again.

**947.**

Write down all the names of the phobias, write them down one by one, put them all in a cage and lock them up and then they can have fun together, then lock the cage in a small iron safe, destroy the keys and don't worry no more. May you go and lift any curses that you have put on yourself and be free. Take off any masks that you are hiding behind, peel them off like an onion and then you will find something that you thought was there but was lost for so many years, it is you and don't let it worry, if you shed some tears because you have found yourself the self that was there all the time, now pray to God and let the Holy Spirit come in because He is divine. God will send His angels to guard over you, now open up your new eyes and see things clearly to that is what Jesus wants you to see, it is a beautiful view look in the mirror and smile at your new self the Lord will be with you wherever you are, He is looking over you He will go with you far, This is just a new beginning and there is so much more to come.

**948.**

Put on the full armour of God and have full protection too and put on all your PPE and all the protection that is available to you. Go and fight the battle on the front line and may God go with you, may He bless you in buckets full of love and buckets full of blessings and that it all comes down from above. May they float down like snowflakes and settle on you and the ground where all things are white and clean and precious and where no virus can be found. Be willing to backtrack, make sure that you have not lost or left anything behind and make sure that you check everything, most of all be kind, be kind, considerate and compassionate just like God, because God has made you and prepared you for times like these.

**949.**

Oh God, you are the creator, you created all the earth and all the things that are around us, you give everything its birth, you know each cell that we have in our bodies too and all we ask and pray to you, is that you as the celestial surgeon the cancer you can remove, remove it each and every cell and then next we get better and miraculously well. Lord you give us hope like a sunbeam, on a distant hill or a rainbow in the sky when the clouds are looking grey and hanging low.

**950.**

Father God, we cry out to you, for the sight to be renewed, refreshed, returned, as it was before. Take away any infection or any illness too. Release us from the virus, take away all it's worries and fears, take all the family and gather them together and bring them lots of cheer. Help them through this Lord and help them as they pray, keep them all together. May they hear a good message today. Lord may they all be negative test results and come out of isolation soon. Lord we ask for your blessing and we ask it from above that everything is working well, Lord, it is all working because of you and may everybody have a wonderful Christmas and a Happy New Year too.

**951.**

When a campaign or mission is over and everyone returns back to their homes. This is the time for rest and recuperation, recharge your batteries and to refresh your memories and your mind. God has given you this time to take a pause and recline. To think about all the blessings for all the people that you have been kind to. God has given us to and brought us through all the experiences that we have had, that is not lost, this is in your memory, there's no time to be sad. Now God has got you a new mission and that is about to come. Go out and walk and pray for someone, write down what God says to you and take a photograph when the mile end has come. Go on and keep going until you've done 1001. You will find that God has blessed you every step of the way and the 1001 people had a blessing from you and God, as you pray. Do the same as Jesus, walk and heal and pray for the people along the way. You will be a blessing and you will be blessed in many ways.

**952.**

This coronavirus is causing so much havoc, it is so cruel, it is happening all over the world and it is not doing any good at all, there are so many people suffering and they are losing things they love, they can't do all that work they love, with a passion. It is like a large curtain that is torn. It all has ragged edges and it's hard to fix it when you are feeling all forlorn. Help us all to rake the ashes from the great and put on new kindling wood and Lord be the spark that reignites us and sets us on fire with love and warm our heart with your spirit Lord and may you enter in. Bring back a smile that is so warm, it is so welcoming when people will see you there and make people come and hurry to what you have to say and it has been reborn. Don't spend time sitting around and wasting it and being bored, get up, get out and look for something totally new, take on a new character, a reflection of our Lord, you won't have time to worry because you will be in a hurry to be the new person and more.

**953.**

When two lights have gone out in your life, it is so hard to find that there is so much dimness in your heart and in your mind. They are not there to share your conversation and all the things you've done, it is something that does happen. It is very sad when it does come. How can you get a lighter to light fire, when the fuel is run down the flint is not working and it all comes undone. Allow the love Jesus to come with His spirit, He does care, He can repair anything, He knows His father's wear. Allow the Holy Spirit to remake you, renew, repair and put a new flint in you that is to brighten you and fill you with the holy spirit, that will have an eternal change and all the things that you have had in the past, all the good things will remain. Shine that light for your friends and show them something new, something that they could be proud of, it is something that's not blue, be happy with the spirit, be filled with joy around and know that God is with you and in you He is found.

**954.**

Heavenly Father we thank you for our family, for all the time we have spent on earth, remember when we had them the time when they were given birth, Lord, they have been a blessing for all the people who met them, around the time and Lord with there is no answer that we can find, but the sadness and the heart wrench for those left behind. As a skateboard fanatic reborn, can hardly understand but the things that you did on the ramps and on the concrete, firmly on the ground, but now you're skating all over the clouds up above, doing loop the loop around the rainbows and shining down from above, all the angels are watching and you are performing such things with glee, skating down the mountain sides and getting plenty of air under your feet, everything is wonderful here in heaven. God bless you all beneath.

**955.**

May God protect you and keep you safe for all the viruses that are around may you be cured from the pleurisy and you are found fit and sound, may the Lord give you protection like the inside person in the Russian doll, all the things that are going on around you will not affect you at all, you are safe and protected by God's holy spirit that rules within and ask Him to forgive anything that you have done wrong, because He can forgive our sins. Ask the Lord Jesus to be with you, inside the room with you, get to know Him as your brother and friend and saviour too. He is there protecting you and He wants you to survive, He has got something special for you to do, something that you will be surprised, He has a purpose for you to fulfill and that is when all things change, you will be like a freed prisoner and you will do things in His name.

**956.**

Lord, when we have a time set for a delivery and we are waiting for it at the door, we're waiting there and we don't know exactly when it's going to come or when it's going to show. It won't be delivered by a courier, the postman or a stalk. Now when we know it has been safely delivered, we are so happy and applaud, we are so joyful, beyond measure, as grandchild has come around and everything that is new and all things to be found and a new twig on the family tree and someone to adore. Lord Bless this new born child and treat it as your own, help it to be strong, to know the Lord and Jesus and may they be filled with the holy spirit and come to know you more. Bless all the family, all those around and more and keep them safe from the virus and show them your joy forever more.

957.

Oh Father God, we know that you can do so many things, there are such a lot you can do, you can work miracles, they can be something that is not new. Today Lord we ask and we cry out to you, for a miracle that is so special, that is to overcome the virus and the stem cells to be successful, for everything that is going round to be cleansed and cleaned and purified as well. Lord be the person's personal protection, through the holy spirit keep them well. Lord, we post this message: it is prayer in a golden letterbox for you, just say thank you for the healing and keeping all things new. Bless all the people that are treating you and caring for you and all the family too.

**958.**

Everyone wants to be at home for Christmas around the fireside with a decorated Christmas tree, the presents passing around and all drinks and jollity. Crackers, table, the turkey on a plate and everything is happening and we stay up until late and watch all the minions going on. But that was last Christmas time. Now this Christmas it is a different matter. We hope things will be fine with the virus around, all Locked down and people won't be able to move about and people isolating and shielding and not many presents to be found. It is a matter of coming home for Christmas or home alone this time. Are you going to risk it, your friend with the shortbreads biscuit coming around for some coffee and mince pie or are you going to stay at home safely and live to see the new year in. Spend time this Christmas to think of Jesus in the stable with his parents alone and not in a hotel or a crowd. If you feel alone, invite Jesus into your life, then celebrate His birthday with Him then you won't be home alone. I wish everyone Happy online Christmas and the zooming New Year.

**959.**

Father God, please bring peace to the whole of Africa, in the cities and towns and all the people that are there. May they come together as all one. May there be peace and reconciliation throughout the whole north, south, east and west, all about and around. God have your mercy upon them, may your holy spirit be found in all the people's hearts and all around the ground. Lord, bless them, keep them safe from the virus and help them to know about you and not be in any doubt. Lord, be with all the families that can't see their loved ones this year, because they cannot travel and they cannot be near. Lord, wipe out all the corruption, wipe it away with your mighty sword of the word and that all the people get a fair share of all the glorious things that you stored. May you preserve all life through your precious love, so everyone can drink, feed and read. You Lord are the only one who can provide for our every need.

**960.**

Heavenly father thank you for all the people that are in care homes who are being looked after and cared for so tenderly, full of love and the family come and they are attending as well and all the things are well, apart from the body the body that failing that's not very good at all, thank you God that the mind is still all there and all things which you can do is to pray to you our Lord. Be with all the people in the home and keep them safe from the virus and all people who are caring for them and the catering staff as well. Lord, feed them with your spirit and help overflow, as all the things which are there and people getting ready to go. Fill them with joy Lord and overcome all their worries and problems and they know you are there beside them and loving them all the time, fill them with your peace.

**961.**

Before you go out walking, read Psalm 121, that is the one that you need, when you look to the hills, where does your help come from, it comes from the Lord indeed, the keeper your faith and keep your eyes on the Lord and don't wonder where He doesn't want you to be. Be ready for what He will show you each day. When you walk along, when you can hold someone's hand and lead them along to the Lord, take them and show them all the things that are there, there are wonderful glorious time to be had and have peace and tranquillity too, know that He has the ability to heal all ills, when you ask, don't put it off just step out and go out and walk and pray to the Lord. When you're walking along to try a song and talk to the people that you meet. God will place them along the way and with the holy spirit welcome, you can greet and God bless them, when you leave and everything you say because you have learnt things that you need to pass on, because you also have learnt things along the way.

**962.**

When we have given a life to Jesus, all the things He promises He gives. He doesn't hold back and new life is beginning with that, with this. With the Holy Spirit within you that dwells, you can do almost anything, you can, because God is there and He is there and He can show you around. He has shown you your big heart how you can impart all the love for the people around, all the things that you've done and being so positive and having fun with all your family and friends. You have been living your eternal life when you gave your life to the Lord. it started right back then and all the things that are happening is just a continuation of your eternal life and that it never ends you'll be with the Lord and you will be able to applaud all that God has done for you and all the things that He has done through you, has been a blessing upon this world. God bless you and give you Peace and get ready to unpack and say goodbye, Make sure that you know the size of your head for the jewel encrusted crown that you were going to wear. You are a man of God and you will be a man with God. This is with love from a friend.

**963.**

Are you a wanderer, someone that one is going around, just going here and dither and sometimes falling on the ground and not on your feet. It is time to decide where to abide and where to set your path, the things you do and the things you say, may not be enough. Sometimes you need more than luck, you need love from someone you may not know. I have a brother He is none other than Jesus Christ the Lord, He is the one you need to find, then follow Him along His path, He will lead you in the truth, a path, the true way to go and all the things He has written down, it is for you to go and if you want to find this the easy way, one way I can recommend, is to look at an Alpha course, it won't take long and you will find an eternal life and a friend. One that is there for you all the time and He will give you His spirit as well and you will be able to make so many friends and you will be able to tell them all is well. Find out about the fruits of the spirit and of those, one of them is Joy and if you do this you will no longer be a wandering boy my man, no longer a wandering boy.

**964.**

Thank you Lord that people can be healed, they can overcome illnesses that are quite bad and thank you Lord for all the people working in the healthcare industry and sometimes it seems so sad that people can't survive, but they know that they are glad that they can have help from you. Help us all Lord to get to know you, to get to know you better and better, while we can. All the time now we are working towards Christmas and we are in lockdown yet again, keep us safe from the virus, help us to do sensible things, Lord help all the people and help us Lord to see our way through Christmas and celebrate your birthday time and help us to see the new year in and let's hope next year is fine. The virus, we want the battle to win and it all to go away and all the illnesses that are around, we don't want them to stay, we want to leave them in this year and that 2021 all will be re-defined.

**965.**

Thank you Lord for all the animals that are in the world today, thank you Lord that you allow us to have pets however big or small they are. We pour out our love upon them like you pour out your love on us. Thank you Lord that we can share all the things and the love we have with our family and our friends and You Lord you above. Please Lord may we find peace when we lose someone or something we love. Read Psalm 23 by these still waters and always the love from your pets friends.

**966.**

Oh Lord when we walk through a storm with the turbulence in the air, with clouds arising and the rain coming down like stair rods, everything is in turmoil and grinding all around. When we feel the same way, we're fighting something inside, things are all in a turmoil, not happy and painful and you are looking for a name for it, so you can get it all sorted out but you feel like it is all in vain. Lord God we cry out, we cry out to you, we cry out for hope and your healing that's true, everything, Lord you bring us, you give us mercy as well and help as Lord to overcome this and start to get well very soon. Lord Jesus, we ask for your healing so we can tell others that you answer our prayers and Lord we pray for all the people that are suffering the same all around us. Keep us all alive and free from the virus. Lord God we love you and we know that we are yours.

**967.**

Lord when we hear that a friend is ill from something but they don't know the word or the name for. Lord we ask and pray and that's all we can do today as a friend Lord you teach us to lay on our hands to heal someone that is sick, but with all this social distancing and the virus around we can't do it, but Lord we ask and pray that you do it through your holy spirit today, to lay your hands upon the sick and get them to recover and please Lord do it quick and help them to get better and to get back to doing the things they did and look after your garden Lord and all the things growing in it. All the glory Laud and honour we give it all to you, Lord our God most merciful and faithful and we pray to you in love, come holy spirit we thank you Lord for this healing and we thank you for it today.

**968.**

When you are given a patch of ground to tend, there are many things that are there, there are sometimes plants, sometimes weeds and the something you just don't know, you will find out what's there over the seasons as the years go by. Things show their heads and the weeds you take out because you don't want them there. We plant things that we want to see and hope that they will grow. Only time will tell, so we can see the things that are beautiful in life, but something's just fade away. It is what you put in, you get out and the things that are a joy to be seen, a lot of work has been put in, to take away all the things that will choke. God put Adam in the garden to tend it and look after it all of the time and all the things were beautiful and everything was so sublime and His love for Adam and then Eve, then the things all came to a head, and they were sent out of that garden it seems. Our life is like a garden, planted in the ground, we grow and we get older and everything is so profound, we find that things get harder as we get older. There are so many things that we have seen, many seasons have gone by and all the things have come and gone, now is the time to say goodbye, adiós my love, until we meet again. What are the main things that we have had? It is to love and be loved by one. God loves us so much He sent His son, we have lost our loved ones too. It is so sad when it is time to go. But we have such good news, that's good news that we know, that when we die, we go to heaven to be with God and Jesus who we know. We can celebrate the time we are in heaven with God and all around and we have God's love forever, eternity and everything's abound and we know that we have loved and the love will come to us and all the things that are in heaven. It is better to have loved and lost, than never loved at all, but God's love is eternal and it is there for all, everyone that accepts Jesus the son of God above, He will give us access to God through Him and have fellowship with Him forever more. So, come Holy Spirit, may we all be renewed, renew us all right now.

**969.**

When we go out walking the dog with more than its feet close to the ground, it is so lovely to walk around and see all the wonderful things, it is so wonderful to see the sunshine, when all the rain clouds have passed away and things are looking brighter not grey, we can smell all the fresh air and take it all in and not worry about a thing. But we need to get rid of this virus and we look forward to the better time to come and help people to be sensible too. Thank you Lord for the good health we have and help us to keep strong. Thank you for all the things that we see and may we see it well even without our glasses on. Thank you God for everything, everything we have had, from our birth, thank you for all your love God, thank you for everything, all the trees to the bees with the birds and the flowers that we see each year. Lord, will look forward to next year with hope and expecting delight to see all the bulbs, the daffodils and crocus and all the things that will show.

**970.**

When we go out for a meal and we have a menu in front of us, we can choose what we have to eat. There are so many places that we can get food from, many different types, all the food around us, all for our delight, but when we have finished, sometimes we haven't eaten too much, but then we still have a hunger and we don't know where it comes from and we also seem to have a thirst. You seem to be walking around with a hole within you, that cannot be filled, then you find out about Jesus and that whole it can now be filled. He is there waiting for you to call upon Him, to ask Him to forgive you and wash away all your sins, He will fill you with His holy spirit then a new life begins. One that doesn't stop, but it goes on for eternity with Him. All the things around you are belonging to God and all the things He wants you to know it's in His word the Bible, the word of God. Laid out before you is a banquet, fit for a king, all the things in there will help you every day, the Lord will walk with you wherever you are and He will help you with your children and all the family affairs. Find other Christians and talk to them and hear their prayers. Praying to God is like talking to your dad, it is a two-way conversation, just stop and listen to what He says and take His indication, feed on His word. Don't go gorging yourself with a huge plate full and leave something behind, just take a little bit, then feed on it and chew it, then give it time, it will be part of you and you will find a new life and you will find such regeneration and something quite divine.

**971.**

Have you ever picked up a book and looked at its cover and find it appealing to you because it appeals to you and do you think it might be a laugh then as you open it and you look inside and find that all the things that you were expecting, that everything is lies. This can be like our life when people tell lies to us, about us and our worthlessness and life is about just, we live and then we die and it's all told by dead end guys. There is no future for them, it just fades away. But now you have found The Book and you have learnt to pray, letting Jesus into your life, you will find the truth, you will find that you have a future, you have a potential and you will do the things God wants. He has brought you so far and you have learnt so many things, you have been through hard times and you may have committed many sins. But go to Jesus and say you're sorry, say that you repent, that you want a new life. Open up a new chapter in your life, one that you are choosing with help from Jesus Christ. Ask God to place you where He wants you to do His work, where you can be blessed and bless others, take away your darkness and keep walking towards the light.

**972.**

When walking through the countryside looking at the views, keep to the path and keep with the restrictions that are in view. Keep going where you should and not deviating where it is bad and help people and show them the way and they will be glad. Help them to know where it is right and where it is wrong, do it all gently and listen to their song. Keep to the true path and don't follow the throng. Seek out the truth and don't listen to the lies, learn to distinguish and ask for discernment through your eyes. Find out the true facts before you criticise. The iridescent blue flash of a kingfisher as it goes about its day, is so amazing, it is like a word of truth, that will make your day. When you ask Jesus into your life and His holy spirit with you dwells this is like the truth everyday and that truth to other people you can tell.

**973.**

Come holy spirit, come, come in your power right now, come down and be around and encircle and dwell in the people that are ill. Come like the sun that burns the mist away and makes everything clear and able to breathe as well, be with all the people that have the virus and are suffering and they are in fear. Help them to remember the words that you said, be still and know that I am God and I am with you now, I am looking after you and I am taking care of things right now. I am with the people in the hospital treating all their patients with care, I am there with you. I know each and every hair on your head as you lay there in your bed. I hear all the people praying and crying out to God. Lord we ask and pray and cry out to you today, that you heal the ones we love. Lord bless all the family as they look on. Breathe on us breath of God and make us as new, give us the all clear, help us to know everything about your love and all about your care. Help us to stand together as one and pray, we pray to you God and we thank you for your miraculous healing you have done, we thank you for everything, we thank you that you sent your son. We thank you for the holy spirit and we thank you for forgiveness of all that come to you and cry out, we need your help right now. Lord our children are so precious like a diamond encrusted necklace, hanging and ready-to-wear.

**974.**

Oh Father God, it is so good to be alive, it is so good to see your countryside and all that you provide. Thank you Lord for friendship and I thank you for all our families too. Help us Lord to keep safe and keep you in our view, thank you Lord for everything, I can't stop thanking you, because you know we love you and that you love us too. There're so many things to thank you for Lord, for all the things that have gone and all the things that are coming new and all the newborn. Lord help us and protect us from the virus that's going around, help us in this second wave Lord, and keep the numbers down. Thank you Lord for everything, thank you for this beautiful time, thank you that in this lockdown and the second wave that things are quietening down, the traffic is so peaceful and it is something we need to appreciate just now, please help all the people that are working, Thank you Lord that we can tend your garden like Adam and help us to do our best and help us Lord to know that we are truly blessed by you, truly blessed by you.

**975.**

All for one and one for all, that is the Musketeers motto. When we are in lockdown the Musketeers motto has to still carry on, the things you do to support one another and you help them along the way, it is like being a brother and sister, one family together today. Lord, we ask and pray and cry out to you that you give us all safety and keep us safe from the virus and keep other people safe as well. We need know all the different rules and regulations that will keep us safe and Lord we want to follow you, we want to have more faith, we want to be able to help others that are all alone, just one call away is quite often is enough, it's nice to know that people are thinking of us and if we can't contact people they are only a prayer away, we pray for people as they go through this troubled time and help them and even perhaps drop them a line. Thank you God for keeping us safe and be with us when we settle down to sleep each night.

**976.**

Now we're on the second wave is it's because people just couldn't behave, they couldn't be bothered to do the things they are told and they're going around and doing things and being very selfish and putting people at risk, that is what I really hate them doing all this lock down all over again, it gets us all really annoyed. If we do our bit and keep tucked up inside and be like a tortoise or a bear, wouldn't it be nice to just hibernate for a while and shut ourselves off completely and without worry or a care but because we are humans God gave us time to sit and stare. Thank you God for our good health and all the things that we hold dear and thank you that we have a partner that we are not home alone, in fear of all the worries and troubles of the world that are happening about Lord, thank you and help us to keep our eyes on you. Lord help us to find peace and tranquillity in our minds and do all the things that you wish us to do, to help others and be kind.

**977.**

Thank you Lord for our long time friends, friendships are so valuable, people can be so kind and when the trouble starts and when we need help they are always around, talking and helping and doing things on the ground. Lord I asked for a blessing for all the people around, that are helping others who are finding it a difficult time and everything is upside down. The virus is changing the lives that we have and it is so hard to find the way to cope. Thank you God that through you, through Jesus your son, we have hope of something more to come and Lord we ask that you guard us and keep us safe from the virus and help us to help one another and may our love be strong, may your holy spirit fill us and fill us to overflow, everyday and every morning we are happy to get up, get going and help others too.

**978.**

Cast out the Leukaemia, cast out or anxiety too, cast out all other illnesses and make us all brand new, make us Lord, help us to grow strong and be immune and Lord, we bless you and thank you, for this and thank you Lord that we can be protected by you, through your holy spirit and help us to be isolating, away from all the things which are not of you and be beside the family and all the people that help. I want to thank them all through you Lord and everything that is about. Thank you for the love I feel from others, it's warm and comforting and it is from you.

979

Heavenly father, thank you for all the things that we have seen throughout our lives. Thank you for all the things that we have done. Thank you for keeping us safe and keeping us together as one. Lord, we thank you for our good health too. Keep us away from the virus. Lord, we bless you and please bless all the people that live near us. God you are full of grace and mercy, help us to be more like Jesus, when He was here and walking around, thank you for your holy spirit that fills us and in us dwells and thank you for being here too. Thank you God for taking away our sins. Please bless all the people that are in the world today that are suffering from the virus and frightened in every way, all the people are anxious about what to do next and will you help us to do our bit and to do our best. As the day is nearly over, the sun is going down, Lord, thank you and help us next year to have some fun and get around and meet people and be welcomed in everyone's homes and not be worried about all the troubles that we've had this year and know you bless us as we prepare to celebrate your son's birthday here on earth.

**980.**

Thank you Lord for getting us through the first wave of the virus, the first lockdown has come and gone. Now another one has begun, the second wave is coming and everybody's battering down. The things which are happening are quite horrific when we hear them on the news, that numbers are terrible and we just take it as it comes, but all the suffering and the sorrow it is there for many people around, not just here at home, but around the whole wide world, all the things are happening and it all seems such a whirl. Lord, we look forward with hope with you for a new tomorrow and all the things go with you. God, bless us everyone, help us to stand together and stand firm, with our feet firmly placed upon the ground, like two great fir trees growing together, well rooted and able to withstand the storm.

**981.**

Thank you God that we can walk with you in your wonderful countryside, thank you Lord that you bless us with this, where we can walk, thank you for all the things, like the stream running through the chalk, the refreshing waterside and all the leaves on the floor, now it is autumn time and winter comes along and we look forward to another year. We hope that it is better next year, like it was the year before. Thank you God for your blessing, thank you for all our friends, help us keep safe and don't let us pretend that the virus is not all around us and help us to do things right and help us to help others when they catch the virus, so they can fight with all your might. Help us to pray for all the people that are around, all over the world that are suffering in many ways. Thank you Lord for today, for all the people who met on the way, thank you for all the things that we have done through the seasons and we have seen the sun. Lord, we thank you. When we wake up in the morning, we want to wake up with you and we asked you Lord, what are We going to do today.

**982.**

Heavenly father, we know that you are there, you are beside us, around us and you are everywhere, you are there to help us, we sometimes forget, we forget to call on you Lord when we need your help and we need it most of all when we're feeling low and things are getting on top of us. Lord it is so hard to struggle and get things in perspective, to get things sorted out. Lord sometimes we just can't cope, we just have to shout out for help. Lord help us to understand that we can't do all things by ourselves, we need help, love, and you Lord and we need to ask for help from others too. Help us Lord to find a place and quietly sit down with you and watch as the corn grows and the sunsets in our view, we need to find still waters to be led to by you. Help us Lord to only do what you need us to do, to learn how not to hurry and just rest in you and help us to grow stronger and thrive and do more than survive. Bless all that come in the name of the Lord and bless others too.

**983.**

Thank you Jesus, thank you for being more than a friend, more than a friend to me, keeping me going and keeping me buoyant in all these troubled times that are around me. I thank you Lord, that you care for us, you love for us so deeply. Thank you Lord, for the way you have made us, we are so diverse and we can see, you have given us eyes to see things that are all your glorious creation, they're all around for us to find and to glorify you in you. Thank you Lord for your love. It is so deep and so wide, I thank you that you have given us a family. Lord please keep us all safe, all together as one big family and Lord we thank you for your grace and mercy, help us Lord and thank you that we can be walking around and reflecting your smile that is upon our face.

**984.**

Thank you Lord for our parents, without them we would not exist, thank you Lord for everything that is. Thank you Lord that you are our Father and all things were made through you, everything that exists, you created and you gave us the ability to choose. Thank you that we have chosen to do all the things we've done, all the things that we were since we were babies when our lives began. Thank you Lord for your wonderful countryside that we can sit on a bike and ride around, to keep us all safe and protected and keep us safe and sound. Lord, guard us from this virus that is going around and help us to help our parents and now they are getting old. Help us to be patient and kind because they were the same to us and Lord we know that is your love that we are showing to them from us. Lord, will you help us to make a difference in other people's lives and may we put our self aside and may your holy spirit dwell and be inside us, with you, we abide.

**985.**

Thank you Lord that you provide all the things in our life, everything that we have had and all the things that are going to come. We have had so many blessings, we can't count them one by one, there's only one God, you are so wonderful, so glorious the things that you have done. Now not to be alone, it is the time to go into a home and have some time to rest. Lord help all the people that are going into the homes to be at peace in their minds and adjust so easily and just fitting in and find friends and all the things that are you provide all the food no need to cook it and you don't need to make and ironing and things like that all the things that you might hate, my Lord you have blessed us with finances, so we can be there and see the sunset and the sunrise. Lord we ask that you keep us all safe away from the virus that's going round. Lord, we ask for everything the PPE and all they need, please take care of all the carers and all our families too and friends so that they can visit us, Lord. thank you.

**986.**

Lord God, you are the one that prepares all people for service, everything is in place before our lives begin, everything is split second timing, over many years to come. You know Lord, everybody right down to the hairs on their head and you are promoting them and you are making sure they're fed with all the knowledge and all skills that are there to care and all the love in their hearts and strong shoulders for it to bear. We need to be aware of the devil's tools, that he will use, he will use things like, many different doubts and many different fears and he will try and trip you up with untrue words but keep carrying on and praising God at all the times and listen to Him and follow His words of truth. Seek God, ask Him for the discernment and wisdom like Solomon, he needed that like you. Do a daily kit list check and make sure that all the fruits of the spirit are showing through you, make sure that you have everything ready but mainly ask God if that's ok. God has prepared you for this army, to be the general in command but even generals are below God and they need His strong arm, may you find an army of soldiers that will go out with a passion and God in their hearts. Come holy spirit, let your springs and rivers flow, may you be a gushing wave of love all around wherever you may go. Whenever you start the morning shift, make sure you gather the troops around, pray to God and the Holy Spirit to come in and be the one that follows people around, may He track their progress gently and show their love for all and may everything be successful. Wright God's words upon the wall.

**987.**

When you have been given the responsibility of looking after a very precious Crystal Chandelier, one that sparkles and has many little teardrops and everything is clear, it is to be suspended from a ceiling one that's quite high up, make sure that everything is firmly secured and the ceiling is strong enough, make sure that you have sufficient power to supply it, one that will last a long time and make sure that it has the correct fuse in it, in case something goes wrong. When giving the responsibility of keeping so many people safe everyone is precious, everyone has a face, make sure you have everything covered, because the virus knows no bounds, boundaries are no problem and any uncovered face can be found. Keep up your guard and do the best you can make sure you pray to God and ask Him about His plan.

**988.**

When you come into a new country and you're wishing to reside, the first thing to do is to make sure that with God you abide. We are on earth for a short time and for God's purpose to fulfill all the things that we need to do before we go back and reside with Him. As we are in this world but not of this world. To find a home where you feel safe and satisfied where you can lay down your head upon a pillow that is where you want to reside. You need to fill in all the paperwork and go through all the hoops and do everything that the bureaucrats want. Everything seems to take ages and you wish it would hurry up, but have peace and patience because God is with you, He is looking after you, He knows where you are. Prayers can move mountains and God has got a pair of scissors to cut through all the red tape, what we need is prayers and a lot of faith and God will give you what He wants, when the time is right.

**989.**

To go where God wants you and know that that is the place to be, you are there to bring more people into His Kingdom, to help others to know about the Lord, eternal life and all the things which God promises in the Bible, the Word, we can see. There are some early miracles that will happen after today, you will need to be strong to stand up and crane your strength, to overcome all the worries and troubles that the bureaucracy requires, all things need to be sorted one thing after the other. Just be patient and wait in the Lord, because He has got things sorted and you will get to see and meet people that need His word, even people at the the counter and in the shops and all around, people need to be hearing prayers to God and help them through this time, you are here and be patient when you're standing in a line and smile because that will calm the anger in someone's frustrated and angry mind. Listen to what God says, because He is not to be ignored.

**990.**

We all have so many worries, problems and concerns, there are so many people that are around that need help and things are happening and going down, the virus is around, we're all being told to stay inside or stay around your home. With our family and relatives all around the country, we all would love to go and see them and we are waiting to see how things change. Lord help us live in hope, we are longing to see them for Christmas, but with all the restrictions will they be lifted? Will the Vaccines do its job, all the things we are praying for and we are hoping that God will get things sorted out and help us and be kind and be around. All the problems that are around are like leaves falling from the tree, if we just pick up a few and get out that encourage others to do the same, then all the leaves will be sorted, like all the problems here on earth, we need to get more people out so we can celebrate Jesus' birth. There are so many people that will just sit back and sit around and see you all the problems and just have no sympathy or concerns, they all are thinking about themselves, but Jesus gave us the chance to serve, to serve one another like Jesus does. Thank you Lord that we can walk around and bend and twist and turn, Lord, we say hip hip hooray thank you for all your love and concern.

**991.**

Heavenly Father, we thank you for all the new births, we thank you for our families and thank you that we can walk in the countryside and see your creation, all the lovely things to see, this is a wonderful nation, we asked for you to help get the pandemic out of the way, thank you for the vaccines that seems to be coming along, help everybody to be safe and do things as they're told and help. Help keep the people and the virus in control, Lord we bless and thank all the Healthcare people in hospitals and care homes as well and all the things they're doing, they're doing their best and as well as they can. Thank you Lord that we can know you and Jesus and we can be grafted back into the family tree and be part of all the things that you do and thank you God that you love me, you love all my family and you want them all to come to know you and your son. Please God bless us and our families and watch over us as we all grow up and grow old together.

**992.**

Fear not, do not be afraid, because the Lord your God is with you, just stand your ground and be brave. The Lord will help you through this, He is there because He cares, He loves you with all his might and He knows where you are. He stands in front of you, behind you, around you and above you, pouring out His everlasting love, don't worry because all things will be good, God knows where you are. Lord we ask for healing and everything to be put right, all the things which are frightening to be put out of sight, to be completely healed and returned better than before. Lord we thank you, I bless you and bless all the people that are helping too . Lord we know that you perform such miracles when anybody prays and thank you Lord for this evening and everything in every way, that you are such a compassionate and kind God, that nothing can compare, we know that we are here and you are there.

**993.**

When sitting in elevated lofty grandeur, where you can see God's wonderful displays around you, where people are walking and you are there to pray, for the people that are around you and the people that are sailing by. Thank you God for everything, everything that lasts, that is our eternal life, we look forward to and the glory of God to see, we are so lucky and happy to know that Jesus is our brother and really listen to what He says. Thank you Lord that you bless our place, in so many ways, with our family and food and friends and friendship and fellowship and we can go on and say that you have poured out your love and it is here today. We look forward to everything that you pour out on others when we pray, we are blessed we are holy, we are God's children today.

**994.**

Lord we cry out to you in our pain and suffering when part of our family has passed away, they have left a great big yawning gap, they cannot be replaced. Help us Lord to fill that gap with you, may you fill us with your hope and love and we know that is true, to be with us and help us as we walk through everyday, missing our loved ones. Lord we ask and pray to you for your hope of eternal life with you and we know that everyone that comes to Jesus shall have an eternal life in view. Lord shine your light down upon us, fill us with your holy spirit and you. Be there, ever gentle when our thoughts turn away from you, help us to come back and know that you are there in everything that we do. Help us to support one another in the good times and the bad and help us Lord to support one another when we are feeling sad, to know that you are there and your loving arms are outstretched, Lord we ask that you cuddle us and help us to do our best.

**995.**

Now the time has come when your loved one has departed and gone away. Preparing, getting ready for the time you say your Last Goodbye, to talk about the things that you remember from the past, the glorious times you had and all things that come pouring in that makes you feel sad. Remember the good times and the wonderful things you've done together with your family and all the things that have come. Put all your differences aside and come together as one and worship and thank the Lord and praise Him for being there since time began. Thank Him for his great mercy and look forward to the future with Him and having time beside Him for eternity. Sing Glory Hallelujah a new life has begun, sitting there with Jesus and God by her side. Now is the time to say, come holy spirit, in me, reside.

**996.**

When our colleagues are ill and there are off sick, all the things that we have to do, we have to get it fixed and the time we take we try and do it all right and keep it as well, but we are always thinking about our colleagues and hoping they will get well and soon recover and soon return and then all will be well. Thank you Lord that we can call upon you and with our problems we can tell. We call upon you Lord with your healing hands, to heal and get better our colleagues as they stand and help them to get over the virus and make sure that it won't last and help them breath more easily and may it quickly pass. Be kind, compassionate and understanding, for all they are going through and perhaps in the future they may return the same to you.

**997.**

Lord, when we stand upon the hill and we look out and it is clear, sometimes we can see as far as 50 miles, sometimes only near and all the people that are living there, all doing their various things, scurrying around, going about in a hurry and doing things for others and themselves. Lord they all have their worries, all have their troubles, not just those close to us but all around the world. There are so many things happening, some things good and some things bad. With the virus around, all people are worried and in fear. Lord we ask, hope and pray, all that hold you dear, will come to you and know that you are there and that you love us all and care. Lord, everyone is precious to you and all our families are precious to us too. God, we asked you to guide us, to show us the path where you want us to go, show us the way to help others and help us get people to know you more. Lord, light up the path in front of us, so we know that we walk with you, in the light and the truth and be with us Jesus as we walk along and we talk to you, may your holy spirit dwell within us and keep us going on. Lord stop all the wars that are raging and the virus's end to come.

**998.**

May the sun shine on the hospital wards, may your holy spirit glow throughout, May the people that know you, let people know and shout out that you are God, that you are the saviour of the world, that Jesus came down to save us. God, you place us in situations for a purpose, to pray for people and bring them to know you Lord. Lord, you know our faith and our sincerity to take us there. Lord, protectors from the virus make sure that we keep well and heal all the ailments that we have please. When you walk out of a ward, where you have been ill, hold your head up high, God has preserved you and you can walk out through the doors to see the Sky, may God pour out his blessings upon you, all your family and friends and help them to know that Jesus saved you and don't pretend, that God can, will and does perform miracles He can perform them everyday, all we need to do is ask Him in faith and pray. Pray for all the people that you see in front of you, just take care and God bless them and you in every way.

**999.**

We lift our hands up to you Lord, for you to hold and help us along and be thankful. We lift up our arms Lord, for you to guide us and to help us through the pain and all the suffering that we are going through, we ask for it in your name. Lord will you be the light in the darkness as we trudged through the mud and all the dark places in our mind. Bring us strength to rally round and be uplifted and just walk upon the ground. Be there with us as we tarry through the illness that are not kind, let us live and be happy and the Lord lead you to green pastures, for you to lie down, to be at peace and tranquillity and just take things as they come, let the Lord be with you, listen to all the words He says, because He is so kind He is so gentle, He is with you now.

## 1000.

Praise the Lord, praise the Lord at all times, in all situations and everywhere you can, just keep on praising God in heaven and praising Him for who He is, He is the glorious God of creation. The more you praise the more you raise your spirits up the higher you get, the more you can overcome, because there is time yet to praise the Lord now and keep praising Him forever into eternity, because God is the one that's worthy He is worthy of our Praise. God is with us now, He has been with us right from the start. He is in front, behind, around us, above and below us, He is there and not just in part. He is there completely. He loves you with all His heart without end, He knows all your problems and He knows all your friends, family and all who are praying and rooting for you. Lord the route, the path is very steep and slippery, Lord we know that you are holding our hand and all around is glorious and pretty, we see your smiles on people's faces and Lord that is your grace. We are sorry God, for all the things that we have done wrong in our life, all the things in the past, all the things that have held us down. Lord, take them away at last. We may think that we've come to the end of a journey but no. With the Holy Spirit it has just begun all the things that are blessing us they are all 3 in 1. So thank you God, thank you Jesus, come holy spirit, come, come dwell in us for now and forever and Bless us everyone. Amen.

Well this challenge is now completed.

Thank you God for your company, inspiration and encouragement. I have enjoyed everything that's happened along the way. It really has been quite a year.

I have worn out one pair of boots completely, less rubber on the heel, more spirit in my soul.

There is plenty of tread left on these other boots, so I wonder what you have in store for me next Lord. I'm sure you will let me know.

God, please bless everyone that I have prayer walked for and give them your peace.

Thank you.

Amen.

Clive
